~~Stocktaking~~

The Mayor or bláthman
Limerick City Council
Town Hall
Limerick

Dear Sir

In response to the advertisement, for a person to take, value and furnish lists of the stock in the City Name and Hospital for the half-year ending the 30th September 1936, I am submitting particulars of myself and my experience. I hope that the same will justify you giving me the work on this occasion.

I am over 40 years of age, a life long total abstainer and my principal means of living is by selling advertising space, I am on the local staff of the Irish Press, on a commission basis. As proof of my industry see the programme, of the last Motor Run, for which I canvassed the City traders.

In 1930 I had a bad break down in health, from which I am only now making any real recovery. This is the reason why I am compelled to seek casual work like that which you now offer.

Up to this time there was not any need for me to go outside my own business in order to make a good living. When the break came I was no longer able to keep calling on my customers, with the result that my connection went smash and it will assume I have the energy to do so, take some time to recover it.

In addition to a good commercial education and several years experience as a store keeper I have had the experience of doing the work, for which I now apply, on four occasions between 1932 and the coming of the acting manager in 1934.

YOUR REF.

6th January, 1937.

THE SECRETARY,
City Home & Hospital,
LIMERICK.

Dear Sir ,

THE "AVERY INCLUSIVE" MAINTENANCE SERVICE

We would be pleased to take your Weighing Machines into our care under the well-known "AVERY INCLUSIVE" Maintenance Scheme.

Our service provides for your work being attended to by specially trained and experienced adjusters, with expert supervision and advice from our District Headquarters.

Your Weighing Machines will be visited quarterly, when they will be thoroughly examined; the effects of wear and tear will be rectified; any indication of trouble will have attention before it develops; and, finally, the machines will be accurately adjusted and tested.

You will have the right to call upon us, if necessary, without further charge, on any occasion between our regular visits. Our advisory service will be available to you at all times.

The premium includes not only all repairs due to wear and tear, but also free replacement and fitting of the principal working parts, viz. :-

All knife-edge centres, steel or agate bearings, wrought-iron shackles, wrought-iron links, wrought-iron steeled legs and stays, counter-balances, suspension rods, ribbons, rubbers, hooks, bolts, nuts, and screws, where same are worn out as the result of fair wear and tear.

The replacement of other parts and the time fitting them, are not included.

We pay the fares and expenses of our adjusters and experts when visiting your machines.

It is at times advisable that scales or weighing machines requiring repairs, should be sent in to our depot; such repairs are included in our premium, in the same way as repairs done on your premises, provided that you pay cost of transit each way.

We attend upon the Inspectors of Weights and Measures whenever reverification of your Weighing Machines is necessary, and we see the job through for you; you paying only the expenses under the Weights and Measures Acts.

The re-graduation and re-notching of steelyards or dials is rarely required, and is extra; but we have special facilities for doing the work at moderate prices.

You will allow us the free use of the weights on your premises, or, we shall be pleased to lend you Avery standard test weights, free of charge, whenever required, you paying the cost of transit from and to our nearest depot.

Our premium does not include the provision of unskilled labour, as it is usually cheaper for our clients to provide the unskilled assistance necessary from time to time, for moving and lifting weights or heavy parts of machines.

You to protect sites, if necessary, whilst our work is in progress.

We can always arrange to work overtime if required to suit your convenience, charging you the usual extra, but, to safeguard our customers, our adjusters are instructed to procure a written order before incurring overtime.

The premium quoted is a low one, giving you the benefit of our large volume of contract work, and is based on the estimated average cost over a period: in consequence, we have to stipulate that this contract may be determined by six calendar months' previous notice in writing, given by either party, such notice to expire on the last day of March, June, September, or December; but no such notice to determine shall be given before the expiration of three years from the commencement of this contract.

This quotation is sent you in duplicate for your convenience. Will you kindly sign one copy and return it to us, and we shall then give our best attention to your interests.

Yours faithfully,

Dear Sir,

We thank you for your esteemed enquiry, and have pleasure in estimating for the supply of spectacles to the City Home and Hospital, Limerick.

We shall be pleased to enter into a bond with any approved Society for the due fulfilment of the Contract, which we hope would be agreeable to you, instead of submitting the names of two Sureties.

May we point out that all the work will be carried out in our workshops in Dublin by Irish trained assistants, and not farmed out to English (branch) firms domiciled here, whose profits do not remain in this Country.

Should you favourably entertain our estimate, we can assure you of a satisfactory optical service, and of our endeavour to merit your confidence.

Standard Conditions of Contract.

1. EXPERIMENTAL ORDERS.—Work produced in an experimental way at customer's request will be considered an order, and charged for.

2. PROOFS.—Author's alterations on and after first proof, including alterations in style, will be charged extra, *ad valorem*. No responsibility will be accepted for errors in proof passed by customer.

3. CUSTOMER'S PROPERTY.—Customer's property when supplied will be held entirely at customer's risk, as regards fire or other unforeseen damage. Every care will be taken to get the best results where materials are supplied by customers, but responsibility will not be accepted for imperfect work caused by defects in or unsuitability of materials so supplied.

4. DELIVERY, WAREHOUSING.—Goods will be delivered when completed, unless otherwise arranged. Sheet stock or other goods held for convenience of customer may be subject to warehousing charges. Such goods are held at customer's risk as regards fire, unforeseen damage or loss, however arising.

5. EXPEDITED DELIVERY.—Should delivery of work be required sooner than the normal time requisite for its proper production, every effort will be made to secure freedom from defects; but reasonable allowance must be made by customer in such cases. Should the delivery necessitate overtime being worked, or other additional cost being incurred, a charge will be made to cover the enhanced cost.

6. QUANTITY DELIVERED.—Every endeavour will be made to deliver the correct quantity ordered, but owing to the difficulty of producing exact quantities, estimates are conditional upon a margin of 5% (in colour work 10%) being allowed for over or shortage, the same to be charged for, or deducted, *pro rata*.

7. CLAIMS.—Any complaint must be made within ten days of receipt of goods, beyond which period no claim can be entertained.

8. STANDING MATTER.—Where the completion of work is unduly delayed by customer, a charge will be made in respect of type kept standing, stones occupied, etc.

9. ACCEPTANCE.—Owing to the abnormal conditions now prevailing all prices are quoted without engagement. Orders or contracts can only be accepted on the understanding that if it is found impossible to obtain the necessary supplies of materials at the prices existing at the time order or contract was placed, any undelivered portion may be cancelled or prices re-arranged.

10. CONTRACTS.—Estimates for publications are given upon the condition that not less than three months' notice is given to terminate the contract for the printing of monthly publications, and in the case of weekly publications, not less than one month's notice.

11. FORCE MAJEURE.—Every effort will be made to carry out any contract based on this estimate; but the due performance of it is subject to variation or cancellation owing to an Act of God, War, Strike, Lock-out, Fire, Flood, Drought, or any other cause beyond control; or owing to inability to procure materials or articles except at enhanced prices due to any of the foregoing causes.

12. LEGAL LIABILITY.—The customer shall be responsible for all costs and damages arising out of any action at law which may be taken or threatened against the printer in respect of any alleged breach of the law in connection with the work done by him for the customer.
