Description

The property sits on a self-contained plot, the unit itself is constructed of steel portal frame with brick and blocks walls. The site allows for a small hardstand area, providing good parking provisions and good loading/unloading. part of Springwood Industrial Estate accessed via Finch Road, comprising of a terraced single storey industrial. Warehouse unit of steel portal frame with brick and block walls.

The layout includes a ground floor office component accessed through a pedestrian entrance leading to a small reception area. This flows through to practical amenities including a kitchen, meeting room/office space, and separate male and female toilet facilities. The first floor provides additional office accommodation in an open plan configuration, accessed via stairs from the main reception.

The warehouse portion features practical ceiling heights ranging from 5.3 meters at the eaves rising to 6.8 meters at the apex, providing good storage capacity and operational flexibility. Vehicle access is facilitated through a roller shutter door measuring 3.2 meters wide by 4.7 meters high, which should accommodate most standard commercial vehicles. The unit provides multiple access points with separate pedestrian access both directly to the warehouse and through the ground floor office area.

The property benefits from essential utilities including three-phase power supply and gas connection, which are important infrastructure elements for many industrial and manufacturing operations. The combination of office space, warehouse storage, and practical vehicle access makes this suitable for various business types requiring both administrative and operational facilities.
