

BIOCITY GLASGOW

Part of Pioneer Group

Bo'Ness Road, Newhouse ML1 5UH
Laboratories | Offices | Investment | Business Development

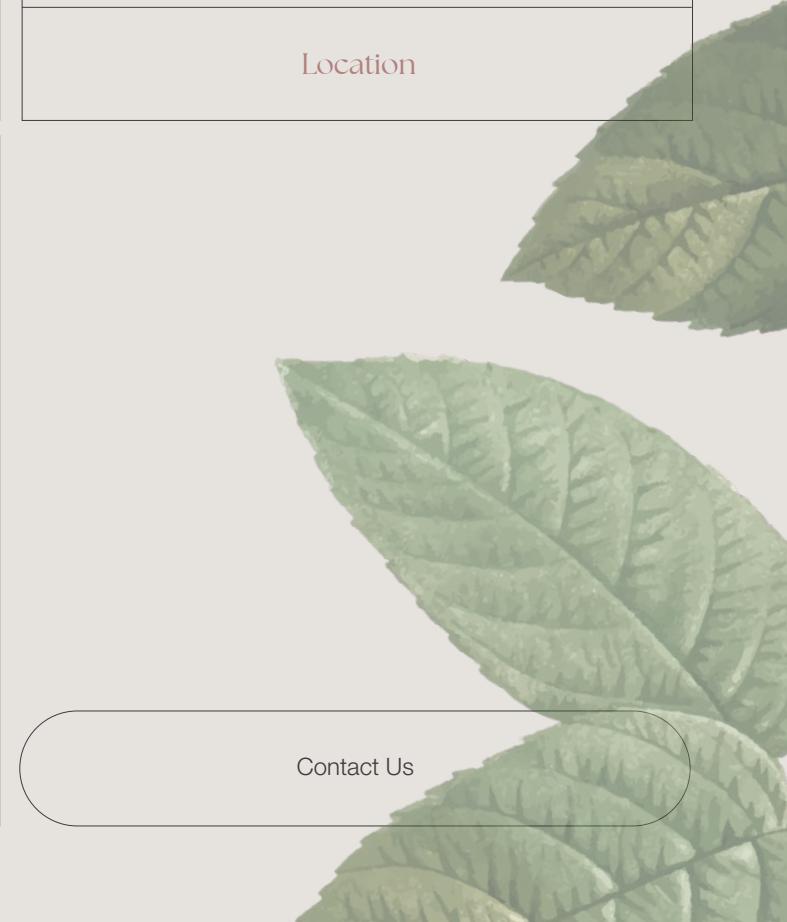

The nucleus of biotechnology.

Renowned for its excellence in pharmaceutical and biotherapeutics research, BioCity Glasgow is a 22-acre biotech incubator situated on the outskirts of Glasgow offering state-of-the-art pharmaceutical-grade site security.

This thriving hub fosters a collaborative, interactive and close-knit community, making it a prime location for businesses in the life sciences sector. With its unique resources and collaborative ecosystem, BioCity Glasgow provides an outstanding foundation for businesses of all sizes to thrive and establish roots.

Ecosystem

“Joining the Pioneer family has significantly helped our growth. The flexible workspaces, collaborative scientific community and access to shared expertise have been very useful to our team’s innovation and success”

Carol Thomson | CEO, BDD Pharma

BioCity Glasgow is the ideal environment for emerging businesses, start-ups, and scale-ups to grow.

BioCity Glasgow is part of the Pioneer Group, the UK's most connected and successful cluster of science and technology companies.

When you move onto a Pioneer Group site, you join a vibrant community that supports every organisation from early-stage spin-outs to large corporations working in every stage from research & development to manufacture & distribution. We also welcome professional services and supply chain partners.

Our community is united by a common purpose: to commercialise science and technology to address human and planetary health challenges.

Ecosystem

At Pioneer Group our nationwide collective includes government catapults, large pharma, universities, venture capital, CROs, CDMOs, regulatory specialists, large FMCG, corporate venture funds, industry representative bodies, healthcare providers, professional services firms, and supply chain partners.

Nutrition sensing

Systems at multiple scales that detect and respond to nutritional flux.

Aging

The impact of the accumulation of a wide variety of molecular and cellular damage over time. This leads to a gradual decrease in physical and mental capacity, a growing risk of disease and ultimately death. These changes are neither linear nor consistent

We curate and energise our ecosystem in a number of different ways:

- CXO dinners
- Tenant business lunches
- Industry workshops and white papers
- Innovation competitions
- Investor pitch days
- Online webinars
- Onsite social events
- Expert Mentor Network
- Charity and STEM school days

The outcomes of which are extensive but can include:

- New collaborations and new business
- New funds raised
- Novel innovations in-licensed
- Shared scientific equipment and resources
- Joint grant applications
- Government lobbying
- Shared business lessons learned
- Employee attraction and retention
- Improved corporate social responsibility

Venture Building

For spin-outs, start-ups, and scale up companies, we also run a series of programmes to accelerate your growth, and we have our own in-house venture capital funds to back the most promising opportunities.

Facilities

“The shared facilities, cafe and meeting rooms are added bonuses that come with the tenancy. This way we can focus more of our resources in R&D, sales and manufacturing.”

Gerard Macias Sotuela PhD | Director, Macias Sensors Ltd

Where scientists, technologists, entrepreneurs & engineers work on tomorrow's solutions today.

The Site

Established in 2012, BioCity Glasgow – along with BioCity Nottingham & MediCity Nottingham - was one of the first Bioscience incubators offering state-of-the-art laboratories and commercial office space, alongside business support and services to early-stage companies in the life science sector.

Laboratories

We can offer start-up labs, fully fitted labs and everything in between. We offer full flexibility in accommodating your requirements. Our range of quality lab spaces can be adapted as required. We can work with you to get your ideal space by providing minor alterations or custom fit-outs.

Prime Location

BioCity Glasgow in Newhouse, North Lanarkshire, Scotland is an existing 22-acre biotech incubator site located approx. 13 miles east of Glasgow's city centre, off junction 6A of the M8 motorway connecting Glasgow and Edinburgh, providing easy access to two airports and two local train stations. A former MSD research facility, BioCity Glasgow has robust occupier strengths in the pharmaceutical and biotherapeutics research markets.

Making Life Easier

Food & Drink On-Site | Nowhere Café

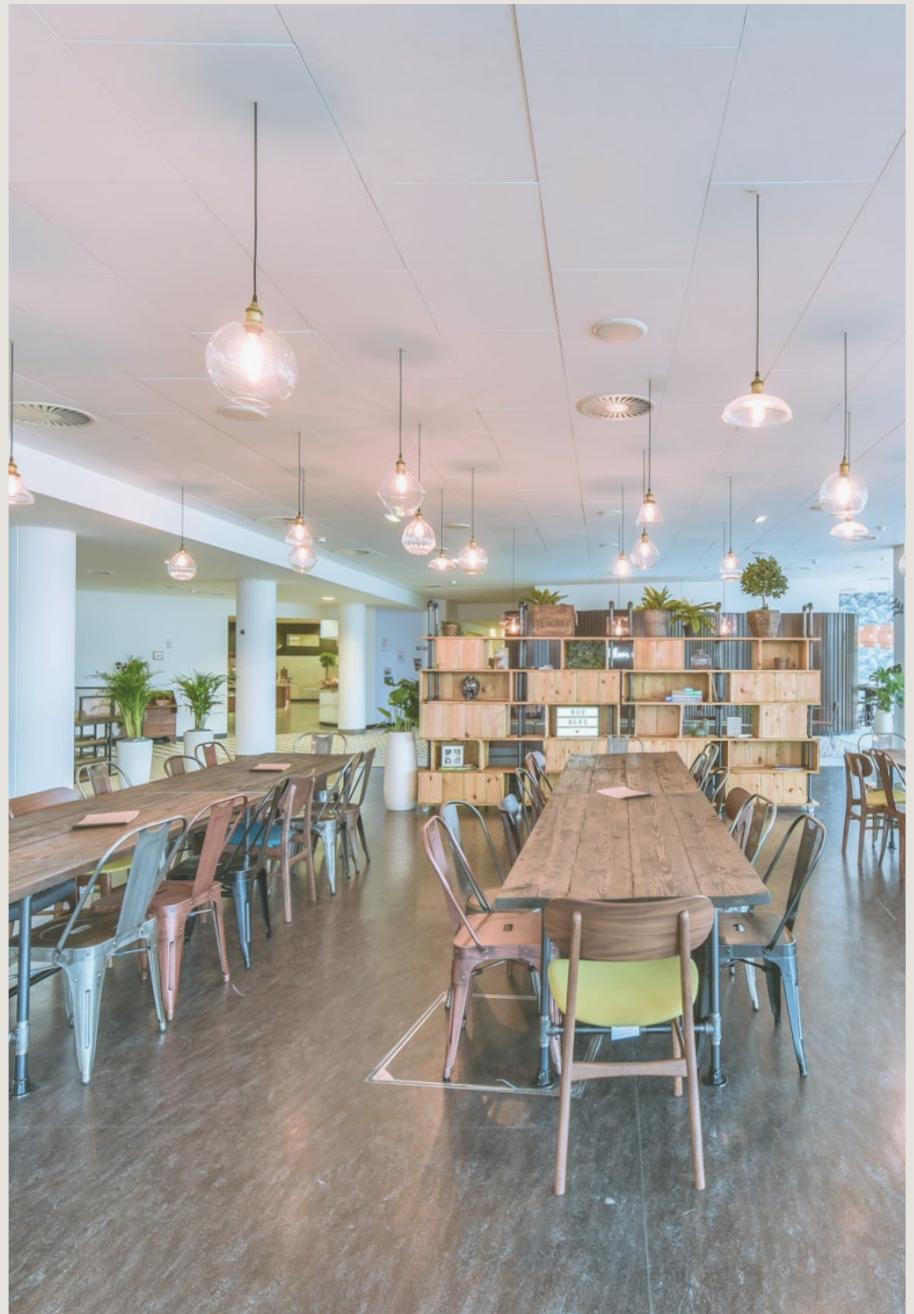

With family-sized tables, comfy seating and a relaxed atmosphere. Nowhere is the perfect place to eat, take a break from work or catch up with colleagues and friends in the BioCity community. Hot food, sandwiches & snacks are available for breakfast and lunch.

Nowhere serves a seasonal menu made fresh in-house with locally sourced ingredients and serves quality coffee.

It's the hub of the community, with pop-up events taking place regularly, air hockey and foosball table.

Fitness Room

Fitness room with treadmill, exercise bike, cardio equipment and yoga mats. Why not take some time out before, during or after work to enjoy!

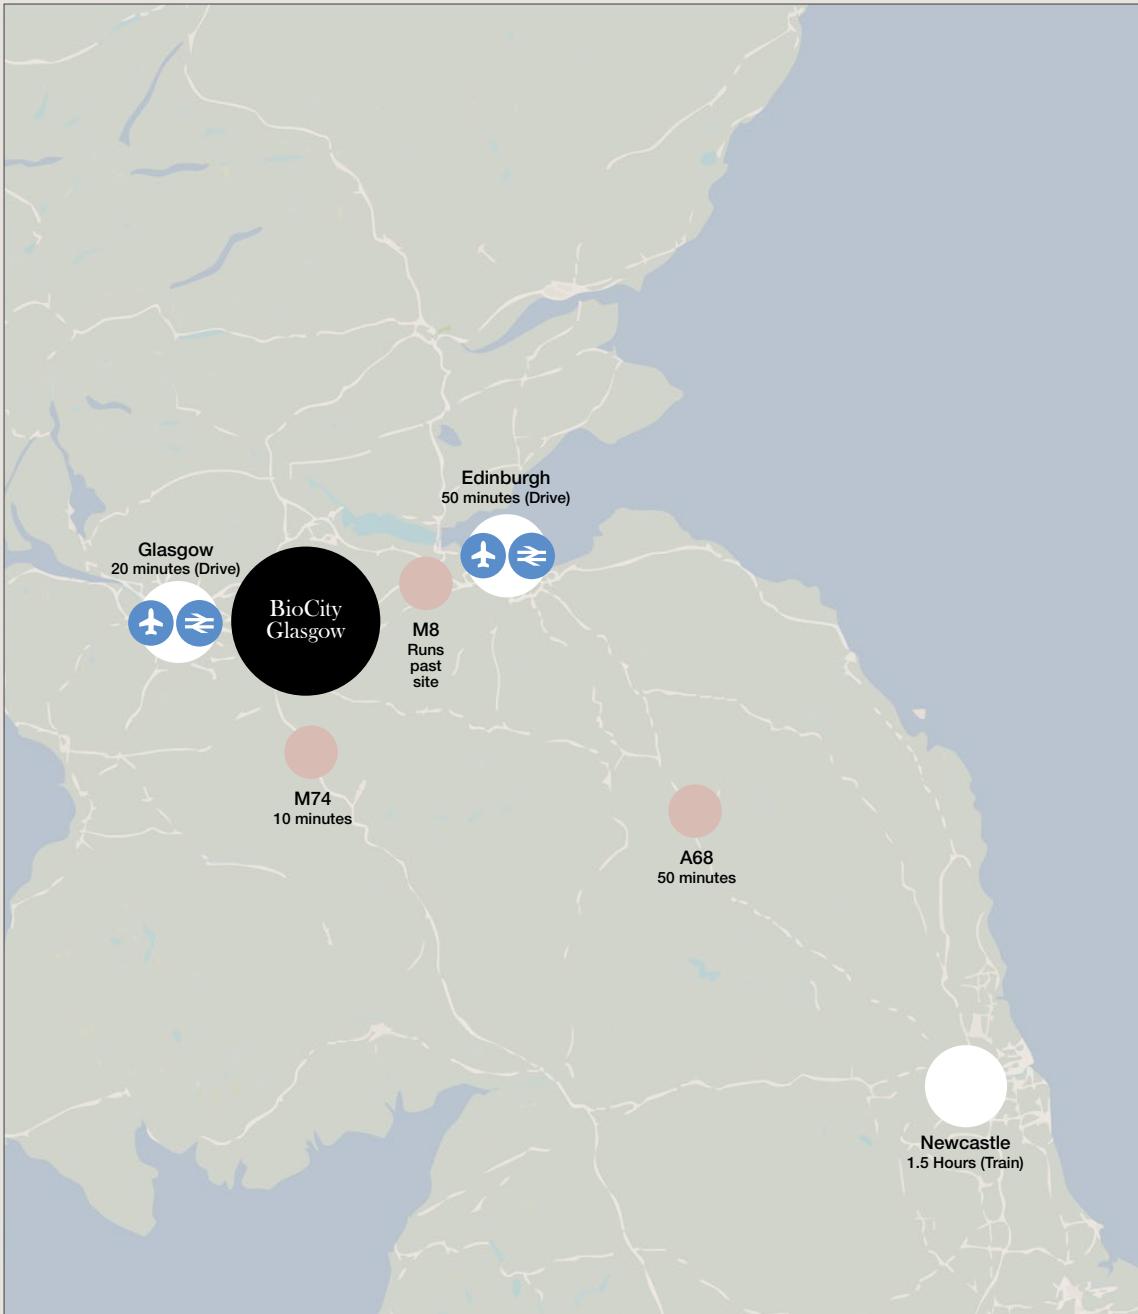

Location

“Having our headquarters located in the heart of Scotland’s Central Belt, makes it attractive for commuting employees from Glasgow, Stirling and Edinburgh areas. Plus it is close to two international airports, which makes it helpful for us to visit our clients in Europe and overseas.”

Gerard Macias Sotuela PhD | Director, Macias Sensors Ltd

Connected

For those travelling by car, the M8 motorway is minutes away, ensuring quick connections to the wider region. Additionally, Glasgow Airport is conveniently close, offering access to national and international destinations, making BioCity Glasgow a well-connected hub for business and innovation.
