LAND NORTH OF MAPLECROFT LANE NAZEING ESSEX EN9 2NR

Location

The land is situated on the northern side of Maplecroft Lane, Nazeing, within the Epping Forest District of Essex, approximately 2 miles south of Harlow and within convenient reach of the wider Lee Valley and M25 corridor.

Nazeing is a predominantly rural settlement lying between Harlow and the Lee Valley. The surrounding area comprises a mixture of established residential development, agricultural and horticultural land, woodland and open countryside.

Description

The property comprises an established and heavily wooded parcel of land extending to approximately 1.94 acres (0.78 hectares).

The site has frontage to Maplecroft Lane and adjoins existing residential and other land holdings. It has been retained by the owners as a long-term strategic landholding and is presently undeveloped.

The wooded character of the land should be taken into consideration by purchasers when assessing its present use and any potential future opportunities.

The proposed company acquisition will include W & G Properties Limited's 50% beneficial interest in the land; it will not include the separately owned interest of the other registered proprietor.

LAND NORTH OF MAPLECROFT LANE NAZEING ESSEX EN9 2NR

Tenure and Title

The land is held freehold under HM Land Registry title number EX702205, being described by the Land Registry as land on the north side of Maplecroft Lane, Nazeing, EN9 2NR.

The registered proprietors are W & G Properties Limited and Nicholas John Hammond.

The title includes various historic rights and provisions arising from earlier conveyances and transfers. Prospective purchasers should therefore satisfy themselves as to the full extent and effect of the registered title, rights, covenants and other matters affecting the property.

Planning and Environmental Context

The land lies within the administrative area of Epping Forest District Council. The statutory development plan includes the Epping Forest District Local Plan 2011–2033, adopted in March 2023 and carrying full weight in the determination of planning applications.

The land is understood to lie within the Green Belt and is not allocated for development in the adopted Local Plan. The Local Plan's strategy for Nazeing is to retain its rural character, with development focused principally upon sustainable infill and identified allocations whilst minimising effects upon the Green Belt and landscape.

The site is also understood to lie within an SSSI. Prospective purchasers should undertake their own enquiries concerning the extent and implications of this and any other ecological, woodland, landscape or environmental designations affecting the property.

The land was previously considered through the Council's strategic site assessment process as Land North of Maplecroft Lane, Nazeing (site reference SR-0434), although this did not result in an allocation in the adopted Local Plan at the time.

No planning permissions or other substantive planning history affecting the subject land have been identified by the sellers.

Development Potential

The land is offered as an existing woodland / strategic landholding. Its Green Belt and environmental context presently represents a significant planning constraint and no representation is made that planning permission for development will be forthcoming.

No independent planning consultant's report has been commissioned by the vendors in connection with the proposed sale. Interested parties should therefore make their own enquiries of Epping Forest District Council and obtain independent planning, ecological and other specialist advice in considering either the present use of the property or any longer-term planning or development prospects.

Rates and Council Tax

The properties (excluding Nazeing) lie within the rating area of Buckinghamshire Council. Rateable values and council tax bandings for the individual properties are available on request.

Anti-Money Laundering

To comply with Anti-Money Laundering legislation it will be necessary for the buyer to provide information to enable completion of AML checks before the transaction is completed.

Information required will include:

- 1) Corporate structure and ownership details.
- 2) Identification and verification of ultimate beneficial owners.
- 3) Satisfactory proof of the source of funds for the buyers/funders.
