The Clerk's Report of Vaccination was read (this on the first Meeting in every month). Number of successful cases :—

The Report of the Visiting Committee was read, and Orders were made thereon as follows :—

We have visited the Workhouse and in regard to Medical Officer's report concerning the dilapidated condition of the Infirmary nursery we quite agree with the Doctor's opinion but at the same time we think that the ward at present occupied by Infirm children is much too large and might be advantageously used for some other class of inmate.

This and other matters contained in Mr. Bourke's report we think it well to refer to Medical Officer and Head Nurse in order to receive suggestions which may help to operate conveniently and economically as well as beneficially.

referred to in their letter of the 18th ultimo were admitted to the Workhouse without their parents.

Minute "The Children were admitted when of tender age and required nursing."

The following report was read from the Medical Officer of the Workhouse — "With regard to the report of the House Committee concerning the condition of the Infirmary Nursery. I have to state that in company with the Head Nurse and master I made an examination of the available accommodation afforded in the different sheds, and I have decided to make the following recommendations.

1st The patients in the Blind shed to be transferred to the Infirmary. The remainder to go to the Infirm Wards.

2nd The present Blind shed to be put into repair by making a good front wall of brick or stone with large windows giving increase of light and air suitable for a nursery. Owing to its size this shed will allow of an apartment to be fitted for the Midwife who will then be in the middle of her work with the nurseries at one end and the maternities at the other. At present it is difficult to obtain Miss Toomey's services when suddenly required for confinement cases at night owing to the distance of her apartments from the Maternity and the fact that the intervening doors are always locked at night.

3rd The present nursery would then be available for other patients and by repairing the roof and building a front wall it could be

used either as a ward for contagious disease or temporarily for isolating consumptive patients until a suitable Hospital is built for the latter.

I beg to draw attention to the unsightly condition of the space between St Bridgets ward and the day room at the female side of the Infirmary I am informed by the Head Nurse that the store room in this space is not now required as there is another room available. I would therefore recommend that the cross wall. part of which is already removed - be done away with and the place boarded and made available as a ward in which we could isolate female consumptives.

With regard to the dark passage leading from the kitchen to the surgery. I would direct attention to a very cheap way of lighting it namely: by opening a door from the surgery nearly opposite the Sacristy door. By having the upper part of this door glazed quite sufficient light will be obtained

I beg again to draw attention to the need of head lights for the operation rooms and the necessity for double blinds for the windows so as to readily convert these rooms into dark apartments when required.

Minute - "Referred to House Committee to meet and report for this day week".

Dr. P J Cleary Kilmaclock reported that the cesspit on the Workhouse farm is within 20 yards of the pump which is used for drinking purposes. and the pit should be cleaned and closed up. or used for other purposes.

Minute -

Minute. "Referred to House Committee".

Read letter from an inmate named Margaret Taylor requesting that her son Peter Taylor be discharged from the Glen District School. so as to take up a situation

"Ordered"

Ordered. "That the Medical Officer be requested to report particulars of the infirmity from which an inmate named Denis Cleary is stated to be suffering. and as to whether Cleary is capable of earning his living".

Ordered. "That in the case of Thomas Hartigan admitted from Rickerby L.D. no order be required to pay the cost of his maintenance".

Pursuant to notice the guardians proceeded to consider the application of the Schoolmistress of the Workhouse for payment of a sum in lieu of the usual receipts fees.

Proposed by Mr. Tracey. Seconded by Mr. Barry.

"That the Schoolmistress be allowed a sum of £10 being the average of the amounts paid as Receipts fees during the past three years".

"Passed unanimously

The application of Patrick O'Connell Vandriver to be allowed to occupy a portion of the sheds on the Workhouse premises as a weekly tenant was refused.

In reply to your letter re my reports to Dr. Browne against Mrs Gibson Midwife. I beg to enclose the following statements which I have taken down from three poor women and which were signed by them in my presence.

In addition Mrs O'Connell Lawrencetown also complained to me that on the 28 Decr last she got ill and sent her husband to Mrs Gibson with a ticket. Patrick Connell presented the ticket to Mrs Gibson at the house of a shopkeeper in Kilmallock whose wife was expecting her confinement Mrs Gibson refused to attend but told him she would send a substitute she directed him to go to Mrs Glanville and ask her to attend. After a long delay Mrs Glanville went to Lawrencetown and found the baby born on her arrival. Mrs Gibson never went to see Mrs Connell and as far as I remember she was not seen by Mrs Glanville again.

Mrs.

[These Reports are to be made up and forwarded by the Medical Officers to the Board of Guardians quarterly, viz., on the 31st March, 30th June, 30th September and 31st December.]

Reports (Form P) containing the names of Children born in the District who are over three months of age and have not been vaccinated, from the Medical Officers of the following Dispensary Districts, viz.:—

Charleville (23)

Kilfinane (28)

were laid before the Board and directions given thereon, as follows:—

Referred to Relieving Officers.

Mrs. Gibson has repeatedly refused to visit country cases more than once unless provided with a suitable conveyance. She has also on several occasions left her district to attend patients without my leave and against my wishes.

On the occasion of Dr. Brown's last inspection here she was away in Bruree district attending a private case although she promised the Guardians a short time previously that she would not again leave her district without my leave.

As Mrs Gibson has repeatedly ignored and disregarded my directions and authority I must ask the Local government Board to order a sworn Inquiry to investigate her conduct.

Statement of Johanna Woods Bulgaden 9 Aug 1901.

Mrs. Gibson Midwife attended me on three occasions and I am aware that every time my husband Patrick Woods gave her money and that she asked for it. On the first January last she attended me and asked my husband for potatoes as he was driving her home. I heard my husband paying her here before she left. She only came to see me once afterwards and told me my husband did not send her the potatoes he promised.

Statement of Margaret Rea - 21st Sept 1901.

My last child was born on the 30th March of this year Mrs Gibson Midwife attended me. On a ticket when she was leaving after the birth of the child she said - what about giving me some little money now. I said I would have it for her the next time when she came the second time I gave her four shillings which she took.

Statement of Bridget Heffernan Ardhilmartin 24 Sept 1901.

I remember last December when my daughter Mrs Lyons Bohernagore was confined Mrs Gibson attended her. I heard her ask my daughter for money saying she could not keep a house without getting a little from everyone. My daughter then gave her four shillings. She was not satisfied with that amount and asked for more. My daughter then gave her another shilling. She then went away and never came to see her afterwards. She also attended me some years ago and asked me for a guinea which I refused to give her. She got quite angry and went away and never came to see me afterwards.

Minute - "Mrs Gibson to furnish explanation in writing and attend next meeting of the Board in reference to the charges preferred against her by the Medical Officer."

Reports (Form P) containing the names of Children born in the District who are over three months of age and have not been vaccinated, from the Medical Officers of the following Dispensary Districts, viz.:—

Bruree (15)

were laid before the Board and directions given thereon, as follows:—

Referred to Relieving Officer.

In reference to the L.G. Board letter of the 10th Instant No 57141/1901 and the Medical Officers reply thereto entered on Minutes of the 15th Instant. the following explanation from the Midwife of the Kilmallock Dispensary District was read:-

"In reply to your letter of the 21st Instant I beg to say I was attending a private case in the Town when I got a ticket from Mrs O'Connell. I could not go as I considered my patients life in danger. I sent Mrs Glanville to do my duty, there was no time lost and I understand Mrs Glanville went to see the patient afterwards. I was sick and could not go.

2nd Report. I attended Johanna Meade. I was in attendance on her for two days and nights her husband said after all my kindness I should take something, he gave me 4½d. which I took. I did not get a ticket for three months afterwards, not until the Medical Officer was trying to make a case out against me. I asked the man for a few stone of potatoes which I intended to pay for.

3rd Report. I attended Margaret Rea I did not demand money. but her mother gave me 4½d.

4th Report. I attended Mary Lyons. I did not ask money but she gave me some little thing, her mother was not there at the time

I attended Mrs Bridget Heffernan 4 years ago without a ticket. her daughter told me she never got a ticket and went to pay me. when I was leaving I asked to be paid. she then said she intended to get a ticket which I got 2 days after.

5th Report. I was called to a case in Dromin the Guardians gave me leave. provided I left word to the Relieving Officer which I did also engaged Mrs Glanville to do my duty. no ticket came in my absence. Nor is it the Medical Officer is allowed to leave the District Every Nurse is allowed private practice as the small salary is not able to keep a Nurse in a respectable position. I must say I have been persecuted by the Medical Officer for the last three years.

Minute. "Explanation considered satisfactory Mrs Gibson withdrawing the allegation contained in the last sentence

Medicine Analysis

No 60015/1901 } 26 Oct 1901 } The L.G. Board requesting to be furnished as soon as received, with a copy of the explanation of the Medicine Contractor in regard to the Analyst's recent unsatisfactory report on the samples of drugs submitted to them from the Kilmallock Dispensary District.

~Contractors Explanation~

Re Bruff Dispensary Report. 52064/1901.

"Trade usage and custom has been to supply Syp Ferri Phosph co as the B.P article has always been found most unsatisfactory being too acid and nauseous for the purpose intended. I admit the preparation is not on the Board's list but at the same time the Medical Officer got what he wanted and I think he will verify this if you write him However as it is only a matter of 8/- altogether I beg my a/c with this sum or I will send a second supply if the Medical Officer requires the B.P. formula.

Re Liq chloroform Kilmallock Dispensary.

The deficiency of 5% chloroform is not shown to be chloroform at all on analyst's report. The B.P. does not state by "I.G." and under ordinary dispensary conditions the preparation (although the analyst certifies 5% deficient in chloroform) is quite correct. The method stated "Evaporation" is not good enough for me. I require something more to the point. If an analysis has been made let me see it as I am surprised to find only a deficit of 5% chloroform as under ordinary dispensary conditions it should be more.

RO 62046/1901. 7 Nov 1901. } The L.G. Board stating that they consider the explanation of the Medicine Contractor in reference to the recent analysis of drugs supplied to the Bruff and Kilmallock Dispensary districts as highly unsatisfactory. Several unfavorable reports have been made upon drugs supplied under the present contract and the Contractor does not show any desire to comply with its terms. The L.G. Board are of opinion that the guardians should formally warn the Contractor that in the event of there being any further unfavourable reports by the Analyst upon the quality of the drugs supplied they will dispense with his services.

No 61532/1901. 11th Nov 1901	The L.G. Board stating that they cannot accept as satisfactory the explanation received from the Midwife of the Kilmallock Dispensary District in regard to her acceptance of fees from Dispensary patients. Under all the circumstances the Guardians are of opinion that the case will be met by cautioning the Midwife not to demand or accept fees from Dispensary patients and that infringement of the regulations in this respect in future will lead to her removal from Office" Read letter from Dr Cremin Medical Officer of the Charleville Dispensary District complaining of the dilapidated state of the Dispensary house. Read letter from Mr. W. E. Hinchy Medicine Contractor stating in reference to the L.G. Board's letter of the No 62.406/1901. "In every case the Medicines are submitted to a careful systematic analysis and have always been sent out full B.P. strength as I pointed out in a previous communication the fault does not lie here, but in the manner in which samples are dealt with and I asked your Board to permit me to supply the Medical Officers free of any cost with properly dried and stoppered bottles for the purpose of taking samples. I am willing on receipt of post card to forward carriage paid and free of cost the bottles required, and until this system

is adopted no Contractor can hope to give satisfaction It is a painful thing to me to be accused of sending out drugs under the standard when I know very well they are full B.P. strength, and I moved respectfully ask your Board to permit me to supply the bottles as I have requested and I am quite sure that no further friction will occur until the contract expires when I do not intend tendering until such time as the Engineer and Builders have finished the necessary alterations and additions to my premises.

"Minute - "Mr. Hinchy to send stoppered "bottles to Medical Officers."

Mr. E. Bourke, on the Union, which is of a generally satisfactory character as regards the management and condition of the workhouse and the performance of their duties by the several officers of the establishment.

Mr. Bourke, however, reports that no steps have as yet been taken to improve the Male Cancer Ward, and that the female Cancer ward is very dark. The lighting of this latter ward, he states, could easily be remedied by putting a large window into the front wall.

The shed in the School girls' yard should be put into a proper state of repair, and a wooden bench should be placed in this yard.

Mr. Bourke again calls attention to the great inconvenience that is experienced owing to the narrowness of the stairs in the Infirmary, and the Board trust that the Guardians will make such alterations as will enable patients to be carried up and down stairs more easily than is possible at present.

The Inspector further states that on a few of the sheets on the beds in the male aged and infirm wards he noticed marks of fleas, but that otherwise cleanliness seemed to be well observed.

An additional Ambulance of a modern type should be procured for the conveyance of patients to the Workhouse Hospital.

It appears that the visiting Committee only met and reported on four occasions during the half year, and with reference to this matter, the Local Government Board desire to draw the guardians attention to Article 59 of the Workhouse Rules, and they request that the requirements of that Article may be carefully complied with in future, and that the other matters referred to

by

by Mr Bourke may receive the guardians' consideration at an early date.
