Description

The property is a self contained building arranged over three storeys with a glazed frontage and its own entrance from the street, making it perfect for a design studio with showroom. The Ground Floor is open plan with built in shelving unit and access to a private rear courtyard. space. The original windows to the rear of the Ground Floor studio have been obscured to provide more wall space for its former use as a gallery but these could be reinstated to increase natural light if required. The upper floors both have dual aspect windows and provide an ideal creative environment with excellent natural light, painted brick walls and original fireplaces. There is a kitchenette and WC to the First Floor and also a WC on the Second Floor.
