DESCRIPTION

The property occupies a prominent position and has recently undergone a comprehensive refurbishment to an exceptionally high standard, providing contemporary commercial accommodation arranged over Lower Ground to Third Floors.

The accommodation currently being offered comprises the Ground Floor, which is available independently or in conjunction with the Lower Ground Floor. Both floors can be occupied separately, with two designated soft spots incorporated into the structure to facilitate the installation of an internal connecting staircase by the Landlord, should an occupier require the accommodation as a single unit.

The Ground Floor benefits from two separate entrances, comprising double-door access on the left-hand side and a single entrance door on the right-hand side, providing flexibility for a variety of occupational requirements.

The accommodation has been finished to an excellent specification, benefiting from an impressive 3.4-metre ceiling height, engineered timber flooring throughout, perimeter trunking incorporating power sockets and data cabling, and a combination of LED strip and spotlighting. The space enjoys excellent natural light from both the front and rear elevations, complemented by additional skylighting along the right-hand side of the premises.

The accommodation further benefits from a dedicated airflow ventilation system and wall-mounted comfort cooling. An accessible WC is provided within the communal area, accessed via a rear entrance, although there is potential to incorporate additional WC facilities within the demise, subject to the necessary consents.

The flexible configuration and high-quality specification make the premises suitable for a wide variety of Class E occupiers, including retail, showroom, medical, wellness, leisure and office uses.

The wider building also benefits from a communal roof terrace at Third Floor level, further enhancing its appeal to prospective occupiers.
