The Engineer states that filtering arrangements are proposed in 2 tanks; but they will not suffice to make the fluid sewage fit to be discharged into the river; and the Guardians should be prepared to adopt some purifying process in addition. The tanks are to be only 63 Yards from the Church, & if neglected will cause a Nuisance. The plan must be sent back to have the inclination of each portion of the Sewer distinctly shown; & a proper cross Section of it given. M^r Begly's attention should be called to N^o 1. page 3. of applic^n form.

A note on Specifica^n states that no Section is wanted as the information is given on Ordnance Map: this is wrong as there is nothing of the Kind on the Ordnance Maps: further particulars are also required as to height of floods &c: &c: & an error in the Estimate of Cost is pointed out! And a waste of time is incurred by Submitting crude plans.

The Workhouse Register was produced, examined, and authenticated, from No. 4971 to No. N.R. 33 both inclusive, by the signature of the Chairman and counter-signature of the Clerk.

The Out-door Relief Register was produced, examined, and authenticated, from No. 2208 to No. 2211 both inclusive, by the signature of the Chairman and counter-signature of the Clerk.

The Clerk's Report on the execution of Orders previously made by the Board was read, to the following effect:—

In refce to letter from L. G. Board 24/3/80/- forwarding a communication from Mr Pelly. L.G.A. in reference to the abstracts of the a/c. Sept. 1879. and requesting I should be called upon for an explanation of my neglect & for a statement of the date upon which I will forward the abstracts & that the statement & explanation be entered on the Minutes for the information of the L.G. Board. I have the honor most respectfully to state that as already entered on Minutes of 25. March. I was directed to take up the preparation of the "seed loan estimate" under the direction of some of the Guardians; and that that business occupied until after 7 o'clock on the evening of 25. March. I had to send off the Minutes of 1st April without this letter. But it shall be read to the Board on next Thursday as part of said Minutes.

I have no explanation to give beyond this that so many demands on my time have arisen in the last few months especially; and my health certainly failing I have not been able to give that devoted & entire attention to every branch of the business which is so requisite. I explained this to the Auditor who has mentioned the matter to the L.G. Board in his letter.

The September abstracts will go forward this week. I have obtained the services of an experienced book keeper & accountant; and I would, I believe, if permitted be able with his assistance, & auxiliaries, to carry on the Union business without causing such delays in conveyance in the future. And thus save the Union heavy expense in proceeding to a new appointment. In Conclusion, I, Sir, can only have to express my deep regret at the disturbance I have been the cause of in the department under which I have acted for so many years. D. Quigley Clerk

The Ledger was produced by the Clerk, posted up to the last day of Meeting, with the proper Debits and Credits as ordered on that day.

Report: Male department: Junior classes fairly taught on the whole: but the progress of the Senior (4th, 5th, and 6th) classes has

has been decidedly unsatisfactory in the majority of subjects, though they read and write fairly. The attendance during half the year appears too great for the energies of a single teacher to cope with. Order & discipline seem to be fairly attended to. Female department: Fair progress appears to be made on the whole as regards the essential subjects of the school programme though the infant class was but middling, and the 1st class was weak in arithmetic. The proficiency in Geography is low and Grammar is not taught. The specimens of needlework executed to-day were rather below the usual standard of this district. Due attention to order cleanliness & appears to be paid.

Other Guardians—

Neil Macdonald J.P., W. Bolster, Patrick Doll.
Patrick D. Cleary, Edmund Cahill, M. B. McAuliffe
Wm. Uniacke Townsend J.P. P. O'Shaughnessy. & John O'Callaghan.

The Minutes of last Meeting were read and signed.

308.

The Workhouse Register was produced, examined, and authenticated, from No. 756 *to No.* 820 *both inclusive, by the signature of the Chairman and counter-signature of the Clerk.*

The Out-door Relief Register was produced, examined, and authenticated, from No. 2353 *to No.* 2369 *both inclusive, by the signature of the Chairman and counter-signature of the Clerk.*

The Clerk's Report on the execution of Orders previously made by the Board was read, to the following effect:—

I have to request the attention of the Board of Guardians to the fact that the balance against the Union on Saturday 12 June was 1327-1-9.

There is a sum of uncollected rates £705-18-6. all of which will not be recoverable. There is the balance of seed loan of about £2300. which the Board expect to receive. And there will be the Parliamentary Grants say about £400. Total £3405. And also some repayment on account of Cattle disease Fund.

But at present all these are unavailable. The Quarterly Salaries will be payable on 24th June; and the Relieving Officers to day require Cheques for Out door Relief purposes and there are heavy outstanding claims.

I would respectfully recommend that the Board would apply forthwith to the Directors of the Munster Bank at Cork for liberty to overdraw to the extent of, say, £4000 — until the new rates and the other funds are available.

Approved; to be complied with.

The Ledger was produced by the Clerk, posted up to the last day of Meeting, with the proper Debits and Credits as ordered on that day.

The Treasurer's Book of Receipts and Payments was produced, by which it appeared that there had been

received during the week - - - - - - - - £ 112 — 17 — 7

Paid during the week - - - - - - - - £ 438 — 16 — 1

And that the Balance on the Account against the Guardians was £ 1327 — 1 — 9

The Book was signed by the Chairman.

The Weekly Balance-sheets of the several Collectors were laid before the Board, their accuracy having been first ascertained and authenticated by the Clerk.

I have been testing Samples of each Standard boiled on delivery, all of which stood the test except that sent in under the name of Rendergast on Sunday morning; and which turned Completely into Curds and whey; and which I of course sent away. And I am sorry that in the hurry of the deliveries I did not take the necessary precaution to secure a successful prosecution I will take care again if I can detect any such thing.

Doctor Brodie informed the L. G. Board on the 23rd of April that the subject was fully considered at the Board Meeting the day before and it was stated that the only delay to going on with the erection of the works was that the consent of the Owner and Occupier to the use of the lands had not been obtained - they withhold their consent until it should be ascertained if the "test tank" about to be built would afford a sufficient supply of water to the locality. It does not now seem likely that the works can be done by August next.

Reports from the Sanitary Officers of the following Districts, viz.:—

District	Name of Officer	General Subject	Particulars
Bruree:	Doctor E. Sullivan	Open filthy Sewer.	Sewer from Police Barrack to Honor Kelly's & Julia Enright's houses. Head Constable & the 2 parties should be noticed to keep it clean.

were read, and directions given thereon as recorded in Executive Sanitary Officer's Report Book.

(See Report as above.)

Reply: The works in connection with the Sewerage at Bruff Barrack have been Carried out.

30. June/80 } From A. Oliver Lyons, C.E. stating that he had rec'd on the 14th inst: a report from Mr Begley, Clerk of Works, that he had measured a depth of Water of 12/16 of an inch flowing over the Orifice towards the town of Kilfinane in the dividing tank near Poulavaddra This alone will give a Supply of more than 21,000 Gallons daily which will be further increased by other springs. There was at the same time 5/16 of an inch in depth of Water flowing over the Orifice

on

on the West side of the tank towards Walsh's Rylans land, & giving more than 7000 gallons daily. These figures show there is a sufficient supply of Water for all parties. Notice Mr John Walsh of Ballinlina lower that unless he gives immediate Consent to the Water Works at Kilfinane to be proceeded with; he will be proceeded against.
