Sale of Bread by Weight

Dear Sir

Referring to your letter of the 20th inst. I return the enclosed and beg to point out that on Decr. 18th 1909 I wrote you that all bread should be sold by weight under a penalty. In my opinion prosecutions similar in character as those in Fermoy can be maintained against the Limerick Bakers.

Yours faithfully
John Dundon

The Medical Officer of Health
Limerick

I beg leave to invite attention to the fact that the surface of Prospect Row and Edward Street near the Eastern Entrance to the Military Barracks, is frequently in a very filthy condition owing to the custom of the residents of throwing the house refuse on the sides of the street. The refuse is

sometimes ground into the liquid mud of the road and makes a filthy slime.

Would you kindly inform me whether you could arrange to have the residents in this locality make use of galvanized receptacles for storage of the house refuse at the side of the road till it is removed by the Sanitary Contractor

in his Card Daily -

Gentlemen.

I am pleased to be in a position to state that the City is at present in an excellent state so far as the notification of infectious disease goes. Some little time ago we had a fairly sharp attack of scarlatina and also of German measles but so far as I am aware there were no deaths attributable to either of those diseases nor has any fresh cases been reported in for the past 3 weeks.

Yours obedt. Servt.

M. McGrath.

Handwritten text, likely a letter or document, written in cursive script. The text is dense and covers most of the page. It appears to be a formal communication, possibly a letter or a report, given the structured nature of the handwriting and the presence of a signature at the bottom.

Handwritten signature or name, possibly "Wm. L. ...".

FORM L.

URBAN OR RURAL DISTRICT.

Dispensary District.

Medical Officer's Return for the Half-year ended the last day of September 1911

QUESTIONS TO BE ANSWERED BY THE MEDICAL OFFICER.

ANSWERS.

1. Name and Address of each sanitary sub-officer acting within the dispensary district ...

Mr. J. Quinlan

2. Are you satisfied that each sanitary sub-officer carefully inspects the district with the view of discovering nuisances, and that he reports such nuisances when necessary? ...

W. H. L. K. J. J.

Yes

3. How many reports has he made to you during the half-year?

79

4. How many sanitary reports have been made by you during the half-year? ...

79

5. Have the nuisances reported been abated? ...

77

6. Have you, by inspection of your district, kept yourself informed of the conditions injurious to health existing therein and regularly reported the same to the sanitary authority? ...

77

7. Is the district in good sanitary condition? If not, state the principal defects and requirements:—

In good sanitary condition

Water Supply, ...

Good

Sewerage, ...

Good

Nuisances, ...

Satisfactory

Dairies, Cowsheds, and Milkshops, ...

Good

Factories and Workshops ...

Good

The Town Clerk.
Town Hall
LIMERICK.

Sir,

In reference to the disastrous fire at the
Empire Theatre, Edinburgh. I am instructed by
the Executive Committee of the Variety Artistes
Federation to write and ask that particular
attention should be given to the exits available
for the use of artistes and staff at all the
theatres under the control of the Limerick
Watch Committee. It is felt that in many cases
the exits referred to could be materially improv
ed, and particularly in such cases as where the
dressing rooms are situated underneath the
stage.

It is also suggested that close inspection
of the dressing room accomodation in many theatres
and the sanitary conditions existing behind the
curtain would prove of great benefit.

Yours faithfully,

Chairman.

COPYRIGHT LIMERICK CITY COUNCIL ARCHIVES

The Chairman + members
of the Public Health Committee,

Gentlemen,

In accordance with instructions of your committee, I visited houses + yards at Market Alley, to ascertain the premises on which pigs were kept, the name of the person keeping them, and the conditions under which they are kept, I found at

N^o 3 a tenement house occupied by 4 families the kitchens of which are occupied by Joseph Dillon + family. He keeps 1 Pig under stairs, there is no sty in the yard which is a small one being only about 12'0" x 9'6" it has concrete surface. drain gully trap has grate

N^o 4 a tenement house occupied by 4 families the kitchens are occupied by Thomas Shannon and family. He keeps 6 pigs in yard about 12'0" x 15'0" pig sty runs full length of yard, and is only about 5'8" from the Bedroom window, there is also a portion of yard 8'0" x 7'0" in which there is also a sty the yard surface is flagged + concrete it has drain + gully trap

N^o 5 a tenement house occupied by 4 families the kitchens are occupied by John Cowan + family 2 pigs are kept in yard 17'0" x 6'6" by N^o Benson who resides at N^o 19 Ellen St the sty is only about 1'3" from Bedroom window yard surface flags + concrete, it has drain + gully trap

TELEGRAMS—"FOGERTY, LIMERICK."
TELEPHONE No. 4

11th. October. 1911.

M. Fitzgerald Esq.,
Town Hall,
C I T Y.

Dear Sir,

In reply to your letter of the 9th. October. 1911. I beg to state that on the nights of the 21st. & 22nd. Sept. last the Pit contained thirty or forty less, than the Corporation have themselves allowed me to put in it. But in my own defence, and for the purpose of explaining to the Public Health Committee, I might mention that from time immemorial, in other words, since the Theatre was built, it has been a recognised fact, that a great number of the general public will instead of taking seats, stand up at the back of the passage, and no matter how often my Staff or myself have spoken to them about it, we always get the same reply, namely, that they prefer to stand at the back of the Pit. I had an idea of putting up a rail around the passage at the back, but as far as I can see, I do not think this would come under the heading of clear passages to the two exits, but if your Committee would sanction the putting up of these railings, which of course your Inspector would have to survey, and be satisfied with, I shall do so. They would of course be made to open towards the exits, which is necessary according to the Public Health Committee Act.

Of course where you have, such as I have at present an unwritten law, namely, standing at the back of the Pit, which has gone on since the Theatre was built, it is very hard for me to put a stop to it at once, but if your Inspector is satisfied at the above railings being put up, I do not think that the Public Health Committee will have any further cause to complain, as it is my own wish at all times to meet your Committee in every possible way I can, so that the Corporation of Limerick, and myself, can work together in perfect harmony.

Believe me,

Yours faithfully.

re Open Spaces

Dear Sir

I am in receipt of your letter of 28th inst and beg to state in reply as follows:-

1. The Corporation cannot compel the owners of these open spaces in the Englishtown or elsewhere to build on them but they can be compelled to wall them in if these spaces are a nuisance and in a state dangerous to health.

2. The Corporation can also acquire these open spaces for recreation grounds under the "Open Spaces Acts".

Yours faithfully

18th Oct. 1911

Gentlemen -

I beg to report that an epidemic of German measles has broken out in the city for the past few days. - This disease differs from the usual form of measles in being much milder, of shorter duration, and is in most instances unaccompanied by any complication. It is not so contagious as ordinary measles, and affords no protection from the usual & more severe form of measles. The present epidemic is like the usual one of this disease, remarkable for its mildness and with the present climatic conditions no serious complications need be apprehended from it. The only other infectious cases notified since last meeting, were some cases of scarlatina in which the usual precautionary measures were insisted on and carried out.

Yours obed. Servt.

Dear Sir,

We are in receipt of your letter of the 3rd inst re
erection of buildings for stores & stables on our premises.
We regret very much that through an ⁱmisunderstanding with our Architect
the plan was not submitted to you before to-day. We understood that
he was to send it to you, but on the other hand, he was under the
impression that we would send it to you direct. We wish to state that
the buildings will be constructed in accordance with the plan
submitted, with the exception that the uprights will be of wood instead
of steel, as shewn. The roof of the stores will be covered with
corrugated iron, and the roof of the stables will be covered with
timber, and Messrs Greaves' Fire-Proof felt. The sides of the buildings
will be sheeted with timber. We would also like to mention that
we have now arranged for the installation of a sprinkler plant on
our Saw-Mills, which as you are aware will make our premises as secure
against fire, as it is possible to have them made.

Yours truly.

September 11th, 1911.

To the Chairman and Members of the Health Committee or local Sanitary Authority.

Gentlemen,

I am desired by my Council to write you in regard to the question of unvaccinated children. In many parts of the country Medical Officers are referring in their annual reports to the fact that increasing numbers of children remain unvaccinated through the operation of the Vaccination Act, 1907, and are stating that such unvaccinated children are a danger to the population. My Council trust that you will not accept such statements without investigation. Experience shows that smallpox can be introduced into districts where very large numbers of the children are unvaccinated, without spreading to any appreciable extent. At Leicester for many years, over 90 per cent of the births have remained unvaccinated, and in spite of repeated introductions of smallpox into that town, the juvenile population has been but little affected by the disease. Quite recently smallpox broke out in the East End of London - in a district where nearly 50 per cent of the births have remained unvaccinated - but the outbreak was limited to about 70 cases,

L/AH/PH/1/2/1(58)

many of them patients at the Infirmary where the first case occurred. At Bury there is a large unvaccinated juvenile population and yet the recent outbreak affected only 30 persons and the outbreak was practically confined to persons over 12 years of age. These two recent experiences absolutely contradict the statements of Medical Officers who predict widespread epidemics of smallpox in places where children remain unvaccinated in large numbers, and as in several instances Health Committees are acting on such baseless attempts to excite the fears of the public, my Council feel that it is necessary to set before you the true facts. Experience teaches that cleanliness, proper food, fresh air, and a general observance of the laws of health will banish smallpox, while no amount of vaccination alone will do so.

Yours obediently,

L. Loat.

Secretary.

No. 43,705 : 1911.

Miscellaneous.

PREVALENCE OF EPIDEMIC DIARRHOEA AMONGST CHILDREN.

LOCAL GOVERNMENT BOARD, DUBLIN,

24th August, 1911.

SIR,

The attention of the Local Government Board for Ireland has been drawn to the excessive child mortality from Diarrhoea and Enteritis, which is accompanying the very hot and dry summer of the present year.

The Board realise that some excess of mortality over that occurring in cool and wet summers is inevitable; but they desire to impress upon the Council the importance of taking such special steps as are practicable with a view to minimising the excess.

In England and Wales a similar excessive child mortality from Diarrhoea and Enteritis prevails at the present time, and the Board find that the Local Government Board, London, have issued a Circular to Sanitary Authorities under their jurisdiction containing advice on the subject.

The following suggestions should receive the earnest attention of the Council :—

In the first place exact advice should be given as to the feeding and management of children, and more generally as to preventing the exposure of their food to contamination from decomposing organic matter. The distribution of clearly worded leaflets is useful in this connection; but even more important are personal visits and the offer of practical advice to the mothers of babies born within the last two years. Exact and simple instructions are most likely to be followed if given during a period of special danger. In districts in which the Notification of Births Act has been adopted, the records obtained under that Act will give valuable information in selecting the homes to which visits are now most urgently required.

Secondly, the full value of the personal instructions indicated above cannot be realised unless vigorous efforts are made to prevent the accumulation in, or in the vicinity of, the house of decomposing animal and vegetable matter. It is not necessary to do more than mention the importance of efficient scavenging, of frequent and, if practicable, daily removal of house and stable refuse, of domestic cleanliness, and of keeping all food properly protected. The Council may consider it advisable during the next few weeks to divert the Sanitary Inspectors from less urgent work, and to instruct them to make rapid visits with a view to securing efficient sanitation, especially in and about the houses of the working classes.

Thirdly, it is important that the Council should promptly ascertain in which parts of their district diarrhoea is especially prevalent, and should devote close attention to street and court scavenging and to the

The Secretary,

Public Health Committee,

or

The Executive Sanitary Officer,

Urban District.

removal of stable and domestic refuse in these areas. Efforts should be made to obtain information of cases of diarrhoea from health visitors and others who make domestic visits; and to impress upon parents the importance of immediate treatment of infantile diarrhoea. Apart from the medical notification of cases of epidemic diarrhoea in children, the visits of health visitors can be utilised for impressing upon parents the seriousness of diarrhoea amongst young children and the desirability of information being given to the Medical Officer of Health should a case of diarrhoea occur.

The above advice will need to be supplemented by action directed towards the special needs of individual districts, and copies of this circular should be at once handed to the Medical Officer or Officers of Health and to the Medical Superintendent Officer of Health where one is appointed.

I am, SIR,

Your obedient Servant,

A. R. BARLAS,

Secretary.

To the Chairman and Members,
of the Public Health Committee.

Gentlemen

I beg to report I visited the Theatre Royal and Rink Picture Palace on the night of the 24th ult. At the Theatre Royal I found people standing in the side and back passages.

I also visited the Theatre Royal, Rink Picture Palace and Stationer's Theatre on the nights of the 1st, 2nd, 4th and 5th ^{inst.} and found no cause for complaint.

I am,

Gentlemen,

Your obedient servant,
Lewis Quinlan.

Dear Sir,

We note the wishes of the Public Health Committee as regards discharge of condensed Steam. Our Engineer will be able to satisfy you that our Steam does not reach the Sewerage above the temperature which you desire.

As regards the carting of Offals, blood etc. through the Streets; we are making arrangements whereby that can be done earlier than at present.

You must bear in mind that whenever it is done it cannot be considered like carting roses, or other delicious compounds through the city. Everybody knows it is objectionable, and it is one of those things which the public have to be a little forbearing about.

Yours truly,

J. MATTERSON & SONS, LIMITED

T. R. L.

It is one of those things which the Bible tells us to do and that
concerns the soul. Therefore it is important.
It should be considered like every other of our petitions.

TELEPHONE No. 222.

18, The Crescent,

Limerick.

23 August 1911

Gentlemen,

I am pleased to state that Scarlatina has not been so prevalent in the city for the past two weeks during which time only five cases have been notified. This shows that the disease is on the wane & another pleasing feature to record about the epidemic is, that up to the present no deaths has occurred from it.

There has been a sharp attack of Epidemic diarrhoea in the city for the past few weeks. This disease commonly known as Summer diarrhoea has prevailed amongst children & adults, but principally among the young children, some of whom have succumbed to the disease. The principal causes for such an outbreak are (1) the rapid putrefactive changes in food stuffs particularly in milk. (2) City life with its dense population, fly pests, & bad ventilation inside & outside dwelling (3) an impure water supply.

The nature of the soil on which cities are built, loose & made soils being particularly disposed to the prevalence & spread of summer diarrhoea & lowering the temperature of the ground. An important letter on this subject has been forwarded to me by the Local Government Board. I append it for your information and discussion. It is as follows viz:-

L1A4/PA/1/2(72)
LIMERICK COUNTY BOROUGH COUNCIL.

M. S. McGRATH, L.R.C.P., D.P.H.,

MEDICAL SUPERINTENDENT

OFFICER OF HEALTH

TELEPHONE No. 222.

18, The Crescent,

Limerick.

With reference to the foregoing I have no doubt that every effort will be made by the responsible Officials to have the scavenging of the congested portions of the city efficiently carried out. I should also wish to direct special attention to the urgent need for flushing the surface of the lanes and channel courses & for the liberal sprinkling of chloride of lime on surface water sites of refuse heaps. The Citizens in general should be warned of the great necessity for boiling milk & water before use, this latter could be judiciously carried out by the Sanitary Officers as suggested in the Board's letter.

Yours obedt Servt.

To the Public Health Committee

Gentlemen

Enclosed is

a petition signed by the
residents of Carey's Rd
these sanitary arrangements
put in their houses.

Twenty five names in
all, you will see by the
list that there are
one hundred and thirty
two occupiers in the
25 houses. without W.C.s.

It is bad state of
affairs, which we

11/10/11
Public Health Committee

10th August, 1911

Dear Sir,

I duly received your favour of the 27th ult. on my return home, and in reply beg to say that the Anglo Co. have not disemployed any Coopers since the erection of the tanks, previous to which no Coopers were employed. My hope at the time was that it would be necessary for the Company to give employment, if not permanent, at least casual, to three or four Coopers, but owing to the system, which they have been obliged to adopt, of distributing Oil by tank waggons through the country to meet the competition of their rivals, who first initiated the system, the trade in barrelled Oil has fallen off over fifty per cent, to J. & G. Boyd's loss.

It is satisfactory to know, however, that the quantity of Oil passing through the port has not fallen off. The Cooperage in Dublin is doing very little. I only wish I could give employment to a dozen Coopers.

Yours faithfully,

Wm Holliday

Gentlemen.

The epidemic of Scarlatina, already reported on in this city has not been yet stamped out. There is however a falling off in the number of cases notified for the past two weeks, during which time only four cases were reported on.

The majority of these cases belong to No. 3. district, the other to No. 1. The utmost vigilance is being exercised by the doctor ~~in the district~~ as regards fresh cases, - and the necessary preventive measures carried out by the Sanitary Staff as soon as possible. Scarlatina is the only infectious disease at present ~~unidentified~~ ^{the} time prevailing in the city.

Dear Sir,

Although the Analysis of the two samples of Limerick water sent on the 11th, is not yet quite complete, yet enough has been ascertained to enable me to send you, without further delay, a favourable Report.

The low-temperature germs are few - under 100 colonies per c.c. in both, and belong to ordinary hæmolytic varieties.

The high-heat microbes are so few that the agar-plates have remained almost sterile.

The test for Coli has yielded negative results in $\frac{1}{10}$, 1 and 10 c.c.

AND LIFE INSURANCE COY, LTD.

48 GEORGE STREET,

Limerick 26th. July 1911.

Dear Sir.

My Client Mr. Foley who is erecting houses at Thomondgate and has lodged the plans with your Surveyor is willing to straighten the frontage as shown on the enclosed plan, which would be a considerable improvement to the street which is very narrow at this point.

This change would however entail the putting down of new foundations to the houses and he would expect reasonable compensation for the improvement, the amount of which he is willing should be fixed by his Engineer and the Borough Surveyor.

As his Contractor and workmen are engaged and ready to proceed with the work he would wish to learn the decision of the Council as soon as possible, and we I would therefore feel obliged if you would bring the matter before the Meeting to be held this evening.

Your obedient servant.

Wm. M. Nolan Esq. J.P.

Gentlemen,

With the exception of a few
Cases of Scarlatina in School children
no other diseases of an infectious nature
have been notified to me since last
Committee Meeting. Scarlatina is not to be
condemned at, in City life - and at the present
time the disease has manifested itself in most
of the important towns in the County. In
Compliance with the order made Mr. Peacock &
I forwarded two samples of water, one from the
River at Rheofne & the other from the New Castle
Supply to Professor McCreaney. In yesterday's those
samples would have been forwarded much earlier only that
the Professor was too busy & asked me to hold them over
to suit his convenience. He will report on them now
with as little delay as possible. Dear Sir,
Yours faithfully,
M. S. McGrath.

TOWN CLERK'S OFFICE,
TOWN HALL,

Limerick 29th June '11. 490-

Dear Sir,

At the meeting of the County Borough Council on the 8th instant the report and recommendations of the Estimate Committee of the 18th May were read and adopted, and the increase of ^s5/- each per week to the three Sanitary Sub-Officers from the 12th October 1910 sanctioned. Having communicated, as you desired, with the Local Government Board on the subject I have, this morning, received a letter of which the following is a copy viz:-

"LOCAL GOVERNMENT BOARD, DUBLIN,

28th June, 1911.

"No. 32,399. 1911.
Limerick County Borough.

Sir,

Referring to your letter of the 16th instant I am directed by the Local Government Board for Ireland to state, for the information of the Corporation of Limerick, that they have approved of the proposed increase of Five Shillings per week, each, in the present salaries (£65 a year) of Sanitary Sub-Officers Kennelly, Quinlan, and Frost, such increase to date from the 12th October, 1910, as desired by the Corporation.

I am,

Sir,

Your obedient Servant,

A.R. Barlas,

Secretary.

To
The Town Clerk,
Town Hall,
LIMERICK."

I find, on referring to the Minutes of the Council of the 3rd November last that the duties for the salary of 30/- each per week are to include inspection of the Theatres.

Yours faithfully,

J.J. Peacocke Esq B.A., B.E.,

City Engineer.

J. J. Peacock, Esq. B.E.,
Engineer & Surveyor,
Town Hall,
Limerick.

Dear Sir,

Your letter of 3rd. inst. has been transmitted by the Town Clerk to me for attention, and in reply I wish to say that the Corporation have not granted any lease to any oil company to lay pipes through the streets for the purpose of conveying oil to their tanks. I may mention, however, that in a few instances discharge pipes for the condensers of steam engines are allowed to cross the quays into the river, in which case it is looked upon as an ordinary drain, but no charge for way-leave is made in these instances.

Yours truly,

J. Delany
CITY ENGINEER.

Dear Sir,

The only oil pipes laid in streets under the Corporation's control are those laid by themselves for their own purposes.

I believe the Harbour Commissioners have given permission for the laying of oil pipes on their property, but I do not know on what terms.

Yours truly,

Town Clerk.

Gentlemen

I am pleased to report that the public health of the city is at present quite satisfactory only the case of an infectious nature "diphtheria" has been notified to me during the past fortnight. On the instructions of Alderman Minahan I took a sample of filtered water from the premises of Messrs Murphy & Bradshaw Municipal water manufacturers on the 23rd inst. for the purpose of having it bacteriologically examined by Professor MacKeeney. I have not yet got the Professor's report on the sample. Mr Donnelly Junior reported to me ~~that~~ a nuisance caused by a bad smell from the premises of Messrs Matteson & Sons and also from Hanselbeck at the

Re of his dwelling house in Nelson Street. I
inspected both premises as soon as I could & found
them as cleanly kept as ^{one} could expect. At the same
time I have no doubt that at times a bad smell
must arise from the nature of the business. "Jat Scraping &
Curing" Carried on in both these places, and as the
locality is a congested one and as the complaints
are repeated I should be glad if a few members
of the Committee with Mr. Peacock would inspect
these places with me, as all things concerned I
find it hard to deal with the case by myself.

Dear Sir

Re Clyde Road

Referring to your letter of the 20th inst
I beg to state as follows:-

1. Under the Public Health Act 1878 Section 41 the Corporation have made Bye Laws providing for the construction of new Buildings and under that Section and there Bye Laws can prevent the erection of Oil tanks in populous districts such as the Clyde Road

2. I do not think that the Corporation can compel the American Oil Company to remove the present tank. Under the Agreement with Mr Holliday as Agent for the Company the Corporation can compel, on reasonable notice being given, the Company to take up the pipes leading from the Tank to the Docks

Yours faithfully

The Chairman + Members,
of the Public Health Committee,

Gentlemen,

I beg to report, that, I have visited the Theatre Royal on the nights, of the 26th, 27th, 29th + 30th Inst, I found on the 26th some persons, standing in the back + side passages, of Pit, the most of them could be seated, if they wished, as some of the Seats were unoccupied there, the Gallery was in an orderly state, On the night of the 27th in pit + gallery all the Seats, were occupied, a large number of persons, were standing in the side + back passages, those parts of the house were overcrowded, the stalls + circle on the 26th + 27th were in good order. On the nights of the 29th + 30th all parts were in an orderly state

I visited the Prince's Theatre on the nights, of the 27th, 29th + 30th Inst, on the 27th I found all the Seats occupied, there were several persons, standing outside the barriers, But the passage was kept fairly clear, On the nights of the 29th + 30th the place was in good order

17.5.11

Congress of the Royal Institute of
Public Health, Dublin, 1911.

Offices—MUNICIPAL BUILDINGS,
CORK HILL, DUBLIN,

March, 1911.

Sir

In 1898 a Congress of the Royal Institute of Public Health was held in Dublin, and proved to be so great a success that Sanitarians speak of it up to the present as the best Congress they have ever attended.

The Royal Institute of Public Health will again, at the request of the Municipal Council, hold a Congress in Dublin from August 15th to August 21st, 1911.

The Executive Committee request that you will be so good as to act as a Vice-President of the Congress.

HENRY CAMPBELL, Town Clerk.

CHARLES A. CAMERON, Knt.

Hon. Secs., of the General Committee.

EDMUND W. EYRE,

Hon. Treasurer.

To *Mr. Chairman U.D.C.*

Limerick

1/44/24/1/2/1(131)

Congress of the Royal Institute of Public Health, Dublin, 1911.

OFFICES: MUNICIPAL BUILDINGS,
CORK HILL, DUBLIN.

April, 1911.

In 1898 a Congress of the Royal Institute of Public Health, was held in Dublin, and proved to be so great a success that Sanitarians speak of it up to the present as the best Congress they have ever attended.

There are heavy expenses attendant upon the holding of a Congress which have to be provided by the Local Committee. On the last occasion full financial support was given to the then Local Committee and contributed materially to the success of the Congress.

The Royal Institute of Public Health will again at the request of the Municipal Council, hold a Congress in Dublin from August 15th to August 21st, 1911.

All the more important subjects relative to Public and private Hygiene will be discussed in the Various Sections. Many distinguished persons have intimated their intention to take part in the proceedings of the Congress.

Excursions to various places of interest will be arranged for and it is hoped that the hospitality for which Dublin is famed will be fully exercised on this occasion.

The Secretaries will be glad to receive the names and addresses of any residents in or near Dublin who will be so kind as to receive visitors to the Congress from distant parts as guests, or invite them to dinner or luncheon.

As considerable expense will be incurred in order to make the Congress a success from a social as well as a scientific standpoint, subscriptions are asked for.

A list of those already paid or promised is hereby given. Cheques and Post office Orders to be made payable to Edmund W. Eyre.

HENRY CAMPBELL, Town Clerk,
CHARLES A. CAMERON, C.B. } *Hon Secretaries of the General Committee.*

Dear Sir

At a meeting held
on Wednesday evening
it was proposed that
a letter be written to the
Corporation, calling on
the public health Committee
to have the unsanitary
condition of Dicksons
at once remedied, as it is
at present, during this
close season, it is a danger
to the public health, as
the closets are not working
Trusting the necessary steps
will be at once taken
Yours truly

L/AH/PH/1/2/1(136)

Sir,

It is now over two weeks since the committee visited Mrs Burkes marine store at High Street and now it is as bad as ever. On Monday evening the fumes from her premises was something terrible and two men were eating their supper in my house and they had to stand up and walk out when the fumes came into the kitchen Mr Dalton was passing bye

at the time and I called
him he can testify to the
bad smell. Will you kindly
visit her premises to-day
and see for yourself the
condition they are in. If
the Corporation do not prevent
this I shall be forced to
place the matter before
the Local Government
Board for I will not put
up with it any longer.

I Remain, Sir,

yours sincerely

Mr. J. J. Peacocke.

17th May 1911.

Gentlemen.

I am very pleased to be in a position to report, that with the exception of a case of Scarlatina notified to me this morning from Carey's Road, the city at present is ^{otherwise} free from epidemic infectious diseases.

In order to maintain this excellent state of affairs it is highly desirable, owing to the great outburst of heat, that every possible attention should be given to the flushing & brushing of the surface of ~~the~~ lanes & channel courses - particularly those of Carey's Road, Nelson St., Lower Gerald Griffin St., Munroe St. Watergate the Windmill, Palmerstown etc.: These are the most infected localities in the city and require constant looking after by the cleansing staff during the summer months.

Yours obedt Servant
M. S. McGrath

Limerick Corporation.

Gentlemen I Beg to draw your attention to a subject that will in my course come before your Committee namely the unhealthy and dangerous & unsanitary condition of the slaving close held by a man named Croftman in Dinohes Row. It is situated next door to my house 7 Carr St. there is a large & bones stored there the since at times is unbearable especially in warm weather the rats are numerous & my family's sleep is out of the question at night time.

In a spirit of Liberation I did not object to the man getting a license some 4 years ago. I was asked at the time by the neighbours to do so now to my cost & loss the result in danger of contracting sickness of a bad type at any moment. It is after long persuasion going back 2 years that I now object yours obdiently Andrew Lee

5 April 1911

Gentlemen

I beg to report that a case of
Scarlatina has been notified to me. This young
patient has been in Dublin for some time past and as
he returned only on Friday last there can be but little
doubt that he brought the disease with him. He is
isolated in Hospital and the necessary
disinfection has been carried out. In connection
with the complaints of bad smells by the
inhabitants of Connell Street and the citizens generally
particularly referred to Rock Street Corner. I
inspected the Bacon factories and slaught
houses in close proximity to that locality, and
found the slaught houses much cleaner than
on former visits though one or two are not up

to the man-hole not being properly ventilated.
The factories are as well kept as circumstances
permit but allow boiling water to flow into the
sewer is a practice that must be put a stop to.
Rock Street Sewer from the amount and nature of
its contents is one of the most important sewers
in the city; the complaint is undoubtedly due to
sewer gas, and in all probability this is ^{in part} ~~in part~~
influenced by certain states of the tide and can
be only got rid of by a proper flap over the
mouth of the sewer with the prohibition of
pouring much hot fluids such as boiling water
into any portion of the main sewer.

Yours Obedt Servt.

The Mayor

Tom Hall

Dear Sir.

I purchased a house & found about two years ago at Castle View Gardens, I was surprised to find that there was no sanitary accommodation in same, only a pit which is up to the back doors. There are ten houses in the gardens, only two of which are connected with the main sewer, which runs just outside the gate. It is rather extraordinary that the Corporation would allow such a thing to exist in modern houses, without being connected

with the main sewers. I am prepared to make
a connection with the main sewers if the
Corporation will compel the other occupiers
of the gardens to join with me. Please let
me know what you intend to do in the
matter, as summer is coming on & there
is great danger of disease.

Gentlemen

I am pleased to be able to report that the state of the city from a health point of view continues to be very good. The case of Enteric from Vizesfields being the only infectious disease notified since last meeting. This case was one of three, the father, mother & child, the disease manifested itself first in the father, and was due more to poverty and overcrowding in a bad insanitary house in Parkers Range. I have reported this house as being unfit for human habitation and it is at present locked up. I received during the week a letter from the Local Govt. Board enclosing

28 December 1910

Gentlemen

With reference to the probable
cost of having made Tuberculosis a Compulsory
Notifiable Disease in Limerick, the only
items of increased expenditure would come
under the following heads - Viz.

Notification -

Disinfection & Cleansing of infected premises -
Stationary & Literature relating to tuberculosis.

Appointment of a Bacteriologist -

LIAH/PH/1/2/1 (166)

LIMERICK COUNTY BOROUGH COUNCIL.

M. S. McGRATH, L.R.C.P., D.P.H.,

MEDICAL SUPERINTENDENT

OFFICER OF HEALTH

TELEPHONE No. 222.

18, The Crescent,

Limerick.

2

Of these-Notification would be the
heaviest, and that even at the onset should
not be more than about £20,- the cost of disinfection
and Stationary would be extremely small, and it
is usual to give the Bacteriologist 2/6 for
every specimen of Sputum examined by him.

The present day idea as regards tuberculosis
is to fix at the very root of the disease, and
thoroughly stamp it out, so that if proper
steps are taken by the various Sanitary
Authorities in this Country & similar to
those that are being carried out in

America - Great Britain and General
other Countries at the present time. Tuberculosis
instead of being the dreadful scourge it is
should become a disease of the past and be
as rare as smallpox.

There were 2 cases of Enteric, and 3
Cases of Scarlatina notified to the Council last
meeting - the Enteric cases were a brother &
sister from Leyman Lane John Street, and as
the whole family consisting of 5 persons have
to live in a small kitchen the cases are to be looked
upon as sporadic and due to overcrowding.

16th Nov. 1910.

Gentlemen

In Compliance with your request of the 2nd inst. I beg to report that the Tuberculosis Prevention (Ireland) Act 1908 is divided into four parts - Part I refers to notification of certain forms of the disease, and to the disinfection & cleansing of infected houses, clothes, bedding &c.

The Act limits notification to cases of Tuberculosis which are a danger to others owing to the infectious nature of the discharge from the patient, namely, to Tuberculosis of the Lung -

2

In Limerick, hitherto we had no means at our disposal of accurately ascertaining the number of persons suffering from Pulmonary Tuberculosis, but for the past ten years the aggregate number of deaths under this heading in the city has, 1,119, or considerably over one hundred each year - It is considered a fair estimate to reckon the number of persons suffering from the disease ~~but~~ ^{by} those who have succumbed to it as 3 to 1, thus giving in this calculation 300 people in Limerick City suffering from Pulmonary Tuberculosis at the present time -

3

Beating in mind the present day teaching, that Tuberculosis is infectious, preventable, not necessarily fatal, - and Capable of being stamped out, - it is the imperative duty of all Sanitary Authorities in this Country, particularly so, those of County Boroughs, to adopt every possible means to combat the disease. - The first weapon needed in the fight is "Notification" without which no knowledge can be gained of where those cases are, and consequently no attempt at having them properly attended to, such as instructing

instructing patients how the disease is to be arrested, and to teach the members of their families and neighbours how to avoid contracting it. The Act if fully availed of gives power to take such measures as are authorised in the case of an infectious disease, namely the destruction ~~and~~ disinfection of infected articles, such as the cleansing of the rooms or premises, but the Medical Officer of Health or his Council are not authorised to enforce directly or indirectly any enactment which renders the poor person or a person in charge of ~~the~~ ^{his} person liable to a penalty or to any restriction,

5

prohibition, or disability affecting himself or his employment, occupation, means of livelihood or residence on the ground of his suffering from Pulmonary Tuberculosis. Coming to the probable cost of the working of this Act, a fee of 2/6 is to be paid for a notification, unless when the notification comes from the Medical Officer of an Hospital, Lunatic Asylum or Workhouse, for such the fee is one shilling. The medical officers of the dispensaries are entitled to a fee of 2/6; which is not the case under the provisions of the Infectious Diseases Notification Act.

M. S. McGRATH, L.R.C.P., D.P.H.,

MEDICAL SUPERINTENDENT

6

The only other sources of additional expense would be the cost for cleansing, disinfecting, & fees for a Bacteriologist. In the early stages of the disease it is of importance that 'Tubercle Bacilli' should be recognised and as this is not an easy matter to determine, provision is made in the Act that the services of a Bacteriologist may be retained and placed at the disposal of local medical practitioners: It is considered most desirable that, whenever Part I of the Act is adopted, a Bacteriologist should be employed to examine samples of sputum, the smallest

Re. Drainage

Dear Sir,

In compliance with an Order made by the Magistrates at Petty Sessions I was directed to put in W.C's for nine houses in Dicksons Lane and connect same with the Main sewer. I have got Plans and specifications from an Engineer and find that the cost of same will come to something over £75. The average rent for these houses comes to 1/7 a week for each house, and my Client holds under a Lease for Lives the last life in the Lease is over 90 years of age and the Lease is not renewable on his death, under these circumstances if the sanitary authorities insist on the work being carried out it will be necessary for me to evict all the holdings and close up the houses as my Client has not sufficient money to carry out the work, and adopting this measure would be a great hardship on the poor people living in the houses. The profit rent out of these houses is at most £10 a year, and for some years there has not ben any profit rent, as same has been laid out in keeping the houses in repair, and complying with orders from the Sanitary authorities as to whitewashing etc.

Under the above circumstances, I respectfully request the the Urban Sanitary Authorities not to compell me on behalf of the Owner, to close up the premises, as I will be compelled to do so, or else double their rents, which will alsò means Ejectments as with very few exceptions the present occupiers would be unable to pay same.

Will you kindly lay this communication before the next meeting of the Urban Sanitary Authorities- and let me know their dicision in the matter.

FAITHFULLY YOURS.

Limerick.

His Complaint. I found that the only
Sanitary Accommodation at the Alms house
Nicholas Street is a privy which is nothing short
of a festering nuisance and particularly so
when it is being cleaned out; - this man has a
second grievance that the surface water
from the back of the Alms House and from
a lane in close proximity to it flows in a
drained garden belonging to a Mrs Hickey
at the side of Daly's dwelling house, and
at times this must be very objectionable and dangerous.

The whole place can be made
Sanitary by removing the old privy from the
Alms House and putting in its stead a proper
water closet to be drained into the river

the National Theatre Assembly Hall on the
nights of the 27th 28th 30th & 31st of January on the nights
of the 1st 2nd 14th & 18th. I did not find anything to direct
fault with in the management of the place.

I also visited the Theatre Royal Henry St
on the nights of the 27th 28th 30th & 31st January and on
the nights of the 1st 2nd 14th 20th & 21st. Instant I found
on the night of the 27th ^{Jan} in the Pit some of the seats
were unoccupied but there were several people standing
in back and side passages in the gallery all
seats were occupied the back portion being
blocked by those standing there, on the night
of the 14th February I found all the seats in Pit & gallery
occupied and a large number of people standing
in the passages

To

The Chairman & Members
of the Public Health Committee

Gentlemen

I beg to report that I have visited
the National Theatre Assembly Hall on the
nights of the 6th 7th 9th & 10th and found no cause
of complaint -

I also visited the Theatre Royal
on above nights. I found on the night of the 6th
nothing to find fault with in any part of
the House on the 7th the Pit was in good
order but in the gallery there were a very
large number of persons standing in back
portion the doorway being kept clear
on the 9th the performance had to be
adjourned owing to some mishaps having
occurred in the Machinery - on the 10th
all seats in Pit and Gallery full & several
persons standing in the passages

D. G. M. M.

L/AH/PH/1/2/1(215)

The Smoke Abatement League of Great Britain.

20, Mount Street,

Manchester 20th. Decr. 1910.

Chairman of Health Committee.,
Limerick.

Dear Sir,

I have pleasure in enclosing herewith a copy of the Annual Report of the Smoke Abatement League of Great Britain.

You will notice on Page 1. of the report, that Municipalities may become affiliated to the League on payment of an annual subscription of £1. 1. 0., and that this gives the right to nominate two members of the Council.

It is generally agreed that it is impossible to make much progress in the campaign against the smoke nuisance without new legislation.

We are at present engaged, in conjunction with the London Coal Smoke Abatement Society, in drafting a private bill, which is to be introduced into Parliament as soon as possible. In connection with this we should like to have the assistance of your municipal experience.

It is also important to show how strongly public opinion is in favour of such a reform and how widespread this feeling is. I should be obliged if you could help us by inducing your Town Council to become affiliated to our League.

Yours truly,

E D Smith

To

The Chairman & members
of the Public Health Committee

Gentlemen,

I beg to report, that, I have visited, the Theatre Royal, Henry St., on the nights, of the 9th, 10th, 12th & 13th Inst., on the 9th I found, a large number of persons, standing in the sides and back passage, of pit, there were a few seats, vacant, which could accommodate, the most of those standing in side passages. In the gallery, all the seats, were occupied the back part, being overcrowded, by the large number of persons, standing. On the 10th the pit was in fairly good order, the gallery, being in the same state, as on last night, On the 12th there were few persons, in the pit, but the gallery was in the same state as on the 9th & 10th, On the 13th there were few persons in any part of house.

I, also visited, the 'National' Theatre, Assembly Hall, on above nights, and found, it on each occasion, in fairly good order,

Gentlemen

I am pleased to be in a position to report that the city is in a most satisfactory condition as regards infectious notifiable diseases - only one such case (Scarlet Fever) has been notified since last meeting. This case occurred in Mallow Hospital and is isolated in that institution.

The death rate is equally satisfactory the average being 10.6 for the past four weeks, a much lower figure than that recorded for most of the other towns in this country during the same period. Yours Truly,
M. S. McGrath.

To.....

Dear Sir,

The dam to be erected under the Lower Shannon at the head gates of the Limerick Water Works at Ferganagh North Townland, will be constructed in some such manner as follows, - Girds about four feet wide will be erected about ten feet apart, and between these girds sluice gates will be placed, only in times of drought which occur for about a period of four weeks in a dry Summer. The sluice gates will be removed when the drought ceases so that there will be no obstruction to the fish, except the piers unless in times of exceptional drought, when I understand there is no fishing. Under these circumstances, I would request a reply to the enclosed.

Yours faithfully,

The Chairman & Members

of the Public Health Committee

Gentlemen,

I beg to report that I have visited the Theatre Royal Henry St. on the nights of the 18th, 19th, ~~21st~~, 22nd, 23rd & 24th November and found on the 19th about half the number of seats in the pit were vacant there were some persons standing in back passage. there ^{were} only few persons in circle or stalls. In the gallery all the seats were occupied there were several persons standing in back portion on the 22nd & 23rd there were some seats vacant in the pit, and a large number standing in sides & back passage, the most of whom could be seated if they wished it. In the gallery all seats were occupied and a large number standing in back portion. On the nights of the 18th & 24th all parts were in good order. on any of above occasions few persons were present in circle or stalls

I also visited the National Theatre Assembly Hall on the nights of the 18th, 19th, 21st, 22nd, 23rd & 24th inst. and found on the 18th, 21st, 22nd, 23rd and 24th all parts kept in fairly good order on the 19th all seating accommodation in pit was taken up. there were several persons standing in side passages, but ~~the~~ about the door was kept quite clear. The upper portion of house was kept in an orderly state. On the other nights above mentioned all parts was kept in good order.

Dear Sir,

In reply to yours of the 18th inst. Part I of the Tuberculosis Prevention Act, 1903 has only just been twelve months in force in the Urban District. In addition to the carrying out of the Notification Clause we have appointed a duly-qualified Tuberculosis Nurse for the purpose of looking after patients both in their own homes and in the open shelters, provided within the District. Our Total Expenditure is made up as follows:-

5 Shelters provided by Ladies Comtte	-
51 Cases Notified @ 2/6 each	26 . 7 . 6
Books and Forms, say,	2 . 10 . 0
Nurse's Salary	66 . 10 . 0
Total	£75 . 7 . 6

In addition to the foregoing the Ladies Committee raise a considerable sum by public Subscription for nourishment for the poorer patients.

Yours faithfully,

Henry O'Hara

Clerk of Council. etc

Town Hall,
Kingstown.

22nd November, 1910.

Dear Sir,

In reply to yours of the 18th inst., I beg to inform you that the cost of administration under the Tuberculosis Administration (Ireland) Act, 1908, for the past year in this district has been trifling, beyond the cost of supply of stationery and small fees to the Medical Officers in the district, no further expense has been incurred.

I would say about £3. would cover the expenses for the year.

Yours faithfully,

Town Clerk.

Dear Sir,

re PROPOSED SLUICE AT CASTLECONNELL
COLONEL J. MASSY-WESTROPP'S FISHERY.

In reply to yours of 11th inst, we have heard from our client, and he considers that if the proposed project is carried through it will cause more damage to the Fishery than the previous proposal which you communicated to us, and, therefore, he will expect a larger amount than £3000 compensation which he ^{has} already mentioned as the amount which he would accept.

Yours faithfully

F. M. Fitt & Co

To the Chairman & members
of the Public Health Committee

Gentlemen

I beg to report that I have visited
the "National" Theatre Assembly Hall on the
nights of the 4th 7th 8th 9th 10th inst and found
nothing to find fault with.

I also visited the Theatre Royal on the
nights of the 7th 8th 9th 10 inst and found that in
the Pit there were a few seats vacant but not
sufficient to accommodate the persons who
were standing in the passages. I found all the
seats in the Gallery occupied the passage
at back overcrowded, the stalls and circle
in good order.

I also beg to report that in accordance
with Mr. Peacock's instructions I asked Mr. Gogarty
if he would allow me to see the numbers of the
tickets sold from the first to the last but
he refused to do so he told me that he
would write to Mr. Peacock on the matter.

I am Gentlemen

Your obedient servant

Denis Quinn - S.S.O

Dear Sir,

New Sewer.

At the meeting of the County Borough Council on the 3rd instant the recommendation of the "Public Health Committee," of the 2nd instant, to the effect that a branch sewer be constructed in Exchange Street so that Mr Harty can connect the drain of his new house was read and adopted and the work ordered to be carried out.

Application for Increase of Salaries.

At same meeting the application of the Sanitary Sub-Officers for an increase of salary, and the recommendation of the same Committee, of the 19th ult. to the effect that the salary of each Sanitary Sub-Officer be increased from 25/- to 30/- per week, were read and considered when it was decided that the recommendation be adopted and recommended to the Estimate Committee, as advised by the Law Agent.

re Application of Mr E. Barry, Dairy Inspector

The recommendation of same Committee of same date re Mr Barry was adopted and his application for remuneration was referred to the Estimate Committee.

Yours faithfully,

Town Clerk.

TOWN OF LAUREL

1910

Dear Mr. H. H. H.

Finding it absolutely useless drawing the attention of the Sanitary Authorities, to the State of affairs allowed to exist for years past in the above Lane-way. I will ask you to ascertain for me what the Corporation intend doing in the matter before State proceedings towards the necessity of the heavy losses I have been put to turning to being debased the use of entry to our fine premises via this Lane-way which has become a regular commonage ever since Councilor Green broke entrance into it from his back yard to which I objected then, and many times since as you are already aware.

You will please bear in mind the very many complaints I have already made over & over again about the scandalous filthy condition of the place, which condition Mr. Baedek told me must exist as long as an entrance to Ball Alley was allowed via this Lane. Yet when refusing me to get the fine old wooden gate repaired and kept locked as always, in answer to me on this place being allowed to become as above mentioned was the Corporation have no objection.

You have.
Of course I do not doubt the Executive Sanitary Officers veracity, but I certainly will not for a moment believe that were the entire facts of this matter

Replied to
May 27
and for
2/1/10

known to the Corporation they certainly would
not tolerate the state of affairs that have
existed here & will continue to the present
moment.

Attest
John H. Limerick

Please note the iron fence made of newly
erected iron gate in Lane, put up in lieu
of wooden one, was to utilize same, as a
turnstile, for a hand ball match in
evenings, but by parties who entered this
Lane via Bank Place & deliberately broke
lock of same. After learning which I had a
new lock fitted for it, and departed
duplicate keys for same in City Surveyors
Office for the use of those entitled to same
for which I hold receipt.

Y. J. Peasebell Esq. B.A.; B.E.

"Rebuilding Shannon Laundry"
Nelson Street.

for P. R. Toppin Esq.

Dear Sir.

I enclose herewith tracing showing plan & section of the above.

The following is a description of the building;—

The existing external walls on the N. & E. sides are of cement concrete eight inches thick; the upper portions being glass lights. Those on S. & W. sides are of brick.

The walls around Boiler House are of brickwork in cement 9" thick as shown & carried up through roof to a height of two feet above same.

The roof is composed of No 1. quality Graves' fire-proof roofing felt covered with mastic composition & nailed to 1" boarding on strong pitch pine & spruce lattice girders placed three feet apart. The girders are carried on 9x4" plates supported by existing cast iron stanchions as shown. These stanchions are braced by 5/8" iron rods placed between every third pair.

The roof over Boiler house will be of galv. iron.

The W.C.'s are to be well ventilated from the outside & to be complete with 4" cast iron vent pipe with joints run with lead. The whole of the sanitary arrangements will be as before, including

the drainage which is undamaged.

The floors coloured yellow on plan are to be of timber; all other floors will be of cement concrete.

The chimney from boiler will be raised as shown on section.

The size, height & general arrangements of the building will be as before.

I remain,

Yours faithfully
W. Clifford Smith

Gentlemen

With the exception of
three Cases of scarlatina I am pleased to
be able to report that the City at present
is otherwise free from epidemic notifiable
diseases. The usual precautionary
measures have been carried out in each
of these Cases. The death rate in Limerick
City for the quarter (13 weeks) ending 1st October
was 13.8 per 1000 persons, and in this respect
we compare very favourably with Cork
London Derry + Waterford, the death rate for
the same period in each of these Cities was
15.4. 15.5 and 19.3 per 1000 respectively.

I am, Sir, very
Yours truly,
M. S. McGrath.

City Surveyor.

Dear Sir,

At the meeting of the Council on the 7th instant your letter of the 26th ultimo was read and the following recommendations of the Public Health Committee of the 21st ultimo were adopted viz:-

1---"That the £100 on the Estimate provided for a new W.C. and Urinal at George's Quay in place of one at Mathew Bridge be expended in providing a proper W.C. and Urinal in Lower Cecil St. in place of the present one which is unsuitable."

2---" That the necessary steps be taken to ascertain cost of a dam including amount to be paid for Fishery rights across portion of the river at the head gates at Clareville so as to secure that there will be always sufficient water to work the turbines and avoid the necessity of going to Rhebogue for a supplementary supply."

The question of the adoption or other-wise of the Tuberculosis Prevention (Ireland) Act, 1908, or any part thereof was referred back to the Public Health Committee for report and a definite recommendation to Council thereon. I return the Memosent by you with your letter of the 26th Sept.

re Dam at Clareville

Dear Sir

I am in receipt of your letter of the 26th. It is not certain that the proposed erection of this dam can be carried out without a Provisional Order. In any case it would be well to interview Mr Blood Smyth and ascertain his views on the subject. It appears to me that all the persons compensated before should again be compensated and if these gentlemen are all owners in fee the matter might be arranged by mutual agreement.

I yours faithfully
Wm Handley

Theatre Royal,

LIMERICK.

28/9/10.

Dear Sir,

Your letter of the 26th inst. received, which I am rather surprised at, as you know sometime ago I lodged with you plans of alterations I was doing at the Theatre with regard to cloak rooms and lavatories, and I also would like to refer you to your letter to me on the 21st June last, from which I quote the following sentence. "The Committee decided that if these were provided and the passages at all performances kept clear, the safety and convenience of the public would be reasonably secured." On the strength of this letter I do not see what you mean by your letter to me of the 26th September. I told you in your office that I intended cutting a passage down the centre of the gallery, and would eventually, when I got going a bit, try and construct a 2nd staircase at the opposite end to where there is one at present. I am quite willing in every way to meet the Public Health Committee with regard to the safety of the public in the Theatre Royal, but I must beg of them to give me a little time, as the expense that I am incurring through putting in lavatories, etc., is very heavy on me. I am sure if you place this letter before your Committee they will not press this matter for a while to come. Now that I have complete control of the Theatre, anything that I can possibly do for the safety and convenience of the public will be done.

Trusting this letter will explain everything.

Believe me,

Yours faithfully,

George V. Nugent

21st Sept 1910.

Dear Sir

I Just a few lines to let you know I had the use of my back yard for the last few months but now I will have to keep from it because there is a smell there it was often the case before I had to get out of my bed in the morning to shut ~~up~~ the window from the smell coming in the reason is the woman next door (Mrs Hickey) is after getting in some jugs which is not more than five yards away from my bedroom window. Please will you make some arrangements to my satisfaction if not I will have to leave if I want to mind my health.

And Oblige
George Connor.

Sir

I would feel obliged to you if you would get the tenant of No 5 Mr Hickley to remove the quantity of Pigs he keeps in the back as the are inquisious to my Wife and Childrens health. I cant raise my back Bedroom window with the foul smell arising from them. and the doctor said it was the cause of my Children being sick some time ago he will vouch for the unsanitary and unfit condition of the place for a Pigary hoping you will see to their removal

Signed P Kelly

Limerick. 11 day of Sept 1900

J. J. Pocock Esq
Down Street

Dear Sir, I got enclosed
2 letters today from 2
of my tenants. The
1st and which they say
is unsanitary is between
the 2. Now what I
know of both tenants
who write. I should
think the complaints
are not exaggerated.
Personally I have
nothing today to say

LH44/p4/1/2/1(271)

Wickery as a tenant,
but the pigs are ex-
traordinary objectionable
and I cannot remove
them. I would therefore
ask you to instruct the
sanitary officer to see
the place and satisfy
the sanitary authority.

I know the place
is very small and there
is a great number of young
children in the immediate
vicinity.

Yours truly

Wm M Nolan Esq
Town Clerk

Dear Sir

Poisons & Pharmacy Act 1908.

I return Mr W.B. Smith's application which I think must refer to this Act. I have looked into this Act and I don't see that it gives any power to the County Borough Council to issue Licences under it. Am I right in assuming that you have not received any orders in Council from the Lord Lieutenant making regulations as the granting of Licences re. ?

Yours faithfully
John Dundon

To The Chairman & Members

Public Health Committee

Theatre Royal Limerick

Gentlemen,

With reference to the plan submitted by Mr Fogarty of sanitary accommodation to be provided at the stalls of the Theatre Royal I beg to state that this is in addition to what Mr Fogarty has already been directed to provide according to the report of Dr Dr. Leah read and adopted on 15th June last. Dr Dr. Leah states that the following were necessary

1. a second lavatory for the dress circle for ladies
2. Lavatory and urinal for pit stalls
3. Lavatory and three urinals for gallery and pit

In addition to those Mr Fogarty is providing one w.c. and two urinals for males in the room off the bar and a w.c. and cloak room for ladies in the stalls also.

Mr Fogarty told me he intended to provide a passage through the centre of the gallery and improve the exit on to the staircase which is at present in a dangerous condition

Yours obedient servant.

J. J. Peacocke

The Chairman & Members
of the Public Health Committee.

Gentlemen

I beg to report, that, I have visited the 'Rinvi' Theatre on the nights of the 25th, 26th, 27th, 29th, 30th and 31st August, on the nights of the 1st, 2nd, 3rd, 5th & 6th September found it in an orderly state on above occasions, with the exception of the nights of the 29th August and 3rd September when I found all the seating accommodation, occupied and a very large number of persons standing in the Sides and back passages outside the barriers. ~~some of the~~

I also visited the 'National' Theatre on the nights of the 5th & 6th Inst. I found the place on Monday night very much overcrowded in all parts and passages blocked by the persons standing in them. On Tuesday night there was plenty of room in the upper part of the house, but pit was in the same state as on last night.

Gentlemen,

I beg to report, that, I have visited the 'Kinri' Theatre Wellesley Place on the nights of the 16th, 17th, 19th & 20th Inst. I found that on Saturday night 17th inst. there were a large number of persons standing in Back & side passages outside the barriers but the means of exit from those places was kept ~~for~~ fairly clear. the centre of hall was very orderly. On the other nights I found nothing to find fault with

I also visited the 'National' Theatre Assembly Hall on the nights of the 16th, 17th, 19th & 20th inst I found that on each occasion that the pit was very much overcrowded, the seating being completely taken up and persons occupying them uncomfortably crushed. the passages were also packed by those standing. the upper portion of house was in fairly good order

of 1908 I paid £22 for taking down a wall & rebuilding a little house as ordered, as well I had repairs to the other houses & rates & taxes about £10 for that year also - so you will see it is all pay, pay, pay, with this old property. at the present time I am having repairs done, which I myself saw were necessary when I was in Limerick. I hope the Committee will see their way, not to ask me to do such expensive work on a place that brings in so trifling a sum.

Yrs Truly,

F. Riordan Letters

P.S. The rents vary - if houses are idle, or the tenants now & then go off with rent due.

9 Fallow St
 Chelsea. London. S.W.
 Aug 15th 1910.

Dear Sir

Yours of the 5th received re rents
 in Michael's Lane. I made up a/c's for
 one year & find as follows;

Cash collected for
 one year

£ 48 7 9

Paid away in
 the one year

Prate £ s
 Mr Harris 2 1/4

Rates 7 - 1 - 11
 Mr BO'Donnell)

Paid away on 9 - 3 1
 repairs etc.

£ 18 19 0

So that £ 29 8/9 was all we actually
 got out of the place. In the Spring

Gentlemen.

Since last meeting three cases of Fever have been reported to me two of typhoid and one continued (probably typhoid). —

The first of these gave a history that she came home ill from Orsera in which place she has been living for some years and consequently caught the infection there. The two remaining cases are laid up about the same time, they lived in different parts of the city one in Colapney street and the other in Wickham Street, as neither give a history of being

Limerick.

in Contact with such cases not
being different from the rest of the citizens
they can only be looked on for the
present as being of sporadic origin. It
might be well, however, to see that the
filter beds in Clareville are alright and
in good working order as the water
at this season of the year is liable
to pollution. The cases above referred
to are isolated in Hospital and the premises
have been disinfected. I beg to
submit the reply from the Local Govt.
Board to my letter seeking an
order under Sect 18 of the Tuberculosis
Prevention Act.

Yours truly,
M. S. McGrath.

Left in the hands of Mr. O'H
to send samples of water
for analysis of the results
it was to do so.

property on the High Rd
which was flooded to
such an extent for some
hours each day during
the past week as to
render both road and
path impassable.

Some of my tenants

L/AH/PA/1/2/1(312)

being unable to approach their houses.

I recently expended a large sum of money in erecting decent houses there, and it is too bad if I am to suffer owing to the Council's negligence, in providing a proper sewer to take away the water and sewage. If this state of things is allowed to continue, much longer my houses will become uninhabitable.

Will you kindly therefore bring the matter before the Council at once.

L/AH/PH/1/2/1(313)

as unless the sewer
is put in order without
more delay I will
instruct my Solicitor
to take the necessary
steps to compel the
Council to do so.

Yours Truly

To the Chairman & Members
Public Health Committee

Gentlemen

In reference

to the statement of
Mr. Domicely that there
is an offensive smell coming
from my place. I beg to state
that whatever offensive
odour is in the district
is not from my yard, and it
is well known to the people
of the locality, and no doubt
to members of the Corporation.

that I created?

I am Gentlemen

Yours faithfully

Wm Russell Beatty

that there was a smell in the
locality before I ever started
business there. As evidence
that the odor does not come
from my place I have you a
memorandum signed by the
people of the locality, and a
letter from the previous
occupant of Mr Donnelly's
premises. I have carried on this
industry in Nelson for the
past 13 years and I have (as
I know the undercurrent in this
matter) every reason to complain
of persistent attempts to ruin
my business and the annoyance
loss of time and inconvenience I
am put to in defending my living
and the interests of the industry

TELEPHONE No. 222.

18, The Crescent,

Limerick.

15 June 1910.

Gentlemen,

In accordance with your instructions Mr Peacocke & I visited the Theatre Royal on the 13th inst. - We found the existing sanitary arrangements in good working order, there being only lavatory accommodation in connection with the stage and dress circle male side; like arrangements should be extended to the following places in the building -

Viz -

1. A second lavatory for Circle (Ladies).

M. S. McGRATH, L.R.C.P., D.P.H.,

MEDICAL SUPERINTENDENT

OFFICER OF HEALTH

TELEPHONE NO. 222.

18, The Crescent,

Limerick.

2

[Signature]

2. A lavatory and Urinal for the pit Halls -

3. A lavatory and three Urinals for the gallery and pit -

Considering that the longest time the theatre will be occupied at a stretch ~~will~~ be about three hours. I am of opinion and Mr Peacock is in agreement that if the above mentioned lavatories and Urinals are provided on the selected sites, all the sanitary requirements will have been met with.

The Chairman & Members
of the Public Health Committee

Gentlemen

I beg to report, to your Committee, that, I have visited, the "National Theatre" assembly hall, on the nights, of the 3rd. 4th. 6th. 7th. 8th & 9th Inst. and found nothing, to find fault with, as regards the seating accommodation provided for those attending the Entertainment. There has been some alterations carried out, by the removal of the ticket office at foot of Stairway leading to boxes, and by the enlargement of the door passage, which gives a better means of ingress and egress, from the boxes on to the street there is no alteration. ~~there is change in~~ ~~alteration~~ in the front or side benches in upper part of house, the passages from those places are very narrow, and are liable to get blocked, in case of a rush

I also visited the "Rink" "Electric Picture Palace" Wellesley Place on the night of 6th. 7th. 8th & 9th Inst and found nothing to complain of

I am Gentlemen

Sir -

I beg to report ^{23, John St}

I visited John O'Donoghue's Common Lodging house
this morning the 15th inst - at 1.30. O.C. Am.

No. 1 Room for married people I found 4 Beds occupied
by 5 Female, & 3 male persons. This room is only registered
for 5. There was 3 over the registered number - allowed.

In one of those Beds I found two Sisters, Hannah Jackson
and Mary Jackson the are about 16 or 17 years of age.
The are known as two young suspicious Characters.
The gave their name at first to me as O'Brien but I knew them.

No. 2 Room I found 11 Men sleeping in 5 Beds 2 men in each
1 Small & Bed, 1 man. This room is only registered for 9
men. There was 2 in the room over the registered number -
those 2 Rooms are large the beds & Bedding are clean.

No. 3 Room, I found 3 Beds with one man. Sleeping in each bed
this room is registered for 4 men. 1 less than registered number.

In the Kitchen I found a bed thrown down on the floor -
with an old woman sleeping in same her age is about 70 years.

I remain Sir -
your Obedt Servant -
John McNamee Inspector -

2/
owned by Mr Otto Hazelbeck in which
he carries on the business of fat scraping. I
visited the place and found that while every effort
has made by the owner to keep it in a sanitary
state, a public nuisance to a certain extent
still remained, particularly when the fats
are turned the smell at those times being
offensive in the immediate locality. I am
really of opinion that a business such as fat
scraping should not be carried on in a
congested area such as Nelson Street - Surely
some place in an open locality might be
found for purposes of this kind.

Yours Obedt. Servt.

Mr Mayor, Gentlemen

In compliance with your order of the 14th or May 1910. as to inspection of markets, dairies & milkmen. I beg to report as follows. On my last visit to Park & surrounding district I found almost all the persons registered under the order have sold their cows. The reason for this being that they have not any grass land for the cattle & milk which is being sent to the city is very inferior. In consequence of this I have very little to report on the subject.

As to the milk sold in the city. I am of the opinion that during the summer months of the year that at least half of the vendors of milk should be restricted from selling milk. I saw so on the polling grounds, viz. In most of the places I visited I found that the cows whose milk is sold are very small and angulated & that all kinds of valuable material & especially protein is lost and quite lost to where the milk comes on the shelf.

As to the manner in which the milk is kept clean, but in most cases is unclean. I find that the milk is not strained in most places. They remove it on the spot. That the vendors pay in it in this condition they get the milk from the wholesale dealers. I further found that a good many vendors selling their milk are registered under this new order. The following is a list of some of the vendors they are now on.

Ordered that notice be served on the various parties to require at once to the public such requirements to

J. R. Ryan

J. J. Peacock Esq
BA BE
City Surveyors Office
Town Hall Limerick

Theatre Royal

Dear Sir,

I have carefully considered your letter of the 19th inst. In my opinion the Public Health Committee have no powers as far as this Theatre or any other Theatre in Limerick is concerned except under the Public Health Acts Amendment Act 1890. I am aware that Bye Laws have been made by the Council of the County Borough of Cork dealing with Theatres and their construction but these Bye Laws have been made under a special power

Limerick City Council 11/2/16339

given to that Corporation by the Cork Improvement Act 1868. There are no such powers contained in the Limerick Improvement Act of 1853 and I am of opinion that the Corporation are not entitled to make such Bye Laws under Section 125 of 3 and 4 Vic Cap 109.

The matter is very important and if the Committee desire to obtain further advice beyond that which I have given a resolution could be passed recommending the Council to have Counsels opinion taken on the question whether having regard to their present powers the Council is entitled to make Bye Laws dealing with Theatres and their construction etc

Yours faithfully

Wm. Dunne

Sir-

I beg to report-

I visited Patrick Walsh's Board and
Lodging House Corner-Baek Clare Street &
Flag Lane. at 11.30 A.M. P.M. on last
night - the 16th inst.

I found in the attic of house 6 Beds. Some
of the Beds were occupied with lodgers.
As in the same Condition as when I made
my previous visit.

I remain Sir-

Your obt-servant-

John McNamara, Inspector-
Common Lodging Houses.

are still in use, - and also over
the places where refuse is usually dumped
particular attention should be paid, ~~that~~
~~and~~ the Sanitary Officer should see
that chloride of lime be freely used -
Such places as those above mentioned become
the breeding ground and home for flies of
various kinds particularly during warm weather, which
flies are active agents in the spread of
many diseases, hence the importance of
systematic disinfection by chloride of
lime of such places. Doctor Mulcahy
informed me that he had already reported
on the nuisance caused by pigs
being kept on Mr Joyce's premises in
Thomondgate, and with the exception

W. M. Nolan Esq

Dear Sir,

Re-entrance to Handball Court.

On behalf of the members of the Limerick Handball Club, I request you to bring the following grievance before the proper authorities at the next meeting of the Corporation.

Ever since the Ball-Court was built in 1896. by Mr Ed Gleeson (now residing in Dublin) there was an entrance through the Watch-House Lane & along by the rear of the Town-Hall, and until a short time ago, the members of the above Club had an undisturbed Right of Way,

A new gate has now been erected by the Corporation, which deprives us of this privilege, which has in no way been abused by the members of the Handball Club. We understand that Mr Coleman of Rutland St. has lodged several complaints with the officials, & blames the members of our Club for the unsanitary condition of the lane, over which ~~they~~ have no control, but on the contrary do ~~their~~ best to keep the place in proper order if only for their own comforts. I may say the place would often be in a bad way were it not an entrance to the Court.

I would feel thankful if the Committee in charge, would see their way to let us have a key for the new gate as soon as possible, & we will undertake to do our share to keep the place in proper condition, which I daresay will be a much easier

now that the place is closed against the general public

we are deprived of the entrance through Mr Coleman's imaginary grievances. An important Branch of Ireland's National Pastimes will be denied the athletic youths of our City.

Thanking you in anticipation of having above placed before the Committee meeting which I understand is to take place on Wednesday next

On behalf of the Limerick Handball Club
J. Gorman

Yours faithfully
A. Cole

The fire is almost always
alight. Even the out-
ance is not much less at night -
as the smell of the horses and
refuse attracts all the dogs
in the neighbourhood.

Sir, I respectfully request you
to see the place, and you
will then see that my report
is not exaggerated.

(Enclosed)

Sir

Yours Respectfully

Sir I beg to report a nuisance

in a yard next where I live
which I consider very
dangerous to the health of
myself and family, as the
children frequently complain
of pains in the head if they
play at the back for any
length of time. I may add
it is dangerous to the entire
neighbourhood. The yard
belongs to Mrs Donoghue
who keeps in that small
place from about 16 to 20
fags a donkey, geese, ducks
hens and a couple of dogs

and no way to carry away
The fifth square by that number
of animals. A dam is
made at the end of the yard
and a small lake of liquid
fifth formed. It presents a
crust is forming on top, but
when rain falls this crust
disappears, and a steam and
stench rises up which is
unbearable. A hot sunny
day is even worse.

The out-houses are never
whitewashed, or any dis-
infectant used to deaden
the stench. I also complain
of a boiler used for boiling
the bones and refuse got at
one of the Military Barracks.
The pipe of which is about
2 yards from and ^{the top} in line
with my bed room window
which I can never open
on account of the smoke

Dear Sir, LAH/PH/1/2/1 (375)

I beg to report to you as to the general health condition of the cows, cowsheds & milk shops under my supervision as your Veterinary Inspector. I find that in the Milk Shops in the City, that the vessels for the milk are kept clean in most places, but consider that a good deal of the vessels are much confined & that there are other articles in sale such as oil in close proximity to the milk. As regards the health of cows, they are good, but the sheds themselves require more ~~cleaning~~ that to be better ventilated & the floors also need to be in better condition. As regards the manure I had it removed as far away as possible from the sheds. I hope to be able to make a report on individual cases at your next meeting.

Yours sincerely,
John Deaslie.

To The Chairman Members
of the Public Health Committee

Gentlemen

I beg to report to you that on Sunday the 24th April 1910. a report was made to me about the carcass of a diseased cow. which was in a yard in Father Quinn Lane occupied by Michael Mason of old Francis Street. I visited the yard and found the carcass in a putrefied condition. I at once reported the matter to Doctor Mc Grath who visited the premises on Monday the 25th and ordered the carcass to be destroyed. I accordingly had it carted to the Singland depot and witnessed its burial.

Yours obedient servant
Solomon Frost S.S.O

Limerick - 19-4-10

To The Chairman Members L/AH/PH/1/2/1 (383)
of the Public Health Committee

Gentlemen I beg to report to you that I visited
the Theatre Royal on the nights of the 8th 9th 11th 12th 13th 14th
of the present month to see if the provisions of
the Public Health acts amendment act were carried
into effect. I found on the night of the 8th that the
pit was overcrowded. The Back Central and
Side passages were full. the gallery also was
overcrowded.

I also visited the National
Theatre Charlotte Quay on the above nights
and found no cause for complaint

your obedient servant
Solomon Fort S.F.O

L/AM/AM/1/2/1 (384)

The Chairman & Members,
of the Public Health Committee

Gentlemen,

I beg to report, to your Committee that, I have visited the "Theatre Royal" Henry St. on the nights, of the 28th, 29th, 30th & 31st March, on the night of the 28th I found, the sides & back passages of Pit and door & back part of gallery blocked by persons standing in them. on the 29th & 30th there was no cause of complaint, the passages in those places being kept clear, on the 31st the sides, centre, back passages and door of Pit, and the door and back part of gallery blocked by people standing in them.

I also visited the "Athenaeum" up Cecil St on the above nights, I found on the 28th the gallery passage blocked by persons standing in them there were also men standing on the window sills on the other nights, there was nothing to find fault with.

I also visited the "National Theatre" Assembly Hall, ^{same nights as above} the passages in Pit being blocked by persons standing in them, all the seats being fully taken up, there is a large gate opening on to footpath which is opened up at end of the performance, each night, there is also a large gate at opposite side of Pit which opens into a large yard, and which can be used as a means of exit if required, there was plenty of room in circle & Boxes, passages being clear, the means of exit from those places is very narrow and only permits one person at the time to pass through to the street.

6th April 1910

I am Gentlemen your obth Servant
Daniel Kennelly S.S.O.

L/AH/PH/1/2/1(385)

The Chairmen & Members
of the Public Health Committee

Gentlemen

I beg to report to your Committee that I
I have visited the Theatre Royal Henry Street on the
night of the 1st inst on which occasion I found the
sides centre back passages and doors of pit and stalls
blocked by persons standing in them seating accommodation
in these places being fully occupied the gallery was also
overcrowded the seats being taken up and back passage packed

I also visited the Athenaeum on the nights of the
1st & 2nd inst and found no cause of complaint

I also visited the National Theatre Assembly Hall
on the nights 1st 2nd 4th & 5th inst on the 1st 2nd & 4th found House
full and passages blocked by persons standing in them
on the 5th found nothing to complain of

26 January 10

Gentlemen

I beg to report that a case of Typhoid fever has been notified to me within the past week. This disease has been prevalent for some time in Coodagh a district in close proximity to the city, and one from which milk is supplied daily. I went there several times to warn those milk suppliers, and see that the necessary precautions were taken. The fever in this locality was caused by the water becoming polluted with sewage and subsequently drunk by the inhabitants. As the use of this

2

Water has been discontinued, and as there have been no fresh cases for over a week, the disease can be looked on as stamped out.

With reference to the case in the City, it had no connection whatever with the cases above mentioned and was caused by defective ventilation & sanitary accommodation in a fairly crowded lodging house in Queen Street. The necessary precautionary measures have been insisted on and carried out - My attention has been also drawn to cases of measles in the City; - up to the present they are very few in number and are confined to families on the Circular Road. Isolation is being effected in those cases.

Yours obedt. Servt.

TOWN CLERK'S OFFICE,
TOWN HALL,

Limerick 10th January 1910.
190

Dear Sir,

At the Meeting of the County Borough Council, on the 6th instant, the following matters were disposed of viz:-

"That the recommendation of the Public Health Committee of the 29th December be confirmed viz that the salary of the Veterinary Inspector to be appointed be £40 a year.

It having been decided that the advt. for this position be issued at once, I shall be obliged for the terms of the appointment &c .

"That the recommendation of the same Committee of the 1st Decr. be confirmed viz:- That the resolution of Council of the 5th March 1905 be rescinded, which required a S.S.O. to hold a Certificate from a recognised Sanitary or Public Health Institute.

A Notice of Motion proposing to rescind the foregoing resolution and also the resolution of Council of the 7th December, 1905, was handed to and received by the Mayor.

The recommendation of the same Committee of the 29th Dec. was also confirmed to the effect - that an advt. be issued for a Limerick Citizen to fill the position of S.S.O. who must satisfy the M.S.O.H. and the City Surveyor as to his competency &c. This was embodied in the Notice of Motion handed in, and it was decided that the Notice of Motion be passed before the advt. shall be issued. The Council also agreed that Mr. Frost be kept on in his position until the election of a S.S.O. shall be held (the acting Law Agent having advised that he saw no legal objection to this course being adopted).

The recommendations of the Water Committee, as printed on the Agenda, (copy herewith) were confirmed. I have also notified this to the Secretary of the Water Committee.

Yours faithfully,

J. J. Peacocke Esq F.A., B.E.,
City Surveyor &c.

Town Clerk.
