Radius
Data Exchange

Overview & Pricing

Overview

We have worked with EG to create a feed between AS and Radius Data Exchange.

It allows you to publish your availability and deals from AS to them at a click of a button.

You'll keep managing your availability / deals from AS then decide what records to publish.

Publishing is as simple as a click of a button, but we'll keep you in total control of what data you send.

“The trusted source of real estate intelligence”

How does it work?

The workflow of publishing data to Radius is as simple and streamlined as publishing your property to the Agents Society.

We've worked hard to ensure the validation (checking you have the minimum info), confidential flags and publishing process only takes a few clicks.

You decide what data to publish to Radius Data Exchange, we just help you get it there!

How much does it cost

Our pricing structure is simple, a 12 month subscription based on your agency's size. You can pay yearly in advance or monthly via Direct Debit.

- Radius PUSH: Send your availability & deals to them (available in September)
- Radius GET: View market data within your AS system (available early 2020)

	Up to 5 users	Up to 10 users	10+ users
Radius PUSH	£50/month	£100/month	£POA
Radius GET	£POA	£POA	£POA

**User: a fee earning agent who is associated to an availability or deal record*

What else can I do?

There are many more packages you can add-on to your Agents Society system.

A great addition would be our **report package**, this gives you the ability to export your availability and deals as a branded export and allows you to setup lease event notifications for upcoming lease breaks, reviews and ends.

We have included information about the other packages on the following pages...

Report

Leverage your data, gain actionable insight

Requirements

Export your enquiries, acquisitions and agent circulars as a spreadsheet or branded word export.
