**DISCLAIMER**

These areas are approximate. They relate to the likely areas of the building at the current state of design and using the stated option (eg. GEA) from the 6th edition of the RICS 'Code of measuring practice'. Any decision to be made on the basis of these predictions, whether as to project viability, pre letting, lease agreements or the like, should include due allowance for increases and decreases inherent in design development and tolerance during construction. The actual building may present anomalies in relation to survey / drawn plans of the existing site.
