A Ghara,

With reference to letter of the 27th ultimo, No. P.H. 367/83/1930, C.B. Linnicte.(Ac). I am directed by the Commissioner administering the affairs of the Limerick County Borough Board of Health to inform you that there is not any proper accommodation in the Home portion of the above Institution for the treatment of any class of Tubercular patients, consequently all such patients are placed in the hospital portion of the Institution and are accorded full hospital treatment. In the proposed reorganisation of the Institution, which the Commissioner hopes to put into effect at an early date, accommodation will be provided in the Home for the treatment of Tubercular patients. Owing to the system in vogue presently, it is impossible to arrive at separate figures for the average weekly cost of a patient in the City Home and Hospital.

In the circumstances, the Commissioner would be glad if the Minister for Local Government and Public Health would reconsider his decision and approve of a flat weekly charge of 35/- a week per patient until such time as proper accommodation can be provided in the Home for such T. B. patients as can be treated there.

The Commissioner further wishes to make application to the Minister for Local Government and Public Health to have the City Home and Hospital approved, in pursuance of Sec. 16 (1) a of the National Health Insurance Act, 1911 as amended by Sec. 76 of
of the Local Government Act, 1925, as an Institution for the treatment of Medical and Surgical Tubercular Patients.

Many thanks for your kind enquiries, I am very well (TG) and am going to Kilkee this evening for a week. I hope you are feeling very well and that you have completely shaken off your last attack.

The "City Home and Hospital" is exactly as it was when you were here last. The reconstruction of the Institution has not yet taken place as Mr. Geraghty is awaiting the consent of the Borough Council to the raising of the loan that will be required to carry out the works.

You will be glad to hear that the Commissioner is providing for a Nurse with Child Welfare Training for the new Home. It will certainly be a blessing for the poor children when she is appointed.

With reference to my letter of the 8th ultimo forwarding you copy of letter addressed to Mr. Thomas O'Glini requesting payment of the sum of £82:10 towards the cost of his maintenance and treatment while in the above hospital, I wish to inform you that this man has called on me and stated that he received no compensation from the Insurance Company while he was in hospital, and that he only received a sum of £14:0:0 after his discharge from the hospital. He further stated that he was unable to pay anything towards the cost of his maintenance, etc., as he had to provide himself with clothes, boots, etc., and pay off some debts due by him.

Will you please let me know if this man could afford to pay anything towards the cost of his maintenance, etc., while in the hospital.

A Chera,

With reference to your letter of the 16th ultimo, I wish to inform you that the amount claimed in my previous letter is not due to the Board of Health but to myself personally, as the liability of the Board in the matter was discharged when the cards were stamped and the amount of their contributions were charged to their account.

You will recollect that some time after your employment we discussed the question of stamping your National Health and Unemployment Insurance Cards, and you decided not to stamp them in view of the fact that your position would be made permanent at the end of twelve months.

I have no authority to charge the amount due to the Board of Health as these contributions should have been deducted from your salary when the monthly payments were made to you, and as this was not done owing to the decision come to at the time not to stamp the cards the amount will have to be born by me if you refuse to accept liability for same.

As the stamping of the cards arose out of your application for payment of Unemployment Insurance Benefit and in view of your decision not to stamp the cards, I don't think it is fair that the sum in question should be borne by me.

Yours Sincerely,

John J. Bailey Esq.,

Re: Mr. Michael Kelly, 4, James Street, Cork.

I beg to acknowledge the receipt of your letter of the 23rd ultimo, No. 7/22/30, herein, and to state that a Private Michael Kelly, aged 28 years, No. 49980, East Limerick Brigade, was admitted a patient to the above hospital on the 26th January, 1930 from Ballybunion, Sheerin's Cross, Killaloe, and was discharged therefrom on the 5th March, 1930.

The patient was admitted on the Medical Certificate of Doctor G. Scanlan who was acting as M.O. to the Brigade at the time, but the nature of the patient's illness was not stated on the certificate of the Medical Officer.

Owing to the large number of military patients that were being admitted to the hospital at the time the nature of illness for which the patients were being admitted was not recorded in the books of the Institution, and I am unable, therefore, to let you have any further particulars in regard to this man's admission.

A Chara,

With reference to letter of the 3rd ultimo, Ref. No. 21501/30 Ab. B.S.C.F. Luimnigh, I wish to state that on the 14th December, 1929, three children named Thomas Foran, aged 10½ years, Patrick Foran, aged 4 years, and Michael Foran, aged 2 years, were admitted to the City Home from Blackbull Lane, Limerick, as destitute, their parents having been each sentenced to three months' imprisonment for neglect of the children. The children were to be committed to an Industrial School by the Local Inspector of the National Society for the Prevention of Cruelty to Children, and they were only admitted to the Home pending the necessary arrangements being made by the Inspector to send them to the Industrial School.

The boys Thomas Foran and Patrick Foran were discharged from the Home to Mr. Collins, Inspector, N.S.P.C.C., on the 3rd February and 1st March last, respectively, and were, I understand, sent to Clon Industrial School. The boy Michael Foran is still a patient in the above hospital.

INSTRUCTIONS

Place refill on file this cover upwards. One wing only to be placed on the tubular pillars, with other cover loosely folded back underneath.

When file is filled to within $\frac{1}{16}$ in. from the top of the tubes, lift refill and tubes from arch, then place loose wing of refill over the tubes, and add the two thumb nuts to threaded pillars, thus forming a complete book.

The compressor to be replaced on arch for further use with new refill.
