TWO NEW SPECULATIVE LOGISTICS UNITS
199,388 & 145,809 sq ft
AVAILABLE FOR IMMEDIATE OCCUPATION

Vanguard Logistics Park is a new industrial/ distribution development located in Longmoor, Hampshire. The scheme is strategically located on the Longmoor junction of the A3, which provides Exceptional access to greater London and M25 (N) and the M27 corridor to the south.

The site spans 15 acres and consists of two high quality new logistics units of 199,388 & 145,809 SQ FT.

PRIME LOCATION

Prominent dual carriageway presence situated on the Longmoor junction of the A3

ESTATE

Enhanced landscaped private estate with secured fencing and independent gates

FUTURE PROOF

EV charging points to future proof occupiers ongoing requirements and occupational needs

LABOUR

Excellent local labour supply of 304,048 working age population within a 30-min drive

SUSTAINABLE

BREEAM 'Outstanding'
EPC A+ rating
Net Zero Carbon

CONNECTIVITY

Proximity to major airports (Southampton/Heathrow) and ports (Portsmouth/Southampton)

POWER

Enhanced power supply of 5 MVA for the scheme

The image shows a large, modern industrial building with a prominent living green wall. The green wall is composed of various plants, including leafy greens and tall, thin grasses that hang down. The building has a white corrugated metal roof and walls. To the right, there is a modern entrance with a wooden facade and large glass windows. In front of the building, there is a paved area with a bicycle rack and a parking lot with white markings. The sky is blue with some clouds.

PROGRESSIVE

Vanguard Logistics Park is located within the South Downs National Park; a designated area of natural beauty and protected for conservation due its landscape, biodiversity and abundance of wildlife.

Vanguard Logistics Park has been designed to an outstanding environmental specification that integrates the project into the landscape and enables the scheme to retain the visual appeal of the National Park.

This has been achieved through the implementation and delivery of locally sourced timber cladding, four living green walls and extensive landscaping. These elements have been designed to enhance the existing biodiversity of the site as well as aid the wellness of the buildings occupiers.

GALLERY

LOCATION

Vanguard Logistics Park is prominently located fronting the A3, which is the major arterial road connecting London and Portsmouth offering excellent connectivity to the region. The scheme is situated in Longmoor, Hampshire, 51 miles from London and 24 miles from Portsmouth. Major motorway networks such as the M3 (J6) and M25 (J10) are just 35 and 28 miles from the development.

Another key benefit of the scheme is the close proximity of Southampton Airport (38 miles) and Heathrow Airport (41 Miles), which handles 70% of the UK's air freight trade. Southampton and Portsmouth Ports are also in proximity to Vanguard Logistics Park.

SUSTAINABILITY WITHOUT COMPROMISE

Vanguard Logistics Park has achieved BREEAM 'Outstanding' certification

BREEAM certification is designed to create buildings that demonstrate quality whilst being environmentally friendly. The core principles are in place to provide a space that improves productivity, lowers running and maintenance costs, improves health and wellbeing of the building users and drives innovation.

To earn an 'Outstanding' Breeam certification an 85% score is required.

Less than top 1% of schemes achieve this certification and is considered highly innovative.

The key features that have earned the BREEAM 'Outstanding' accreditation cover various sections, demonstrating a holistic approach to the facilities as well as the future occupiers.

TOP 1% IN THE UK

BREEAM Outstanding

EMISSIONS SAVINGS

336 tonnes CO₂
in annual savings

ENERGY SAVINGS

£194,280 annual occupier
energy savings

WATER EFFICIENT

40% reduction in potable water
use through rainwater harvesting

BIODIVERSITY

Integrating Nature to Support
Ecology and Wellness

SUSTAINABILITY WITHOUT COMPROMISE

The UK's new standard for sustainable logistics

HEALTH AND WELLBEING

Provision of office space with natural daylight

Considerate lighting schemes to provide appropriate illuminance levels

Future proofing heating and cooling systems; designed to provide thermal comfort as well as energy efficiency's allowing for seasonal changes and occupier preferences

External landscaping and amenity spaces including living walls and gym equipment

ENERGY

Use of Low Zero Carbon Technologies:

- 4,010 m² of Solar PV installed, this is forecasted to save future occupiers £194,280 per annum in electricity costs, as well as a total CO₂ saving of 336 tonnes per annum
- VRV Heat Recovery Systems
- Air Source Heat Pumps
- Increased U-Values to reduce energy consumption

EPC Rating A+, Net Zero CO₂ emissions

Sub-metering of systems to allow building users to monitor and manage energy use

TRANSPORT

Provision of sustainable transport measures:

- Provision for cyclists; safe storage, shower facilities and locker spaces
- Priority parking spaces for car sharing scheme
- 39 charge points for electric vehicles
- Safe access for pedestrians and cyclists
- New bus stop for links to local area via public transport

WATER

Implementation of rainwater harvesting system which is utilised to irrigate the green living walls and landscaped areas of the scheme

Overall reduction of potable water consumption to the site by 40%

Installation of leak detection system and flow control devices to regulate water supply to minimise undetected wastage

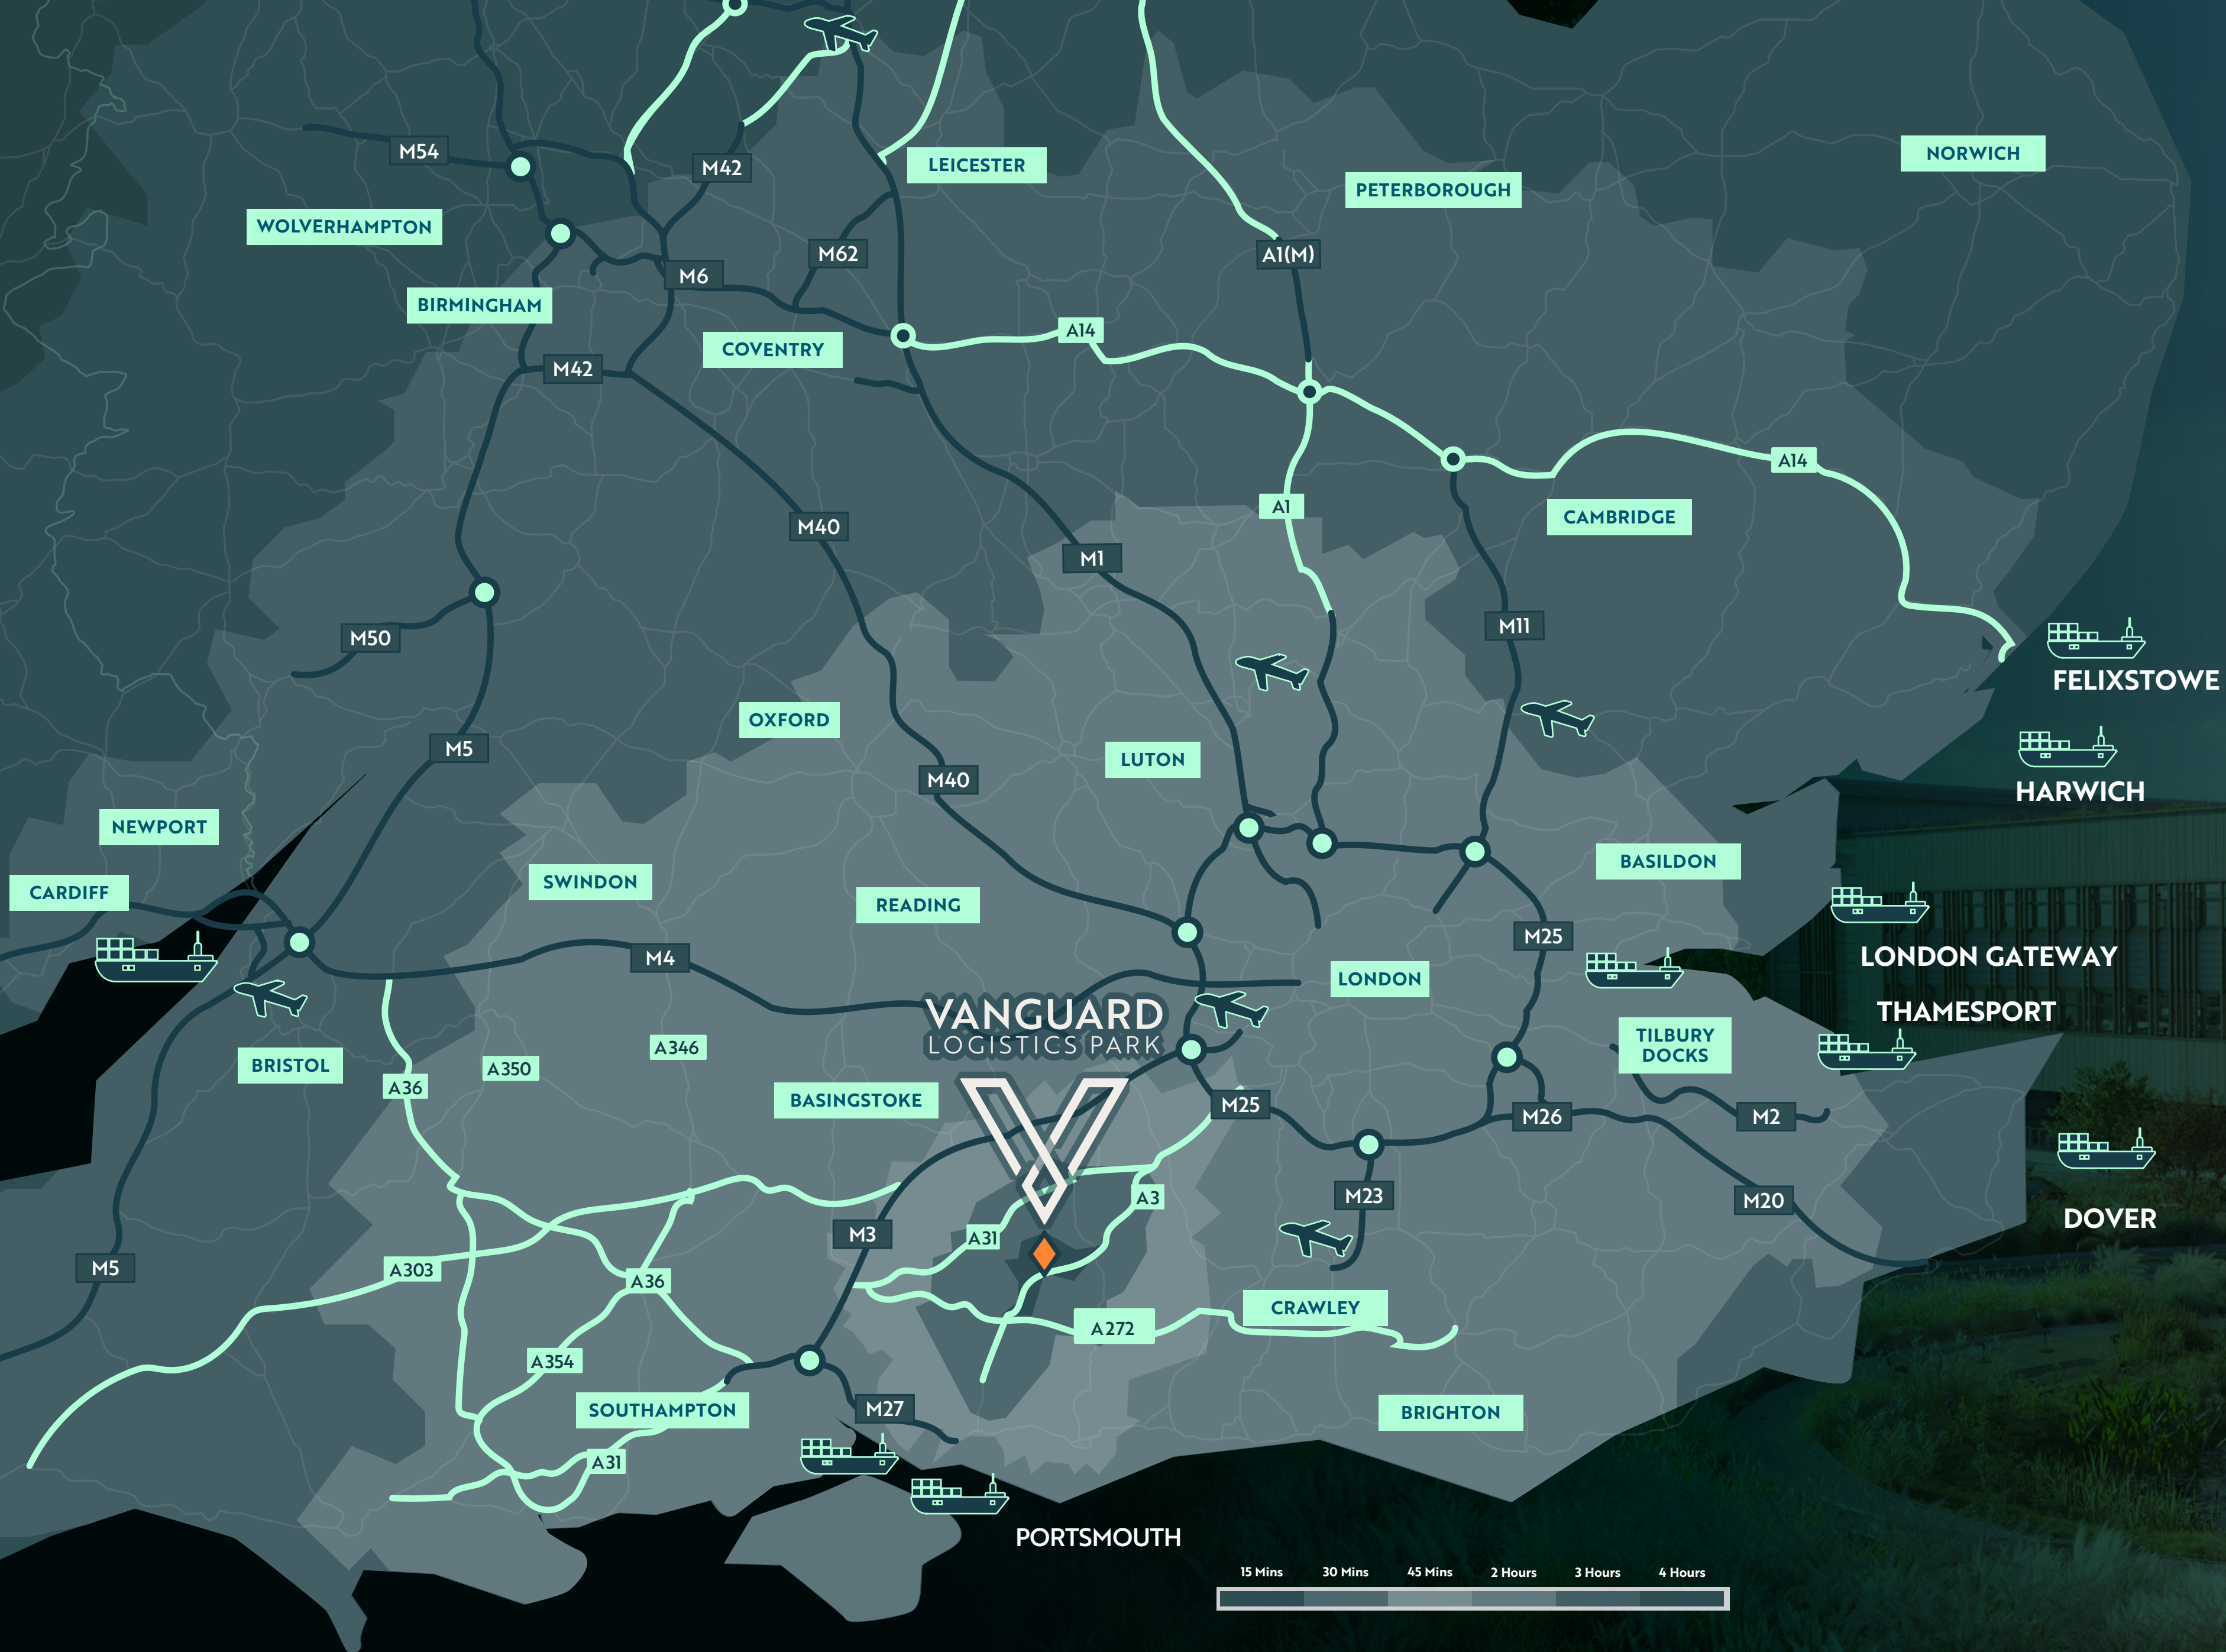

ECOLOGY

The location of the two units naturally lends itself to enhanced ecology features with protected Acid Grass areas, a manged woodland area and situation within the South Downs National Park

The planting scheme has been designed to enhance the existing biodiversity of the site as well as aid the wellness of the building occupiers

Creation for four living walls on the facades of both buildings
