

## Jack Jones by Alun Parry

Note: I play these shapes with the capo on the 7<sup>th</sup> fret.

You could play it in a straightforward Em with no capo but I like the chunky bass strings on the chorus playing it this way.

Intro: G C / G C

Am Em  
He was born as a son of the Liverpool slums

F C G  
And he played in the Liverpool streets

He was working at the age of fourteen

From Ruskin and the Liverpool docks

 He lived the same way too  
 G C Am  
 Keep right on til the end of the road  
 G C  
 Don't give up til your fight is through

He sided with the poor in the Spanish Civil War  
 And he rushed to the people's aid  
 He became a hero when  
 He joined the International Brigade

But climbing up that Spanish hill  
 With the enemy all around  
 A fascist bullet entered him  
 And took him to the ground

*But he sang..*  
*Keep right on til the end of the road*  
*He lived the same way too*  
*Keep right on til the end of the road*  
*Don't give up til your fight is through*

*Keep right on til the end of the road*  
*He lived the same way too*  
*Keep right on til the end of the road*  
*Don't give up til your fight is through*

Then he took a stand as a Union Man

He was quickly to the fore  
Cos he believed in the wisdom of  
The folk on the factory floor

And when he was the leader of the union  
He made the union strong  
With his old flat cap from his dockside days  
He'd lead us all in his song

*And he sang..*

*Keep right on til the end of the road  
He lived the same way too  
Keep right on til the end of the road  
Don't give up til your fight is through*

*Keep right on til the end of the road  
He lived the same way too  
Keep right on til the end of the road  
Don't give up til your fight is through*
