Building 8100

"It's been a great experience working with Arlington to accommodate Perspectum's Oxford based staff into this newly renovated and modern space. We are looking forward to moving in so that our staff can benefit from all the Park has to offer."

Perspectum Diagnostics

"Our rapidly expanding business needed to acquire fully fitted lab space within a very short timeframe. The Arlington team at Oxford Business Park stepped up to this challenge, finishing on time and to a very high standard – we are delighted with the result."

Evovx Therapeutics

"Oxford Business Park is already home to our manufacturing facility known as Oxbox, which is in operation for our viral vector manufacturing activities and also supporting the manufacturing of a COVID-19 vaccine candidate. In March 2020, as our activities and workforce expanded, we took the decision to relocate our corporate headquarters team from our existing HQ to a new office location on the Park. Arlington have helpfully accommodated all of our commercial requirements with the new office and we are delighted with the quality of the building and the wider environment."
