Part of a comprehensive mixed use scheme

Location

The site's location on the north western corner of the town makes this a key gateway site when approaching Retford from the north west.

To the south there is existing residential dwellings, to the east is a new homes development which forms part of the wider Trinity Park development.

Here a development is underway to build 187 new homes in Phase 1, with a further allocation of 249 homes proposed to the north east in a future second phase.

To the west is the established industrial / employment area of Randall Park Way and Hallcroft Industrial Estate. Both are successful parks with a mixture of office and industrial uses and being home to a range of national,

regional and local occupiers, most notably, Trelleborg, MKM Building Supplies, Screwfix, Howdens and CEF.

The A1 motorway network is within easy reach being just 4 miles (10 min drive) to the West and the town centre is just 2 miles to the South via A638 Great North Road.

Retford is a vibrant and attractive town with a catchment population of around 24,000 with a population of around 220,000 within a 10 mile radius (source Egi. Town Report) and well placed to take advantage of the surrounding centres of Sheffield, Doncaster, Lincoln, Worksop and Nottingham.

The A1 trunk road and motorway networks are close by and the town benefits from the

mainline railway Station, which has an excellent rail service to London Kings Cross [1 hour and 40 minutes].

Description

The site extends to a gross area of approximately 16.87 acres, with a net developable area of 14.36 acres (as per the plans). This is a rare opportunity to purchase development land in a town where such opportunities rarely come to market and occupational demand is strong.

The opportunity seeks to promote a sensitive and considered development, which relates to the existing and emerging urban edge and character of Retford.

The site benefits from outline planning permission reference 15/00493/OUT granted in January 2020 for a mixed-use development of up to 196 dwellings and 11.11 ha of employment land, with all matters reserved except access.

A reserved matters application for the residential element of the scheme is in hand.

The residential developer are progressing with Phase 1 of the residential development. There is an agreement for this developer to deliver the roundabout to serve the employment land and Phase 2 residential. Note step in rights exist.

Tenure

Freehold with vacant possession.

RARE DEVELOPMENT OPPORTUNITY
