A READY-MADE RESTAURANT OPPORTUNITY

A rare opportunity to acquire an extensively fitted restaurant premises, formerly occupied by an established bar and grill and retaining a substantial existing hospitality fit-out.

Arranged over Ground and Lower Ground Floors, the premises have been designed specifically for restaurant and bar use, providing an incoming operator with the opportunity to significantly reduce the time and capital expenditure ordinarily associated with fitting out a new restaurant.

The Ground Floor provides the principal customer-facing restaurant and dining area, centred around an attractive fitted bar and offering a flexible arrangement for dining and informal drinking.

At Lower Ground Floor, further fitted dining and bar accommodation is provided alongside the commercial kitchen with full cooking extraction and associated back-of-house facilities. The converted and tanked vaults provide additional characterful accommodation and lend themselves particularly well to private dining, events or more intimate seating areas.

The existing configuration provides for approximately 60 covers, although the flexible layout provides scope for an incoming operator to increase or reduce the number of covers depending upon its concept and style of service.

Overall, the premises represent an unusual opportunity to secure a characterful, self-contained and comprehensively fitted restaurant, with much of the costly infrastructure
