L175 sits within the **Liverpool City Region Freeport**

Home to the UK's biggest western facing port, handling 45% of the UK's trade from the United States, Liverpool is a natural freeport location and hub for global commerce. The Freeport area takes in a 45km diameter from the western point of Wirral Waters to the eastern point of Port Salford and includes all six of the city region's local authorities.

The LCR Freeport is a multi-gateway, multi-modal zone covering 300 hectares of land and the freeport sites, which include several existing rail terminals and water-accessible locations.

Freeports are special designated areas within the UK's borders where different economic regulations apply. Eligible Businesses are able to apply for Custom Site Operators (CSO) status, which would allow them to take advantage of the following:

- Duty suspension
- Duty exemption on re-exports
- Flexibility on how duty is calculated
- Simplified customs procedures to import, export, store or processing of goods
- Streamlined processes for bringing goods into and moving goods between customs sites

EPC

Available upon request.

VAT

All figures quoted are exclusive of VAT.

Terms

Available on a new FRI lease with terms available on application.

Legal Terms

Each party are to bear their own legal costs in respect of any transaction.
