Swindon

S920

919,765 Sq Ft Speculative Built Warehouse/Logistics Unit

Available Now

Panattoni Swindon S920, located at Panattoni Park Swindon, is a flagship industrial and logistics facility, setting new standards in scale and sustainability. Available for immediate occupation, it offers over 919,765 sq ft of premium cross-docked space, designed to meet the demands of modern-day logistics. Built to Net Zero Carbon standards and BREEAM 'Outstanding', it delivers outstanding ESG performance. Ideally located to serve London and Southern England, this is a rare opportunity in a market with limited availability at this scale.

Enhancing Connectivity

The A417 Missing Link project completes the final single-carriageway section between the M4 at Swindon and the M5 at Gloucester, creating a continuous high-quality route through the South West. This major investment significantly improves freight movements, strengthens regional connectivity and provides faster, more reliable access to the national motorway network.

A417 MISSING LINK SCHEME

Key:

-  New roundabouts and junctions
-  New, retained or reconfigured roads
-  New crossings
-  New underpasses
-  Old A417

REDUCED CONGESTION

Replacing the existing single carriageway with dual carriageway infrastructure will improve traffic flow and reduce pressure on surrounding local roads.

GREATER NETWORK RESILIENCE

A modern, continuous strategic route will provide a more reliable alternative during incidents and periods of high traffic demand.

2027 expected completion

CONNECTING THE M4 & M5

£250 - £500m

Investment in regional infrastructure

IMPROVED REGIONAL CONNECTIVITY

Providing faster, more direct access to the Midlands, South West, South Wales and the wider UK motorway network.

FASTER & MORE RELIABLE JOURNEYS

Removing a long-standing bottleneck will reduce delays and deliver more predictable journey times for commuters and freight traffic.
