

A photograph of the Florentia Village industrial campus in North London. The image shows a multi-level industrial building with a prominent green metal structure on the left and orange walkways on the right. A large white 'F' logo is visible on the green structure. In the background, there is a tall brick chimney and a modern high-rise building. The sky is blue with scattered clouds. The text 'FLORENTIA VILLAGE' is overlaid in a white rounded rectangle in the center.

LIGHT INDUSTRIAL UNITS  
A NEW HOME FOR MAKING  
IN NORTH LONDON**

# FLORENTIA VILLAGE

# WHAT IS FLORENTIA?

Florentia is North London's creative industrial campus for people who make, build and produce. This latest addition builds on an established maker community, delivering 58 new workshops and light industrial units designed to support creative businesses as they grow – from independent makers to expanding production teams.

Located in the Harringay Warehouse District, the campus is shaped around connection as much as craft, with shared courtyards, open walkways and on-site support that bring people together while keeping work flowing.

# INDICATIVE UNIT LAYOUT

## UNIT C9

Total Area 1029 sqft

Ideal for SMEs, independent makers and growing creative businesses, each space comes fully fitted with lighting, power and data, removing the need for a time-consuming fit-out.

Served by generous goods lifts and shaped around day-to-day making, the workshops balance efficiency with comfort - creating bright, functional environments where ideas can quickly become reality.

# LIGHT INDUSTRIAL

3,000 sq ft and over our most spacious option, these are light-filled blank canvases for big ideas.

Grade A specification

LED lighting

6.45m internal eaves height

Self-contained toilets

Loading bay

3.3m electronic roller shutters

3.15m mezzanine height

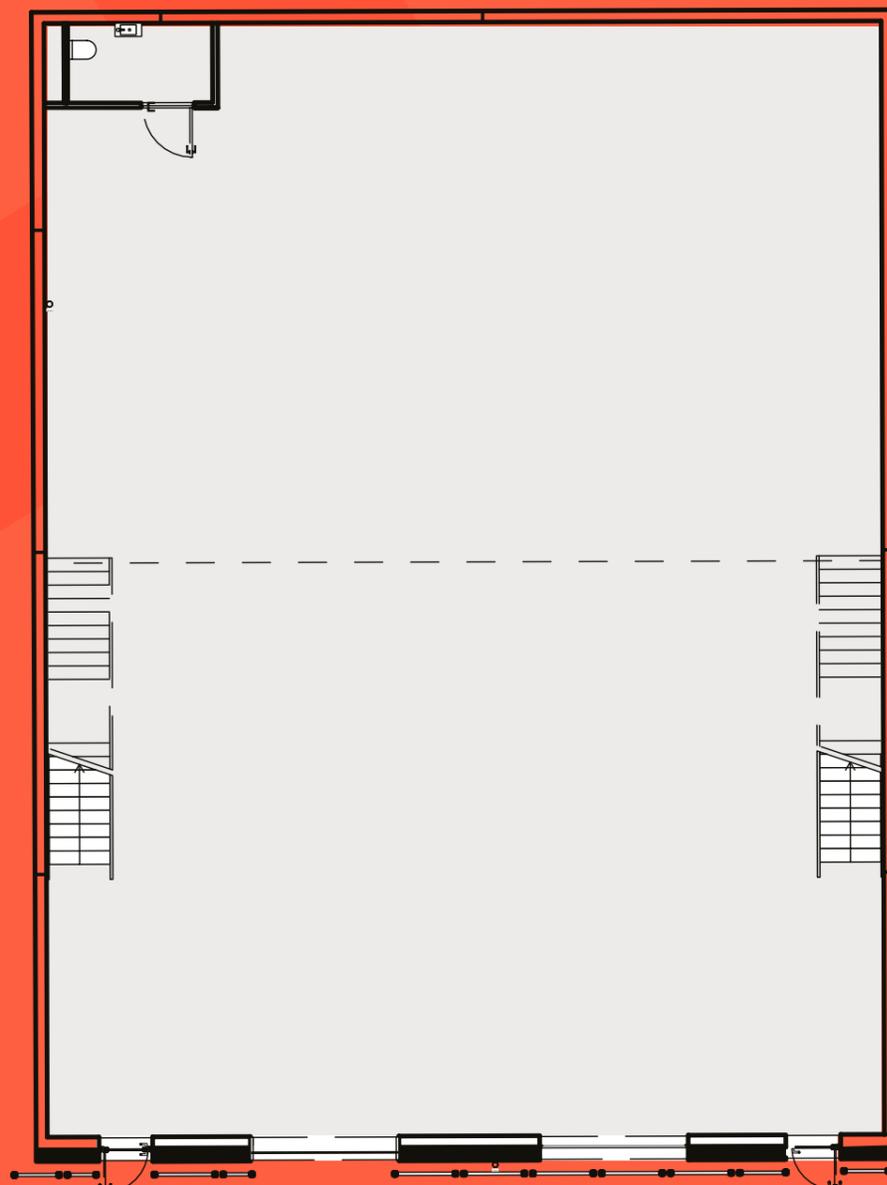

# INDICATIVE UNIT LAYOUT

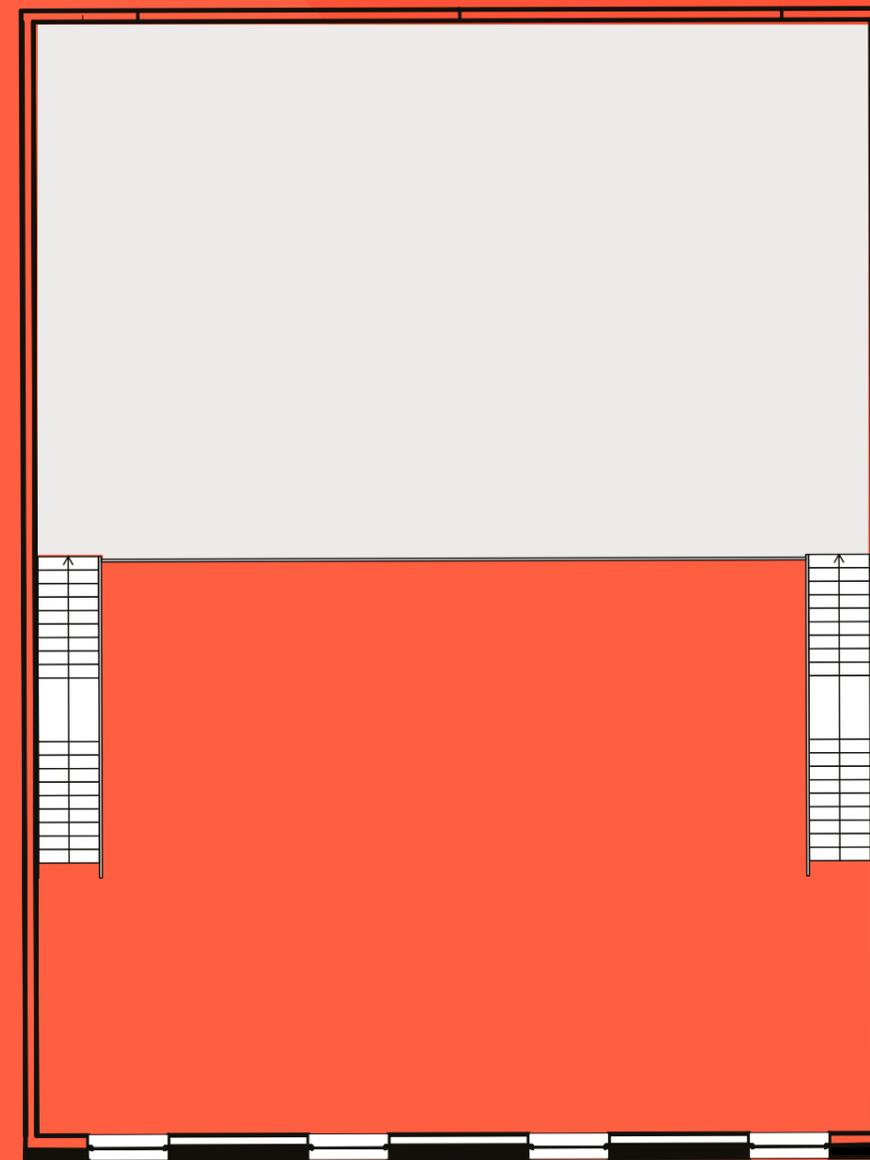

## UNIT D7

|                 |           |
|-----------------|-----------|
| Ground Floor    | 3510 sqft |
| Mezzanine Floor | 1726 sqft |
| Total Area      | 5236 sqft |

Delivered as open, shell-and-core, adaptable units, these spaces are intentionally flexible - allowing businesses to configure layouts, services and fit-outs around their specific production needs, from food manufacturing to fabrication, assembly or specialist craft.
