Location

Hollies House is located towards the north end of High Street (the A1000) near the junction with Hatfield Road and Cotton Road. It is a lively area, with several shops, offices and industrial units within close proximity to the site, most of which are two or three storeys in height.

The building does not fall within any of Hertsmere Borough Council’s designated conservation areas, is not within the curtilage of a listed building and does not fall within a flood risk zone. However, as will be detailed later in the study, the development site is located adjacent to a Grade 2 listed building – The Green Man Public House.

To the south of the site is the Potters Bar Bus Garage and Potters Bar Town Football Club, with Parkfield Open Space to the west, and Oakmere Park a short walk to the east. To the north is the National Trust-run Morven Park, which is in fact a recently adopted small area of green belt (November 2016). As such, the building and any potential development work, will be supplemented by public green space within a short walking distance from the building.

Description

Hollies House is a five storey mixed-use building consisting of office accommodation at ground and 1st floor levels and residential accommodation over 2nd, 3rd and 4th floor levels.

The building is situated on a rectangular site orientated on an east/west axis, with an approximate site area of around 2442m² (0.2442ha). The principle elevation (and main pedestrian point of entry into the building) faces east onto High Street, from which vehicles can gain access to a private and secure car park at the rear of the building for up to 52 cars. There is also a front forecourt for parking a further 8 vehicles.

Currently, there is B1 office use for both ground and 1st floor levels, with C3 residential use at 2nd, 3rd and 4th floor levels (24 flats in total, 8 x flats per floor and all 2-bed units).
