Sustainable approach.
Positive impact.

We take a forward-thinking approach to minimise our impact on the environment, from design and construction through to operation. Working with leading sustainability consultants, Chancerygate embraces the latest technologies and methods to achieve future-proof solutions.

Green initiatives at UrbanX include:

- Solar PV panels on all units
- High performance insulated cladding and roof materials
- Highly efficient LED lighting
- Low air permeability design
- Electric vehicle charging points
- 15% warehouse roof lights increasing natural day light
- HVAC to office areas via Air Source Heat Pump
- Targeting BREEAM 'Excellent'
- Targeting EPC A+

*Savings of up to £0.72 per sq ft per annum through use of PVs

based on using current energy prices as of July 2025 and assuming 100% PV generation is used on site.
