A modern lounge interior featuring three wooden planters with green plants, each containing a brown and white striped sofa. The planters are arranged around a central area with two small round tables. A large, colorful abstract painting is mounted on the wall behind the seating area. The room has a dark tiled floor and a white ceiling with several pendant lights.

A modern lounge interior featuring three wooden modular sofas with brown cushions and striped backrests, arranged around two square wooden tables with metal legs. Each sofa has a planter box on top containing green plants. A large, colorful abstract painting is mounted on the wall behind the seating area. The room has a dark tiled floor, white walls, and several white pendant lights hanging from the ceiling. A window is visible on the left side of the frame.

Membership Benefits & Features

Bookable meeting rooms

Reserve meeting rooms at WeWork locations worldwide through the member app or online.

Meeting Room Size	Credits per hour
Seats 2-4 people	3 credits
Seats 5-9 people	4 credits
Seats 10-15 people	5 credits
Seats 16-19 people	8 credits
Seats 20+ people	10 credits

To promote social distancing, adjusted capacities have been posted on the member app and in meeting rooms. (Guests come at no additional charge with a meeting room or daily private office booking)

Tech Services

Professionally deployed and expertly supported IT solutions that enhance network performance, speed, and security. Our CapEx-free suite of offerings support your teams in doing their best work without the hassle of buying and supporting expensive, world-class technology.

Enterprise-level IT solutions include*:

	Dedicated bandwidth	High-performance internet, exclusively for your employees, featuring enhanced security and speeds. Includes primary and secondary circuits to support internet continuity if one circuit fails
	Public IP address	For those who wish to build their own network, establishing a public IP on the WeWork network will allow your members direct internet access to their own firewall or appliance
	Private VLAN	Establish a private and security-enhanced connection on our wired network—separating your employees’ internet traffic from other members
	Private Wi-Fi (SSID)	Support data security by giving your employees a branded, private wireless (WiFi) network with unthrottled access to available internet bandwidth.

	On-site colocation	Store your network gear in a climate-controlled, secured environment within a WeWork IT room This offering is sold by rack unit (“RU”)
---	---------------------------	---

*Offerings subject to market and building availability. Additional costs apply.

WeWork Workplace

Discover WeWork Workplace
