# ON TRACK FOR GROWTH WITH *DIRECT* RAIL ACCESS

Sheffield 336 is connected to an operational rail line at Tinsley off the Sheffield to Doncaster freight route (Woodburn Junction to Rotherham Central Junction), with a triangular junction with the main line such that access is possible to the North or South without requiring the train to run round. This delivers excellent access to the national rail network, with connections to mainland Europe via the Channel Tunnel, principal ports and the rest of the UK.

## Sheffield's Regeneration

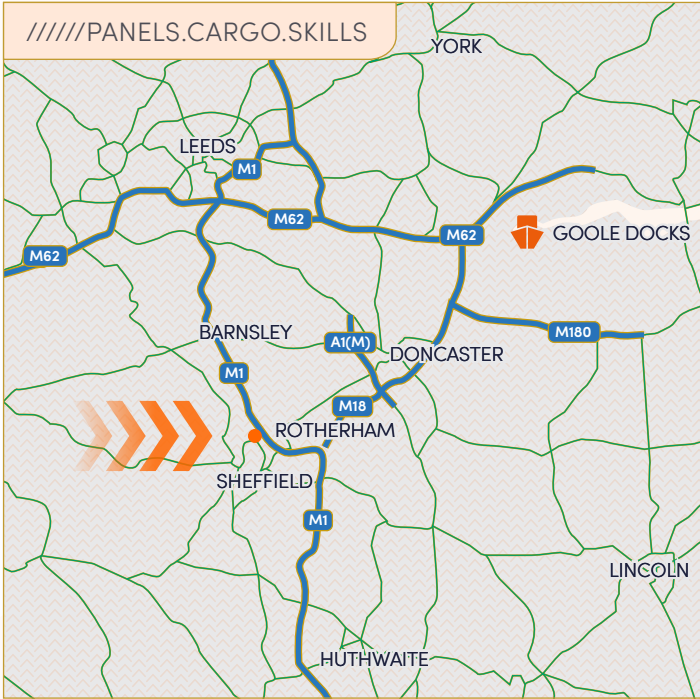

Sheffield's regeneration is defined by the Advanced Manufacturing Innovation District (AMID), a strategic corridor linking the M1 to the city centre designed to supercharge production and logistics in the area.

Major upgrades around M1 Junctions 33 and 34 are streamlining freight access to this hub, reinforcing the region's status as a top-tier manufacturing and distribution location.

# SHEFFIELD 336

## Location

Sheffield 336 is strategically located in a central position within the UK. Situated only one mile from both junctions 33 and 34 of the M1, to the east of Sheffield City Centre, it is within 3 miles of the intersection with the M18, at junction 32 M1, giving access to the east coast and Humber Ports complex.

Occupiers in the area include Clipper, Great Bear and M&S. The Advanced Manufacturing Park is also located close by. The 100 acre technology park is home to occupiers including Rolls-Royce, Boeing and McLaren Automotive.
