Salford M30 7EY

To let

**9 new trade and industrial/
warehouse units**

6,148 - 23,503 sq ft

Chancerygate **CBRE** Investment Management

Strategic locations. Sustainable buildings.

Westside is strategically located adjacent to the M60 and is within a 4 minute drive of the M60, M62 and the M602 motorways, providing excellent road connectivity.

Highly accessible from Manchester City Centre and the important affluent areas of West and South West Manchester, the site is ideally located for serving the surrounding urban population hubs. The recently built Salford Western Gateway Bridge provides further access routes to the east, notably the Trafford Centre and Trafford Park and the A57 links the site to Junction 21 of M6 to the west.

Sustainable approach.
Positive impact.

We take a forward-thinking approach to minimise our impact on the environment, from design and construction through to operation. Working with leading sustainability consultants, Chancerygate embraces the latest technologies and methods to achieve future-proof solutions.

Green initiatives at Westside include:

- Solar PV panels to all units*
- Air source heat pumps to all units
- High performance insulated cladding and roof materials
- Highly efficient LED lighting
- Low air permeability design
- Electric vehicle charging points
- 15% warehouse roof lights increasing natural day light
- Landscaped communal areas, enhancing biodiversity
- Exterior or interior cycle storage to encourage cycling to work

*Through use of PVs, there will be approximately 117,260 kWh of energy generation on site. This will give an estimated annual cost saving of £32,832 or £0.32 per sq ft (GIA), based on using current energy prices as of July 2025 and assuming 100% PV generation is used on site.
