The Fire at Mr. McCormacks Brush Factory

At about ½ past 10 C. on Thursday morning 3rd August inst. the watchman Stationed in Pery square sprung his Creak, and gave the alarm of Fire breaking out in Mr McCormacks Brush factory in Catherine place. I immediately had the Parish Engine & Fires Men in readiness and proceeded at once to the scene of danger, I then looked out for the next or nearest Fire plug, which was nearly right opposite the Fire, I had the fire Plug drawn at once and so scanty was the supply of water in the Pipe that it would take the Engine nearly ½ of an hour to fill. If the supply was sufficient a Considerable share of the burned property would have been saved. Mr Owens who was in attendance from the Commencement got us a supply of Water from Mr Hollands Pump, and by this means worked for a considerable time until same was drained, he saved Mr Phayers Property, both in front & rere & returned at ½ past 8.

Mr Browne -

I have learned that the Conduct of some of the Watchmen towards the unfortunate Creatures who walk the Streets at Night is Most brutal and inhumane - the Conduct of John Enright I may think it my duty to bring under the Notice of the Board - in the Case of Police Magestris - - The Watchmen must be aware of the Orders of the Commissioners, that in no Case shall any Prisoner ~~or~~ person Charged on the Watch ~~-~~ be abused or ill treated - I would strongly recommend John Enright to be more Cautious - May more, I will go further, and recommend, John Enright to Resign his Situation as Watchman before he is dismissed -
