Our Story

Founded as a not for profit in 2012 by Wellcome Government and GSK. SBC is at the heart of a growing cell and gene therapy cluster, currently the largest in Europe. Major organisations have helped make SBC an attractive location for therapeutics start-ups in terms of proximity to Cambridge and London. It is home to a community of over 50 businesses and there are over 3,500 employees based on the Campus.

Vision

To accelerate the translation of cutting-edge science to improve the health and quality of people's lives.

Since 2012

- £3.6bn in funding has been raised
- Investment is on par with Cambridge cluster*
- There have been 4 exits and 4 IPOs
- Product development is 6 months faster
- 87% survival rate vs national rate of 65-70%
- <110 businesses have been supported

Future

In 2023 planning was approved for UBS Asset Management to build a 1.6mn sq ft science park called Elevate Quarter onto the campus. This expansion project will provide space for companies to scale and create 5,000 additional jobs over the next 5–10 years.

Woodland walking circuit

Sustainability

- Buildings achieve 'Excellent' or 'Very good' BREEAM ratings
- EPC B rating
- Air-source heat pumps
- Rainwater harvesting systems throughout
- Free train station shuttle shared with GSK to reduce carbon emissions
- Electric Vehicle charging and cycle storage
- Biodiversity supported with greenspaces, wetland, beehives, bird and bat boxes

The Stevenage Ecosystem

Centre of Golden Triangle

Access to talent

- 12k annual regional STEM graduates
- 100+ graduates from CGTC's and University of Hertfordshire's Advanced Therapies Apprenticeship Community
- Three of the global top ten universities within 30 miles: Cambridge, Imperial, UCL
- Support for technical skills training via Pioneering Young STEM Futures programme supported by Lewis Hamilton's Mission 44 equal opportunities initiative

Affordable housing

- 10–30% lower in purchase price
- 20–30% lower in rental price (versus Cambridge, Oxford and London regions)
- 100k new homes in the pipeline
