UNION RATING.

TO THE RIGHT HON. AND HONORABLE THE KNIGHTS, BURGESSES, AND CITIZENS OF THE UNITED KINGDOM OF GREAT BRITAIN AND IRELAND IN PARLIAMENT ASSEMBLED.

The Humble Petition of the Mayor Aldermen and Burgesses of the City of Limerick

WE, the Mayor, Aldermen, and Burgesses of the City of Limerick, assembled in Council, on the part of fifty thousand of our fellow-citizens, beg the adoption by your Honorable House of a measure for a Union Rating in Ireland, and we do so on the following grounds:—We submit that the system of Electoral Division Rating, existing under the Irish Poor Law Enactments, has failed in much of its intended effects, and become a source of immense injury to a great mass of our countrymen. Experience of working has proved that instead of tending to preserve the people of the country, it has had opposite results, the evils of which are every day becoming more burthensome. The law of settlement, which it embraces, has given, as it were, a premium to extermination, which has been exercised to such a grievous extent, that rural districts have become depopulated of the labour and small cottier classes, whilst in Towns there is a redundancy of such assistance, and consequent poverty and want. Large tracts of country have been cleared of the dwellings inhabited by working men, the humble occupants driven from the houses which they, and generations before them, had held, and this solely with the view to get rid of the occasional responsibility the existence of a labouring class might entail. The result of this is that the peasantry have been, and are daily, driven into the cities, towns, and villages The demand for labour seldom, if ever, equals the supply, and too often the workhouse bestows the only refuge left for the unemployed and houseless labourer and family. The child is reared there, need we say, not as he would be under other circumstances, in strong health and natural independence; the father and mother gradually lose energy and self-reliance; the still older members of the family become burdens on the rates, and in the end, it frequently occurs that all have to be supported by a division and section of the community on which they have no original claim, which has already quite as much as it can do in sustaining its own, whilst the proper guardians of these houseless wanderers escape all obligation.

of the City of Limerick and Borough of Kilmallock Petition That

This legislation has deprived, and is depriving the country of thousands of its able-bodied residents; they avail themselves of every opportunity to escape its evils and the precarious occupation afforded them, only those who have little or nothing were then remaining, and with no hope in their old age but the relief given by the union. We hold also that the abolition of this electoral rating will not only improve the towns and villages of Ireland, but much more the rural portions. Taking, for instance, this district, it is often necessary, as in other parts of the country, for the labourer to travel miles morning and evening to and from his place of occupation in consequence of the complete absence of a place of rest throughout the extent of country he traverses. Even should the tenant desire to supply the want, the superior power of the landlord prevents him, and in a great agricultural country like Ireland, this deprivation is much felt and most injurious.

Divisional rating, too, has serious disadvantages as regards its effects on the working of the public boards. It estranges class from class, creates continual distrust, and most effectually disturbs the harmony and good feeling which should exist amongst those engaged in the humane object of assisting and relieving the distressed and poverty-stricken.

In a taxation point of view, the examples of the injustice inflicted are scarcely credible, and can be multiplied to any extent. In this union proofs of this exist, to which, no doubt, other unions throughout Ireland can furnish numerous parallels. This city alone has been paying for years very nearly 4s. in the pound, which, in addition to other taxations, raises the amount to 8s. 3d. in the pound, while rural divisions twenty years ago paid 2s, 4s, and so on; do not now pay a fifth or a fourth of the amounts, and this mainly owing to the changes we were forced to. In fact, in the one instance, taxation has been increasing while in the other it has been decreasing.

To effectually meet those grievances, we pray your honourable House to pass a measure of Union Rating.

We believe the admirable Landlord and Tenant Bill, which became law last session, will be supplemented in its good qualities by such legislation, as Union Rating must greatly serve to protect the labouring class, stabilitate and arnoot them in the soil, and allay the agitation which prevails in this regard.

We urge you, in the interests of economy, to pass such a measure, as we believe it will simplify the administration of the Poor Laws, and reduce the present executive expenses of every Union in Ireland.

We urge it in the interests of the humbler classes particularly, as we believe it will assist in developing and elevating them morally and physically.—We do so in the interests of society generally, as we believe it will create a stronger desire and more disinterested feeling between all, frees the highest to the humblest, to attend to the wants of the poor. And, lastly, we do so, as we believe it is one of those remedial measures which, now more than any other, will assist in developing the growing trust and confidence of the people in the determinations of your House to legislate favourably for the people of Ireland.

And your petitioners, as in duty bound, will ever pray.

Copy of Memorial address

To the Right Hon W. E. Gladstone M.P. First Lord of Her Majesty's Treasury

The Memorial of the ~~Mayor~~ Mayor Aldermen and Burgesses of the City of Limerick ~~beg leave to represent~~ That just nine years ago in common with the other Corporations of Ireland we, the Representatives of the Government of that day stated the numbers of Catholics who from their position or wealth desire to give a University Education to their children had within a comparatively limited space of time greatly increased and had been rapidly ~~increasing~~ progressing in Ireland We repeat the same statement to day and with greater force, we trust with more successful effect we beg to state that in Ireland Trinity College Dublin and the Queens University are the only educational institutions empowered to grant academical degrees which seriously affect the professional and social prospects of those who obtain them That the Protestants of this Kingdom would not consent to send their children to Colleges or schools where their religion is ignored to the same extent that the Catholic religion is ignored or subordinated in the Dublin Universities That while the highest education can be

obtained by all other religious denominations without violence being done to their religious principals it is urged to refuse to Catholics similar advantages which they now incur danger to the faith and morals of their Children when they send them to Trinity College or the Queens Colleges

That the Catholics cannot be satisfied with certain modifications or changes suggested in the existing Charters of Dublin and the Queens Universities in as much as they desire that their unquestionable right to educate their children in entire accordance with their religious principles in a catholic College should be fully recognized by the state to which they have ever shown themselves ready to contribute their treasures and their services

That we look for the grant of a charter and of a competent endowment for the Catholic University of Ireland from you who have already laid the foundations of civil and religious equality in this hitherto distracted land and that there can be no real religious equality among us in the absence of that ample and generous recognition of Catholic educational claims which we seek as a portion of our indefeasible rights and in the absence of which we cannot be contented

That whilst we express these feelings and claim these privileges we fully recognize the state to take ample security that university degrees should not be given without due intellectual proficiency and we are fully prepared to acquiesce in any such arrangements to secure to the fullest extent this proficiency

That we have sufficient confidence in your wisdom and integrity in dealing with Irish affairs to entertain the hope and expectation that you will not allow religious ascendancy to be perpetuated in the continued unequal distribution of the ample education funds in which Catholics have no share whatever and in the exclusive possession of charters which enable the Queens University already proved to be a failure and Trinity College to which catholics also object to grant degrees that confer important and exclusive privileges upon those who obtain them

That finally we hereby respectfully request that you would advise the Queen in the exercise of her Royal prerogative to grant and to recommend that a suitable endowment be given to the Catholic University of Ireland

And Your Memorialists will ever pray

Present. The Mayor Ald. Foote in the Chair

T. O Connor. Ald. Coote. F. Cavanagh

The Secretary reported that there was an error in the calculation upon which the Rate of 1/4d in the £1. was recommended, and that owing to this error the rate to be recommended should be 1/5d to carry out the correct calculation, and the views of the Committee

Ordered. That having examined the Estimate and Calculations upon which the rate is to be based, that we hereby recommend the rate for Improvement purposes for the current half year to be 1/5d in the £1. instead of 1/4 in the £1. the latter having been based on an inaccuracy in the calculations, and that the Town Clerk be directed to give public notice of the striking of an Improvement Rate of 1/5d in the £1.

Special Committee of the Whole House to consider memorial from Waterford Corporation in reference to the Bill of the Great Western Railway of England asking powers for a line of Steamers between England & Ireland

Present The Mayor Chairman
T.C. Spillane Ald Carte Ald Hogan T.C. Myles

The following petition was adopted and it was ordered that it shall be engrossed the City seal attached and forwarded to the House of Commons and that a copy shall be also sent to the Mayor of Waterford

Great Western Railway
(Steam Vessels)
Petition in favor

To the Honorable the Commons of the United Kingdom of Great Britain and Ireland in Parliament assembled. The humble Petition of the Mayor Aldermen & Burgesses of the Borough of Limerick Sheweth

That a bill is now pending in your honorable house intitled a Bill for empowering the Great Western Railway Co to provide and use steam and other vessels and for other purposes

That by the said Bill it is proposed to authorize the Great Western Railway Company of England to build purchase hire provide charter employ and maintain steam and other vessels of every or any description and to navigate with and use the same and therein and thereby to convey and carry passengers animals minerals goods merchandize and things of every description between the several ports and places therein named including amongst them

Milford Haven and any other port or places in Pembrokeshire where there is from time to time a station of the Company or where they carry on traffic on the one hand and the port of Waterford on the other hand

and to authorize the said Company to do all acts that may be necessary to carry fully into effect the purposes aforesaid

That your petitioners are deeply interested in the trade & the north of Ireland and in the means of communication with England and anything which will tend to increase the facilities for personal travelling as well as for forwarding and transmitting traffic along the lines of Railway from Limerick (which are at present most defective and wasteful) to and between any Irish port & such ports or places in England or any of them will be of great benefit as well to your petitioners as to the public

Your petitioners anticipate that the present service of steamers across Channel will be greatly improved if the Great Western Railway Co are empowered to own and work steam vessels of their own as their large resources will enable them to put on stations vessels of a very superior description and their interest will be to have these vessels so as regularly

to meet the trains which will run in connection with them

That such an improved line of steam communication will be a great public advantage

Your Petitioners therefore humbly pray your Honorable House that the said Bill may pass into a law

The following letter from W. Murphy Esq Agent to the Town Clerk was read -

"Dublin 3 Capel Street
30th April 1871

"Wyndham Sir. "I saw Sir Bernard Burke yesterday. "He is quite willing to undertake to decide the question "of precedence between Cork & Limerick, as I should "have said between Limerick & Cork. He suggests "that the case on part of each City should be sent "to him, and that each should send a Copy of its "case to the other party, with liberty to send to him "a short reply within a week of what may appear

"fallacious in either statement. He is quite satisfied "that Sir Bernard Burke will give an honorable "and impartial decision -

"Sir Bernard showed me in the Birmingham "Town an ancient Council Book of the Corporation "of Limerick from 1672 to 1685. It & others amongst "the Archives and documents of the Irish House of "Commons after the Union - It appears that it was "deposited in that House by the Corpn of that time "in consequence of a Petition presented from the Citizens "of Limerick, Complaining of the mal practices of the "Corporate body, and it was thus restored. There "will not be much trouble, in getting back this book "now, and Sir Bernard was so good as to suggest "to me, the way to go about it, and as it will incur "no expense, I take it for granted that the "Corporation would wish to have the custody for "the record of its proceedings.

Yours faithfully

Earl of Dunraven

My Lord

We the Mayor Aldermen & Burgesses of the City of Limerick deeply sorrowing at the death of your Noble Father desire to express to your Lordship & the Dowager Countess of Dunraven and the other members of his family our condolence at the removal of one who recognizing thro'out his useful life all the duties of his high position diffused many public and social benefits around him while he adorned his domestic sphere by his accomplishments and his virtues. As the Lord Lieutenant of our County and City he exercised the influence of that Exalted Office with judicious impartiality in keeping with the progressive liberality of our time

As a Landed Proprietor he applied his refined taste and ample wealth to the improvement of his possessions and the prosperity of his tenantry. As a resident Nobleman he readily gave the prestige of his rank and the persuasiveness of his oratory to aid the expression of popular feeling on occasions of importance to the religious and political interests of the vast majority of our Community. While as a scholar imbued with love of the fame of our ancient race & he directed his enlightened mind to the preservation & description of those Ecclesiastical ~~[illegible]~~ remains which still attest throughout our Land the piety of our forefathers

His ability and zeal as a member of some important public department evidenced his capacity for the public service and the amenity of his deportment to all with whom he had intercourse was marked less by the condescension of the Nobleman than the urbanity of the true Gentleman

To your Lordship as the successor of such a father we offer our sympathy at the deprivation of his society and example while we congratulate you at having had so high a base to direct your own career which we sincerely hope may be a long & a happy one in the responsible sphere to which Providence has now called you

Meeting of Special Committee, Febry 1, 1872.

Zachary Myles, (Chairman.) J. Cunningham, Alderman. [illegible]

The Committee recommend the Council to adopt the following Petition for Repeal of the Grand Jury Laws

To the Knights, Citizens and Burgesses of the United Kingdom of Great Britain and Ireland, in Parliament assembled

The Petition of the Mayor, Aldermen and Town Councillors of the City of Limerick,

Humbly Sheweth,

"That the entire burden of making and maintaining the roads, highways and bridges in Ireland, is at present borne by the occupiers of houses and lands in Ireland. That such roads and highways are open alike to the use of all her Majesty's subjects without exception. That with the exception of said occupiers all other persons are entirely exempted from contributing towards the construction or maintenance of such roads, highways and bridges. That your petitioners consider such exemption of the class is unjust, and presses very heavily upon the occupiers of said houses and lands.

Your Petitioners therefore pray,

That your Honorable House will be so good as to make such an alteration in the existing laws in order that the payment of County and Borough rates in Ireland may be divided between the owners and occupiers of houses and lands, in like proportion as that which now appertains in the payment of the Poor Rate

© Copyright Limerick City Council Archives

Rate, by said classes.

And your Petitioners, as in duty bound will ever pray:

~~To the Hon~~ ~~_____~~

Also the following Petition which particularly applies to Lunatic Asylums:

Humbly Sheweth:-

"That the imposition of taxation under the Grand Jury system generally is of the most unjust and oppressive character, and calls for some immediate remedy at the hands of Her Majesty's Govt. As one of the strongest examples of this fact they refer to the manner in which the affairs of the Lunatic Asylums in this country are administered, for the support of which the rate-payers are most mainly taxed, but debarred any voice in their management.

That your Honorable House will have such a change made in the law that the representatives in public boards formed under the Grand Jury system may be elected according to the Poor's Law arrangements, and the taxation regulated so as to be borne by the owners and occupiers of houses and lands."

That the foregoing petitions be engrossed by the Town Clerk, and forwarded for presentation to Parliament, to the serving of Members, and that the assistance of Mr Britt and the County Members be requested.

Zachary Myles

Special Committee on Union Rating - Meeting, 7th Feb: 1872. Zachary Myles (Chairman) Jas Counihan [illegible] Hogan [illegible]

We recommend the Council to adopt the following Petition in favor of Union Rating

Humbly Sheweth:

"That your Petitioners represent the owners and occupiers of houses and lands in the city and borough of Limerick, which are situated exclusively within the electoral division of Limerick-rock in the Poor Law Union of Limerick. That under the present Law of Chargeability, the burden of contributing towards the support and maintenance of the poor in the Limerick Workhouse rests very unequally on the thirty-four Electoral Divisions into which said Union is divided. That in the poundage rates struck in the 2nd. day of January 1872, your petitioners' property has been assessed at two shillings and ten pence in the Pound, while the next highest assessed division in the Union contributes one shilling and seven pence and three divisions as low as eightpence only. That your Petitioners and the citizens whose representatives they are feel this inequality in the incidence of the rates for the support of the poor very oppressive, and injurious to the House Property and Trade of the city of Limerick.

"Your Petitioners therefore pray,

"That your Honorable House will

make such an alteration in the present laws for the relief of the poor in Ireland that there may be hereafter such uniformity of poor rate assessment for Poor's Rates in the Towns & Cities as there is now in such poor law union in Ireland.

That the presenting of the foregoing petition be entrusted to the Town members, and the assistance of the Irish Members be requested to support the request.

That a copy be also forwarded to P. W. Madam, Esq. M.P. and his kind co-operation be requested.

That the name of some member of the Council be forwarded to Mr Mac Madam as a witness to give evidence before the Union Rating Committee.

That the petition be prepared engrossed and from the city seal attached, and forwarded at once as directed.

Two Bills now before Parliament are to extend to Ireland certain privileges exercised by Municipal Corporations in England & Scotland the other to restore to the corporations of Ireland the right of appointing Sheriffs and of conferring honory freedoms – a letter from Mr Butt M.P. in reference to these bills read –

The first Bill the Municipal Franchise Bill (No 100) was recommended to be approved of

The second Bill giving power to appoint Sheriffs &c was also recommended to be approved of with the exception of Clause No 13

Serg.t Sherlock's Bill. It was recommended to write to the County & City members requesting them to oppose this Bill

It was recommended to write to the City & County Members requesting them to oppose the Bill relating to the management of Prisons in Ireland be brought in but they shall oppose the Clause which makes it necessary that Magistrates only can be elected as the Board of Superintendence

The following is Mr. Butt's letter :—

"Dublin, April 10th, 1872.

"SIR,—I am anxious to direct the attention of the Municipal Council of Limerick to two Bills which I have introduced into Parliament affecting Irish Corporations. I have transmitted copies of them both to you and to his Worship the Mayor.

"The first of them (the Municipal Franchise Bill) aims at the removal of an inequality which exists between the Municipal Franchise in England and Ireland.

"The Irish Corporation Reform Act, passed in 1840, enacted for Ireland a much more restrictive municipal franchise than that enacted for England, by the corresponding act passed in 1835. By the English Act every resident was qualified to be a burgess, who occupied premises rated at any amount, provided the occupation was continuous for three years. The Irish Act required that the premises should be rated at an amount which with a slight addition for an estimate of insurance and repairs, would make up the value of ten pounds.

"In all the municipalities of Ireland, except the city of Dublin, the restricted franchise provided by the Irish act is still in force.

"In England, by an Act passed in the year 1869, the franchise has been rendered still more liberal. The necessity of a three years continuous occupation is abolished, and any person occupying for one year premises rated to any amount becomes entitled to be enrolled as a burgess of a municipal town.

"It is unnecessary to say that the requirement of a higher qualification in the poorer country is an anomaly only to be accounted for by the jealousy of Irish popular privileges, which in so many instances controlled and marred the provisions of the act professing to give to Ireland municipalities chosen by popular election. It is entirely indefensible, and we may hope that no one in the House of Commons will maintain the principle that Ireland is not entitled to a municipal franchise as liberal and popular as that which England enjoys.

"If this be so a bill proposing to assimilate the franchises of the two countries ought to pass as a matter of course.

"This assimilation of the franchise has already received legislative sanction. In 1840, enlarged powers were conferred upon the Corporation of Dublin. The act which conferred them was accompanied by another extending the English franchise to that city.

"In 1853 when the Belfast Corporation obtained an act which sanctioned arrangements to relieve that body from embarrassments which had arisen in the management of their local affairs, the select committee who approved of the bill promoted by the Corporation added to that approval a unanimous resolution expressing their opinion that it ought to be accompanied by a public act establishing the same franchise as the English one in that town.

"The bill which I have introduced proposes in its present shape to extend to all the Irish Corporations the provisions enacted for Dublin in 1849, that is to adopt the franchise fixed by the English Municipal Act of 1835, a three years continuous occupation of premises rated at any amount. This is still the Scotch franchise, but I see no reason why Ireland should not have the more liberal franchise enacted for England in 1869, and when the House of Commons read the bill a second time, and so sanctioned the principle of an equal franchise, it would appear to be a matter of course, to adopt in committee an amendment extending to Ireland the provisions of the English act of 1869.

The second bill (the Municipal Privileges Bill) proposes to confer upon or rather restore to the Irish municipalities rights and privileges possessed by those of England. Its principal object is to deal with the appointment of sheriffs in counties of cities, and counties of towns.

"Under the old law, both in England and Ireland, the right of electing their sheriffs was in every instance vested in the municipality of the place. The Crown never, in the constitutional history of England, possessed the right of appointing the sheriff of a county of a city, or a county of a town. The privilege of electing their own sheriffs by the municipalities coming down from the usages of a remote antiquity, was secured by the charters of all these corporate bodies, when the municipal reform act in England restored the corporations to the people the old right was carefully preserved.

"In Ireland it was wrested from the nominally enfranchised people. The Irish municipal reform act vested the appointments of these sheriffs in the Lord Lieutenant.

"The result is that in twenty-one places in England and Wales the municipal bodies retain the old constitutional right of electing their own sheriffs. In London, Bristol, York, Oxford, Chester, Exeter, Gloucester, Lincoln, Lichfield, Nottingham, Hull, Newcastle, Worcester, Norwich, Southampton, Canterbury, Coventry, Caermarthen, Pool, Haverford West, and Berwick-upon-Tweed the sheriffs are all chosen by the people. In addition to this in the great county of Middlesex the office is executed by the sheriffs elected for London by the livery of that city.

"In England there is not a single municipality in which the sheriff is nominated by the Crown.

"In Ireland there is not a single sheriff chosen by the popular election.

"It is time that this most insulting mark of inferiority should be removed. If there be any truth or reality in the assurances of a readiness to admit us to a participation in English privileges it cannot be maintained. I have proposed to the English parliament to remove it, to give back to our Irish municipalities the privileges of which the English have never have been deprived, to make the law the same in both countries. The constitutional importance of the right of appointing sheriffs has been diminished by the recent changes in our jury laws, which virtually deprives the sheriff of all power of selection in returning his panel. But that is no reason why an officer of civic dignity and importance, which in England is in the gift of the people, should in Ireland be bestowed by the nomination of the Castle. Why a privilege which is enjoyed by the citizens of Lichfield and Lincoln should be denied to those of Limerick and Cork.

"Upon the same principle I propose to restore to the Irish municipalities the right of appointing the clerks of the peace—a right of which the English corporations have been deprived.

"I also propose that the Recorder of Dublin should be elected, as in other towns, by the Corporation of that city. I do not make a similar proposal as to any other place. The municipal reform acts both in England and Ireland took away the appointment of Recorders from the Corporations and vested it in the Executive. London alone retains the old right. I entertain a very strong conviction that this ancient right ought to be restored to all Corportions in both countries, but in a bill based upon the principle of equality of rights. I only seek to restore to Dublin the privilege which London has preserved.

"The remaining clause of the bill recognises the right of the Irish Corporations to confer the honorary freedom upon any person whom the may consider worthy of that honour. Although the freedom is merely a nominal one, the conferring of it may bestow a distinction as real as many that are eagerly sought for at the hands of those who dispense the favours of a Court. I am sure that the power of conferring such a distinction would add to the dignity of our municipalities by enabling them to do honour to those whom the popular voice declared honour to be due. Princes of the blood and foreign Sovereigns have expressed pride at being enrolled among the freemen of London, and not long ago the Premier, expressed a similar feeling of satisfaction at being elected an honorary burgess of Aberdeen. There is no reason why a similar distinction bestowed by Irish cities should not be equally prized.

"The power of conferring an honorary freedom may be used to obviate a practical inconveniences of occasional occurrence. It sometimes happens that men in every way entitled to take a part in civic affairs are shut out from the choice of their fellow-citizens by a want of the legal qualification, arising, it may be, from some temporary accident. Sometimes a careless omission or mistake has disqualified a man elected even to the highest municipal office. The letting off of a trifling portion of the premises included in his rating gave rise on one occasion to a protracted and unseemly litigation as to the right of the Lord Mayor of Dublin to fill the civic chair. It has occurred to me that those inconveniences might be obviated by making the honorary freedom, as it is in London, a sufficient qualification for office, the right of election being, of course, reserved to those qualified as actual burgesses on the roll.

"These provisions would do something to place our existing Irish Corporations on a level of franchises and privileges with those of other parts of the United Kingdom. I feel, however, how far they would be from giving to Ireland a municipal system such as England enjoys and such as the Constitution contemplates. The same jealousy of popular privilege which marred the scanty enfranchisement of a few of our towns extinguished the greater number of Irish municipalities. Eleven Corporations are all that exist in Ireland to represent the ancient and important element of the Constitution, which consists of municipal institutions. Yet I feel also that in obtaining for Limerick and our other cities a restoration of their ancient privileges, we would do something to give to all that we have of those elements increased vitality and strength.

"I trust I may calculate on the active support of the Council in this effort to restore to the Corporations of Ireland the privileges which they ought of right to enjoy. I may, I hope, venture to suggest that if the Corporations set any value on their restoration, they may fairly make a combined movement to press upon the Government to give their influence to aid in the passing of measures for which their professions of liberality towards Ireland give us a right to expect their support.

"May I add that which is scarcely necessary to the gentlemen for whom this letter is intended, in pressing on the Imperial Parliament the concession of free institutions to Ireland, I am neither waving nor compromising my conviction that it is only by the concession of our rights to self government that any real justice can be done to us. I believe, on the contrary, that in proposing such measures, I am most effectually serving the cause of Home Rule. The demand that is now made by Ireland for self government is no transient expression of temporary discontent. It speaks the earnest and abiding resolve of the nation. It is because I know this, that I am sure that every thing that advances our national prosperity will add strength to our demand. Every measure that will give us a real participation in the freedom, and the privileges of the constitution, will make it more difficult for any government to resist it; above all, I am sure that anything which upholds the good old principle of municipal self government in our towns is an aid and a guide to us on our way to that higher national self government without which I am every day more deeply persuaded our country never can be really peaceful or prosperous or free.

"Begging of you to take an early opportunity of bringing this communication before the notice of the Council.

"I have the honour to be,

"your faithful servant,

"Isaac Butt.

That with regard to the arrangements as to the Artillery Cavalry and Infantry at present stationed in this City Your memorialist assume there will be no change

That under the new regulations for the establishment of depot centres Your memorialist have heard this in Contemplation to remove from this City the permanent staff of the Royal County of Limerick Militia as also the staff of the City of Limerick artillery and that said Militia Regts are assembled and train at the Depot Centre

Your memorialist beg to state that the County of Limerick has purchased for a sum of £4000 an excellent Barrack and store for the County of Limerick Militia where there is already accomodation for the whole of the staff and for 200 men - There is ample room to build additional quarters & lodge the entire Regt at training and at little expense - These Barracks are quite close to the Kings Island one of the best drill grounds in Ireland & the property of the Government

That Limerick is one of the best recruiting fields in Ireland and we are informed that within the last fifteen months 890 Recruits have been enrolled in the County and City Regts and that several others are still offering their services and this is no doubt caused by the permanent men of their own staff of their own Regt Composed of (in most cases) of Limerick County & City men and that any change from this system will shew a large falling off in the Numbers of recruits

That the above more recruits will be obtained in a large ~~County~~ City such as Limerick than in the small towns of Kilrea or Mallow and that Limerick men will not care to enlist and go for six months to a strange County far away from their homes & old companions

That your memorialist trust that should the public service require the establishment of a Depot Centre at Kilrea or Clonmel you will still consider the advisability of leaving the permanent staffs of the Royal County of Limerick and City of Limerick Artillery Regts in Limerick and ~~arrange~~ arrange to have the regts trained here as hitherto - Your memorialist are encouraged to hope that you will give this proposal Your favorable Consideration from the reasons they have advanced and especially as the case appears to come under the Circumstances Contemplated in act 131 of the memorandum of his Royal Highness the Field Marshal Commanding in Chief Most part of the County of Limerick being in

May it please Your Excellency

We the Mayor Aldermen and Burgesses of the Ancient City of Limerick beg to approach Your Excellency and the Countess Spencer, on your arrival in our Ancient City: and to tender you the expression of our hearty Congratulations on your advent among us

We understand that Your Excellency is about to visit our far famed Waters, to see the beauties of our Noble river, and to enjoy the scenery of Killarney and the iron bound Coast and gigantic Moher Cliffs of Western Clare.

On an occasion of the kind it is not becoming in us to dwell on matters extraneous to the object of your visit, nor shall we do so.

In your progress down the Shannon "sporting like a sea" you will see on either side the evidences of agricultural industry - a large portion of three great Counties Limerick, Clare, and Kerry, which are in the enjoyment of perfect tranquility - and the river itself, the greatest in the British Empire capable of bearing the fleets of the wide world in its bosom, and of imparting the fullest measure of prosperity to any Country.

As it is our river is comparatively bereft of the Ships of Commerce which it ought to enjoy; but we have every hope that with increasing self-reliance and the existence of greater enterprise, as well as the encouragement which promotive influence of Governmental action must impart, our river shall participate in some at least of those advantages which the Thames, the Severn and Clyde so largely possess.

We shall not longer delay Your Excellency and Your Noble Consorts

Wishing You Cordially a pleasant and happy trip to our Western Coast.

The Committee Proposed by J.C. Myles seconded J.C. Bernal resolved — Having carefully Considered the salaries paid to the Town clerks of the various Municipal Corporations of Ireland & having Contrasted same with that paid in Limerick. We are of opinion that considering the faithfull services of Mr Ellard his salary for last 14 years has been certainly disproportionate to his duties. We therefore recommend to the Council that and from the date of the last audited a/c the salary of the Town Clerk be £200 per annum & that the allowance for the expenses attendant on the Corpus Roll amounting to £65 per year do cease and determine in future proposing the augmentation of the Town Clerks salary. We must report to the Council that the amount named falls very much short of that now paid to other gentlemen when the duties are much less than at present & were the finances of the Corporation in a more flourishing state but could be prepared to name even a larger salary

We our arbitrators met and having maturely considered the matters to us referred are of opinion that as all other unsettled items of account have been already agreed on by the two Boards, the only question they had to Consider now - what deduction (if any) should be made from the sum of £660 - 18 - 2 (being the third of the Sewer Rents of Houses) the majority of the Court (Mr Cobrane dissenting) is of opinion that the only deduction that should be made is one third of whatever sums have been paid as Head Rents & Taxes on the Houses, out of which the said Rents have been received. This sum of £660 - 18 - 2 less the deduction as above and the other items already conceded were ascertained to be due to the Corporation on the 1st September 1869 and the account since between the two bodies is to be settled on the above principle up to and ending the 1st September 1872

"To the Joint Committee of the Corporation and the Harbour Board"

In accordance with the request of the Joint Committee of the Corporation and the Harbour Board of the 24th inst we have carefully examined the lately embanked Ground immediately westward of the Floating Dock with the Map in the Conveyance from the Woods & Forests Commissioners to the Corporation dated 20th Jan 1863 and have laid off on the land the boundary line marked on the map between the Corporation and the Harbour Commissioners as indicated by the Green tint on said Map — And we find that the extent of land contained between this boundary and the breach Eastward of the New Paling of the Dock is two acres and five perches statute measure or one acre and one rood Irish measure

We have also laid off a five and

and take line parallel to the western quay wall of the Dock and extending from the Rock Road to the river at the new embankment which line we consider ought to be made the permanent boundary between the two properties

To His Grace James Duke of Abercorn K.G. &c &c
Lord Lieutenant General and General
Governor of Ireland . . .

May it please your Grace

We the Mayor Aldermen and Burgesses of the Ancient Corporation of the City of Limerick approach your Grace to offer our warm and respectful congratulations upon your advent for the second time to the high and dignified office of Viceroy of Ireland, and thro' your Grace to express our loyal attachment to our Most Gracious Sovereign who, in again selecting you as the head of Her Government here has evinced her desire to have it guided by a Nobleman whose knowledge of the Country qualifies him to deal with all questions concerning the welfare of this Country in a manner that will promote its prosperity

We are happy to be able to assure your

Grace that a just and ordered consideration of the wants and requirements of the people of this Country by its Rulers will insure their gratitude and loyal attachment to the Throne and Constitution under which we have the happiness to live.

We avail ourselves of the present occasion to refer to the questions of Union Rating and a change in the Grand Jury Laws that will relieve the occupiers in Cities and Towns from bearing the entire burden of this tax. a question that the people of this Country are deeply interested in and we respectfully solicit your Graces attention to the heavy burden Lunatic Asylums are on the occupiers of property and the fact, that the people who pay for and support them have no representation on their Boards of Management and we trust that your Grace may be pleased to direct the immediate attention of the Government to this subject with the view to having the expenses and charges for these Institutions divided between the Landlord & Tenant like the Poors Rate and that this may be done in addition to the boon already granted by the present Government out of the Surplus revenue of the Year.

With heartfelt pleasure we welcome Your Grace and the Amiable Duchess of Abercorn back to Ireland where Your Solicitude during your former Viceroyalty to promote everything tending to the advantage and prosperity of the Country and its people is gratefully remembered

To the Right Honble the Lords Temporal &

To the Spiritual and Temporal in Parliament assembled

The Humble petition of the Mayor Aldermen & Burgesses of the City of Limerick

Sheweth

That your Petitioners have read a bill called the Municipal Privileges Bill at present under the consideration of your Honble House for extending certain privileges to Corporations in Ireland

That this Bill proposes to give the appointment of Sheriffs & Clerks of the Peace for counties of cities in Ireland to the Town Council of each Boro' and also to enable those bodies to confer the honorary distinction of the freedom of the City on any individual they may deem deserving of it

That the Corporations in England have these Privileges and that the Corporations of Ireland before the Municipal Corporations Act had exercised those privileges and therefore humbly pray &c

The following Amendments were then proposed by Ald Myles seconded by J.C. Hartigan and declared Carried

That the petition in favor of the Municipal Privileges (Ireland) Bill with the exception of the clause which provides that the Honorary Burgesses shall be deemed to possess the qualification of being eligible

"Special meeting to consider Bank Account"

The Mayor in the chair Messrs J.T. Counihan Ald Myles P.C. Cronin Ald Hogan The City Treasurer & the Law Adviser

After a long consideration. It was resolved on the Motion of J.T. Counihan seconded by Ald Myles

That the following report be adopted

We find that on a thorough investigation of the Gas Works and it accounts that there is due by the National Bank on a Mortgage £5000 and that there is due a further sum of £8975 which has to be provided for. We recommend that a mortgage for £9000 be given to the National Bank repayable in two years

On an investigation of the affairs we find that including the old Scrip there is due by the Gas works after taking credit for its assets a sum of £9476 and we may with confidence state that the value of the Works far exceeds its Liabilities

We have to remark that owing to the Maintenance of the Gas works the price of Gas has been kept in the City at the Moderate rate of 5/ a 1000 whilst other Cities in Ireland have to pay double that charge

The Gas works are at present in good working order and now that the price of Coals have been reduced we hope that the Gas Works will become a profitable concern for the Corporation & our citizens

Since 1868 a sum of £8600 has been spent on plant alone by the concern not one penny of which has been paid by the rate payers. We recommend that the sinking Fund of 1866. 3. 4 at present applicable from the Unimproved Rate be applied to pay off the Gas Works debt to the National Bank instead of buying up the Scrip as at present done.

With reference to the general state of the Corporation

we find that the Assets of the Corporation are valued at £68.000 - and this Estimate has been made at a very moderate valuation; We find that there is due by the Corporation £66800 We find that there is due of the Borough Fund about £6.000 - which is the real debt to be provided for by the Corporation, which debt is included in the £66800 - above mentioned

We recommend that the payment of the Debt by the Market Trustees be insisted on, as we find that if the £1400 - a year which the Corporation are entitled to were regularly paid no difficulty would have arisen about the Borough Fund account -

We recommend that a revision of the charges on the Borough Fund be made to the following effect - That the following charges be divided between the Borough Fund and Improvement Fund:- The Mayor's Salary, the City Treasurer's Salary, the Municipal Election charges, the Town Hall rent &c, Keeping Pumps in repair, &c, By this means a Sum of nearly £600 - would be chargeable on the Improvement Rate. We find that the General purposes Rate will be reduced by means of the allowances to be made by the Government to the Lunatic Asylum, and we recommend that with the increased charge above mentioned the Improvement Rate be increased to the same extent that the General Purposes be reduced, by this means Taxation will not be increased, and a means of liquidating the present debt of £5000 - is provided -

We also recommend that if the Fines levied by the Magistrates be handed over to the Corporation that same be also applied to the reduction of the Borough Fund as a sinking Fund and thereby within a few years the whole debt of £ would be cleared off.

We recommend that a Communication be made to the Inspector General of Constabulary to ascertain on what conditions could the City Police, and the expenses attendant thereto

We recommend that a reduction in the charges for watering the City be made

The Memorial of the Mayor Aldermen and Burgesses of Limerick sheweth as follows -

That the City of Limerick has held a charter for nearly 700 years

That formerly it received from the Crown various grants of houses lands and a very valuable fishery in the River Shannon and that up to the year 1840 the Municipal boundaries of the City were the same as the Parliamentary and extended for a radius of from 3 to 5 miles more than they do at present the whole of which area was liable to City taxation Previous to 1840 the Corporation had in open violation of their duties as Trustees for the Citizens leased in many instances to members of their own body, all the alluvial and other valuable lands adjoining the City, at merely Nominal rent. in most cases at 6. 8. or 1/- per Acre, and all such leases were for periods of from 99 to 999 years.

Sheehans letter read and application Granted

Mesrs Kelly & Maloney to report at the next convenient opportunity & visit Corkauree and decide what is to be done with the Top dressing at present lying there

In 1834 the Corporation also leased the fishery for 99 years for £300 a year, and the lessee very soon after sold his interest in it for £10.000-. Besides alienating the valuable property of the People, and narrowing for their own purposes, the area of taxation, they left us a legacy to the new or reformed Corporation into whose hands it came in office in 1842, a debt or charge of about £20.000 having previously on the most simple means reduced the Corporate revenues by the leasing powers already mentioned, from what would now realize £12.000- a year to what yields only £1200-.

The present or new Corporation therefore commenced with a charge on their property, such as it was, of £20.000, and a wretched income altogether inadequate to meet the requirements of the City. This debt gradually and insensibly increased, until 1855, when, mainly owing to the legal abolition in 1850 of tolls and customs which had previously realized £2.500 a year, it reached £27.500- for which amount the Corporation of that day had to mortgage what remained of their property. Prior to 1841 there was only one Gas Company in Limerick, and they were wholly uncontrolled by Parliament- They supplied Gas Meters only in a few isolated cases, charged what they pleased per burner, and in no single instance was the price less than ten Shillings per 1000 cubic feet, although neighbouring Cities were being supplied at 6 and 7 Shillings per 1000. In order to relieve the people from this galling imposition, the Corporation, Acting under the powers conferred on them by the Legislature purchased

premises for the manufacture of Gas, and have from time to time expended large sums of money to enlarge and maintain said premises. For this purpose a debt of about £24000 - has been contracted, and while the Citizens have been supplied for the past 20 years with Gas at 5/- per 1000 - , exactly one half what they had been paying, their Gas Works are now fully worth what they have cost.

The Corporation had also to borrow under the Authority of Parliament, a sum of £10.000, for the construction of Sewers, and other equal necessary works, and later on in 1865, with the Consent of Parliament they embanked and Reclaimed about 36 Acres of Slob at a Cost of £6.000.

Thus in every way they borrowed on the Security of their Lands, Houses, Fishery, Gas Works, Market Tolls, and other the Rates of the City, a Sum of £67.500 - in addition to which they have since 1870 overdrawn their 'Borough Fund' Account with their Bankers about £2500 - over and above their available Assets. This Overdraft, caused by a further falling off in the Market Tolls, makes the total Sum borrowed about £70.000 — of this Sum the Corporation have within the past 15 years paid off by a Sinking Fund £10.000 - leaving a balance of £60.000 - now due. For this large Sum they are bound to pay 5 per Cent interest, and no matter how long they continue to pay this interest £3.000 - a year, the Principal Sum of £60.000 will still remain due, — It would be absolutely impossible to levy any additional rate to create a further Sinking Fund, as the Rates are at present over 10/- in the Pound Stg, an unparalleled amount when the Condition of the City is considered.

Under all these Circumstances your Memorialists pray, that your Lordships will be pleased to come to their aid, and enable them to pay off this debt, by authorizing the advance of £60.000 on such terms as may be agreeable to your Lordships, the Corporation giving the same Security as was Accepted by the private Mortgagees.

Your Memorialists are informed and believe that in the case of another City in Ireland similarly circumstanced, your Lordships were graciously pleased to authorize the advance applied for.

Your Memorialists have in Conclusion to add, that any further information your Lordships may require, will be at once willingly & gratefully afforded.

The following Report was unanimously agreed to by the Committee, viz. to the Mayor, Aldermen & Burgesses

Gentlemen

Your Committee has carefully considered the letter received by the Council from the Manager of the National Bank, and referred to it for report.

Having discussed the question at great length with the Bank Authorities, and amongst themselves the five Members selected by you have come unanimously to the Conclusion, that the only means by which the debt due to the Bank Can be paid is by a Sale of the Works. Even though the Bank did not require payment of their debt Your Committee is of opinion, that the fact of so many members of your body having by your Authority Accepted bills to a very large Amount, for the sole use and benefit of the Gas Works, should be quite sufficient reason to induce the Council to sell the Concerns, and thus relieve these Gentlemen from what may be considered a personal responsibility.

Your Committee has therefore to report — that it recommends the immediate Sale of the Corporation Gas Works, due care being taken that the interests of the Citizens are fully protected by Parliamentary restrictions.

Gentlemen

In pursuance with the directions of the City Surveyor, I inspected the retaining wall at Sarsfield for the purpose of ascertaining on whom the liability of maintaining it rested.

As the Corporation undertook the conservation of all roads made under the Grand Jury Acts within the Borough, they are clearly liable to keep the retaining walls in the boundaries of the roads in repair

Resolved -

That we recommend that for the purpose of discharging our pressing liabilities caused by the non-payment of our just claims by the Market Trustees - the recovery of which is in the hands of our Law Advisers - that a Borough Rate of 2d in the £1 - for the Half year ending the 1st January next - be struck for the payment of the Salaries & charges legally chargable to the Borough Fund, and as the General Purposes Rate

and Improvement Rate have been this year reduced 10 in the £. We think that the keeping of a Borough Rate as above will not press heavily on the City.

By adopting this course the National Bank debt will be reduced annually, and the City in a few years will be relieved of the payment of about £200- a year interest.

Report of the Committee appointed 8 June 1876 to consider the position of Wellesley Bridge debt & the best means by which the Bridge may be freed from Toll

Present J C Phillips Chairman
" Connelan
Ald Myles

Your Committee having gone into the figures furnished by the Board of Works showing the receipts and expenditure connected with the Bridge since the debt was commuted in 1867 find that the debt has been already reduced from £10,000 to about £7,500 If the income continue even at the same rate as for the past few years it would still require 15 to 17 years net income to pay the remaining debt

It is a public grievance that the chief approach to the City should continue to be impeded by a heavy toll for such a lengthened period: besides preventing the extension of building in that direction, the toll creates an obstacle between the enjoyment by the humbler classes of one of the healthiest & most extensive suburbs of the City.

We believe if the matter was represented in this light to the Government they would remit the small Balance now due, the City undertaking to make provision for keeping the Bridge in thorough repair, and for working

the moveable portion to allow the passage of ships —

We therefore recommend the Council to request the Members for the City & County & for the County of Clare to bring this matter under the notice of government as soon as possible —

Mr Connolly Law Adviser brought before the Committee a letter from Mr Sherlock Parliamentary Agent asking whether the Corporation are desirous of taking over the United General Gas undertaking and if they are so desirous whether they are financially in a position to do so.

The following resolution was proposed by Alderman Scully seconded by Robert Mac Donnell & Carried

Resolved

That the Law Adviser do forward to Mr Sherlock our Parliamentary Agent a Copy of the resolution dated 16 May 1876 and Copy of resolution of the 1st of June 1876 -

That under the Limerick Improvement Act Cap 194 power was given to the Limerick Corporation to purchase any Gas Works in Limerick and we refer our Agent to this Act. And if the borrowing powers of the Corporation were increased for the purchase of the United General Gas Co's Works we believe no difficulty would arise in raising the money - we may also remark that of the £20-000- borrowed under the Limerick Improvement Act between £11-000 & £12-000 have been paid back

¶ There are in Great Britain now more than 1000 Selling Agencies of the "Borough" Pocket Guides, including Messrs. W. H. Smith and Son in England, Messrs. John Menzies & Co., in Scotland, and Messrs. Eason & Son in Ireland and over 500 of the best Stationers and Booksellers of the Country.

Through Councils, Chambers of Trade, Advertising Committees &c.

¶ On the Continent, there are Agencies in each Town where the Guides are issued, and Messieurs Hachette et Cie, control the Railway Bookstall trade.

¶ In every locality, where the "Borough" Guides are issued, large numbers of the Guides are used by the local Committees for posting out to enquirers, and to attract visitors, residents, or manufacturers to the district.

Holiday Season Methods.

¶ During the Summer Season, advertisements with the familiar catch phrase **"You want a Guide"** appear in London Papers and induce an extraordinary response, showing how much the public appreciate the quality, cheapness, and handy size of the "Borough" Pocket Guides.

These methods of publicity have gained the proud position for the "Borough" Pocket Guides of being

THE LARGEST SERIES OF GUIDES IN THE WORLD.

500 Different Volumes.

ANNUAL CIRCULATION OVER 750,000.

of the head of the Corporation the present Mayor James Spaight Esq. to a suitable recognition of his great abilities & public services to the City & district. as described in the Memorials from the other Boards,

Gratefully remembering the admirable manner in which Mr. Spaight discharged the onerous duties of Mayor, during his former Mayoralty more than 20 years ago, and his continuous eminent public Services to the Commerce of Limerick, since that time. the Town Council adopted the unusual Course of electing him as Mayor for the present year without any solicitation on his part. and almost against his desire - in full confidence that he will do honor to their choice. by upholding the dignity of that ancient office, and by advancing the general Commercial interests of the City - Since his appointment he has fully justified these high expectations

Your Memorialists therefore Cordially unite with the other public bodies corporate. Namely - Harbour Commissioners & the Chamber of Commerce and the Markets Trustees of Limerick in praying that your Grace will be pleased to put Mr. Spaight's Claims before Her Most Gracious Majesty the Queen and to solicit Her Majesty to confer,

on him the rank of a Baronet,
And your Memorialists will pray"

"Memorial to ~~have "Valiant" changed from Turbert to~~ allow the "Valiant" to be stationed at Foynes."

Meeting, Dec^r. 19^th. 1877: Present- James Spaight, (Mayor) presiding; Alderman Phillips, Ald^n Lenihan,

The following was unanimously adopted -

To The Right Honorable
The Lords of the Admiralty

The Memorial of the Mayor Aldermen and Burgesses of the City of Limerick in Council Assembled -

Humbly Sheweth -

That the Citizens and trading Community of Limerick, in general, have suffered considerable loss by the removal of the Guard-ship from Foynes to Tarbert, the latter Station being unconnected with Limerick by rail, and, therefore affording no opportunity to Officers or Men of visiting the City as they have been continually in the habit of doing from Foynes for business and recreation.

That Your Memorialists are informed and believe, that the sole objection to Foynes, as a Station, has been removed by the discovery of an ample supply of the purest Water in Foynes Island, in the immediate vicinity of the Ship's Moorings.

That the Premises of the Foynes Railway, adjoining the Landing place of the Harbour, affords every Comfort and Convenience to the Officers and Crew, as well as to those who supply the Ship.

That the Moorings already laid down at Foynes render the Anchorage perfectly Secure. And under all these Circumstances the Community of Limerick, which is the Chief City and Port of the West of Ireland, would respectfully submit, that they should not be deprived of the Material Advantage resulting from the Ship being Stationed at Foynes -

Mr. Forrest's Office

Recommended - That the City be divided into four cleansing Districts, to be arranged by Mr Forrest. That four Gangers be appointed, one to take charge of a certain number of sweepers and Carters in each District. The gangers to be selected from the present staff of sweepers; to work with the other men, and in consideration of their extra responsibility to receive 2/6^d per week extra wages. ~~To~~ Each ganger to wear ~~on~~ a numbered ~~[illegible]~~ badge, and to be subject

to dismissal, or to be deprived of his extra pay, or being found idle or negligent, or any of his men. The following men to be appointed gaugers, on probation:- Luke Carey, Thomas Tynan, James Costan & Michael Murphy.

Report of the Committee appointed at Council Meeting of 6th Dec. to consider the Application of the Royal Engineers for permission to make a new Sewer near the New Barracks.

Present - Aldn Phillips - presiding
Aldn Myles
- with - Wm. Corbett - City Surveyor

The Committee having carefully examined all the roads & Streets in the neighbourhood of the Barracks, and duly considered the Circumstances of each locality, are of opinion, that there can be no objection to having the Sewer made as proposed by the Military Authorities through Roden Street, (as shown by the yellow line on the Ordnance Map:) and they recommend the Council to grant permission for its Construction, provided the Sewer be made sufficient size and depth to allow of its being hereafter utilized for drainage of the adjacent Houses - But considering that the Sewer, if made thro' Roden Street, is not called for by the Rate payers in the District, the Committee cannot recommend the Council to expend the Rates in contributing towards the Expense of this Sewer -)

If the Authorities would however, run the Sewer down the Military Walk & through Charles Street & join the new Main Sewer in Henry Street, (as shown by the blue line on the Map) the Committee would recommend the Council to make a Suitable Contribution not exceeding half the Cost of the Construction of that portion of the Sewer which would run thro' the Military Walk & Charles Street -

Special committee to draw up an address to Her Majesty the Queen praying the release of the Political Prisoners and Petitions to Parliament ~~on the~~ ~~subject~~ referred to the expenses of the sanitary and Grand Jury acts =

The committee met and drew up the following address which they direct the Secy to thank the Town Clerk with instructions to have it engrossed

by the Mayor and Town Clerk. Attach the City seal and forward immediately. One to the Right Hon. M. Cross for presentation to Her Most Gracious Majesty the Queen. The other two to the City members for presentation to Parliament

To Her Most Gracious Majesty. Queen Victoria Queen of the United Kingdom of Great Britain and Ireland and of the Colonies and Empress of India

May it please your Majesty

We the Mayor Aldermen and Burgesses of the Antient and loyal City of Limerick humbly approach your Majesty believing that the brightest Gem in the Imperial Crown is that which recognises and dispenses the prerogative of mercy. We humbly pray your Majesty to exercise that prerogative in favor of the following persons Viz. Edwd O'Mara - Gordon Robt Kelly Patrick Mahony Edward Kelly Thos Thern John Dillon James Lalor & Edward Connor who continue to suffer penal servitude for political offences in the sincere hope that they will truly appreciate and be forever grateful for this act of beneficence which we humbly seek at your Majesty's hands in their behalf, and that thus another reason shall be given why those who look for

clemency from suffering may know that they can find in your Majesty that sympathy and redress which will bind them with the strongest link to the throne and respect for your Majesty's person and dignity

And your petitioners will ever pray

To

The Right Hon. & Hon. the House of Commons in Parliament assembled

The humble petition of the Mayor Alds and Burgesses of the City of Limk

Humbly Sheweth

That whereas your petitioners suffer a grievous injustice in consequence of the existing incidence of the Urban Sanitary rate which instead of being paid through or by the Board of Guardians as is the Rural Sanitary rate by which owners of property bear their due proportion of said Rate. it is Charged on the Borough Rate in the Urban Sanitary divisions whereby the occupiers exclusively pay all the Rate

Your petitioners humbly pray that a Bill now before your Honorable House this session may be passed whereby this oppression and injustice may be remedied and the incidence of the Rate may be equalized in the same way as in the Urban Sanitary divisions as it is in the Rural Sanitary divisions

And your petitioners will ever pray

To

The Right Hon & Hon the House of Commons in Parliament assembled

The Humble Petition of the Mayor Aldn and Burgesses of the Ancient City of Limk Humbly sheweth

That the entire burden of the expenses of the Grand Jury system as at present existing in Ireland are borne by the occupiers in Towns and Cities & the exemption of the Owners of property therein by which the occupiers suffer oppressive injustice and wrong

Your Petitioners therefore pray Your Honorable House will in Your wisdom make such an alteration in the existing Grand Jury laws as that the incidence of the Grand Jury tax may fall in due proportion on owner and occupier as is the case under the Poor Law System which so far works fairly and justly towards all Classes and that in the bill before Your Honorable House the injustice and wrong may be remedied and removed

And Your petitioners will ever pray &c

The 17th relates to the constitution of Lunatic Asylum Boards

Under the provisions the City of Limk and the County of Limk would be represented on the Board of Governors of the Asylum - the Lord Lieutenant would appoint one third of the members and the remaining two thirds would be selected by the Rural County Board of the Town Council of Limk - But the Bill does not specify any fixed proportions for the representation of each interest. it merely authorizes the Lord Lieutenant to fix any numbers he chooses to grant to each interest - and of the act pass in its present form the Lord Lieutenant might not allow a very small number of Board members from the City and might give a very large number to the County thereby swamping the City interests altogether - We find from experience that the Rural Guardians of the Poor (who valid form County Boards) usually exercise their powers adversely to the City and we are not satisfied that the executive should have authority to place the City at the mercy of the County in the Asylum Board we prefer having one safe principle laid down in the act to protect the City

We claim that the asylum Board should consist of
one third nominated by the Lord Lieutenant
one third selected by the County Board
& one third selected by the Limerick Town Council
This would be fair towards all parties and we hope our City members of Parliament may be able to have the Bill amended to that effect

The Govt may possibly refuse to give the City so large a representation on the asylum Board and may offer to adopt some other scheme of representation (on the Asylum Board) based either on valuation or population of the County and of the City respectively or fixed in ratio of the Numbers of Lunatics in the Asylum from the City and from the County district - But we have a precedent for such a board here - The Market Trustees - are one third Grand Jurors of the County - One third Councillors and one third members of the Chamber of Commerce. The Trustees work harmoniously and fairly

If the Govt should adopt either of the other Modes of allocating the Board members. the effect would be

1st on the principle of valuation - The County valuation being about £466,000 and the

the City valuation only £65,357. the County would have about seven members against one member for the City

2nd On the basis of population the City members should still be greatly outnumbered as the Board - the County has about 152.583 inhabitants while the City has only 39.353 which would give the City only one member against four County representatives

3rd But if we adopt the more equitable scale of contribution to the funds of the asylum based on the inmates - say average about 125 City inmates and 311 from the County then the City would be enabled to have three members against seven County members

So if we refuse to give us one third of the Board and if they offer to adjust the numbers of representatives according to any of the above mentioned scales, it is eternally best for the City to have it fixed on ratio of inmates of the Asylum - say to take an average of the last three years - but we hope our city members may get us to have one third of the whole Board

That the Town Clerk be directed to request on M.P's attention again to the question of having the Grand Jury cess made payable in same manner as the Poor Rate between Landlord & Tenant

Mr Spillane Gas Manager

Mr Connolly Law Agent

Mr Ellard Com. Clerk

It was arranged that Mr Spillane should Explain to the Earl of Limerick the Nature of the Gas Bill, and the grounds upon which it was assumed an opposition was threatened. and he read what he proposed to state to his Lordship -

The deputation having waited on Lord Limerick. Mr Spillane read his statement -

The Earl of Limerick in reply referred to the Petition he had presented to the House of Lords relative to the United general Gas Company's Bill last Session. and Explained that what he stated in the House was merely the allegations in the Petition. - And reserved to himself the right to act on his own judgement - He was glad to get

the explanation now made and would consider fully the documents given him. but at present would not state further. as he had a petition then before him which was signed by some most influential Merchants of the City. the allegations in which he read.

The deputation then withdrew

In order to provide an abundant supply of Water to secure the growth of the newly planted trees & Shrubs. the Committee decided that a Pump should be fixed inside the Park railings. Connected with the Well sunk by the Jubilee loan Society. so as to make use of the water now useless in that well,

The Committee recommend that a small room containing a window to Command a view of the Park should be made at the Gardener's house, as it is now impossible for the gardener to protect or Supervise the place effectually. the door of his house being turned away from the Park, and there being no window looking into the grounds from any part of the house,

The Committee directed that Mr Corbett should improve the footway near the entrance gate to prevent mud and water flowing from the Streets into the Park in wet weather. filling the walks with soft mud and adding Considerably to the Cost of Maintaining the walk in proper order.

The Committee decided to ask Lord Limerick to lend his gardener to meet our gardener for the purpose of lopping and thinning out portion of the old trees & shrubs which are greatly overcrowded & requiring pruning & clearing.

A letter dated the 14 July from the Secy of the Water Compy read as also one to Mr M.A. Hennessy dated the 11th July.

The Secy was directed to ask the Mayor if he received from Dr Cameron the analysis of the sample of water handed to him by the Sanitary Board on 12th July 1879

The Law Agent was requested to report to next meeting of the Town Council on the reasons (if any) why the necessary legal Notification has not been served on the Limerick Water Works Company and as our Arbitrator Mr Gillane

That we are concerned to find that Mr Gillane remains without any official intimation that he had been appointed by the Council as the arbitrator for the City on the Water Question

That this Committee having on the 3rd July directed their Secretary to write respectively to the Local Agent for this City and to the Secretary of the Limerick Water Compy in London requesting permission for Mr Hennessy C.E. on their behalf to inspect the works preparatory to the appointed arbitrator are obliged to express their dissatisfaction at only receiving a vague acknowledgment from the Local Agent dated the 14th (Thursday) and at their not having experienced from the London Water Compy the ordinary courtesy of an official reply

Meeting of Water Arbitration Committee
held 3rd August 1879

Present The Mayor in the Chair
J. B. Bernal J. B. Sheehan J. B. Skinner
Cronin Nolan.
(J. B. Delany also attended)
Mr. Monahan attended on behalf of the Landlords

Proposed by J. B. Bernal
Seconded by J. B. Skinner and Carried Unanimously

Resolved -

That this Committee after reviewing all the Analyses made for the Water Company and those on behalf of the Citizens by direction of the Council of the Limerick Corporation, as appears on the Records, are confirmed in the Views of those who in 1859 Condemned the Source from whence the Water is obtained for the Supply of this City, and we urge this point on our Arbitrator and the Local Government Board, believing that the high rate of Mortality in Limerick is in some part owing to the inferior quality of the Water supplied by the Limerick Water Works Company.

The following bills from Mr M. A. Kennedy C.E. for whom this Committee on the 3rd July last passed a Resolution requesting from the Limerick Water Works Co. on behalf of the Corporation permission to enter & inspect their Works &c preparatory to the appointed Arbitration - were read and referred to Arbitrator - when & as -

Referred to 7th August 1879

To the Chairman
Water Arbitration Committee

Sir

I beg to inform you for the information of the Committee that in reply to my second Application to the L. Water Works Co. for permission to enter on, and inspect &c their premises &c I have on the 6th inst. received a letter from the Secretary of the Company referring me to the Arbitrator or Umpire as to the Course to be pursued. I have accordingly Communicated with Mr M. Sheehan the Arbitrator on behalf of the Corporation

I am Sir
Your obedient Servant
M. A. Kennedy

when it was -
Proposed by J. B. Bernal and
seconded - Unanimously
Resolved

That this Committee cannot but express their dissatisfaction and concern at the obstruction shewn in the way by the second refusal of the Limerick Water Works Company to allow Mr Kennedy C.E. an opportunity of inspecting, on our behalf, the Works by which the Water is pumped, the lands from which whence the daily supply to the City is issued and the process of filtration by the Company since 1859. Such inspection being necessary for the purposes of the coming Arbitration -

Proposed by J. B. O'Connor
Seconded by P. B. Nolan
and Passed unanimously

Resolved

That in view of any further obstruction being offered by the Limerick Water Works Company to the inspection of their works by the Executive officers of the Urban Sanitary Board or by any party authorized and deputed by the Arbitrator appointed by the Council - We urge on the Mayor the question of calling a public meeting of the Citizens, and propose Resolutions to go to Parliament for power to erect works to supply the City.
Proposed by D. B. O'Sullivan -
Seconded by J. B. Nolan -
and Passed Unanimously

Resolved

That we hereby direct our Solicitor to call on the Local Government Board to name with as little delay as possible an Umpire - to determine the Case between the Limerick Water Works Company & the Limerick Urban Sanitary Board -
Proposed by J. B. Bernal
Seconded by P. B. Cronin
and Passed unanimously

Resolved

That the coming Arbitration for and on behalf of the Citizens, as against the Limerick Water Works Company be brought under the Notice of our Hon.ble Representatives for City and County, and we respectfully Solicit their attendance

Proposed by D. B. O'Sullivan

'Sir

'With reference to your letter of the 9th 'instant Communicating the request of the Limerick 'Sanitary Authority that the Local Government Board 'for Ireland should appoint an Umpire in the 'Arbitration of certain matters between the 'Sanitary Authority and the Limerick Water Works 'Company, the Local Government Board desire to 'state that, having regard to the terms of the 217th 'Section of the Public Health Act 1878 (the Sections '1. 2 and 7.) as a necessary preliminary to the 'appointment of an Umpire by the Local Government 'Board, Copies of the Appointment of the Arbitrators 'should be furnished, with a copy of the deed of 'Submission Specifying the Matters to be decided,

together with satisfactory evidence that proper notice has been given to the Arbitrators requiring them to appoint an Umpire, and the refusal of either to do so within the time limited by the Statute.

"On the information being supplied, the Board will be enabled to see whether the appointments of Arbitrators have been executed in due legal form: while the particulars in the deed of Submission will guide them in the selection of a suitable and Competent person to be Umpire, and the evidence of notice will furnish further information as to the question whether the Local Government Board is in a position, or not, legally to make the required appointment.

"If the costs of an Umpire are not included in the deed of Submission, the Local Government Board request that the Sanitary Authority will be good enough to state what they propose in reference to them.

The draft Estimate of Improvement Rate for Half year from 1st July 1879 to 1st January 1880 - Considered

To enable the reduced sum of £1440 granted for Sweepers & Scavengers &c to suffice the Committee recommend that the present Staff of Sweepers be paraded before the Council at its next meeting - and for the future that no Sweeper be appointed without the Sanction of the 'Improvement Committee'

Ordered - That the £400 - Borrowed this year by the 'Improvement' from 'Contingencies' be made a permanent transfer to the 'Improvement Fund'

Recommended that no new works be undertaken this Half year excepting such as are provided for in the Estimate.

The Committee recommend the Council request the Local Government Board - that in pursuance of the 226 Sec. of the 41 and 42 Vic Cap 52. they cause enquiries into and adjust the incidence of the Expenses under the 'Public Health Act' of the City - so as to make it - Same as the Poor Rate - equally payable by Landlord & Tenants.

The Committee recommend that a Rate to made of 2/- in the £ on the Rateable Property of the City (£61393 11 8) which will yield a Sum of £6139 7 2 - Am' Estimate adopted £6139 15 8½

"Lunatic Asylum Committee"

Ald Cleary Chairman

Ald Hayes J.P. Maloney J.P. Nolan J.P. Cronin

Having been appointed by the Town Council to examine the Cost of Lunatics charged to the Boro of Limerick in the Lunatic Asylum. We report that of the 102 Lunatics now charged against the City we object to Johannah Keating admitted this day on a Certificate signed by a Magistrate Doctor and Poor Law Guardian of the City to which she is in consequence of Such Certificate charged. We have been informed that she belongs to Croom and that for the last six months during her Residence there she was Insane and since brought to Limerick where the Certificate was signed. As Rate payers we lodged a Protest against their chargeability to the Gaol before the next meeting of Governors

Bridget Hogan - admitted 22 March 1869 from Coolrain to Limerick

George White - was a paying patient in the Ennis Lunatic Asylum. was sent from that Institution and received here as a paying patient - The Payment ceased for the passed two years

Thomas Gardiner - a Sailor - became Insane on board Ship at Sea. was landed on the Quay and sent to the Asylum. Feby 1870

Maurice Power - from Kelly's Range. Black Boy. County Limerick. 7th March 1870

Anne Cleary - from Adare 3 Sept 1874 her relatives in Patrick Quay signed the Guarantee for her removal are well able to support her. This certificate was

signed in Limerick

Margaret Glynn - formerly in the Asylum from Limerick - Discharged cured March 76 sent to live in Bruff where she became insane again and from thence she was sent to the Asylum Certificate signed there by the Magistrate Doctor and Poor Law guardian

Thomas Byrne - a soldier sent insane. Under escort from Nenagh to the Limerick Workhouse and thence to the Asylum he enlisted at Gravesend

Arthur Sparling - from Rathkeale lived a short time in Denmark st from thence he went into the Union Hospital where he was several times and then transfered to the Asylum

Michael Naughtin - in Epileptic Ward of Workhouse. became insane and sent to the Asylum

Mary Daly a long time in Infirm Ward of Workhouse became insane and sent to Asylum

Bridget Shannahan in Workhouse Hospital became insane & sent to Asylum

Thomas McGrath sick in Workhouse Hospital became insane sent to the Asylum

Catherine Kelly a paying Patient from Bruff

We have to observe that the Workhouse being in the County cases sent from thence are County cases

We regret to observe on the needless signing of Certificates without proper enquiry on the part of those doing so by which the Asylum Authorities charge in accordance with same

We are of opinion that as a general rule paying patients ought not to be taken into the Asylum without a sufficient bonding guarantee for same

Resolved - That having gone carefully through the memorial presented to us on this day we consider that the prices offered except for Lots Nos 3 & 5 are inadequate and as we believe that the Solr Mr J Kearney Solicitor for the mortgagees is actuated by a desire to realize the highest value for the property we suggest that the various lots be again put up to public auction in the Council Chamber to give a further opportunity to the Artizans to purchase

Referring to No 1 lot the Committee recommend that the Council retain the premises for their own use

Geo Cleary Chairman

A.C. Myles T. Nolan R. Cronin T. & P. Moloney

The committee on the part of the Corporation met a committee of the Board of Governors of the Asylum relative to objections raised to the charging of some of the Lunatic patients to the City

The Governors of the Asylum agreed that some of the Patients ought not to have been so charged and agreed to report to their effect to their Board with reference to the other item stated that as the law of chargeability is not clear they would ask the opinion of the Board of Control on same.

The committee reported to Sub Committee the result of their interview when Sub Committee resolved that the Town Clerk be directed to apply to the Board of control to ascertain what constitutes Chargeability of an Insane Patient in a District Lunatic Asylum

Can a paying patient be legally sent by the Governors of one Asylum to another and can he be legally received by the Asylum to which he may have been sent

Are those who paid for him in the first Institution still liable to the one to which he may have been sent

To what place is a Sailor chargeable who becomes insane at sea is landed at the Quay at Limerick and sent to Asylum

The Limerick Workhouse being in the County Limerick are not any of the Inmates who may become insane there chargeable to the County and not to the City

As such an important matter as chargeability in District Asylums should not be a matter of doubt or uncertainty. We recommend that Mr O'Shaughnessy M.P. be requested to bring a bill into Parliament for this purpose and suggest that the charge be placed on the whole united District or a Residence such as exists under the Poor laws both a Union Chargeability where the necessary Residence does not exist

Resolved. That we recommend the Council to refer the question of the future water supply to the City to the following Committee. The Mayor, Ald. McDonnell Ald. Bernal, Ald. Hogan, Alderman McGuire, Ald Hall with power to add to their number, with the City Surveyor, that it be an instruction to said Committee to go minutely into a calculation, to ascertain the quantity necessary for proper supply for all domestic purposes, and report thereon to the Council, as soon as possible, and that Mr Rich Rowlette L.G. Board Inspector be invited to attend the meetings of this "the Special Water Committee"

The Amendment having been put to the meeting the Mayor declared the "noes" to have it. A Poll called for a division which some Members of the Council objecting to, suggested a show of hands should be called for which being done the Mayor declared the Amendment lost.

The Mayor then put the Original Resolution to the Meeting and declared the "ayes" to have it that the Resolution was carried

The Meeting then separated

The Members present however stated they had received no Notification of the Adjournment of the Meeting and decided to go on with the business — and accordingly Moved to the Chair

and Passed Unanimously —

To the Rt Worshipful the Mayor, & the Chairman of the Committee of the Limerick Corporation. to be held on Thursday July 22nd for the purpose of Meeting Dr Tidy on behalf of the Limerick Water Company.

We the undersigned Citizens Burgesses and Ratepayers of Limerick protest against any negociations being opened with Dr Tidy, formerly the Witness and inspiring Agent for, and now the Accredited Agent of, the Limerick Water Company, or of your doing any act or thing which may damage, Prejudice, or in any way lessen the Value and Importance of the Solemn award made by the Arbitrators and Umpire, on the points Remitted by the Local Government Board on the issues between the Sanitary Board of the Limerick Urban district and the aforesaid Water Company.

Scientifically Dr Tidy can give no additional information beyond that given at the Arbitration & with which we were abundantly furnished by our Eminent Advisers Dr Cameron and Professor Mickbone. Financially we rely on the Same good Common Sense and Sound practical judgement being exercised by which the Council were actuated when obtaining the Gas Works for the Citizens, and we are quite Confident that Limerick Men are able, Willing and Competent to work for the best interest of their native City.

We protest against the reception of Expert evidence, and Expert advice, for the reason above stated.

We should be most unwilling to offer the slightest disrespect or discourtesy to Dr Tidy — On the Contrary, he deserves our grateful Consideration, from a National standpoint, for his glowing tribute to the Queen of Western Rivers — The Lordly Shannon — but we suggest to you, that Dr Tidy should be asked, & reflect, how far zeal in any Company's Service is Compatible with discretion and Consistency, before he enters the list of Contention as the open and professed Advocate of a Company whose Works he described, as "the most wretchedly Constructed he ever saw" and which were, and remain, the Medium of supplying a localised population of 38,000, and a gregarious Visitation of 8,000 - making in all 46,000 Souls, with a necessity of Life-not Secured as impure in Quality, insufficient in Quantity, unsuited as an Agent for Sanitary Measures, and unreliable as a protective Agent for life & property against the Casualty of Fire.

The humble petition of the Mayor Alds and Burgesses of the City of Limerick

Humbly sheweth

That your petitioners see with extreme regret a measure of coercion for the County introduced into your Hon House by her Majesty's Govt

That having extensive knowledge of this portion Ireland your petitioners Con Confidently state that remedial measures are alone wanted to allay the agitation which exists

We believe the present laws are sufficient to preserve the peace of the County. That in the interests of industrious and hard working people we protest against the proposal to abrogate the Constitution and place the liberties of our fellow Countrymen at the mercy of any officials without the restraint and protection which the ordinary laws of the County extend to every individual

That we pray your Hon House as the natural protector of the rights & liberties of the people to hesitate before passing a coercive Measure which we respectfully submit there has been no just grounds shewn for adopting

Having read the suggestion of a member of the Committee of the 20th Sept 1880. The Committee requested A.G. Phillips R.D.J. McNamara and J.J. McCarthy or any two of them as well as any others of the Committee who can go with them to inspect the land at Glen Corkaurree & report what they recommend to be done with it. To meet on Saturday next at noon at Mr Phillips office at the Docks.

"Corkaurree Committee" — (19th July 1881) — of inspection — present: R.G.D.J. & M. Romer & A.G. Phillips — (Mr Barker & the Constable absent)

The Committee Report — They visited over and carefully examined the greater portion of the Eastern & Middle divisions of the Corkaurree — & the there are numerous deep cracks in the ground, and several places are very dirty with dead weeds which reduce the value of the land in the present state for Meadowing, the land is not in bad condition for Grazing purposes — Of course it would be greatly improved by being tilled to close up the cracks and get rid of the weeds. but considering that the season is already so far advanced it would scarcely be practicable to commence tillage operations this Spring —

The Committee therefore recommend that the place be let for grazing this year — reserving the western portion (if it be found suitable for Meadowing — & if it can be easily preserved from trespass of the Grazing Cattle —) It will perhaps be desirable to employ a few men digging up the weeds in the worst patches, and throw a few cartloads of Gravelly road Scrapings thereon into the largest and most dangerous of the Cracks. if it be found on further inspection that the Cracks are likely to cause any risk of accident to Cattle —

The committee waited on Mr Allen at the National Bank and proposed to him that the Corporation would surrender to the National Bank debentures to the amount of £3500= of the Market Trustees and which they were about to receive from them in liquidation of a like sum due by the Bd Fund to the Bank. The Committee stated that they would also be prepared to surrender them to the Bank as a collateral Security if they were legally empowered to do so. Mr Allen replied that having already had a communication from the Law Advisers on this subject had written to his Directors and expected their reply and which he would communicate when he received it.

The Committee having visited the Limerick District Lunatic Asylum on the above mentioned date Report as follows —

We enquired into the cases admitted and charged to the City since our last investigation of 14th May 1880.

We found one wrongly charged which is now rectified

Three were persons transferred to the Asylum from the Co. Gaol by the Lord Lieutenants Warrant — This Union is a District one, but situate in the Borough and therefore those individuals are charged on the City —

Also 2 Soldiers sent from Clothy & Limerick (the place of Enlistment) — and others whose residence in the town was of temporary duration, Such a Chargeability may be legal, but is unfair to the Ratepayers of Town —

We recommend that W. H. O'Shaughnessy Esq be requested to bring this injustice under the notice of the Government, with a view to have a similar Law of Chargeability

as exists for Inmates of H. M. Houses —
A clause to this effect might be added to a
Bill now before the House of Commons.

We the Corporation Contribute largely to
the Maintenance of this Institution. They ought
to be represented on the Board of Governors —
We recommend that application be made
to his Excellency to appoint 3 Members of
the Council as Governors to attend to the
interests of the Ratepayers.

We recommend the Council to
appoint annually a Committee to
enquire into the Admissions of City
cases to the Asylum.

---

1 For what sum, and on what conditions will the Company sell Works to Corporation ?. It being understood that the Company are to hand over the Works, and all other interests as they now stand.

2 For what sum, and on what conditions will the Company supply to Corporation. One Million Gallons per day. it being understood that the Corporation engage to pay for One Million gallons per day, and are to have full charge of the distribution and to receive all rates & charges for same, for public & private use. The Company undertaking

to supply the Corporation only ?

In connection with this question we would respectfully ask the Company to lay before us, for our guidance, the particulars of their present Rental. By a Statement of how much annually is levied for Domestic Supply (and valuation of property on which the domestic rate is made) Public Institutions, Shipping, Trade, and other Services.

3 On what rate, and in what Conditions will the Company give the Citizens a Constant Service Supply (at a proper pressure) of filtered water, it being understood, that the Corporation shall put in force the Compulsory Clauses of the Sanitary Acts. The quantity being not less than One million gallons daily ?

'London E.C. 20th May 1881

'Dear Sir

'I am requested to acknowledge the 'receipt of your letter under date the '17th May, in reference to the proposed 'Conference between my Company and 'the Corporation of Limerick –

'The Water Works Company have written 'you very fully, giving all the information 'asked for – besides which they have made 'several definite propositions from their 'point of view – And it has occurred to 'Mr Gregory and myself that the Corporation now 'having before them our proposals, with the 'alternative of an Arbitration, it would be 'very much more Convenient for the Corporation 'of Limerick if they have any observations to 'make or any Counter-proposal to submit, to do so 'in writing –

'This would be very much better than a 'verbal discussion, and may lead to a 'settlement of the question upon a satisfactory 'basis without Mr Gregory and myself being put 'to the trouble, inconvenience, and Expense of 'a personal visit to Limerick –

'Will you be kind enough at once to 'take the opinion of your Committee on this 'subject, and let me have a free reply 'at the earliest possible moment?

— Military Bands in the People's Park —

The Mayor by desire of the Council having requested the Commanding Officers of the Regiments stationed in Limerick to permit their Bands to play on stated days in the People's Park. The Officer in Command of the County Limerick Militia kindly Consented to allow the Band of that Regiment to attend at such times as may be agreed on — And the Park Committee was summoned to meet in the Park at 12 Of. on Thursday 11th August. to make the needful arrangements —

Some Members of the Committee Conferred with the Park Keeper about the arrangements to be made in the event of the Band's attendance — Taking all Circumstances into Account we are of opinion that —

The best time for the Band to attend would be Thursday Evenings. (from 5. to 7 Oclock). for as this Saturday might be more agreeable to Country people visiting the City on Saturdays it might not suit the great body of the Citizens who are generally more occupied with business on Saturdays than on Thursdays —

And the best location for the Band when playing would be the Mound near Wolfe's Monument —

The Committee request the Mayor to Convey the thanks of the Citizens to Major Mawe for his Courtesy and Kindness —

Arrangements to be made for the Band's attendance as soon as possible. as it is a pity but the Summer pass away without obtaining the required recreation and amusement for the people —

Report of Committee

We visited the Lunatic Asylum & Enquired into the Chargeability of such as were admitted there since our last Report

There was a Man from Bark charged to the City upon our Explanation and reference to the Rate Books that Bark is in the County. His Chargeability has been rectified.

We observed also that a Man was brought before the City Magistrates, and Committed by them to the Asylum. This Man was lately discharged cured from the Ennis Asylum.

We regret having to report that the inhuman practice of sending Insane Soldiers from Netley still Continues. as Pete Finn who enlisted at Jerpoint in Sept 76 was sent in April 1881 from Hong Kong to Netley Hospital, and from thence in Aug 3rd 81 was sent under Escort to this Asylum, as the Attestation Paper stated he was born in Limerick. These persons under the Poor Law Act would have been charged upon the whole Union -

We recommend that a representation of those cases be again brought under the Notice of our very attentive Representative M O'Shaughnessy Esq. M.P with a view to have the Law of Chargeability in Lunatic Asylums, made Similar to that under the Poor Laws, and that the Compulsory Removal of Insane Soldiers be prohibited. A Similar recommendation has been made by a Committee of the House of Commons on the deputation from England of Irish poor persons

We again request the Town Council to ask to be represented on the Lunatic Asylum Board to which they largely contribute and which we think is necessary in the protection of the Rate payers

We had every facility in our enquiries from Dr Courtney, who appears anxious to have all the Lunatics Charged correctly

City Surveyor's Report
(as adopted)

27 Glentworth Street
Limerick
January 24th 1882

Wm Chairman and Gentlemen

In compliance with your resolution of the 19th instant I have to report for your information that in my opinion One Million Gallons of Water per day is required for the City –

I find the Water Works Company's Tanks or reservoirs at Garryowen are 100 feet above Ordnance datum, and the highest ground within the City is 87 feet over the same datum, therefore the pressure at this place I consider is Nil; when other portions of the City are only

70 feet over the same datum -

The Water Works Company to give you sufficient pressure, a pure, ample, and constant daily supply of Water - should carry and improve their works as suggested by me in my report dated 21st of October 1880 - Vide -

At Rhebogue the intake pipe should be extended above the Greedy river -

The subsidence reservoir and filter beds be completed -

A new Engine and pumps to be erected to lift Water to the Garryowen reservoirs, and to a new reservoir to be constructed on the Turret Hill at Newcastle which is over 200 feet over the Ordnance datum, that is 170 feet over the highest point in the City -

New lifting Main pipes to be laid along the pipe track from the Rhebogue Works to the Dublin road, and thence along the Dublin road to the Hill at Newcastle -

The pumping of the Water either to the Newcastle hill reservoir or to the Garryowen reservoirs can be regulated by valves placed at the Rhebogue Works under the Control of the Engineer in charge of the Engine -

By this arrangement I would divide the City into three Districts. And I propose the reservoir at Newcastle to be 200 feet Square and 17 feet deep to Contain three Million gallons of Water, with all the necessary valves, outlet, inlet, and scouring pipes &c. which would supply the upper portion of the City and the reservoirs including the Completion of the third reservoir at Garryowen would supply the Centre and lower portions of the City -

A Cast iron supply Main of 12 inches in diameter to be laid from the reservoir at Newcastle hill along the public road to Pennywell, up the Pennywell road, on through Cornwallis Street, Nelson street, and Edward Street to near the New Barracks forming junctions with the pipes at the head of Roche's Street and other places -

I would also put another supply Main from the reservoirs at Garryowen down through John Street, Broad Street, Mary Street and Nicholas Street over to the reservoir on the North Strand which would supply the lower portions of the City and the North Strand -

At the head of William Street and at the rere of St John's Church near the Corner of John Street, I would put down Valves to Connect the supply pipes coming from the reservoirs at Garryowen, in order, in case of fire in the lower portions of the City the high pressure service from Newcastle Could be put on -

If these works are Carried out as now suggested you will have your City divided into three districts. Each having a Separate supply - Vide

No 1 - From the reservoir at Newcastle, for the upper portion of the City -

No 2 - From the reservoirs at Garryowen, for the Centre of the City

© Copyright Limerick City Council Archives

No 3 – From the reservoirs at Garryowen, for the lower portion of the City, and the North Strand –

which we doubt not will give you an ample supply of pure water from our noble Shannon –

A cheaper plan for supplying the upper portion of the City could be adopted by putting up at the Garryowen reservoirs a large and higher Steam pipe and pumping with a new Engine from the reservoirs through this pipe to command the high levels, which on no account would I recommend you to sanction –

I remain
Your obedient Servant

The Minutes of the last days Meeting were read Confirmed and Signed –

The following letter received from the Secretary of the Water Works Company was read –

"The Limerick Water Works Company
"14 Moorgate Street
"London E.C. 30th January 1882

"Dear Sir

"Your favor of the 19th instant Communicating "to Mr Finlay the resolution of the Special Water "Committee appointed by the Corporation of "Limerick was submitted to the Directors of the "Limerick Water Works Company at their Meeting "held on Friday last –

"The Directors beg to express their pleasure "and satisfaction at the prospect of an amicable "arrangement being come to between the Corporation "and the Company in reference to the Water "supply of the City of Limerick – but before "sending over a deputation to meet the "Committee, the Directors think it would "be desirable for the former to determine which

'of the alternatives provided by the Act of
'1878 for the supply of Water they propose
'to adopt - As you will they are no doubt
'aware, these are :-

'1st. A purchase or Lease of the Existing
'Works of the Company -

'2nd A Contract with the Company for a
'supply of Water for the City generally,
'including domestic purposes, or for
'sanitary purposes only -

'The Corporation are already aware
'of the readiness of the Company to sell their
'Works either by Arbitration or agreement - It
'is for the Corporation or the Committee to say if
'they will accept either of these Courses -

'If they decline both of them, the question
'arises, for what do the Corporation wish to
'Contract, whether for all purposes - including
'domestic ones - or for Sanitary purposes only ?
'If for the former, the Directors presume that the
'Corporation will put in force Section 72 of the
'Act of 1878, and Compel every house to be
'properly supplied with Water, And the Question
'will be whether there should be a general rate
'for this, or whether the Company are to charge
'each house as they do now those which they supply -

'I have already stated that the Company
'are willing to sell or lease their Works - And
'they would be equally willing to Contract with
'the Corporation for a supply to the whole of the
'City for all purposes, or for a supply for Sanitary
'purposes only, on being informed of the Course
'which the Corporation propose : - And on receiving
'this information they will be happy to send over
'a deputation to discuss - and if it is hoped, arrange, -
'the terms - They believe that the Works, with the
'improvements which they are Carrying out, will
'be Quite Capable of affording a pure and
'wholesome supply of Water to the City for all
'purposes, and that they will be in a position
'to afford this supply upon Moderate terms -

'If you will Kindly let me know the views
'of your Committee at the earliest possible moment,
'I will lose no time in Convening a Special Meeting
'of the Directors of the Water Works Company, for
'the purpose of placing such views before them
'for their Consideration -

'I am, dear Sir
'Yours truly
'Edwd Hart
'Secretary

'W. McDonnell Esqre,
'Chairman of Special Water Committee,
'The Town Hall,
'Leicester'

On the above letter having been read -
the Committee at first deemed it desirable that
they should discuss the several Queries put by
the Company, & which accordingly were taken
up by them seriatim - With a view however
of bringing this Question to a speedy issue
the Committee, on reconsideration were unanimous
in adopting the following Resolution -

Authority for their own purposes
as I have stated in my letter of the 2nd inst.
the Company are prepared to meet the Sanitary
Authority on the basis of any or other of
these alternatives but it appears to them
that it is for the Committee to determine
on which they intend to proceed and that
a deputation from the Company could
afford them no assistance in doing so

The Company have already offered to
sell or lease their Works or to effect a supply
of water for any purposes which may be
required upon reasonable terms - They only
wish to know if they are to negotiate on the
footing of a sale or lease of their Works - or
and what is the nature of the supply
of water which they are asked to furnish
whether a general supply for the use of
the City domestic manufacturing and
otherwise or for sanitary purposes only
and whether in adopting either of the
alternatives the Sanitary Authority are
prepared to put their powers for supply of
water in force

When the Committee assembled Mr Taylor handed in the following report

"To the Water Committee of the Corp.n of Limerick

Gentlemen

Since our conference yesterday afternoon I have carefully considered the points which were referred to me on which the Committee wished for information in order to lead if possible to some arrangement with the Company for obtaining an improved supply of water

I wish as preliminary to record that my instructions from the Directors of the Water Company were to negociate with the Committee on the basis of a supply of water in bulk to the Corporation for all purposes this being what the Directors understood to be the meaning of the resolution of the Committee passed on the 13th Feby inst. Having read the Corp.n letter of the 10th Feby we desire to state in reply that we are prepared to treat for a supply of water for the whole City

The Committee having informed me that the supply of water in bulk was not the basis on which they proposed to treat if was

elicited after discussion that they were willing to negociate on any of the following bases viz.

1 The purchase of the Company's undertaking

2 The schedule of rates the Company would be prepared to charge on condition that the Corpn put in force their Compulsory powers to oblige every inhabitant to pay for a proper water supply

and 3 The works that the Company were prepared to carry out to give a proper and improved supply of water on coming to a satisfactory arrangement with the Corporation under the aforesaid second condition and the Cost of the said works

As regards the purchase of the Company's undertaking I was requested to communicate & confer with the Directors with a view of ascertaining the minimum price they would take but on reflection I saw that it would be useless my telegraphing for such information for the following reasons because there would not be time for the Secretary to convene a special Meeting of the Directors and also because I feel that even if there were time to do so the Directors would not decide such a question without a further Conference with me and that in any case they would not telegraph a specific reply - I have therefore considered it best on this head to report to the Directors the desire of the Committee which will no doubt be fully considered at the board Meeting on Friday the 15th inst when a reply will no doubt be forwarded

I beg here to remind the Committee that the Company have already made an offer to sell their works to the Corporation for the sum of £35.000 and that if such sum were not considered satisfactory that they the Company would agree to submit the question of price to be decided by arbitration

On the second condition I am unable to submit any definite Schedule of charges

It is true that the rates authorized by the Company's act are higher than rates now generally introduced into water acts but the Company do not charge on this schedule On the Contrary they charge rates which are ordinarily sanctioned by Parliament at present and which are generally as low as any rates charged for water at the present time

I would point out that in every case that I know of and they are numerous there is always a range of rate applicable to the range in house rentals. the higher rate being applied to the lower house rentals and the lower to the higher rentals and that in no case have I heard of an uniform Rental on all classes of property - The principle of rating

as above described is well established and is sound and reasonable

Whatever scale the Company may agree to charge on will therefore be on such basis and although I am not authorized to bind the Company in this matter I think they would not object to agree with the Corporation to a schedule based on their present Rates & Charges with such modifications as may be necessary to avoid anomalous differences in the same class of property

I may also state that I am confidently of opinion that if an arrangement is come to with the Corporation under this second basis that the Company will be glad and it will be their interest to supply water for sanitary purposes at as low a price as is charged by any Company similarly established.

As regards the works the Company bound carry out the to improve the supply of water I beg to repeat what I stated yesterday that the works I have recommended are already as nearly as possible on the lines laid down by Mr Corbett in his report to the Corporation dated 24th January 1862 viz

To improve the intake from the Shannon

To construct filter beds with all appliances necessary to the proper filtration of the water

To construct a high service Reservoir at or about the elevation mentioned in Mr Corbetts report and to put up steam power and lay new mains to supply the filtered water to such reservoir

To lay down a service main from such high service reservoir to supply the entire upper district

To separate the town into zones of supply and gradually to carry out a constant supply of water as the house fittings can be rendered proper for receiving such supply without incurring waste

As to the cost of carrying out these works I am unable for me at the present time to state the exact amount that it will be necessary to expend. The system as above generally described is such as would be adopted upon the best modern experience in making such works. I have already reported on & recommended these improvements to the Company (should a satisfactory arrangement be come to with the Corporation) as works that after very large experience gained in the Construction of similar works that would fully effect the object in view of providing a proper and efficient supply of water to Limerick

In conclusion I wish to point out that the basis the Company considered I came to negotiate upon viz for the sale of the whole of the water in bulk to be distributed by the Corporation and charged for by them by a rate upon the inhabitants although it appears doubtful whether there is a precedent for such an arrangement is not clearly contemplated under the 73rd section of the Public Health Act

(Ireland) of 1878 and that the reason why there is no precedent for such a course is probably because until the recent legislation referred to it would have been difficult for a Company legally to make such an arrangement with a sanitary authority

I beg to remain
Gentlemen
Your obedient Servant
Allen Taylor

Acting as Engineer to and on behalf of the Water Works Company

After the reading of the above report the Committee decided to put the following questions to the water Company to be brought before them by Mr Taylor at their next Meeting and which Mr Taylor stated should be in London on the 14th inst. The Committee also directed the Secy to send a Copy of the queries to the Secy of the Water Company — viz

1st That the water works Comp[any] submit a uniform scale of charges based on the valuation of each tenanted house within the limits of supply

2nd That a scale be submitted relating to public buildings Manufactories and Buildings in which no persons reside

3rd That the Comp[any] state the lowest selling price of their works as they are

4th That the Comp[any] quote a rate for sanitary purposes based on the Government Valuation of the Borough

5th That the Comp[any] submit their plans for improving & enlarging their works in order to afford the necessary supply

N.B. The above queries to be answered on the presumption that the Corporation put in force their powers under the Public Health Act (Ireland) 1878

Resolved -

That we approve of the Action proposed to be taken by the Corporation of Manchester in reference to the proposed legislation respecting the Supply of Electricity for lighting purposes as mentioned in its letter, bearing in recollection the powers proposed to be given to the Board of Trade by the Government Bill, and the apparent Contradiction between the 2nd & 3rd Sec. of that Bill, which would leave our City open to having any Co. or person Authorized to light it in opposition to this Corporation and thereby Endanger the repayment of our debt which is to be paid off thro' the profits to be made in lighting our City, and that we desire to have said Bill Amended in such Manner as will protect our interest and those of all other Corporations similarly situated. That we will approve of the Bill if an Amendment be made in it, to the effect that no provisional Order, should be granted by the Board of Trade to any Co. or person, unless the Local Authority neglect or refuse to avail itself of a Licence, which the Board of Trade should be bound to grant on application.

The following Address was adopted on the proposition of Ald. Cleary seconded by Ald. Walsh

To His Excellency The Right Honorable
John Poyntz Earl Spencer, K. G.
Lord Lieutenant General, and General Governor of Ireland

May it please Your Excellency
We the Mayor, Aldermen & Burgesses

of the City of Limerick, adopt this, the first meeting of our body after your acceptance of the Office of Lord Lieutenant, to express the sincere gratification we feel at your re-appointment as Viceroy, and to say how heartily we again welcome you to Ireland.

We hold in pleasing recollection Your Excellency's Conciliatory discharge of the high duties of your important Office when you were amongst us before; and you are especially remembered in Limerick which had the honor of your presence on an occasion of great Commercial importance to our City and Harbour.

We the more regret that the terrible Crime in the Phoenix Park should have been perpetrated at a time when the Country was rejoicing at Your Excellency's arrival, but which, we have the satisfaction of believing you are convinced, finds no sympathy amongst true Irishmen.

Whilst admitting that exceptional measures are necessary for the prevention of such Crime as that referred to, We desire, most respectfully to Convey to the Government, through Your Excellency, our protest against the Sweeping Character of the "Prevention of Crime (Ireland) Act" introduced into Parliament, and to urge that the whole Community shall not be made to suffer for the outrages Committed by a few.

Read in Council 6th July 1882 Hall.

(Address cont^d from last page)

as it would under the infliction of the extreme legislation which is now proposed.

In giving utterance to the hope that the time is not far distant, when the Irish people will have a larger share in the Management of their own affairs than they now enjoy. We wish also to thank the Government through Your Excellency for releasing our Parliamentary Representatives, and other prisoners, and we feel confident that You will soon be able to restore the remaining "Suspects" to their homes.

Once more, we welcome Your Excellency to our shores, and our greeting is the more heartfelt that you are accompanied by your gracious Lady, the Countess Spencer, who on former occasions won a place in the best feelings of the Irish people.

Given in Council at the Town Hall in the City of Limerick under the Corporate Seal of said City —

The General Members present with the City Surveyor visited Borrisnane in Company with Wm P. Riordan and Examined the proposed Bounds between Wm Riordan's Land – Old Borrisnane – and Borrisnane (New) the property of the Corporation

The Committee recommend the Bounds to be fixed at the foot of the Old Embankment leaving an offset of three (3) feet between the Old Bank and the French which is to form the Boundary – one half the width of the French being on Wm Riordan's property and half on the lands of New Borrisnane –

But before carrying on this work, the Committee suggest & recommend that the Council would purchase the Old Bank as far as the Old West French at the back of it. as Wm Riordan is willing to sell it to the Corporation – the Amount to be paid to be left to Arbitration –

That a proper boundary be made

Meeting of the Committee to whom the Council referred the notice of motion of P.C. Hosford for consideration & report

Read a letter from the Local Gov^t Board of the 18th May on the appointment of Mess^rs Barrett & Crotty as additional Sub Sanitary Officers and as to the apportionment of their Salaries

Read the reply thereto

Read a letter from the L^d Gov^t Board of the 18th June requesting information as to why the newly appointed officers were to be paid at higher salary than to those who had up to that date performed the duties

Read the resolution thereon by the Sanitary Board as follows – and we recommend that the Council increase the salaries of Mess^rs Mulqueen & Barrett to the same amount £52/- per annum each and that the Local Gov^t Board be informed that a notice of motion has been given in the Council to that effect

Correspondence all relevant for our report read

P.C. Hosfords notice of Motion read the Minute of Council of 16th inst appended hereto – and we have to report after ample consideration, in favor of increasing the salaries of Mess^rs Mulqueen & Barrett. whose duties (hardly performed) have been up to the present too extended and excessive – That the equalization of the salaries to the same amount as to those voted by the Council for Mess^rs Jones & Crotty is only just & reasonable that the salaries originally fixed were settled better than experimental and with the view to economise and that they were subsequently paid inadequately. We conclude after eliciting information as to the number of Sub S. Officers in Cork Belfast & Waterford their salaries the area under each officers supervision and the respective populations with all of which the proposed arrangement for Limk will bear favorable comparison by recommending the adoption by the Council of P.C. Hosfords notice of motion and that the salaries to be voted for Mess^rs Mulqueen & Barrett are not in excess for the duties they are bound to perform

On the proposition of P.C. O'Brien seconded unanimously the above has been confirmed And is to be sent to the Council

18th Jany 83

Dear Sir

I received your note late on yesterday asking permission for an Eminent Engineer from London to visit and inspect the Water Works Company's works on Friday and subsequent days. I regret you did not give me more timely notice of your requirement and also state the purpose for which the inspection is intended. Had you done so I would have written to London on the subject & am therefore compelled to refuse the required permission

The Mayor then fully explained to Mr Hill the Corporation's position and said that in seeking his services it was with the view of receiving from him an unbiassed opinion as well on the practicability and cost of Mr Hennessy's proposed scheme as also on the position & value of the Water Company's works.

Mr Connolly explained to the Committee & Mr Hill some of the principal points in the proposed new bill of the Water Company.

When Mr Hill replied that he would go fully into the entire matter and draw up a report which would embrace the subjects mentioned and submit it to the Corporation.

During the sitting of the Committee a letter was handed the Secy from the Water Company agent granting permission for the eminent Engineer to visit & inspect the Company's works on the part of the Corpn

I visited and inspected the following Establishments. on April 30th 1883

Mr. Thos N Bourke —

On Inspection found about 5 lb of Powder in 1/4 Tins, Contained in a box. Kept in a Small House at End of Garden, to rere of Mr Bourkes House - this Small House is used exclusively for Storage of Powder - Nothing else Kept in,

Wm T. D Bourke — William St —

On Inspection I found in back room on upper Storey of house, 2 Boxes - One Containing 10 lbs of Powder, in Canisters of 1/4 & 2 lbs. each, the 2nd. box Containing 25 lb. of powder in Tins of 5 lbs each. — The 2 Boxes are kept in this room -

The Misses Hickie — Robert Street —

In this Establishment I found a Small House, used for the purpose of a Magazine in the Yard at rere of the Concern, and detached from Same, about 9 lbs of Powder in Tin Canisters Containing 1 lb. each - and about 9 lbs of Powder in Tin Canisters Containing 1/2 lb. each - all Enclosed in box in the Small Magazine, & no other Commodity kept therein -

Mr Denis Leonard — William Street —

In this Concern I found in a room in upper Storey of a Store (at rere of the front Concerns) a Tin Box Secured by lock about 9 lb of Powder - Contained in Tin Canisters and flasks of 1/2 lb. and 1 lb. each - This is in Excess of the Quantity allowed to be kept in Store - For this Mr Leonard accounts by Stating - that having got an Order for Powder from parties he was Compelled to take out of Magazine 25 lbs, as he could not get a lesser Quantity - and the parties not having Called for the powder, the Excess in his Quantity has happened - he expects it will be reduced in a few days -

Mr George Morton — Patrick Street —

On Inspection I did not find any Powder in Shop - In back room, or Closet, Connected with house (1st floor) I found two boxes - One of which Contained about 20 lbs of Powder in Closed Tins of 1 lb. & 5 lbs each, The 2nd box Containing 25 lb of powder in 1 lb Tins, - The two boxes

were enclosed in a large tin case made for the purpose of keeping the powder –

Mr Thomas Whitaker — Allen Street. —

I found in shop a small tin magazine (secured by cover screwed thereon) 5 lb of Powder, stored in a locker by itself – and in the top loft, or garret of house, I found 2 Kegs, each containing a bag with about 10 lb of Powder in each bag – the loft is set apart for the keeping of the tinder, and is approached by a Ladder & a trap door, fastened by lock & which (Mr Whitaker says) no one has access but himself.

I hand in herewith the Fees payable by the several parties herein named – for the Registration of their premises –

Mr Leonard – 5 years from 1879 – @ 1/ per year		£	5 0
Mr Thos M Bourke	Lisle	,	5 0
Mrs Bourke	Lisle	,	5 0
Messrs Keirle	Lisle	,	5 0
Mrs Morton	Lisle	,	5 0
Mr Whitaker	Lisle	,	5 0
		£	1 10 0

The above sums were paid on April 25th & 30th 1883

Ordered —

That Mr Gleeson & visit Mr Leonard's premises again and should he find an overplus above the Quantity allowed & report the matter & the Sub-Inspector of Constabulary.

Mr Gleeson - the Local Inspector attended and handed in the following report -
Explosives Act 1875

To the Explosive Committee
of the Corporation of Limerick

Report
of Thomas Gleeson - Local Inspector -

May 15th 1883 - On this day Lieutenant Colonel Ford R.E. attached to the Home Office London, and Her Majesty's Inspector of Explosives, called on me, for the purpose of visiting the Establishments in this City, of persons registered for keeping Gunpowder, and other Explosives -

not

The Misses Hickie - In these Concerns we found in the small House, or Magazine, built for the purpose of powder in Yard - 13½ lbs of Gunpowder in Tins of 1lb. & ½ lb. each. And in the Office at end of Shop we found 11 Kegs of Blasting Powder, Containing 25 lbs. each, making 275 lbs. - This quantity was 225 lbs. over what Could be kept there - Colonel Ford

Seized it, and wanted that I would remove it, I objected to do so, as I had not a place to put it, that I would not be allowed to remove it to the Town Hall - An understanding was given that the quantity seized would not be removed nor any portion of it sold, until the Matter would be investigated - Colonel Ford directed Summonses to be issued without delay, I told him that I would bring the Case before the Explosive Committee and get their instructions & the Law agent to prosecute

Wm. D. Bourke - Here we found in room in upper flour of House 25 lbs. of Gun Powder in 5 Tins of 5 lbs each - 8 lbs in Tins of 1 lb. each, and in an Open Keg about 15 lbs. This being an open package, was a breaking of bulk which could not be done - Colonel Ford seized this quantity and directed a Summons to be issued - It is now under Seizure, on understanding not to remove or sell it has been given -

Thomas Whitty - In his Shop we found about 3 lbs. of Gun Powder, in a Closed Tin Canister, and in the Garret of House we found two open Kegs - One Containing about 8 lbs. the other about 7 lbs. and a Small Tin Canister Containing about 1 lb. - These being what Colonel Ford Called open packages - and the breaking of bulk, were all seized by him, and are now under Seizure - as I had not a place to remove them to - In this Case also, Colonel Ford directed a Summons to be issued -

to Colonel Ford stated that if proceedings were not taken, he should have to proceed against the Corporation, as the Urban Sanitary Authority. Under these Circumstances the Committee will please instruct the Law Agent to proceed.

Thos Gleeson
Local Inspector.

May 21st 1883

The Committee order that Summonses issue as decided by Colonel Ford. Mr Connolly Law Agent to attend and Prosecute on behalf of the Corporation.

The Mayor to Communicate with the Authorities with a view of getting for the Several Vendors in the City greater facility for storing their Powder and other Explosives with Safety.

Report of Committee who visited the Asylum on the above named date

We enquired into the Cases of those admitted into the Lunatic Asylum Charged to the City of Limerick since our last visit, and were afforded every facility by Doctor Courtenay the Resident Medical Superintendent, to whom we tender our best thanks.

We objected to the Chargeability of Catherine Linsell — 10 days in Limerick & from Cradle Connell. Dr. Courtenay promised to make further enquiries into this Case.

We have again to Complain of the injustice of Charging to the Locality. Wandering Lunatics taken up by the Police — and also to that of Inmates from the Work House — Charged there to the Union or Electoral Division being Charged to the City — as the Work House is in the County.

We also suggest that our Representatives in Parliament be asked to have a Law of Chargeability passed for Lunatic Asylums similar to that of Work Houses — 3 — 4 years Residence — out of — in the District — all others to be Charged

Dear Sir

In reply to your enquiry as to the cost of lighting one of the large lamps, I beg to say that as I have not fixed a Meter on any of those at present in use, I could not give an exact estimate of the quantity of gas consumed. Speaking from information available for the purpose I should say the cost would be from £12 to £20 per year according to the size of the lamp. I consider the eight lamps in George St at present are burning on an average at least £16 worth of gas each. We are fixing a meter on the lamp ordered for the corner of Denmark St, and after a short period I will be able to give the Council the benefit of the information

I am dear Sir
Yours truly

The Council resolved itself into a Committee of the whole house to consider the reports from the Mayor and Law Adviser in reference to the taking over of the Water Company's Works. The reports already had for the Council were gone into. After considerable discussion the following resolutions were adopted as to the loan. Proposed by T.C. Hall seconded by T.C. O'Keeffe "that the paragraph in the Mayor's report in reference to the sum of £25,000 for 40 years at 4% be adopted." It was also proposed by T.C. Hall and seconded by T.C. O'Keeffe and resolved "that we request the Mayor and Law Agent to use their best endeavours to obtain a further loan of £5,000 for the same term of years, and at same rate as the £25,000 viz for 40 yrs at 4% per annum for the purpose of laying down new mains in the same streets where they are now at present, so as to enable the Council to at once give a further supply and increase of income necessary improvement as regards filtering & pressure"

T.C. Hall proposed a resolution that a Secretary be appointed and that the amounts received by the Collector be paid into the Treasurers office.
T.C. Bernal proposed and T.C. Hayles seconded the following amendment "that Mr. Wolfe be recommended by this Committee to be the Secretary and Treasurer of the Water rate giving adequate security." The Mayor put the question as to the amendment and declared it carried as T.C. Hall declined a poll and withdrew his resolution. A ballot was then taken for the election of five members to act as a Water Committee with the result that the following gentlemen were elected T.C. O'Mara T.C. Hall The Mayor (all Cornishmen) Ald Hayles T.C. Bernal. The Mayor and Mr. Corbett were authorised to advertise for 100 tons of steam coals. The reports as amended by T.C. Hall's resolution to borrow £5000 in addition to the £25,000 and T.C. Bernal's resolution appointing Mr. Wolfe were then ordered to be reported to the Council with said resolutions for their consideration.

Meeting of Water Committee
Nov. 29th 1883.

The Mayor presiding also present T.C. Cleary T.C. Riordan T.C. Boyd T.C. O'Mara Ald. Myles T.C. Bernal. Mr Corbett Mr. Connolly and Mr. O'Callaghan.

The Mayor stated he had an interview with Mr. Sankey for information as regards the working of the late Waterworks and his reply was, that he could give no information without getting permission from his Company but suggested that it would be advisable that the Corporation should take his services and the use of his office for carrying on the business on the lines which he adopted with the old Company. This offer was unanimously declined by the Committee.

Mr. Connolly telegraphed to the Secretary Mr. Hart for all necessary information. The Mayor was instructed to write also to Mr. Gregory for authority to get all information from the books of the late Company. Mr. Corbett mentioned that he had examined the lower portion of the Town Hall with a view to build offices and he considered they could be erected for about £60. Subsequently the site was inspected by the Committee and approved of. The day of meeting to be every second Thursday at 12 oc was agreed on.

Mr. O'Mara proposed and Mr. Boyd seconded

that the Council be recommended that this Committee may make any appointments necessary in connection with the working of the undertaking.

The Treasurer submitted draft Estimate of Improvement Rate from 1st Jany 1884 to 1st July next

The Committee having carefully examined same declared the sum the Sum of £226. and recommended that a rate of one Shilling and Ninepence in £ be made viz 1/8 for ordinary expenditure and one penny for expenditure under the Public Health act on the rateable property of the City which amounting to the sum £6199.10 which will yield a sum of £5424. 5. 1½. Amount of Estimate adopted £5399. 7. 2½

Repayment of Loans

Respecting the item providing for the interest on the Mortgage loan of £500— portion of the sum borrowed for embanking the Slob Lands of Palmerstown and which the Committee struck out of the Estimate. The Treasurer stated that in the first place there was not money sufficient to the credit of the "Sinking Fund" to which this loan applied to pay off the amount— and in the second place that no order had been hitherto in anyway made to liquidate same

— As to the £700 Mortgage— The Interest on this was also provided to be provided for — inasmuch as at last Meeting of this Committee an order had been made for its redemption

It will be seen on reference to Committee report on the occasion referred to that the entire amount required to carry out the Committees order was not at the time in hands— as there was only a Sum of £670 just then available for that purpose

The Mayor read the following report of the Committee that met on 7th inst and walked the Bank which was adopted

Your Committee accompanied by W.C. Joynt Esq Solicitor to the War Department in Ireland and W.C. Corbett Esq City Surveyor walked the Island Bank on Friday last the 7th inst under very great disadvantages from Thomond Bridge to Clontarf to Park Bridge, and they regret to report that the Island Bank is literally speaking not only in a neglected but in a very deplorable Condition at present owing to the state of the ground it is almost impossible to keep on ones feet, and in Certain places we found to our astonishment that the river facing of the Embankment had been broken down and the Embankment itself eaten away so as to threaten (if not at once repaired) an inundation on the Island of the Shannon water. The Whole of the pavement of the Bank is in the worst possible Condition

Mr Joynt suggests that the Mint Office is prepared to see to the proper repairing of the river facing of the Embankment, and Your Committee submitted to him that it would be well owing to the anomalous position for a long time past of the Island to the War Department who claimed the usage of the Walk and the heritage of the Bank City that the War Department would undertake in the interests of the Citizens and the Corporation the outlay of such a sum of money as would place the Walk in proper Order

Your Committee advise that a resolution to this effect should be adopted and a representation made through Mr Joynt to the War Department. Your Committee have also to report that the obstructions at the Thomond Bridge side and the Park Bridge side of the Embankment have been levelled by the City Surveyor acting under the directions of the Council & recommend that suitable passages (with Iron Rails &c) be made at both Ends of the Embankment & Walk &c

Your Committee have pleasure in reporting that there is no doubt or question whatsoever but that same is wholly vested in the Corporation for the Recreation of the Citizens and with proper repairs &c it could be made one of the most Salubrious beautiful and healthful walks in the World. Your Committee would further report

that the nuisance [illegible] near the Park Bridge side of the Embankment should be abated and that the Island itself appears to be in extreme want of drainage

It was then proposed by P.C. Power seconded by P.C. Kelly ~~the proposal~~ and adopted as follows

That the desirability of having the Munster Fairs held in the Markets to be brought before the County Grand Jury and that the Statement adopted to-day be printed and placed before them and that Alderman Counihan Mr. Kelly & P.C. Boyd do attend as a deputation to wait on the Grand Jury of the County

TO THE COUNTY LIMERICK GRAND JURY.

SUMMER ASSIZES, 1884.

TOWN HALL, LIMERICK, *7th July*, 1884.

The Corporation in placing before the County Grand Jury, the proposition in favor of holding the Great Munster Fairs within the compass of the Markets, do so, first, on the grounds, that it would be advantageous to the Markets in the existence and success of which the residents of the County, as well as the City, are concerned; secondly, because it would be of great benefit to the Fairs; and thirdly, on account of the general convenience it would be to all classes to have them held in so convenient a place.

The Corporation regret to state, that for some years the revenue of the Markets has been declining through causes over which they have no control, such as changes in tillage, the competition of other places, &c. The Markets are liable, in large amounts to Bondholders and the Corporation, and we believe that holding the Fairs within their boundaries will so increase their revenue, as to largely assist them in meeting these obligations, whilst at the same time it will place the Fairs' Commissioners also, in a better financial position.

On the question of accommodation, the Corporation believe there is ample space for the Fairs in the Markets—the grounds comprehending 13 acres, whilst the Green altogether contains only 20 acres, more than half of which is scarcely ever used. Besides, the Markets contain facilities for the entrances and exits of stock, for their classification, shelter from the weather, and other advantages which could not be had at the Green, unless at great expense. There are loose boxes for horses, long ranges of sheding for cattle, &c., which can be had without one penny outlay to the management of the Fairs. There are also the important facilities which the railway gives, by which cattle and horses from a distance can be taken into the Markets without leaving the waggons. There is no reason, we submit, why the public should be asked to go a distance of over a mile from each railway station, and from the City, to attend the Fair, often under drenching rain; and to a situation where they have sometimes to stand in or tramp through seas of mud, when they have the ample accommodation, to which we refer, within a stone's throw of their hotels and clubs, without any of these disagreeable accompaniments, and with advantages of the description we have named.

The Grand Jury are aware, too, that the Fairs have not been a financial success, and we believe a great deal owing to their being held as they are, and to the absence of that active interest in their management which a permanent board would take.

The Commissioners owe a debt of about £7,000 to various Bondholders, on which they pay 5 per cent., and for which the County is liable, the Fairs failing to supply the funds. For many years the Fairs have not met their liabilities, and for the past six years the Grand Jury have had to pay an average of £177 10s. 0d. to make up for the yearly deficit. Additional Fairs have recently been established to ascertain if any improvements could be made, but we understand the experiment has not been a success. If the Fairs are held in the Markets, the land they now occupy can be let or sold, and from its situation and quality it should realize a very large portion of the £7,000 due. The deficit, whatever it may be, can be secured by mortgage, or otherwise, on the revenue of the Fairs; but at the same time we desire to say, that under improved management, our opinion is, there will not only be no deficit, but a large balance.

The Fairs being managed by a public board, meeting at regular intervals, would be constantly coming before the public in one way or another—they would be properly advertised, and the attention given them they never received, and could not get, the constitution of their present control being what it is. Steps would be taken to have the traffic fully carried on within the precincts of the Fair, instead of throughout the City, as it very generally is now; jumping trials for hunters, rings for the judging of other horses, stands for the display of agricultural implements could all be easily provided, and the fairs, in immediate contiguity of the Borough, as they would be, made of such general interest and service, that they should attract larger attendances than they do now.

With reference to the Board of Management for the Fairs, we believe there could not be a more suitable one than the Markets' Trustees. It embraces all interests—County and City, and they are entirely familiar with what is required. A separate Committee could be formed to manage the Fair, their reports to be submitted to the general board for approval.

How this arrangement could be carried out it is for some legal authority to direct, should it be adopted.

We urge for the sake of all the interests involved, that you should favorably consider the proposition, and give us your co-operation in having it adopted.

Signed on behalf of the Corporation,

M. LENIHAN, MAYOR.

A. C. WALLACE, TOWN CLERK.

To Sanitary Inspector

Sir

We beg to call your
attention to the State of the
Slaughter House at the Lane
at the rear of our premises.

It appears to us a most un-
reasonable thing that in the
midst of a populous and
respectable neighbourhood
a thing so detrimental to
public health should be
allowed to remain - We have
many times during the past 15 yrs
kept it under the notice of
No 2 Committee in Common
with the other residents but we
could never get any redress

Perhaps you would not
as Sanitary Inspector kindly take
the matter in hands and in the case of
a possible visitation of cholera
the Council may be induced to see
the danger caused by what is a
real nuisance to all those living
in the Neighbourhood

All are equally interested for
purposes of health and cleanly
and foul and bad smells are not
any assistance to either

Yours respectfully

The Minutes of last meeting having been already disposed of in Council were taken as read.

This meeting was convened principally for the purpose of appointing an Asst. Gardener to Mr Bourke in room of Fallyas who had been dismissed by the Committee.

There was only one application for the appointment viz from Patrick Houlihan - who was appointed by the Committee on a months trial under the supervision & direction of Mr Bourke in all respects at a Salary of £18 per Year with use of Cottage, (illegible) & water.

Proceedings were ordered to be taken against Fallyas to get possession of house.

The attention of the Committee having been again called to the drainage in the Park, the Secretary was directed to write to Lord Limerick on the subject, and state that owing to the want of a sewer, the people residing in Madden's Lane had knocked down the Boundary wall

The Fountain in the Park, was ordered to be repaired at a cost of 10/-

Athenaeum Committee
Meeting held September 3rd 1884

Present

The Mayor in the Chair
T.C. Bryan Donnell T.C. & M. Sweeny

The Chairman (the Mayor) read the following report which was adopted on the proposition of Town Councillor O'Donnell seconded by M. Sweeny

Report of Committee of Athenaeum Committee read and adopted at Meeting held Sept 3rd 1884 —

The Limerick Athenaeum was at one period the property of the St Michaels Parish Commissioners who built it for purposes connected with their trust Wherein they had board rooms and suitable offices for the transaction of business of boards and also to house for the custody of such offenders as were taken up by the night watch the watch being then under the control of the Commissioners. The Commissioners of St Michaels Parish held a lease of the ground on which they erected the buildings now occupied by the Athenaeum at a ground rent of £20 (Irish Money) —

This was the state of affairs up to the year 1853 or until the act to transfer St Michaels Parish to the Corporation was passed which changed so far the constitution of the Municipal Government of the City. The Corporation took up the property of the Commissioners including the Athenaeum which was established as such at a Public Meeting on the 4th of 1853 for the purpose of affording "all classes of the population of the City of Limerick facilities for moral, scientific artistic and intellectual improvement" It was not however until 1856 that rules were adopted for the regulation of the Limerick Athenaeum — Subscriptions were collected contributed by the citizens for the purpose of making the building suitable in all respects for carrying out the objects in view, and by the 4th Rule which with the other rules were passed at a special Meeting held on the 3rd of January 1856 it was resolved "that the association shall consist of Members and associates to be admitted by the Council of the Athenaeum on being proposed and seconded and approved by a majority of the Council present when such Members or Associates are proposed and seconded — That the Members shall have been contributors to the Building Fund or shall be donors of £1- By the Eighth" "rule it was resolved "That the property of the associa" "shall be long exclusively to the Members & they shall have the sole right of voting at all Meetings and the Association according to the following scale viz

Donors of £20.0.0 Three votes
" " £10.0.0 Two vote
" " £1.0.0 One vote

The Seventh rule Constituted Samuel Alexander George Nethsop and William Fitzgerald as long as they shall be re-elected (annually) to that office at the general meeting of the Members and any general meeting may substitute trustees for any one or more of those then existing and may appoint successors in case of death or resignation of any trustee — By the 8th rule Standing general meeting of the association shall be held on the second day in the Month of January in each year as may be appointed by the Council to receive the Report of the Council with the Statement of the accounts to appoint two auditors to examine the accounts of the year to elect a Council and to transact the ordinary business of the association — By the 9th rule it was provided "that a special general meeting should "be called whenever they deem it desirable or by the Secretary on receiving a requisition signed by 10 Members stating the day for Meeting & the subjects to be considered

Rule the X^th^ Men to be marked attention it is to this effect it is as follows "That the association shall be governed by a Council consisting of 7 persons elected by Ballot at the general meeting of the association in January the Mayor and 3 Members of the Council appointed by the Town Council and two Members appointed by each of the affiliated societies

The XI rule gives the power to appoint from their own members all offices to frame bye laws which shall be submitted to a general meeting for approval and to carry on the ordinary business of the association By Rule XII rule it is laid down that the Council so constituted shall have the power to affiliate with the association the Lyme Agricultural Club or any Society which is now or shall be hereafter established with kindred objects subject to the terms of the Bye laws of the Lyme School of Art the Lyme and the Lyme Hayrnonic Literary & Scientific Society have been already affiliated — The XIII rule gives the Council shall have power to elect Lecturers Readers &c for any objects not inconsistent with the objects and principles of the association on such terms as they may fix from time to time "The 16th rule" "enacts that the Society shall make no" "Dividend Gift, or Bonus work or between any" "of its Members" Your Committee provide that these rules and regulations were signed by Stephen Hastings Esq^re^ Mr Rivers W L Jellett V.P. Mayor and Charles Dawson Secretary & Richd Miller and no doubt have acted upon but how long or with what results your Committee

are unable to declare. It is true that for a series of years there have been Lectures Concerts Theatricals &c held in the Athenaeum. It is equally true that the President or Master of the School of Art has received for a considerable time past the sum of £20 per annum for the use of part of the building fronting Cecil Street which may be considered to the School of Art with ability and success.

During the Mayoralty of [illegible] (Mr Wm [illegible]) mistakenly suggested the gift of Books by Mr Beyers of Paris for a "Free Library for Lemuel" was placed in one of the rooms of the Athenaeum in suitable cases, but there never having been a free Library connected with the Athenaeum the books remain in the Cases unused.

A very admirable Organ has been put up in the great Hall by the same gentleman but your Committee are unaware that the Cost of this magnificent instrument has been defrayed in part or altogether by the proceeds of your Lectures Concerts &c.

Your Committee now advise that steps be taken to enquire into the present position and probable future of the Athenaeum. They believe that from what they can ascertain that there is no active observance of the rules by which the Athenaeum should be governed. Your Committee report that the original trustees one of whom was Mayor of Lemuel are dead and not having before them the Memorandum Books of the Association they are unaware of who if any were appointed in succession. Your Committee believe that the Corporation has not expressed its rights regarding the property of the Citizens in the Athenaeum or their identification with it proceedings in accordance with rule 1. Your Committee consider that the time has come to look carefully after these matters and to take possession of the Building and use it with due regard to existing if any interests in such manner as they deem most fitting pending the erection of the premises of the Town Hall & that as the rent of the Athenaeum is more ornamental business of the City can be transacted there on the erection of the Town Hall, a building that can be made suitable in all respects as well by the extensive space it occupies of 100 feet in length & 40 feet in breadth as of its fitness by reason of its Central position.

Present - The Mayor in the Chair

The minutes of last meeting were read signed and the following answer to the Lord Lieutenants letter of the 3rd inst - was adopted by the Committee -

Town Clerks office,
Limerick September 15th 1884

To Sir R.J.C. Hamilton
Under Secretary
The Castle, Dublin.

Sir, I am directed by the Town Council of Limerick to acknowledge the receipt of your letter of the 3rd inst. in reference to the "Extra Police Tax". The Town Council beg to enclose for His Excellency's perusal the Statement of the views entertained by them on the question and also a Copy of an Affidavit made by me and referred to in the Statement

A recent debate in Parliament shewed the payment by this country of £30,000 for Extra Police Expenditure which should have been defrayed by the "Imperial Exchequer and the Mayo Tyo" Government has no intention to remedy this grievance. Why not remedy the gross injustice attempted to be perpetrated on the City of Limerick in a like manner

and by so doing the complaint of unfairness to the "Imperial Exchequer" as mentioned in your letter will be at once obviated.

If the country has been paying £30,000 annually for many years in its own wrong the "Imperial Exchequer" ought in all fairness be made recoup the over payment.

I accept His Excellency's suggestion and a deputation to discuss the matter would in the opinion of the Town Council be a waste of time as well as a tacit admission that the Extra Police were in some shape necessary for the peace of the City - and to this latter proposition the law-abiding citizens of Limerick will never assent as the well known facts of the case completely refute such an assumption. The Council therefore necessarily feel to the conclusion that a personal interview with His Excellency may only tend to further embitter the controversy.

Under these circumstances the Council whilst anxiously desiring the removal of this long continued cause of irritation and excitement - yet in the discharge of the duty they owe their Constituents and the general interests of Municipalities in Ireland cannot alter the determined position they have taken; they would however respectfully appeal to His Excellency's sense of fair-play to deal with the case on its merits - and withdraw a claim founded upon oppression, illegality and injustice

Sir, I am directed by the Town Council to acknowledge the receipt of your letter of the 22nd September and

The Council desire to point out that as a considerable portion of this tax is not admittedly unsustainable, if the whole matter is properly and fully investigated at a local inquiry, it would be established by the most reliable evidence that the whole amount is equally unsustainable.

The Town Council therefore respectfully request that His Excellency would appoint a Commission to hold a public inquiry in Limerick and give the Corporation and Citizens an opportunity of proving conclusively the statements heretofore laid before His Excellency

This Special Committee was appointed by resolution of the Council dated 2nd Oct on the proposition of L.C. Town seconded by L.C. McDonnell to consider the present position of the Markets so far as they affect the Corporation

The Committee adopted the following report —

Your Committee find that the Trustees are indebted to the Council in the large sum of £5365-18-7 and that the debt is annually increasing by the non-payment in full of the sum of £1400 per annum as fixed by the Limerick Markets act 1872. They find that this default is seriously embarrassing the Borough Fund to which should derive its chief revenue from the Markets, that just and legitimate claims cannot be discharged and the City's honor and credit are pledged by this state of affairs. Your Committee regret to find that the Markets are not managed with that economy and wise administration which their present critical position requires their revenues are falling off from causes which are likely to continue such as the serious decrease in tillage in this district and from the present unnecessary and to particularize

Your Committee respectfully suggest that the Council urge the Board of Markets Trustees to carry out the following reforms to enable them to obtain an engagement to this Corporation

1 — To discontinue the superfluous Office of Treasurer at the present salary of £100 per annum to appoint an honorary officer at a nominal Salary or to nominate the Inspector

2 — To discontinue paying rent for the present Boardroom and make use of the Committee room at Town Hall

3 — To dispose of part of the Cornmarket frontage to Michael Casey & Mulgrew Street and remove the Pig Market into the space at present occupied

4– To dispose of the Potatoe Market and remove the sale of roots to the Genral Market–

5– To Collect rent from the Tenements occupied by the employees and to reduce any Salaries that in the depressed Condition of the Markets may be deemed to be too large

6– To Call a Meeting of Mortgagees so as to Lay the present State of Affairs before them with a View to their accepting a decreased rate of interest so as to help to tide over the present difficulties & prevent the Markets being flooded in Chancery which would be pretty to the disadvantage of the Mortgagees

Should this report be adopted by the Council Your Committee would recommend that two representatives on the Board of Market Trustees be selected to propose and second in the Shape of Resolutions the Reforms we have pointed out and that the other Representatives be called upon to be present and vote for the Resolutions and that a Copy of this Resolution be forwarded to the Secretary of the Market Trustees to be laid before the Board at its next Meeting

UNION RATING.

TO THE RIGHT HON. AND HONORABLE THE KNIGHTS, BURGESSES, AND CITIZENS OF THE UNITED KINGDOM OF GREAT BRITAIN AND IRELAND IN PARLIAMENT ASSEMBLED.

The Humble Petition of the Mayor Aldermen and Burgesses of the City of Limerick

WE, the Mayor, Aldermen, and Burgesses of the City of Limerick, assembled in Council, on the part of fifty thousand of our fellow-citizens, beg the adoption by your Honorable House of a measure for a Union Rating in Ireland, and we do so on the following grounds:—We submit that the system of Electoral Division Rating, existing under the Irish Poor Law Enactments, has failed in much of its intended effects, and become a source of immense injury to a great mass of our countrymen. Experience of working has proved that instead of tending to preserve the people of the country, it has had opposite results, the evils of which are every day becoming more burthensome. The law of settlement, which it embraces, has given, as it were, a premium to extermination, which has been exercised to such a grievous extent, that rural districts have become depopulated of the labour and small cottier classes, whilst in Towns there is a redundancy of such assistance, and consequent poverty and want. Large tracts of country have been cleared of the dwellings inhabited by working men, the humble occupants driven from the houses which they, and generations before them, had held, and this solely with the view to get rid of the occasional responsibility the existence of a labouring class might entail. The result of this is that the peasantry have been, and are daily, driven into the cities, towns, and villages The demand for labour seldom, if ever, equals the supply, and too often the workhouse bestows the only refuge left for the unemployed and houseless labourer and family. The child is reared there, need we say, not as he would be under other circumstances, in strong health and natural independence; the father and mother gradually lose energy and self-reliance; the still older members of the family become burdens on the rates, and in the end, it frequently occurs that all have to be supported by a division and section of the community on which they have no original claim, which has already quite as much as it can do in sustaining its own, whilst the proper guardians of these houseless wanderers escape all obligation.

of the City of Limerick and Borough of Kilmallock Petition That

This legislation has deprived, and is depriving the country of thousands of its able-bodied residents; they avail themselves of every opportunity to escape its evils and the precarious occupation afforded them, only those who have little or nothing were then remaining, and with no hope in their old age but the relief given by the union. We hold also that the abolition of this electoral rating will not only improve the towns and villages of Ireland, but much more the rural portions. Taking, for instance, this district, it is often necessary, as in other parts of the country, for the labourer to travel miles morning and evening to and from his place of occupation in consequence of the complete absence of a place of rest throughout the extent of country he traverses. Even should the tenant desire to supply the want, the superior power of the landlord prevents him, and in a great agricultural country like Ireland, this deprivation is much felt and most injurious.

Divisional rating, too, has serious disadvantages as regards its effects on the working of the public boards. It estranges class from class, creates continual distrust, and most effectually disturbs the harmony and good feeling which should exist amongst those engaged in the humane object of assisting and relieving the distressed and poverty-stricken.

In a taxation point of view, the examples of the injustice inflicted are scarcely credible, and can be multiplied to any extent. In this union proofs of this exist, to which, no doubt, other unions throughout Ireland can furnish numerous parallels. This city alone has been paying for years very nearly 4s. in the pound, which, in addition to other taxations, raises the amount to 8s. 3d. in the pound, while rural divisions twenty years ago paid 2s, 4s, and so on; do not now pay a fifth or a fourth of the amounts, and this mainly owing to the changes we were forced to. In fact, in the one instance, taxation has been increasing while in the other it has been decreasing.

To effectually meet those grievances, we pray your honourable House to pass a measure of Union Rating.

We believe the admirable Landlord and Tenant Bill, which became law last session, will be supplemented in its good qualities by such legislation, as Union Rating must greatly serve to protect the labouring class, stabilitate and arnoot them in the soil, and allay the agitation which prevails in this regard.

We urge you, in the interests of economy, to pass such a measure, as we believe it will simplify the administration of the Poor Laws, and reduce the present executive expenses of every Union in Ireland.

We urge it in the interests of the humbler classes particularly, as we believe it will assist in developing and elevating them morally and physically.—We do so in the interests of society generally, as we believe it will create a stronger desire and more disinterested feeling between all, frees the highest to the humblest, to attend to the wants of the poor. And, lastly, we do so, as we believe it is one of those remedial measures which, now more than any other, will assist in developing the growing trust and confidence of the people in the determinations of your House to legislate favourably for the people of Ireland.

And your petitioners, as in duty bound, will ever pray.

UNION RATING.

TO THE RIGHT HON. AND HONORABLE THE KNIGHTS, BURGESSES, AND CITIZENS OF THE UNITED KINGDOM OF GREAT BRITAIN AND IRELAND IN PARLIAMENT ASSEMBLED.

We, the Mayor, Aldermen and Burgesses of the City of Limerick, assembled in Council, on the part of fifty thousand of our fellow-citizens, beg the adoption by your Honorable House of a measure for a Union Rating in Ireland, and we do so on the following grounds:—We submit that the system of Electoral Division Rating, existing under the Irish Poor Law Enactments, has failed in much of its intended effects, and become a source of immense injury to a great mass of our countrymen. Experience of its working has proved that instead of tending to preserve the people of the country, it has had opposite results, the evils of which are every day becoming more burthensome. The law of settlement, which it embraces, has given, as it were, a premium to extermination, which has been exercised to such a grievous extent, that rural districts have become depopulated of the labour and small cottier classes, whilst in Towns there is a redundancy of such assistance, and consequent poverty and want. Large tracts of country have been cleared of the dwellings inhabited by working men, the humble occupants driven from the house which they, and generations before them, had held, and this solely with the view to get rid of the occasional responsibility the existence of a labouring class might entail. The result of this is that the peasantry have been, and are daily, driven into the cities, towns, and villages The demand for labour seldom, if ever, equals the supply, and too often the workhouse bestows the only refuge left for the unemployed and houseless labourer and family. The child is reared there, need we say, not as he would be under other circumstances, in strong health and natural independence; the father and mother gradually lose energy and self-reliance; the still older members of the family become burdens on the rates, and in the end, it frequently occurs that all have to be supported by a division and section of the community on which they have no original claim, which has already quite as much as it can do in sustaining its own, whilst the proper guardians of these houseless wanderers escape all obligation.

This legislation has deprived, and is depriving the country of thousands of its able-bodied residents; they avail themselves of every opportunity to escape its evils and the precarious occupation afforded them, only those who have little yet emigrate, remaining, and with no hope in their old age but the relief given by the union. We hold also that the abolition of this electoral rating will not only improve the towns and villages of Ireland, but much more the rural portions. Taking, for instance, this district, it is often necessary, as in other parts of the country, for the labourer to travel miles morning and evening to and from his place of occupation in consequence of the complete absence of a place of rest throughout the extent of country he traverses. Even should the tenant desire to supply the want, the superior power of the landlord prevents him, and in a great agricultural country like Ireland, this deprivation is much felt and most injurious.

Divisional rating, too, has serious disadvantages as regards its effects on the working of the public boards. It estranges class from class, creates continual distrust, and most effectually disturbs the harmony and good feeling which should exist amongst those engaged in the humane object of assisting and relieving the distressed and poverty-stricken.

In a taxation point of view, the examples of the injustice inflicted are scarcely credible, and can be multiplied to any extent. In this union proofs of this exist, to which, no doubt, other unions throughout Ireland can furnish numerous parallels. This city alone has been paying for years very nearly 4s. in the pound, which, in addition to other taxations, raises the amount to 8s. 3d. in the pound, while rural divisions twenty years ago paid 6d. 4d. and so on, do not now pay a fifth or a fourth of the amounts, and this mainly owing to the changes referred to. In fact, in the one instance, taxation has been increasing while in the other it has been decreasing.

To effectually meet those grievances, we pray your honourable House to pass a measure of Union Rating.

We believe the admirable Landlord and Tenant Bill, which became law last session, will be supplemented in its good qualities by such legislation, as Union Rating must greatly serve to protect the labouring class, stabilitate and ennoble them in the soil, and allay the agitation which prevails in this regard.

We urge you, in the interests of economy, to pass such a measure, as we believe it will simplify the administration of the Poor Laws, and reduce the present executive expenses of every Union in Ireland.

We urge it in the interests of the humbler classes particularly, as we believe it will assist in developing and elevating them morally and physically.—We do so, in the interests of society generally, as we believe it will create a stronger desire and more disinterested feeling between all, from the highest to the humblest, to attend to the wants of the poor. And, lastly, we do so, as we believe it is one of those remedial measures which, more than any other, will assist in developing the growing trust and confidence of the people in the determination of your House to legislate favourably for the people of Ireland.

And your petitioners, as in duty bound, will ever

To the Right Hon W. E. Gladstone M.P. First Lord of Her Majesty's Treasury

The Memorial of the ~~Mayor~~ Mayor Aldermen and Burgesses of the City of Limerick ~~beg leave to represent~~ That just nine years ago in common with the other Corporations of Ireland we, the Representatives of the Government of that day stated the numbers of Catholics who from their position or wealth desire to give a University Education to their children had within a comparatively limited space of time greatly increased and had been rapidly ~~increasing~~ progressing in Ireland We repeat the same statement to day and with greater force, we trust with more successful effect we beg to state that in Ireland Trinity College Dublin and the Queens University are the only educational institutions empowered to grant academical degrees which seriously affect the professional and social prospects of those who obtain them That the Protestants of this Kingdom would not consent to send their children to Colleges or schools where their religion is ignored to the same extent that the Catholic religion is ignored or subordinated in the Dublin Universities That while the highest education can be

obtained by all other religious denominations without violence being done to their religious principals it is urged to refuse to Catholics similar advantages which they now incur danger to the faith and morals of their Children when they send them to Trinity College or the Queens Colleges

That the Catholics cannot be satisfied with certain modifications or changes suggested in the existing Charters of Dublin and the Queens Universities in as much as they desire that their unquestionable right to educate their children in entire accordance with their religious principles in a catholic College should be fully recognized by the state to which they have ever shown themselves ready to contribute their treasures and their services

That we look for the grant of a charter and of a competent endowment for the Catholic University of Ireland from you who have already laid the foundations of civil and religious equality in this hitherto distracted land and that there can be no real religious equality among us in the absence of that ample and generous recognition of Catholic educational claims which we seek as a portion of our indefeasible rights and in the absence of which we cannot be contented

That whilst we express these feelings and claim these privileges we fully recognize the state to take ample security that university degrees should not be given without due intellectual proficiency and we are fully prepared to acquiesce in any such arrangements to secure to the fullest extent this proficiency

That we have sufficient confidence in your wisdom and integrity in dealing with Irish affairs to entertain the hope and expectation that you will not allow religious ascendancy to be perpetuated in the continued unequal distribution of the ample education funds in which Catholics have no share whatever and in the exclusive possession of charters which enable the Queens University already proved to be a failure and Trinity College to which catholics also object to grant degrees that confer important and exclusive privileges upon those who obtain them

That finally we hereby respectfully request that you would advise the Queen in the exercise of her Royal prerogative to grant and to recommend that a suitable endowment be given to the Catholic University of Ireland

And Your Memorialists will ever pray

The following petition was adopted and it was ordered that it shall be engrossed the City seal attached and forwarded to the House of Commons and that a copy shall be also sent to the Mayor of Waterford

Great Western Railway
(Steam Vessels)
Petition in favor

To the Honorable the Commons of the United Kingdom of Great Britain and Ireland in Parliament assembled. The humble Petition of the Mayor Aldermen & Burgesses of the Borough of Limerick Sheweth

That a bill is now pending in your honorable house intitled a Bill for empowering the Great Western Railway Co to provide and use steam and other vessels and for other purposes

That by the said Bill it is proposed to authorize the Great Western Railway Company of England to build purchase hire provide charter employ and maintain steam and other vessels of every or any description and to navigate with and use the same and therein and thereby to convey and carry passengers animals minerals goods merchandize and things of every description between the several ports and places therein named including amongst them

Milford Haven and any other port or places in Pembrokeshire where there is from time to time a station of the Company or where they carry on traffic on the one hand and the port of Waterford on the other hand

and to authorize the said Company to do all acts that may be necessary to carry fully into effect the purposes aforesaid

That your petitioners are deeply interested in the trade & the north of Ireland and in the means of communication with England and anything which will tend to increase the facilities for personal travelling as well as for forwarding and transmitting traffic along the lines of Railway from Limerick (which are at present most defective and wasteful) to and between any Irish port & such ports or places in England or any of them will be of great benefit as well to your petitioners as to the public

Your petitioners anticipate that the present service of steamers across Channel will be greatly improved if the Great Western Railway Co are empowered to own and work steam vessels of their own as their large resources will enable them to put on stations vessels of a very superior description and their interest will be to have these vessels so as regularly

to meet the trains which will run in connection with them

That such an improved line of steam communication will be a great public advantage

Your Petitioners therefore humbly pray your Honorable House that the said Bill may pass into a law

"Wyndham Sir. "I saw Sir Bernard Burke yesterday. "He is quite willing to undertake to decide the question "of precedence between Cork & Limerick, as I should "have said between Limerick & Cork. He suggests "that the case on part of each City should be sent "to him, and that each should send a Copy of its "case to the other party, with liberty to send to him "a short reply within a week of what may appear

"fallacious in either statement. He is quite satisfied "that Sir Bernard Burke will give an honorable "and impartial decision -

"Sir Bernard showed me in the Birmingham "Town an ancient Council Book of the Corporation "of Limerick from 1672 to 1685. It & others amongst "the Archives and documents of the Irish House of "Commons after the Union - It appears that it was "deposited in that House by the Corpn of that time "in consequence of a Petition presented from the Citizens "of Limerick, Complaining of the mal practices of the "Corporate body, and it was thus restored. There "will not be much trouble, in getting back this book "now, and Sir Bernard was so good as to suggest "to me, the way to go about it, and as it will incur "no expense, I take it for granted that the "Corporation would wish to have the custody for "the record of its proceedings.

The following address was drawn up and unanimously agreed to
To the Right Hon the Lord Lieutenant of Ireland
Earl of Dunraven

My Lord

We the Mayor Aldermen & Burgesses of the City of Limerick deeply sorrowing at the death of your Noble Father desire to express to your Lordship & the Dowager Countess of Dunraven and the other members of his family our condolence at the removal of one who recognizing thro'out his useful life all the duties of his high position diffused many public and social benefits around him while he adorned his domestic sphere by his accomplishments and his virtues. As the Lord Lieutenant of our County and City he exercised the influence of that Exalted Office with judicious impartiality in keeping with the progressive liberality of our time

As a Landed Proprietor he applied his refined taste and ample wealth to the improvement of his possessions and the prosperity of his tenantry. As a resident Nobleman he readily gave the prestige of his rank and the persuasiveness of his oratory to aid the expression of popular feeling on occasions of importance to the religious and political interests of the vast majority of our Community. While as a scholar imbued with love of the fame of our ancient race & he directed his enlightened mind to the preservation & description of those Ecclesiastical ~~[illegible]~~ remains which still attest throughout our Land the piety of our forefathers

His ability and zeal as a member of some important public department evidenced his capacity for the public service and the amenity of his deportment to all with whom he had intercourse was marked less by the condescension of the Nobleman than the urbanity of the true Gentleman

To your Lordship as the successor of such a father we offer our sympathy at the deprivation of his society and example while we congratulate you at having had so high a base to direct your own career which we sincerely hope may be a long & a happy one in the responsible sphere to which Providence has now called you

Meeting of Special Committee, Febry 1, 1872.

Zachary Myles, (Chairman.) J. Cunningham, Alderman. [illegible]

The Committee recommend the Council to adopt the following Petition for Repeal of the Grand Jury Laws

To the Knights, Citizens and Burgesses of the United Kingdom of Great Britain and Ireland, in Parliament assembled

The Petition of the Mayor, Aldermen and Town Councillors of the City of Limerick,

Humbly Sheweth,

"That the entire burden of making and maintaining the roads, highways and bridges in Ireland, is at present borne by the occupiers of houses and lands in Ireland. That such roads and highways are open alike to the use of all her Majesty's subjects without exception. That with the exception of said occupiers all other persons are entirely exempted from contributing towards the construction or maintenance of such roads, highways and bridges. That your petitioners consider such exemption of the class is unjust, and presses very heavily upon the occupiers of said houses and lands.

Your Petitioners therefore pray,

That your Honorable House will be so good as to make such an alteration in the existing laws in order that the payment of County and Borough rates in Ireland may be divided between the owners and occupiers of houses and lands, in like proportion as that which now appertains in the payment of the Poor Rate

Rate, by said classes.

And your Petitioners, as in duty bound will ever pray:

~~To the Hon~~ ~~_____~~

Also the following Petition which particularly applies to Lunatic Asylums:

Humbly Sheweth:-

"That the imposition of taxation under the Grand Jury system generally is of the most unjust and oppressive character, and calls for some immediate remedy at the hands of Her Majesty's Govt. As one of the strongest examples of this fact they refer to the manner in which the affairs of the Lunatic Asylums in this country are administered, for the support of which the rate-payers are most mainly taxed, but debarred any voice in their management.

That your Honorable House will have such a change made in the law that the representatives in public boards formed under the Grand Jury system may be elected according to the Poor's Law arrangements, and the taxation regulated so as to be borne by the owners and occupiers of houses and lands."

That the foregoing petitions be engrossed by the Town Clerk, and forwarded for presentation to Parliament, to the serving of Members, and that the assistance of Mr Britt and the County Members be requested.

Zachary Myles

Special Committee on Union Rating - Meeting, 7th Feb: 1872. Zachary Myles (Chairman) Jas Counihan [illegible] Hogan [illegible]

We recommend the Council to adopt the following Petition in favor of Union Rating

Humbly Sheweth:

"That your Petitioners represent the owners and occupiers of houses and lands in the city and borough of Limerick, which are situated exclusively within the electoral division of Limerick-rock in the Poor Law Union of Limerick. That under the present Law of Chargeability, the burden of contributing towards the support and maintenance of the poor in the Limerick Workhouse rests very unequally on the thirty-four Electoral Divisions into which said Union is divided. That in the poundage rates struck in the 2nd. day of January 1872, your petitioners' property has been assessed at two shillings and ten pence in the Pound, while the next highest assessed division in the Union contributes one shilling and seven pence and three divisions as low as eightpence only. That your Petitioners and the citizens whose representatives they are feel this inequality in the incidence of the rates for the support of the poor very oppressive, and injurious to the House Property and Trade of the city of Limerick.

"Your Petitioners therefore pray,

"That your Honorable House will

make such an alteration in the present laws for the relief of the poor in Ireland that there may be hereafter such uniformity of poor rate assessment for Poor's Rates in the Towns & Cities as there is now in such poor law union in Ireland.

That the presenting of the foregoing petition be entrusted to the Town members, and the assistance of the Irish Members be requested to support the request.

That a copy be also forwarded to P. W. Madam, Esq. M.P. and his kind co-operation be requested.

That the name of some member of the Council be forwarded to Mr Mac Madam as a witness to give evidence before the Union Rating Committee.

That the petition be prepared engrossed and from the city seal attached, and forwarded at once as directed.

Two Bills now before Parliament are to extend to Ireland certain privileges exercised by Municipal Corporations in England & Scotland the other to restore to the corporations of Ireland the right of appointing Sheriffs and of conferring honory freedoms – a letter from Mr Butt M.P. in reference to these bills read –

The first Bill the Municipal Franchise Bill (No 100) was recommended to be approved of

The second Bill giving power to appoint Sheriffs &c was also recommended to be approved of with the exception of Clause No 13

Serg.t Sherlock's Bill. It was recommended to write to the County & City members requesting them to oppose this Bill

It was recommended to write to the City & County Members requesting them to oppose the Bill relating to the management of Prisons in Ireland be brought in but they shall oppose the Clause which makes it necessary that Magistrates only can be elected as the Board of Superintendence

The following is Mr. Butt's letter :—

"Dublin, April 10th, 1872.

"SIR,—I am anxious to direct the attention of the Municipal Council of Limerick to two Bills which I have introduced into Parliament affecting Irish Corporations. I have transmitted copies of them both to you and to his Worship the Mayor.

"The first of them (the Municipal Franchise Bill) aims at the removal of an inequality which exists between the Municipal Franchise in England and Ireland.

"The Irish Corporation Reform Act, passed in 1840, enacted for Ireland a much more restrictive municipal franchise than that enacted for England, by the corresponding act passed in 1835. By the English Act every resident was qualified to be a burgess, who occupied premises rated at any amount, provided the occupation was continuous for three years. The Irish Act required that the premises should be rated at an amount which with a slight addition for an estimate of insurance and repairs, would make up the value of ten pounds.

"In all the municipalities of Ireland, except the city of Dublin, the restricted franchise provided by the Irish act is still in force.

"In England, by an Act passed in the year 1869, the franchise has been rendered still more liberal. The necessity of a three years continuous occupation is abolished, and any person occupying for one year premises rated to any amount becomes entitled to be enrolled as a burgess of a municipal town.

"It is unnecessary to say that the requirement of a higher qualification in the poorer country is an anomaly only to be accounted for by the jealousy of Irish popular privileges, which in so many instances controlled and marred the provisions of the act professing to give to Ireland municipalities chosen by popular election. It is entirely indefensible, and we may hope that no one in the House of Commons will maintain the principle that Ireland is not entitled to a municipal franchise as liberal and popular as that which England enjoys.

"If this be so a bill proposing to assimilate the franchises of the two countries ought to pass as a matter of course.

"This assimilation of the franchise has already received legislative sanction. In 1840, enlarged powers were conferred upon the Corporation of Dublin. The act which conferred them was accompanied by another extending the English franchise to that city.

"In 1853 when the Belfast Corporation obtained an act which sanctioned arrangements to relieve that body from embarrassments which had arisen in the management of their local affairs, the select committee who approved of the bill promoted by the Corporation added to that approval a unanimous resolution expressing their opinion that it ought to be accompanied by a public act establishing the same franchise as the English one in that town.

"The bill which I have introduced proposes in its present shape to extend to all the Irish Corporations the provisions enacted for Dublin in 1849, that is to adopt the franchise fixed by the English Municipal Act of 1835, a three years continuous occupation of premises rated at any amount. This is still the Scotch franchise, but I see no reason why Ireland should not have the more liberal franchise enacted for England in 1869, and when the House of Commons read the bill a second time, and so sanctioned the principle of an equal franchise, it would appear to be a matter of course, to adopt in committee an amendment extending to Ireland the provisions of the English act of 1869.

The second bill (the Municipal Privileges Bill) proposes to confer upon or rather restore to the Irish municipalities rights and privileges possessed by those of England. Its principal object is to deal with the appointment of sheriffs in counties of cities, and counties of towns.

"Under the old law, both in England and Ireland, the right of electing their sheriffs was in every instance vested in the municipality of the place. The Crown never, in the constitutional history of England, possessed the right of appointing the sheriff of a county of a city, or a county of a town. The privilege of electing their own sheriffs by the municipalities coming down from the usages of a remote antiquity, was secured by the charters of all these corporate bodies, when the municipal reform act in England restored the corporations to the people the old right was carefully preserved.

"In Ireland it was wrested from the nominally enfranchised people. The Irish municipal reform act vested the appointments of these sheriffs in the Lord Lieutenant.

"The result is that in twenty-one places in England and Wales the municipal bodies retain the old constitutional right of electing their own sheriffs. In London, Bristol, York, Oxford, Chester, Exeter, Gloucester, Lincoln, Lichfield, Nottingham, Hull, Newcastle, Worcester, Norwich, Southampton, Canterbury, Coventry, Caermarthen, Pool, Haverford West, and Berwick-upon-Tweed the sheriffs are all chosen by the people. In addition to this in the great county of Middlesex the office is executed by the sheriffs elected for London by the livery of that city.

"In England there is not a single municipality in which the sheriff is nominated by the Crown.

"In Ireland there is not a single sheriff chosen by the popular election.

"It is time that this most insulting mark of inferiority should be removed. If there be any truth or reality in the assurances of a readiness to admit us to a participation in English privileges it cannot be maintained. I have proposed to the English parliament to remove it, to give back to our Irish municipalities the privileges of which the English have never have been deprived, to make the law the same in both countries. The constitutional importance of the right of appointing sheriffs has been diminished by the recent changes in our jury laws, which virtually deprives the sheriff of all power of selection in returning his panel. But that is no reason why an officer of civic dignity and importance, which in England is in the gift of the people, should in Ireland be bestowed by the nomination of the Castle. Why a privilege which is enjoyed by the citizens of Lichfield and Lincoln should be denied to those of Limerick and Cork.

"Upon the same principle I propose to restore to the Irish municipalities the right of appointing the clerks of the peace—a right of which the English corporations have been deprived.

"I also propose that the Recorder of Dublin should be elected, as in other towns, by the Corporation of that city. I do not make a similar proposal as to any other place. The municipal reform acts both in England and Ireland took away the appointment of Recorders from the Corporations and vested it in the Executive. London alone retains the old right. I entertain a very strong conviction that this ancient right ought to be restored to all Corportions in both countries, but in a bill based upon the principle of equality of rights. I only seek to restore to Dublin the privilege which London has preserved.

"The remaining clause of the bill recognises the right of the Irish Corporations to confer the honorary freedom upon any person whom the may consider worthy of that honour. Although the freedom is merely a nominal one, the conferring of it may bestow a distinction as real as many that are eagerly sought for at the hands of those who dispense the favours of a Court. I am sure that the power of conferring such a distinction would add to the dignity of our municipalities by enabling them to do honour to those whom the popular voice declared honour to be due. Princes of the blood and foreign Sovereigns have expressed pride at being enrolled among the freemen of London, and not long ago the Premier, expressed a similar feeling of satisfaction at being elected an honorary burgess of Aberdeen. There is no reason why a similar distinction bestowed by Irish cities should not be equally prized.

"The power of conferring an honorary freedom may be used to obviate a practical inconveniences of occasional occurrence. It sometimes happens that men in every way entitled to take a part in civic affairs are shut out from the choice of their fellow-citizens by a want of the legal qualification, arising, it may be, from some temporary accident. Sometimes a careless omission or mistake has disqualified a man elected even to the highest municipal office. The letting off of a trifling portion of the premises included in his rating gave rise on one occasion to a protracted and unseemly litigation as to the right of the Lord Mayor of Dublin to fill the civic chair. It has occurred to me that those inconveniences might be obviated by making the honorary freedom, as it is in London, a sufficient qualification for office, the right of election being, of course, reserved to those qualified as actual burgesses on the roll.

"These provisions would do something to place our existing Irish Corporations on a level of franchises and privileges with those of other parts of the United Kingdom. I feel, however, how far they would be from giving to Ireland a municipal system such as England enjoys and such as the Constitution contemplates. The same jealousy of popular privilege which marred the scanty enfranchisement of a few of our towns extinguished the greater number of Irish municipalities. Eleven Corporations are all that exist in Ireland to represent the ancient and important element of the Constitution, which consists of municipal institutions. Yet I feel also that in obtaining for Limerick and our other cities a restoration of their ancient privileges, we would do something to give to all that we have of those elements increased vitality and strength.

"I trust I may calculate on the active support of the Council in this effort to restore to the Corporations of Ireland the privileges which they ought of right to enjoy. I may, I hope, venture to suggest that if the Corporations set any value on their restoration, they may fairly make a combined movement to press upon the Government to give their influence to aid in the passing of measures for which their professions of liberality towards Ireland give us a right to expect their support.

"May I add that which is scarcely necessary to the gentlemen for whom this letter is intended, in pressing on the Imperial Parliament the concession of free institutions to Ireland, I am neither waving nor compromising my conviction that it is only by the concession of our rights to self government that any real justice can be done to us. I believe, on the contrary, that in proposing such measures, I am most effectually serving the cause of Home Rule. The demand that is now made by Ireland for self government is no transient expression of temporary discontent. It speaks the earnest and abiding resolve of the nation. It is because I know this, that I am sure that every thing that advances our national prosperity will add strength to our demand. Every measure that will give us a real participation in the freedom, and the privileges of the constitution, will make it more difficult for any government to resist it; above all, I am sure that anything which upholds the good old principle of municipal self government in our towns is an aid and a guide to us on our way to that higher national self government without which I am every day more deeply persuaded our country never can be really peaceful or prosperous or free.

"Begging of you to take an early opportunity of bringing this communication before the notice of the Council.

"I have the honour to be,

"your faithful servant,

"Isaac Butt.

That with regard to the arrangements as to the Artillery Cavalry and Infantry at present stationed in this City Your memorialist assume there will be no change

That under the new regulations for the establishment of depot centres Your memorialist have heard this in Contemplation to remove from this City the permanent staff of the Royal County of Limerick Militia as also the staff of the City of Limerick artillery and that said Militia Regts are assembled and train at the Depot Centre

Your memorialist beg to state that the County of Limerick has purchased for a sum of £4000 an excellent Barrack and store for the County of Limerick Militia where there is already accomodation for the whole of the staff and for 200 men - There is ample room to build additional quarters & lodge the entire Regt at training and at little expense - These Barracks are quite close to the Kings Island one of the best drill grounds in Ireland & the property of the Government

That Limerick is one of the best recruiting fields in Ireland and we are informed that within the last fifteen months 890 Recruits have been enrolled in the County and City Regts and that several others are still offering their services and this is no doubt caused by the permanent men of their own staff of their own Regt Composed of (in most cases) of Limerick County & City men and that any change from this system will shew a large falling off in the Numbers of recruits

That the above more recruits will be obtained in a large ~~County~~ City such as Limerick than in the small towns of Kilrea or Mallow and that Limerick men will not care to enlist and go for six months to a strange County far away from their homes & old companions

That your memorialist trust that should the public service require the establishment of a Depot Centre at Kilrea or Clonmel you will still consider the advisability of leaving the permanent staffs of the Royal County of Limerick and City of Limerick Artillery Regts in Limerick and ~~arrange~~ arrange to have the regts trained here as hitherto - Your memorialist are encouraged to hope that you will give this proposal Your favorable Consideration from the reasons they have advanced and especially as the case appears to come under the Circumstances Contemplated in act 131 of the memorandum of his Royal Highness the Field Marshal Commanding in Chief Most part of the County of Limerick being in

To

The Right Honble John Poyntz Earl Spencer
Lord Lieutenant General and
General Governor of Ireland

May it please Your Excellency

We the Mayor Aldermen and Burgesses of the Ancient City of Limerick beg to approach Your Excellency and the Countess Spencer, on your arrival in our Ancient City: and to tender you the expression of our hearty Congratulations on your advent among us

We understand that Your Excellency is about to visit our far famed Waters, to see the beauties of our Noble river, and to enjoy the scenery of Killarney and the iron bound Coast and gigantic Moher Cliffs of Western Clare.

On an occasion of the kind it is not becoming in us to dwell on matters extraneous to the object of your visit, nor shall we do so.

In your progress down the Shannon "sporting like a sea" you will see on either side the evidences of agricultural industry - a large portion of three great Counties Limerick, Clare, and Kerry, which are in the enjoyment of perfect tranquility - and the river itself, the greatest in the British Empire capable of bearing the fleets of the wide world in its bosom, and of imparting the fullest measure of prosperity to any Country.

As it is our river is comparatively bereft of the Ships of Commerce which it ought to enjoy; but we have every hope that with increasing self-reliance and the existence of greater enterprise, as well as the encouragement which promotive influence of Governmental action must impart, our river shall participate in some at least of those advantages which the Thames, the Severn and Clyde so largely possess.

We shall not longer delay Your Excellency and Your Noble Consorts

Wishing You Cordially a pleasant and happy trip to our Western Coast.

Alderman Carte, Mayor Tenens in the Mayor, in the chair. Other Members present - William Spillane, J.P. High Sheriff. Ald. Quinlivan, J.P. Ald. Callaghan, J.P. Zachary Myles, Doctor Parker.

Mr Murphy, Law Agent, also attended, and after some discussion, read the following letter:-

"10, Ely Place,
"Dublin, 16th March, 1872.

"Limerick Markets Bill

Dear Sir, - In consideration of your not opposing this Bill we hereby undertake that in the event of any alteration being made in the Bill in its progress thro' Parliament interfering with the right of the Corporation of Limerick to receive £1400. per annum, as agreed on, until the sums borrowed under the acts of 1852 and 1862, shall have been paid off, and one-third of the Tolls thereafter as they have hitherto been used to do, we will withdraw the Bill,

unless

unless the Corporation shall agree to its passing in its altered shape -

We are, Dear Sir,
Yours truly,
Harrington & Jeffers.

Joseph Murphy Esqr.

The following Resolution was agreed to on the proposition of Ald. O'Callaghan seconded by Mr Parker - "That the Representatives of the Corporation on the Board of Markets Trustees be and are hereby authorized to waive that portion of the proposed Bill which provides for any future increase to the £1400 a year payable to the Corporation provided that this concession will lead to the passing of the Bill as it stands in every other respect without opposition"

"To consider average to Town Clerks Salary"

Ald. Earle Chairman

J.C. Myles J.C. Bernal J.C. Parker

" Roche " Dunn Law adviser Mr Murphy

The Committee Proposed by J.C. Myles seconded J.C. Bernal resolved — Having carefully Considered the salaries paid to the Town clerks of the various Municipal Corporations of Ireland & having Contrasted same with that paid in Limerick. We are of opinion that considering the faithfull services of Mr Ellard his salary for last 14 years has been certainly disproportionate to his duties. We therefore recommend to the Council that and from the date of the last audited a/c the salary of the Town Clerk be £200 per annum & that the allowance for the expenses attendant on the Corpus Roll amounting to £65 per year do cease and determine in future proposing the augmentation of the Town Clerks salary. We must report to the Council that the amount named falls very much short of that now paid to other gentlemen when the duties are much less than at present & were the finances of the Corporation in a more flourishing state but could be prepared to name even a larger salary

We our arbitrators met and having maturely considered the matters to us referred are of opinion that as all other unsettled items of account have been already agreed on by the two Boards, the only question they had to Consider now - what deduction (if any) should be made from the sum of £660 - 18 - 2 (being the third of the Sewer Rents of Houses) the majority of the Court (Mr Cobrane dissenting) is of opinion that the only deduction that should be made is one third of whatever sums have been paid as Head Rents & Taxes on the Houses, out of which the said Rents have been received. This sum of £660 - 18 - 2 less the deduction as above and the other items already conceded were ascertained to be due to the Corporation on the 1st September 1869 and the account since between the two bodies is to be settled on the above principle up to and ending the 1st September 1872

To His Grace James Duke of Abercorn K.G. &c &c
Lord Lieutenant General and General
Governor of Ireland . . .

May it please your Grace

We the Mayor Aldermen and Burgesses of the Ancient Corporation of the City of Limerick approach your Grace to offer our warm and respectful congratulations upon your advent for the second time to the high and dignified office of Viceroy of Ireland, and thro' your Grace to express our loyal attachment to our Most Gracious Sovereign who, in again selecting you as the head of Her Government here has evinced her desire to have it guided by a Nobleman whose knowledge of the Country qualifies him to deal with all questions concerning the welfare of this Country in a manner that will promote its prosperity

We are happy to be able to assure your

Grace that a just and ordered consideration of the wants and requirements of the people of this Country by its Rulers will insure their gratitude and loyal attachment to the Throne and Constitution under which we have the happiness to live.

We avail ourselves of the present occasion to refer to the questions of Union Rating and a change in the Grand Jury Laws that will relieve the occupiers in Cities and Towns from bearing the entire burden of this tax. a question that the people of this Country are deeply interested in and we respectfully solicit your Graces attention to the heavy burden Lunatic Asylums are on the occupiers of property and the fact, that the people who pay for and support them have no representation on their Boards of Management and we trust that your Grace may be pleased to direct the immediate attention of the Government to this subject with the view to having the expenses and charges for these Institutions divided between the Landlord & Tenant like the Poors Rate and that this may be done in addition to the boon already granted by the present Government out of the Surplus revenue of the Year.

With heartfelt pleasure we welcome Your Grace and the Amiable Duchess of Abercorn back to Ireland where Your Solicitude during your former Viceroyalty to promote everything tending to the advantage and prosperity of the Country and its people is gratefully remembered

8th October 1874

"Special meeting to consider Bank Account"

The Mayor in the chair Messrs J.T. Counihan Ald Myles P.C. Cronin Ald Hogan The City Treasurer & the Law Adviser

After a long consideration. It was resolved on the Motion of J.T. Counihan seconded by Ald Myles

That the following report be adopted

We find that on a thorough investigation of the Gas Works and it accounts that there is due by the National Bank on a Mortgage £5000 and that there is due a further sum of £8975 which has to be provided for. We recommend that a mortgage for £9000 be given to the National Bank repayable in two years

On an investigation of the affairs we find that including the old Scrip there is due by the Gas works after taking credit for its assets a sum of £9476 and we may with confidence state that the value of the Works far exceeds its Liabilities

We have to remark that owing to the Maintenance of the Gas works the price of Gas has been kept in the City at the Moderate rate of 5/ a 1000 whilst other Cities in Ireland have to pay double that charge

The Gas works are at present in good working order and now that the price of Coals have been reduced we hope that the Gas Works will become a profitable concern for the Corporation & our citizens

Since 1868 a sum of £8600 has been spent on plant alone by the concern not one penny of which has been paid by the rate payers. We recommend that the sinking Fund of 1866. 3. 4 at present applicable from the Unimproved Rate be applied to pay off the Gas Works debt to the National Bank instead of buying up the Scrip as at present done.

With reference to the general state of the Corporation

we find that the Assets of the Corporation are valued at £68.000 - and this Estimate has been made at a very moderate valuation; We find that there is due by the Corporation £66800 We find that there is due of the Borough Fund about £6.000 - which is the real debt to be provided for by the Corporation, which debt is included in the £66800 - above mentioned

We recommend that the payment of the Debt by the Market Trustees be insisted on, as we find that if the £1400 - a year which the Corporation are entitled to were regularly paid no difficulty would have arisen about the Borough Fund account -

We recommend that a revision of the charges on the Borough Fund be made to the following effect - That the following charges be divided between the Borough Fund and Improvement Fund:- The Mayor's Salary, the City Treasurer's Salary, the Municipal Election charges, the Town Hall rent &c, Keeping Pumps in repair, &c, By this means a Sum of nearly £600 - would be chargeable on the Improvement Rate. We find that the General purposes Rate will be reduced by means of the allowances to be made by the Government to the Lunatic Asylum, and we recommend that with the increased charge above mentioned the Improvement Rate be increased to the same extent that the General Purposes be reduced, by this means Taxation will not be increased, and a means of liquidating the present debt of £5000 - is provided -

We also recommend that if the Fines levied by the Magistrates be handed over to the Corporation that same be also applied to the reduction of the Borough Fund as a sinking Fund and thereby within a few years the whole debt of £ would be cleared off.

We recommend that a Communication be made to the Inspector General of Constabulary to ascertain on what conditions could the City Police, and the expenses attendant thereto

We recommend that a reduction in the charges for watering the City be made

The Memorial of the Mayor Aldermen and Burgesses of Limerick sheweth as follows -

That the City of Limerick has held a charter for nearly 700 years

That formerly it received from the Crown various grants of houses lands and a very valuable fishery in the River Shannon and that up to the year 1840 the Municipal boundaries of the City were the same as the Parliamentary and extended for a radius of from 3 to 5 miles more than they do at present the whole of which area was liable to City taxation Previous to 1840 the Corporation had in open violation of their duties as Trustees for the Citizens leased in many instances to members of their own body, all the alluvial and other valuable lands adjoining the City, at merely Nominal rent. in most cases at 6. 8. or 1/- per Acre, and all such leases were for periods of from 99 to 999 years.

Sheehans letter read and application Granted

Mesrs Kelly & Maloney to report at the next convenient opportunity & visit Corkauree and decide what is to be done with the Top dressing at present lying there

In 1834 the Corporation also leased the fishery for 99 years for £300 a year, and the lessee very soon after sold his interest in it for £10.000-. Besides alienating the valuable property of the People, and narrowing for their own purposes, the area of taxation, they left us a legacy to the new or reformed Corporation into whose hands it came in office in 1842, a debt or charge of about £20.000 having previously on the most simple means reduced the Corporate revenues by the leasing powers already mentioned, from what would now realize £12.000- a year to what yields only £1200-.

The present or new Corporation therefore commenced with a charge on their property, such as it was, of £20.000, and a wretched income altogether inadequate to meet the requirements of the City. This debt gradually and insensibly increased, until 1855, when, mainly owing to the legal abolition in 1850 of tolls and customs which had previously realized £2.500 a year, it reached £27.500- for which amount the Corporation of that day had to mortgage what remained of their property. Prior to 1841 there was only one Gas Company in Limerick, and they were wholly uncontrolled by Parliament- They supplied Gas Meters only in a few isolated cases, charged what they pleased per burner, and in no single instance was the price less than ten Shillings per 1000 cubic feet, although neighbouring Cities were being supplied at 6 and 7 Shillings per 1000. In order to relieve the people from this galling imposition, the Corporation, Acting under the powers conferred on them by the Legislature purchased

premises for the manufacture of Gas, and have from time to time expended large sums of money to enlarge and maintain said premises. For this purpose a debt of about £24000 - has been contracted, and while the Citizens have been supplied for the past 20 years with Gas at 5/- per 1000 - , exactly one half what they had been paying, their Gas Works are now fully worth what they have cost.

The Corporation had also to borrow under the Authority of Parliament, a sum of £10.000, for the construction of Sewers, and other equal necessary works, and later on in 1865, with the Consent of Parliament they embanked and Reclaimed about 36 Acres of Slob at a Cost of £6.000.

Thus in every way they borrowed on the Security of their Lands, Houses, Fishery, Gas Works, Market Tolls, and other the Rates of the City, a Sum of £67.500 - in addition to which they have since 1870 overdrawn their 'Borough Fund' Account with their Bankers about £2500 - over and above their available Assets. This Overdraft, caused by a further falling off in the Market Tolls, makes the total Sum borrowed about £70.000 — of this Sum the Corporation have within the past 15 years paid off by a Sinking Fund £10.000 - leaving a balance of £60.000 - now due. For this large Sum they are bound to pay 5 per Cent interest, and no matter how long they continue to pay this interest £3.000 - a year, the Principal Sum of £60.000 will still remain due, — It would be absolutely impossible to levy any additional rate to create a further Sinking Fund, as the Rates are at present over 10/- in the Pound Stg, an unparalleled amount when the Condition of the City is considered.

Under all these Circumstances your Memorialists pray, that your Lordships will be pleased to come to their aid, and enable them to pay off this debt, by authorizing the advance of £60.000 on such terms as may be agreeable to your Lordships, the Corporation giving the same Security as was Accepted by the private Mortgagees.

Your Memorialists are informed and believe that in the case of another City in Ireland similarly circumstanced, your Lordships were graciously pleased to authorize the advance applied for.

Your Memorialists have in Conclusion to add, that any further information your Lordships may require, will be at once willingly & gratefully afforded.

Present. The Mayor presiding

The following Report was unanimously agreed to by the Committee, viz. to the Mayor, Aldermen & Burgesses

Gentlemen

Your Committee has carefully considered the letter received by the Council from the Manager of the National Bank, and referred to it for report.

Having discussed the question at great length with the Bank Authorities, and amongst themselves the five Members selected by you have come unanimously to the Conclusion, that the only means by which the debt due to the Bank Can be paid is by a Sale of the Works. Even though the Bank did not require payment of their debt Your Committee is of opinion, that the fact of so many members of your body having by your Authority Accepted bills to a very large Amount, for the sole use and benefit of the Gas Works, should be quite sufficient reason to induce the Council to sell the Concerns, and thus relieve these Gentlemen from what may be considered a personal responsibility.

Your Committee has therefore to report — that it recommends the immediate Sale of the Corporation Gas Works, due care being taken that the interests of the Citizens are fully protected by Parliamentary restrictions.

Gentlemen

In pursuance with the directions of the City Surveyor, I inspected the retaining wall at Sarsfield for the purpose of ascertaining on whom the liability of maintaining it rested.

As the Corporation undertook the conservation of all roads made under the Grand Jury Acts within the Borough, they are clearly liable to keep the retaining walls in the boundaries of the roads in repair

That we recommend that for the purpose of discharging our pressing liabilities caused by the non-payment of our just claims by the Market Trustees - the recovery of which is in the hands of our Law Advisers - that a Borough Rate of 2d in the £1 - for the Half year ending the 1st January next - be struck for the payment of the Salaries & charges legally chargable to the Borough Fund, and as the General Purposes Rate

and Improvement Rate have been this year reduced 10 in the £. We think that the keeping of a Borough Rate as above will not press heavily on the City.

By adopting this course the National Bank debt will be reduced annually, and the City in a few years will be relieved of the payment of about £200- a year interest.

Report of the Committee appointed 8 June 1876 to consider the position of Wellesley Bridge debt & the best means by which the Bridge may be freed from Toll

Present J C Phillips Chairman
" Connelan
Ald Myles

Your Committee having gone into the figures furnished by the Board of Works showing the receipts and expenditure connected with the Bridge since the debt was commuted in 1867 find that the debt has been already reduced from £10,000 to about £7,500 If the income continue even at the same rate as for the past few years it would still require 15 to 17 years net income to pay the remaining debt

It is a public grievance that the chief approach to the City should continue to be impeded by a heavy toll for such a lengthened period: besides preventing the extension of building in that direction, the toll creates an obstacle between the enjoyment by the humbler classes of one of the healthiest & most extensive suburbs of the City.

We believe if the matter was represented in this light to the Government they would remit the small Balance now due, the City undertaking to make provision for keeping the Bridge in thorough repair, and for working

the moveable portion to allow the passage of ships —

We therefore recommend the Council to request the Members for the City & County & for the County of Clare to bring this matter under the notice of government as soon as possible —

Mr Connolly Law Adviser brought before the Committee a letter from Mr Sherlock Parliamentary Agent asking whether the Corporation are desirous of taking over the United General Gas undertaking and if they are so desirous whether they are financially in a position to do so.

The following resolution was proposed by Alderman Scully seconded by Robert Mac Donnell & Carried

Resolved

That the Law Adviser do forward to Mr Sherlock our Parliamentary Agent a Copy of the resolution dated 16 May 1876 and Copy of resolution of the 1st of June 1876 -

That under the Limerick Improvement Act Cap 194 power was given to the Limerick Corporation to purchase any Gas Works in Limerick and we refer our Agent to this Act. And if the borrowing powers of the Corporation were increased for the purchase of the United General Gas Co's Works we believe no difficulty would arise in raising the money - we may also remark that of the £20-000- borrowed under the Limerick Improvement Act between £11-000 & £12-000 have been paid back

The Railway Companies.

¶ By arrangement with the Midland, North Eastern, Great Central, London and North Western, Great Eastern, Furness, Maryport and Carlisle, North Staffordshire and North British (Scotland), London and South Western Railway Companies, the "Sectional Borough Guides" are circulated over their systems and officially recognised and posted out to enquirers. This method is also adopted by a number of the Steamship Companies of Great Britain.

The Railway Bookstalls and Agents

¶ There are in Great Britain now more than 1000 Selling Agencies of the "Borough" Pocket Guides, including Messrs. W. H. Smith and Son in England, Messrs. John Menzies & Co., in Scotland, and Messrs. Eason & Son in Ireland and over 500 of the best Stationers and Booksellers of the Country.

Through Councils, Chambers of Trade, Advertising Committees &c.

¶ On the Continent, there are Agencies in each Town where the Guides are issued, and Messieurs Hachette et Cie, control the Railway Bookstall trade.

¶ In every locality, where the "Borough" Guides are issued, large numbers of the Guides are used by the local Committees for posting out to enquirers, and to attract visitors, residents, or manufacturers to the district.

Holiday Season Methods.

¶ During the Summer Season, advertisements with the familiar catch phrase **"You want a Guide"** appear in London Papers and induce an extraordinary response, showing how much the public appreciate the quality, cheapness, and handy size of the "Borough" Pocket Guides.

These methods of publicity have gained the proud position for the "Borough" Pocket Guides of being

of the head of the Corporation the present Mayor James Spaight Esq. to a suitable recognition of his great abilities & public services to the City & district. as described in the Memorials from the other Boards,

Gratefully remembering the admirable manner in which Mr. Spaight discharged the onerous duties of Mayor, during his former Mayoralty more than 20 years ago, and his continuous eminent public Services to the Commerce of Limerick, since that time. the Town Council adopted the unusual Course of electing him as Mayor for the present year without any solicitation on his part. and almost against his desire - in full confidence that he will do honor to their choice. by upholding the dignity of that ancient office, and by advancing the general Commercial interests of the City - Since his appointment he has fully justified these high expectations

"Memorial to ~~have "Valiant" changed from Turbert to~~ allow the "Valiant" to be stationed at Foynes."

Meeting, Dec^r. 19^th. 1877: Present- James Spaight, (Mayor) presiding; Alderman Phillips, Ald^n Lenihan,

The following was unanimously adopted -

To The Right Honorable
The Lords of the Admiralty

The Memorial of the Mayor Aldermen and Burgesses of the City of Limerick in Council Assembled -

Humbly Sheweth -

That the Citizens and trading Community of Limerick, in general, have suffered considerable loss by the removal of the Guard-ship from Foynes to Tarbert, the latter Station being unconnected with Limerick by rail, and, therefore affording no opportunity to Officers or Men of visiting the City as they have been continually in the habit of doing from Foynes for business and recreation.

That Your Memorialists are informed and believe, that the sole objection to Foynes, as a Station, has been removed by the discovery of an ample supply of the purest Water in Foynes Island, in the immediate vicinity of the Ship's Moorings.

That the Premises of the Foynes Railway, adjoining the Landing place of the Harbour, affords every Comfort and Convenience to the Officers and Crew, as well as to those who supply the Ship.

That the Moorings already laid down at Foynes render the Anchorage perfectly Secure. And under all these Circumstances the Community of Limerick, which is the Chief City and Port of the West of Ireland, would respectfully submit, that they should not be deprived of the Material Advantage resulting from the Ship being Stationed at Foynes -

Present - Ald. Phillips, presiding; Ald Myles, T.C. Walker, T.C. Mulvany J.P. Counihan, Ald. Tinsley,

Mr. Forrest's Office

Recommended - That the City be divided into four cleansing Districts, to be arranged by Mr Forrest. That four Gangers be appointed, one to take charge of a certain number of sweepers and Carters in each District. The gangers to be selected from the present staff of sweepers; to work with the other men, and in consideration of their extra responsibility to receive 2/6^d per week extra wages. ~~To~~ Each ganger to wear ~~on~~ a numbered ~~[illegible]~~ badge, and to be subject

to dismissal, or to be deprived of his extra pay, or being found idle or negligent, or any of his men. The following men to be appointed gaugers, on probation:- Luke Carey, Thomas Tynan, James Costan & Michael Murphy.

Report of the Committee appointed at Council Meeting of 6th Dec. to consider the Application of the Royal Engineers for permission to make a new Sewer near the New Barracks.

Present - Aldn Phillips - presiding
Aldn Myles
- with - Wm. Corbett - City Surveyor

The Committee having carefully examined all the roads & Streets in the neighbourhood of the Barracks, and duly considered the Circumstances of each locality, are of opinion, that there can be no objection to having the Sewer made as proposed by the Military Authorities through Roden Street, (as shown by the yellow line on the Ordnance Map:) and they recommend the Council to grant permission for its Construction, provided the Sewer be made sufficient size and depth to allow of its being hereafter utilized for drainage of the adjacent Houses - But considering that the Sewer, if made thro' Roden Street, is not called for by the Rate payers in the District, the Committee cannot recommend the Council to expend the Rates in contributing towards the Expense of this Sewer -)

If the Authorities would however, run the Sewer down the Military Walk & through Charles Street & join the new Main Sewer in Henry Street, (as shown by the blue line on the Map) the Committee would recommend the Council to make a Suitable Contribution not exceeding half the Cost of the Construction of that portion of the Sewer which would run thro' the Military Walk & Charles Street -

Ald Myles Chairman

J.C. McNamara J.C. Councilman

The Committee ordered that H.B. McNamara Ald Myles & the Treasurer wait on the Manager of the National Bank & request that he will draw a line in the Borough Funds as it now stands & open a New account for it: in which event the Treasurer ordered to lodge £700 (seven hundred) of the funds lodged in his own name on Deposit Receipt to the Borough Fund a/c as a permanent reduction of that a/c and the balance £421. 1. 2 with interest accrued to the current a/c

The Treasurer is directed not to introduce into the accounts any interest charged by the Bank on overdrafts inasmuch as the Auditor intimated at the last audit of accounts that he could not in future allow interest in the Corporation accounts

20th January 1878

Have to report that Ald Myles J.C. McNamara and the Treasurer waited on the Manager of the National Bank when he stated that if the Corporation lodged £700 of the money lent on deposit receipt by the Treasurer as a permanent reduction in the Borough Fund a/c he would permit the Corporation to draw to the amount of future lodgements made in that account. The manager stated that he could not allow the same interest on Credit accounts of the Corporation as he charged on overdrafts. He suggested that the Corporation accounts should be amalgamated

Special committee to draw up an address to Her Majesty the Queen praying the release of the Political Prisoners and Petitions to Parliament ~~on the~~ ~~subject~~ referred to the expenses of the sanitary and Grand Jury acts =

The committee met and drew up the following address which they direct the Secy to thank the Town Clerk with instructions to have it engrossed

by the Mayor and Town Clerk. Attach the City seal and forward immediately. One to the Right Hon. M. Cross for presentation to Her Most Gracious Majesty the Queen. The other two to the City members for presentation to Parliament

To Her Most Gracious Majesty. Queen Victoria Queen of the United Kingdom of Great Britain and Ireland and of the Colonies and Empress of India

May it please your Majesty

We the Mayor Aldermen and Burgesses of the Antient and loyal City of Limerick humbly approach your Majesty believing that the brightest Gem in the Imperial Crown is that which recognises and dispenses the prerogative of mercy. We humbly pray your Majesty to exercise that prerogative in favor of the following persons Viz. Edwd O'Mara - Gordon Robt Kelly Patrick Mahony Edward Kelly Thos Thern John Dillon James Lalor & Edward Connor who continue to suffer penal servitude for political offences in the sincere hope that they will truly appreciate and be forever grateful for this act of beneficence which we humbly seek at your Majesty's hands in their behalf, and that thus another reason shall be given why those who look for

clemency from suffering may know that they can find in your Majesty that sympathy and redress which will bind them with the strongest link to the throne and respect for your Majesty's person and dignity

And your petitioners will ever pray

To

The Right Hon. & Hon. the House of Commons in Parliament assembled

The humble petition of the Mayor Alds and Burgesses of the City of Limk

Humbly Sheweth

That whereas your petitioners suffer a grievous injustice in consequence of the existing incidence of the Urban Sanitary rate which instead of being paid through or by the Board of Guardians as is the Rural Sanitary rate by which owners of property bear their due proportion of said Rate. it is Charged on the Borough Rate in the Urban Sanitary divisions whereby the occupiers exclusively pay all the Rate

Your petitioners humbly pray that a Bill now before your Honorable House this session may be passed whereby this oppression and injustice may be remedied and the incidence of the Rate may be equalized in the same way as in the Urban Sanitary divisions as it is in the Rural Sanitary divisions

And your petitioners will ever pray

To

The Right Hon & Hon the House of Commons in Parliament assembled

The Humble Petition of the Mayor Aldn and Burgesses of the Ancient City of Limk Humbly sheweth

That the entire burden of the expenses of the Grand Jury system as at present existing in Ireland are borne by the occupiers in Towns and Cities & the exemption of the Owners of property therein by which the occupiers suffer oppressive injustice and wrong

Your Petitioners therefore pray Your Honorable House will in Your wisdom make such an alteration in the existing Grand Jury laws as that the incidence of the Grand Jury tax may fall in due proportion on owner and occupier as is the case under the Poor Law System which so far works fairly and justly towards all Classes and that in the bill before Your Honorable House the injustice and wrong may be remedied and removed

And Your petitioners will ever pray &c

The 17th relates to the constitution of Lunatic Asylum Boards

Under the provisions the City of Limk and the County of Limk would be represented on the Board of Governors of the Asylum - the Lord Lieutenant would appoint one third of the members and the remaining two thirds would be selected by the Rural County Board of the Town Council of Limk - But the Bill does not specify any fixed proportions for the representation of each interest. it merely authorizes the Lord Lieutenant to fix any numbers he chooses to grant to each interest - and of the act pass in its present form the Lord Lieutenant might not allow a very small number of Board members from the City and might give a very large number to the County thereby swamping the City interests altogether - We find from experience that the Rural Guardians of the Poor (who valid form County Boards) usually exercise their powers adversely to the City and we are not satisfied that the executive should have authority to place the City at the mercy of the County in the Asylum Board we prefer having one safe principle laid down in the act to protect the City

We claim that the asylum Board should consist of
one third nominated by the Lord Lieutenant
one third selected by the County Board
& one third selected by the Limerick Town Council
This would be fair towards all parties and we hope our City members of Parliament may be able to have the Bill amended to that effect

The Govt may possibly refuse to give the City so large a representation on the asylum Board and may offer to adopt some other scheme of representation (on the Asylum Board) based either on valuation or population of the County and of the City respectively or fixed in ratio of the Numbers of Lunatics in the Asylum from the City and from the County district - But we have a precedent for such a board here - The Market Trustees - are one third Grand Jurors of the County - One third Councillors and one third members of the Chamber of Commerce. The Trustees work harmoniously and fairly

If the Govt should adopt either of the other Modes of allocating the Board members. the effect would be

1st on the principle of valuation - The County valuation being about £466,000 and the

the City valuation only £65,357. the County would have about seven members against one member for the City

2nd On the basis of population the City members should still be greatly outnumbered as the Board - the County has about 152.583 inhabitants while the City has only 39.353 which would give the City only one member against four County representatives

3rd But if we adopt the more equitable scale of contribution to the funds of the asylum based on the inmates - say average about 125 City inmates and 311 from the County then the City would be enabled to have three members against seven County members

So if we refuse to give us one third of the Board and if they offer to adjust the numbers of representatives according to any of the above mentioned scales, it is eternally best for the City to have it fixed on ratio of inmates of the Asylum - say to take an average of the last three years - but we hope our city members may get us to have one third of the whole Board

That the Town Clerk be directed to request on M.P's attention again to the question of having the Grand Jury cess made payable in same manner as the Poor Rate between Landlord & Tenant

In order to provide an abundant supply of Water to secure the growth of the newly planted trees & Shrubs. the Committee decided that a Pump should be fixed inside the Park railings. Connected with the Well sunk by the Jubilee loan Society. so as to make use of the water now useless in that well,

The Committee recommend that a small room containing a window to Command a view of the Park should be made at the Gardener's house, as it is now impossible for the gardener to protect or Supervise the place effectually. the door of his house being turned away from the Park, and there being no window looking into the grounds from any part of the house,

The Committee directed that Mr Corbett should improve the footway near the entrance gate to prevent mud and water flowing from the Streets into the Park in wet weather. filling the walks with soft mud and adding Considerably to the Cost of Maintaining the walk in proper order.

The Committee decided to ask Lord Limerick to lend his gardener to meet our gardener for the purpose of lopping and thinning out portion of the old trees & shrubs which are greatly overcrowded & requiring pruning & clearing.

Cronin Nolan.
(J. B. Delany also attended)
Mr. Monahan attended on behalf of the Landlords

Proposed by J. B. Bernal
Seconded by J. B. Skinner and Carried Unanimously

Resolved -

That this Committee after reviewing all the Analyses made for the Water Company and those on behalf of the Citizens by direction of the Council of the Limerick Corporation, as appears on the Records, are confirmed in the Views of those who in 1859 Condemned the Source from whence the Water is obtained for the Supply of this City, and we urge this point on our Arbitrator and the Local Government Board, believing that the high rate of Mortality in Limerick is in some part owing to the inferior quality of the Water supplied by the Limerick Water Works Company.

The following bills from Mr M. A. Kennedy C.E. for whom this Committee on the 3rd July last passed a Resolution requesting from the Limerick Water Works Co. on behalf of the Corporation permission to enter & inspect their Works &c preparatory to the appointed Arbitration - were read and referred to Arbitrator - when & as -

Referred to 7th August 1879

To the Chairman
Water Arbitration Committee

Sir

I beg to inform you for the information of the Committee that in reply to my second Application to the L. Water Works Co. for permission to enter on, and inspect &c their premises &c I have on the 6th inst. received a letter from the Secretary of the Company referring me to the Arbitrator or Umpire as to the Course to be pursued. I have accordingly Communicated with Mr M. Sheehan the Arbitrator on behalf of the Corporation

I am Sir
Your obedient Servant
M. A. Kennedy

when it was -
Proposed by J. B. Bernal and
seconded - Unanimously
Resolved

That this Committee cannot but express their dissatisfaction and concern at the obstruction shewn in the way by the second refusal of the Limerick Water Works Company to allow Mr Kennedy C.E. an opportunity of inspecting, on our behalf, the Works by which the Water is pumped, the lands from which whence the daily supply to the City is issued and the process of filtration by the Company since 1859. Such inspection being necessary for the purposes of the coming Arbitration -

Proposed by J. B. O'Connor
Seconded by P. B. Nolan
and Passed unanimously

Resolved

That in view of any further obstruction being offered by the Limerick Water Works Company to the inspection of their works by the Executive officers of the Urban Sanitary Board or by any party authorized and deputed by the Arbitrator appointed by the Council - We urge on the Mayor the question of calling a public meeting of the Citizens, and propose Resolutions to go to Parliament for power to erect works to supply the City.
Proposed by D. B. O'Sullivan -
Seconded by J. B. Nolan -

'Dublin 13th Aug 1879

'Sir

'With reference to your letter of the 9th 'instant Communicating the request of the Limerick 'Sanitary Authority that the Local Government Board 'for Ireland should appoint an Umpire in the 'Arbitration of certain matters between the 'Sanitary Authority and the Limerick Water Works 'Company, the Local Government Board desire to 'state that, having regard to the terms of the 217th 'Section of the Public Health Act 1878 (the Sections '1. 2 and 7.) as a necessary preliminary to the 'appointment of an Umpire by the Local Government 'Board, Copies of the Appointment of the Arbitrators 'should be furnished, with a copy of the deed of 'Submission Specifying the Matters to be decided,

together with satisfactory evidence that proper notice has been given to the Arbitrators requiring them to appoint an Umpire, and the refusal of either to do so within the time limited by the Statute.

"On the information being supplied, the Board will be enabled to see whether the appointments of Arbitrators have been executed in due legal form: while the particulars in the deed of Submission will guide them in the selection of a suitable and Competent person to be Umpire, and the evidence of notice will furnish further information as to the question whether the Local Government Board is in a position, or not, legally to make the required appointment.

"If the costs of an Umpire are not included in the deed of Submission, the Local Government Board request that the Sanitary Authority will be good enough to state what they propose in reference to them.

Ald Hayes J.P. Bonnal J.P. Nolan J.P. Maloney J.P. Hastings

The draft Estimate of Improvement Rate for Half year from 1st July 1879 to 1st January 1880 - Considered

To enable the reduced sum of £1440 granted for Sweepers & Scavengers &c to suffice the Committee recommend that the present Staff of Sweepers be paraded before the Council at its next meeting - and for the future that no Sweeper be appointed without the Sanction of the 'Improvement Committee'

Ordered - That the £400 - Borrowed this year by the 'Improvement' from 'Contingencies' be made a permanent transfer to the 'Improvement Fund'

Recommended that no new works be undertaken this Half year excepting such as are provided for in the Estimate.

The Committee recommend the Council request the Local Government Board - that in pursuance of the 226 Sec. of the 41 and 42 Vic Cap 52. they cause enquiries into and adjust the incidence of the Expenses under the 'Public Health Act' of the City - so as to make it - Same as the Poor Rate - equally payable by Landlord & Tenants.

The Committee recommend that a Rate to made of 2/- in the £ on the Rateable Property of the City (£61393 11 8) which will yield a Sum of £6139 7 2 - Am' Estimate adopted £6139 15 8½

Having been appointed by the Town Council to examine the Cost of Lunatics charged to the Boro of Limerick in the Lunatic Asylum. We report that of the 102 Lunatics now charged against the City we object to Johannah Keating admitted this day on a Certificate signed by a Magistrate Doctor and Poor Law Guardian of the City to which she is in consequence of Such Certificate charged. We have been informed that she belongs to Croom and that for the last six months during her Residence there she was Insane and since brought to Limerick where the Certificate was signed. As Rate payers we lodged a Protest against their chargeability to the Gaol before the next meeting of Governors

Bridget Hogan - admitted 22 March 1869 from Coolrain to Limerick

George White - was a paying patient in the Ennis Lunatic Asylum. was sent from that Institution and received here as a paying patient - The Payment ceased for the passed two years

Thomas Gardiner - a Sailor - became Insane on board Ship at Sea. was landed on the Quay and sent to the Asylum. Feby 1870

Maurice Power - from Kelly's Range. Black Boy. County Limerick. 7th March 1870

Anne Cleary - from Adare 3 Sept 1874 her relatives in Patrick Quay signed the Guarantee for her removal are well able to support her. This certificate was

signed in Limerick

Margaret Glynn - formerly in the Asylum from Limerick - Discharged cured March 76 sent to live in Bruff where she became insane again and from thence she was sent to the Asylum Certificate signed there by the Magistrate Doctor and Poor Law guardian

Thomas Byrne - a soldier sent insane. Under escort from Nenagh to the Limerick Workhouse and thence to the Asylum he enlisted at Gravesend

Arthur Sparling - from Rathkeale lived a short time in Denmark st from thence he went into the Union Hospital where he was several times and then transfered to the Asylum

Michael Naughtin - in Epileptic Ward of Workhouse. became insane and sent to the Asylum

Mary Daly a long time in Infirm Ward of Workhouse became insane and sent to Asylum

Bridget Shannahan in Workhouse Hospital became insane & sent to Asylum

Thomas McGrath sick in Workhouse Hospital became insane sent to the Asylum

Catherine Kelly a paying Patient from Bruff

We have to observe that the Workhouse being in the County cases sent from thence are County cases

We regret to observe on the needless signing of Certificates without proper enquiry on the part of those doing so by which the Asylum Authorities charge in accordance with same

We are of opinion that as a general rule paying patients ought not to be taken into the Asylum without a sufficient bonding guarantee for same

The Committee after going carefully with the bids for the several lots offered for sale this Morning Resolved. Proposed by P.C. R McDonnell
Seconded by P.C. Nash and Carried

Resolved - That having gone carefully through the memorial presented to us on this day we consider that the prices offered except for Lots Nos 3 & 5 are inadequate and as we believe that the Solr Mr J Kearney Solicitor for the mortgagees is actuated by a desire to realize the highest value for the property we suggest that the various lots be again put up to public auction in the Council Chamber to give a further opportunity to the Artizans to purchase

Referring to No 1 lot the Committee recommend that the Council retain the premises for their own use

Lots
No 3 - Bunny Refinery
" No 5 - Off Mr Russell (Lock Lane)
" No 1 - Old Exchange

"Lunatic Asylum Committee" 8 October 1879

Geo Cleary Chairman

A.C. Myles T. Nolan R. Cronin T. & P. Moloney

The committee on the part of the Corporation met a committee of the Board of Governors of the Asylum relative to objections raised to the charging of some of the Lunatic patients to the City

The Governors of the Asylum agreed that some of the Patients ought not to have been so charged and agreed to report to their effect to their Board with reference to the other item stated that as the law of chargeability is not clear they would ask the opinion of the Board of Control on same.

The committee reported to Sub Committee the result of their interview when Sub Committee resolved that the Town Clerk be directed to apply to the Board of control to ascertain what constitutes Chargeability of an Insane Patient in a District Lunatic Asylum

Can a paying patient be legally sent by the Governors of one Asylum to another and can he be legally received by the Asylum to which he may have been sent

Are those who paid for him in the first Institution still liable to the one to which he may have been sent

To what place is a Sailor chargeable who becomes insane at sea is landed at the Quay at Limerick and sent to Asylum

The Limerick Workhouse being in the County Limerick are not any of the Inmates who may become insane there chargeable to the County and not to the City

As such an important matter as chargeability in District Asylums should not be a matter of doubt or uncertainty. We recommend that Mr O'Shaughnessy M.P. be requested to bring a bill into Parliament for this purpose and suggest that the charge be placed on the whole united District or a Residence such as exists under the Poor laws both a Union Chargeability where the necessary Residence does not exist

That the ~~bind ourselves to accept~~ bind itself to accept only one plan for the plan which may be approved of by the Local Government Board

To which the following Amendment was

Proposed by Ald. Hall
Seconded by C. McGuire

Resolved. That we recommend the Council to refer the question of the future water supply to the City to the following Committee. The Mayor, Ald. McDonnell Ald. Bernal, Ald. Hogan, Alderman McGuire, Ald Hall with power to add to their number, with the City Surveyor, that it be an instruction to said Committee to go minutely into a calculation, to ascertain the quantity necessary for proper supply for all domestic purposes, and report thereon to the Council, as soon as possible, and that Mr Rich Rowlette L.G. Board Inspector be invited to attend the meetings of this "the Special Water Committee"

The Amendment having been put to the meeting the Mayor declared the "noes" to have it. A Poll called for a division which some Members of the Council objecting to, suggested a show of hands should be called for which being done the Mayor declared the Amendment lost.

To the Rt Worshipful the Mayor, & the Chairman of the Committee of the Limerick Corporation. to be held on Thursday July 22nd for the purpose of Meeting Dr Tidy on behalf of the Limerick Water Company.

We the undersigned Citizens Burgesses and Ratepayers of Limerick protest against any negociations being opened with Dr Tidy, formerly the Witness and inspiring Agent for, and now the Accredited Agent of, the Limerick Water Company, or of your doing any act or thing which may damage, Prejudice, or in any way lessen the Value and Importance of the Solemn award made by the Arbitrators and Umpire, on the points Remitted by the Local Government Board on the issues between the Sanitary Board of the Limerick Urban district and the aforesaid Water Company.

Scientifically Dr Tidy can give no additional information beyond that given at the Arbitration & with which we were abundantly furnished by our Eminent Advisers Dr Cameron and Professor Mickbone. Financially we rely on the Same good Common Sense and Sound practical judgement being exercised by which the Council were actuated when obtaining the Gas Works for the Citizens, and we are quite Confident that Limerick Men are able, Willing and Competent to work for the best interest of their native City.

We protest against the reception of Expert evidence, and Expert advice, for the reason above stated.

We should be most unwilling to offer the slightest disrespect or discourtesy to Dr Tidy — On the Contrary, he deserves our grateful Consideration, from a National standpoint, for his glowing tribute to the Queen of Western Rivers — The Lordly Shannon — but we suggest to you, that Dr Tidy should be asked, & reflect, how far zeal in any Company's Service is Compatible with discretion and Consistency, before he enters the list of Contention as the open and professed Advocate of a Company whose Works he described, as "the most wretchedly Constructed he ever saw" and which were, and remain, the Medium of supplying a localised population of 38,000, and a gregarious Visitation of 8,000 - making in all 46,000 Souls, with a necessity of Life-not Secured as impure in Quality, insufficient in Quantity, unsuited as an Agent for Sanitary Measures, and unreliable as a protective Agent for life & property against the Casualty of Fire.

To the Right Hon the [illegible]
in Parliament assembled

The humble petition of the Mayor Alds and Burgesses of the City of Limerick

Humbly sheweth

That your petitioners see with extreme regret a measure of coercion for the County introduced into your Hon House by her Majesty's Govt

That having extensive knowledge of this portion Ireland your petitioners Con Confidently state that remedial measures are alone wanted to allay the agitation which exists

We believe the present laws are sufficient to preserve the peace of the County. That in the interests of industrious and hard working people we protest against the proposal to abrogate the Constitution and place the liberties of our fellow Countrymen at the mercy of any officials without the restraint and protection which the ordinary laws of the County extend to every individual

That we pray your Hon House as the natural protector of the rights & liberties of the people to hesitate before passing a coercive Measure which we respectfully submit there has been no just grounds shewn for adopting

Having read the suggestion of a member of the Committee of the 20th Sept 1880. The Committee requested A.G. Phillips R.D.J. McNamara and J.J. McCarthy or any two of them as well as any others of the Committee who can go with them to inspect the land at Glen Corkaurree & report what they recommend to be done with it. To meet on Saturday next at noon at Mr Phillips office at the Docks.

"Corkaurree Committee" — (19th July 1881) — of inspection — present: R.G.D.J. & M. Romer & A.G. Phillips — (Mr Barker & the Constable absent)

The Committee Report — They visited over and carefully examined the greater portion of the Eastern & Middle divisions of the Corkaurree — & the there are numerous deep cracks in the ground, and several places are very dirty with dead weeds which reduce the value of the land in the present state for Meadowing, the land is not in bad condition for Grazing purposes — Of course it would be greatly improved by being tilled to close up the cracks and get rid of the weeds. but considering that the season is already so far advanced it would scarcely be practicable to commence tillage operations this Spring —

The Committee therefore recommend that the place be let for grazing this year — reserving the western portion (if it be found suitable for Meadowing — & if it can be easily preserved from trespass of the Grazing Cattle —) It will perhaps be desirable to employ a few men digging up the weeds in the worst patches, and throw a few cartloads of Gravelly road Scrapings thereon into the largest and most dangerous of the Cracks. if it be found on further inspection that the Cracks are likely to cause any risk of accident to Cattle —

The Committee having visited the Limerick District Lunatic Asylum on the above mentioned date Report as follows —

We enquired into the cases admitted and charged to the City since our last investigation of 14th May 1880.

We found one wrongly charged which is now rectified

Three were persons transferred to the Asylum from the Co. Gaol by the Lord Lieutenants Warrant — This Union is a District one, but situate in the Borough and therefore those individuals are charged on the City —

Also 2 Soldiers sent from Clothy & Limerick (the place of Enlistment) — and others whose residence in the town was of temporary duration, Such a Chargeability may be legal, but is unfair to the Ratepayers of Town —

We recommend that W. H. O'Shaughnessy Esq be requested to bring this injustice under the notice of the Government, with a view to have a similar Law of Chargeability

as exists for Inmates of H. M. Houses —
A clause to this effect might be added to a
Bill now before the House of Commons.

We the Corporation Contribute largely to
the Maintenance of this Institution. They ought
to be represented on the Board of Governors —
We recommend that application be made
to his Excellency to appoint 3 Members of
the Council as Governors to attend to the
interests of the Ratepayers.

We recommend the Council to
appoint annually a Committee to
enquire into the Admissions of City
cases to the Asylum.

'London E.C. 20th May 1881

'Dear Sir

'I am requested to acknowledge the 'receipt of your letter under date the '17th May, in reference to the proposed 'Conference between my Company and 'the Corporation of Limerick –

'The Water Works Company have written 'you very fully, giving all the information 'asked for – besides which they have made 'several definite propositions from their 'point of view – And it has occurred to 'Mr Gregory and myself that the Corporation now 'having before them our proposals, with the 'alternative of an Arbitration, it would be 'very much more Convenient for the Corporation 'of Limerick if they have any observations to 'make or any Counter-proposal to submit, to do so 'in writing –

'This would be very much better than a 'verbal discussion, and may lead to a 'settlement of the question upon a satisfactory 'basis without Mr Gregory and myself being put 'to the trouble, inconvenience, and Expense of 'a personal visit to Limerick –

'Will you be kind enough at once to 'take the opinion of your Committee on this 'subject, and let me have a free reply 'at the earliest possible moment?

Meeting held 16th Augt 1881

Present — Alderman Cronin — Locum Tenens in the Chair

(T.B. Boyd. non-Member was also in attendance)

Letter from Major Mawe of The Royal Munster Fusiliers having been read —
The following Report from Alderman Phillips was read and adopted —

— Military Bands in the People's Park —

The Mayor by desire of the Council having requested the Commanding Officers of the Regiments stationed in Limerick to permit their Bands to play on stated days in the People's Park. The Officer in Command of the County Limerick Militia kindly Consented to allow the Band of that Regiment to attend at such times as may be agreed on — And the Park Committee was summoned to meet in the Park at 12 Of. on Thursday 11th August. to make the needful arrangements —

Some Members of the Committee Conferred with the Park Keeper about the arrangements to be made in the event of the Band's attendance — Taking all Circumstances into Account we are of opinion that —

The best time for the Band to attend would be Thursday Evenings. (from 5. to 7 Oclock). for as this Saturday might be more agreeable to Country people visiting the City on Saturdays it might not suit the great body of the Citizens who are generally more occupied with business on Saturdays than on Thursdays —

And the best location for the Band when playing would be the Mound near Wolfe's Monument —

The Committee request the Mayor to Convey the thanks of the Citizens to Major Mawe for his Courtesy and Kindness —

Arrangements to be made for the Band's attendance as soon as possible. as it is a pity but the Summer pass away without obtaining the required recreation and amusement for the people —

Report of Committee

We visited the Lunatic Asylum & Enquired into the Chargeability of such as were admitted there since our last Report

There was a Man from Bark charged to the City upon our Explanation and reference to the Rate Books that Bark is in the County. His Chargeability has been rectified.

We observed also that a Man was brought before the City Magistrates, and Committed by them to the Asylum. This Man was lately discharged cured from the Ennis Asylum.

We regret having to report that the inhuman practice of sending Insane Soldiers from Netley still Continues. as Pete Finn who enlisted at Jerpoint in Sept 76 was sent in April 1881 from Hong Kong to Netley Hospital, and from thence in Aug 3rd 81 was sent under Escort to this Asylum, as the Attestation Paper stated he was born in Limerick. These persons under the Poor Law Act would have been charged upon the whole Union -

We recommend that a representation of those cases be again brought under the Notice of our very attentive Representative M O'Shaughnessy Esq. M.P with a view to have the Law of Chargeability in Lunatic Asylums, made Similar to that under the Poor Laws, and that the Compulsory Removal of Insane Soldiers be prohibited. A Similar recommendation has been made by a Committee of the House of Commons on the deputation from England of Irish poor persons

We again request the Town Council to ask to be represented on the Lunatic Asylum Board to which they largely contribute and which we think is necessary in the protection of the Rate payers

We had every facility in our enquiries from Dr Courtney, who appears anxious to have all the Lunatics Charged correctly

City Surveyor's Report
(as adopted)

27 Glentworth Street
Limerick
January 24th 1882

Wm Chairman and Gentlemen

In compliance with your resolution of the 19th instant I have to report for your information that in my opinion One Million Gallons of Water per day is required for the City –

I find the Water Works Company's Tanks or reservoirs at Garryowen are 100 feet above Ordnance datum, and the highest ground within the City is 87 feet over the same datum, therefore the pressure at this place I consider is Nil; when other portions of the City are only

70 feet over the same datum -

The Water Works Company to give you sufficient pressure, a pure, ample, and constant daily supply of Water - should carry and improve their works as suggested by me in my report dated 21st of October 1880 - Vide -

At Rhebogue the intake pipe should be extended above the Greedy river -

The subsidence reservoir and filter beds be completed -

A new Engine and pumps to be erected to lift Water to the Garryowen reservoirs, and to a new reservoir to be constructed on the Turret Hill at Newcastle which is over 200 feet over the Ordnance datum, that is 170 feet over the highest point in the City -

New lifting Main pipes to be laid along the pipe track from the Rhebogue Works to the Dublin road, and thence along the Dublin road to the Hill at Newcastle -

The pumping of the Water either to the Newcastle hill reservoir or to the Garryowen reservoirs can be regulated by valves placed at the Rhebogue Works under the Control of the Engineer in charge of the Engine -

By this arrangement I would divide the City into three Districts. And I propose the reservoir at Newcastle to be 200 feet Square and 17 feet deep to Contain three Million gallons of Water, with all the necessary valves, outlet, inlet, and scouring pipes &c. which would supply the upper portion of the City and the reservoirs including the Completion of the third reservoir at Garryowen would supply the Centre and lower portions of the City -

A Cast iron supply Main of 12 inches in diameter to be laid from the reservoir at Newcastle hill along the public road to Pennywell, up the Pennywell road, on through Cornwallis Street, Nelson street, and Edward Street to near the New Barracks forming junctions with the pipes at the head of Roche's Street and other places -

I would also put another supply Main from the reservoirs at Garryowen down through John Street, Broad Street, Mary Street and Nicholas Street over to the reservoir on the North Strand which would supply the lower portions of the City and the North Strand -

At the head of William Street and at the rere of St John's Church near the Corner of John Street, I would put down Valves to Connect the supply pipes coming from the reservoirs at Garryowen, in order, in case of fire in the lower portions of the City the high pressure service from Newcastle Could be put on -

If these works are Carried out as now suggested you will have your City divided into three districts. Each having a Separate supply - Vide

No 1 - From the reservoir at Newcastle, for the upper portion of the City -

No 2 - From the reservoirs at Garryowen, for the Centre of the City

© Copyright Limerick City Council Archives

No 3 – From the reservoirs at Garryowen, for the lower portion of the City, and the North Strand –

which we doubt not will give you an ample supply of pure water from our noble Shannon –

A cheaper plan for supplying the upper portion of the City could be adopted by putting up at the Garryowen reservoirs a large and higher Steam pipe and pumping with a new Engine from the reservoirs through this pipe to command the high levels, which on no account would I recommend you to sanction –

I remain
Your obedient Servant

The following letter received from the Secretary of the Water Works Company was read –

"The Limerick Water Works Company
"14 Moorgate Street
"London E.C. 30th January 1882

"Dear Sir

"Your favor of the 19th instant Communicating "to Mr Finlay the resolution of the Special Water "Committee appointed by the Corporation of "Limerick was submitted to the Directors of the "Limerick Water Works Company at their Meeting "held on Friday last –

"The Directors beg to express their pleasure "and satisfaction at the prospect of an amicable "arrangement being come to between the Corporation "and the Company in reference to the Water "supply of the City of Limerick – but before "sending over a deputation to meet the "Committee, the Directors think it would "be desirable for the former to determine which

'of the alternatives provided by the Act of
'1878 for the supply of Water they propose
'to adopt - As you will they are no doubt
'aware, these are :-

'1st. A purchase or Lease of the Existing
'Works of the Company -

'2nd A Contract with the Company for a
'supply of Water for the City generally,
'including domestic purposes, or for
'sanitary purposes only -

'The Corporation are already aware
'of the readiness of the Company to sell their
'Works either by Arbitration or agreement - It
'is for the Corporation or the Committee to say if
'they will accept either of these Courses -

'If they decline both of them, the question
'arises, for what do the Corporation wish to
'Contract, whether for all purposes - including
'domestic ones - or for Sanitary purposes only ?
'If for the former, the Directors presume that the
'Corporation will put in force Section 72 of the
'Act of 1878, and Compel every house to be
'properly supplied with Water, And the Question
'will be whether there should be a general rate
'for this, or whether the Company are to charge
'each house as they do now those which they supply -

'I have already stated that the Company
'are willing to sell or lease their Works - And
'they would be equally willing to Contract with
'the Corporation for a supply to the whole of the
'City for all purposes, or for a supply for Sanitary
'purposes only, on being informed of the Course
'which the Corporation propose : - And on receiving
'this information they will be happy to send over
'a deputation to discuss - and if it is hoped, arrange, -
'the terms - They believe that the Works, with the
'improvements which they are Carrying out, will
'be Quite Capable of affording a pure and
'wholesome supply of Water to the City for all
'purposes, and that they will be in a position
'to afford this supply upon Moderate terms -

'If you will Kindly let me know the views
'of your Committee at the earliest possible moment,
'I will lose no time in Convening a Special Meeting
'of the Directors of the Water Works Company, for
'the purpose of placing such views before them
'for their Consideration -

'I am, dear Sir
'Yours truly
'Edwd Hart
'Secretary

'W. McDonnell Esqre,
'Chairman of Special Water Committee,
'The Town Hall,
'Leicester'

On the above letter having been read -
the Committee at first deemed it desirable that
they should discuss the several Queries put by
the Company, & which accordingly were taken
up by them seriatim - With a view however
of bringing this Question to a speedy issue
the Committee, on reconsideration were unanimous
in adopting the following Resolution -

Authority for their own purposes
as I have stated in my letter of the 2nd inst.
the Company are prepared to meet the Sanitary
Authority on the basis of any or other of
these alternatives but it appears to them
that it is for the Committee to determine
on which they intend to proceed and that
a deputation from the Company could
afford them no assistance in doing so

The Company have already offered to
sell or lease their Works or to effect a supply
of water for any purposes which may be
required upon reasonable terms - They only
wish to know if they are to negotiate on the
footing of a sale or lease of their Works - or
and what is the nature of the supply
of water which they are asked to furnish
whether a general supply for the use of
the City domestic manufacturing and
otherwise or for sanitary purposes only
and whether in adopting either of the
alternatives the Sanitary Authority are
prepared to put their powers for supply of
water in force

I am dear Sir
Yours truly

When the Committee assembled Mr Taylor handed in the following report

"To the Water Committee of the Corp.n of Limerick

Gentlemen

Since our conference yesterday afternoon I have carefully considered the points which were referred to me on which the Committee wished for information in order to lead if possible to some arrangement with the Company for obtaining an improved supply of water

I wish as preliminary to record that my instructions from the Directors of the Water Company were to negociate with the Committee on the basis of a supply of water in bulk to the Corporation for all purposes this being what the Directors understood to be the meaning of the resolution of the Committee passed on the 13th Feby inst. Having read the Corp.n letter of the 10th Feby we desire to state in reply that we are prepared to treat for a supply of water for the whole City

The Committee having informed me that the supply of water in bulk was not the basis on which they proposed to treat if was

elicited after discussion that they were willing to negociate on any of the following bases viz.

1 The purchase of the Company's undertaking

2 The schedule of rates the Company would be prepared to charge on condition that the Corpn put in force their Compulsory powers to oblige every inhabitant to pay for a proper water supply

and 3 The works that the Company were prepared to carry out to give a proper and improved supply of water on coming to a satisfactory arrangement with the Corporation under the aforesaid second condition and the Cost of the said works

As regards the purchase of the Company's undertaking I was requested to communicate & confer with the Directors with a view of ascertaining the minimum price they would take but on reflection I saw that it would be useless my telegraphing for such information for the following reasons because there would not be time for the Secretary to convene a special Meeting of the Directors and also because I feel that even if there were time to do so the Directors would not decide such a question without a further Conference with me and that in any case they would not telegraph a specific reply - I have therefore considered it best on this head to report to the Directors the desire of the Committee which will no doubt be fully considered at the board Meeting on Friday the 15th inst when a reply will no doubt be forwarded

I beg here to remind the Committee that the Company have already made an offer to sell their works to the Corporation for the sum of £35.000 and that if such sum were not considered satisfactory that they the Company would agree to submit the question of price to be decided by arbitration

On the second condition I am unable to submit any definite Schedule of charges

It is true that the rates authorized by the Company's act are higher than rates now generally introduced into water acts but the Company do not charge on this schedule On the Contrary they charge rates which are ordinarily sanctioned by Parliament at present and which are generally as low as any rates charged for water at the present time

I would point out that in every case that I know of and they are numerous there is always a range of rate applicable to the range in house rentals. the higher rate being applied to the lower house rentals and the lower to the higher rentals and that in no case have I heard of an uniform Rental on all classes of property - The principle of rating

as above described is well established and is sound and reasonable

Whatever scale the Company may agree to charge on will therefore be on such basis and although I am not authorized to bind the Company in this matter I think they would not object to agree with the Corporation to a schedule based on their present Rates & Charges with such modifications as may be necessary to avoid anomalous differences in the same class of property

I may also state that I am confidently of opinion that if an arrangement is come to with the Corporation under this second basis that the Company will be glad and it will be their interest to supply water for sanitary purposes at as low a price as is charged by any Company similarly established.

As regards the works the Company bound carry out the to improve the supply of water I beg to repeat what I stated yesterday that the works I have recommended are already as nearly as possible on the lines laid down by Mr Corbett in his report to the Corporation dated 24th January 1862 viz

To improve the intake from the Shannon

To construct filter beds with all appliances necessary to the proper filtration of the water

To construct a high service Reservoir at or about the elevation mentioned in Mr Corbetts report and to put up steam power and lay new mains to supply the filtered water to such reservoir

To lay down a service main from such high service reservoir to supply the entire upper district

To separate the town into zones of supply and gradually to carry out a constant supply of water as the house fittings can be rendered proper for receiving such supply without incurring waste

As to the cost of carrying out these works I am unable for me at the present time to state the exact amount that it will be necessary to expend. The system as above generally described is such as would be adopted upon the best modern experience in making such works. I have already reported on & recommended these improvements to the Company (should a satisfactory arrangement be come to with the Corporation) as works that after very large experience gained in the Construction of similar works that would fully effect the object in view of providing a proper and efficient supply of water to Limerick

In conclusion I wish to point out that the basis the Company considered I came to negotiate upon viz for the sale of the whole of the water in bulk to be distributed by the Corporation and charged for by them by a rate upon the inhabitants although it appears doubtful whether there is a precedent for such an arrangement is not clearly contemplated under the 73rd section of the Public Health Act

(Ireland) of 1878 and that the reason why there is no precedent for such a course is probably because until the recent legislation referred to it would have been difficult for a Company legally to make such an arrangement with a sanitary authority

I beg to remain
Gentlemen
Your obedient Servant
Allen Taylor

Acting as Engineer to and on behalf of the Water Works Company

After the reading of the above report the Committee decided to put the following questions to the water Company to be brought before them by Mr Taylor at their next Meeting and which Mr Taylor stated should be in London on the 14th inst. The Committee also directed the Secy to send a Copy of the queries to the Secy of the Water Company — viz

1st That the water works Comp[any] submit a uniform scale of charges based on the valuation of each tenanted house within the limits of supply

2nd That a scale be submitted relating to public buildings Manufactories and Buildings in which no persons reside

3rd That the Comp[any] state the lowest selling price of their works as they are

4th That the Comp[any] quote a rate for sanitary purposes based on the Government Valuation of the Borough

5th That the Comp[any] submit their plans for improving & enlarging their works in order to afford the necessary supply

N.B. The above queries to be answered on the presumption that the Corporation put in force their powers under the Public Health Act (Ireland) 1878

and Resolved

Resolved -

That we approve of the Action proposed to be taken by the Corporation of Manchester in reference to the proposed legislation respecting the Supply of Electricity for lighting purposes as mentioned in its letter, bearing in recollection the powers proposed to be given to the Board of Trade by the Government Bill, and the apparent Contradiction between the 2nd & 3rd Sec. of that Bill, which would leave our City open to having any Co. or person Authorized to light it in opposition to this Corporation and thereby Endanger the repayment of our debt which is to be paid off thro' the profits to be made in lighting our City, and that we desire to have said Bill Amended in such Manner as will protect our interest and those of all other Corporations similarly situated. That we will approve of the Bill if an Amendment be made in it, to the effect that no provisional Order, should be granted by the Board of Trade to any Co. or person, unless the Local Authority neglect or refuse to avail itself of a Licence, which the Board of Trade should be bound to grant on application.

The following Address was adopted on the proposition of Ald. Cleary seconded by Ald. Walsh

To His Excellency The Right Honorable
John Poyntz Earl Spencer, K. G.
Lord Lieutenant General, and General Governor of Ireland

May it please Your Excellency
We the Mayor, Aldermen & Burgesses

of the City of Limerick, adopt this, the first meeting of our body after your acceptance of the Office of Lord Lieutenant, to express the sincere gratification we feel at your re-appointment as Viceroy, and to say how heartily we again welcome you to Ireland.

We hold in pleasing recollection Your Excellency's Conciliatory discharge of the high duties of your important Office when you were amongst us before; and you are especially remembered in Limerick which had the honor of your presence on an occasion of great Commercial importance to our City and Harbour.

We the more regret that the terrible Crime in the Phoenix Park should have been perpetrated at a time when the Country was rejoicing at Your Excellency's arrival, but which, we have the satisfaction of believing you are convinced, finds no sympathy amongst true Irishmen.

Whilst admitting that exceptional measures are necessary for the prevention of such Crime as that referred to, We desire, most respectfully to Convey to the Government, through Your Excellency, our protest against the Sweeping Character of the "Prevention of Crime (Ireland) Act" introduced into Parliament, and to urge that the whole Community shall not be made to suffer for the outrages Committed by a few.

as it would under the infliction of the extreme legislation which is now proposed.

In giving utterance to the hope that the time is not far distant, when the Irish people will have a larger share in the Management of their own affairs than they now enjoy. We wish also to thank the Government through Your Excellency for releasing our Parliamentary Representatives, and other prisoners, and we feel confident that You will soon be able to restore the remaining "Suspects" to their homes.

Once more, we welcome Your Excellency to our shores, and our greeting is the more heartfelt that you are accompanied by your gracious Lady, the Countess Spencer, who on former occasions won a place in the best feelings of the Irish people.

The General Members present with the City Surveyor visited Borrisnane in Company with Wm P. Riordan and Examined the proposed Bounds between Wm Riordan's Land – Old Borrisnane – and Borrisnane (New) the property of the Corporation

The Committee recommend the Bounds to be fixed at the foot of the Old Embankment leaving an offset of three (3) feet between the Old Bank and the French which is to form the Boundary – one half the width of the French being on Wm Riordan's property and half on the lands of New Borrisnane –

But before carrying on this work, the Committee suggest & recommend that the Council would purchase the Old Bank as far as the Old West French at the back of it. as Wm Riordan is willing to sell it to the Corporation – the Amount to be paid to be left to Arbitration –

That a proper boundary be made

Meeting of the Committee to whom the Council referred the notice of motion of P.C. Hosford for consideration & report

Read a letter from the Local Gov^t Board of the 18th May on the appointment of Mess^rs Barrett & Crotty as additional Sub Sanitary Officers and as to the apportionment of their Salaries

Read the reply thereto

Read a letter from the L^d Gov^t Board of the 18th June requesting information as to why the newly appointed officers were to be paid at higher salary than to those who had up to that date performed the duties

Read the resolution thereon by the Sanitary Board as follows – and we recommend that the Council increase the salaries of Mess^rs Mulqueen & Barrett to the same amount £52/- per annum each and that the Local Gov^t Board be informed that a notice of motion has been given in the Council to that effect

Correspondence all relevant for our report read

P.C. Hosfords notice of Motion read the Minute of Council of 16th inst appended hereto – and we have to report after ample consideration, in favor of increasing the salaries of Mess^rs Mulqueen & Barrett. whose duties (hardly performed) have been up to the present too extended and excessive – That the equalization of the salaries to the same amount as to those voted by the Council for Mess^rs Jones & Crotty is only just & reasonable that the salaries originally fixed were settled better than experimental and with the view to economise and that they were subsequently paid inadequately. We conclude after eliciting information as to the number of Sub S. Officers in Cork Belfast & Waterford their salaries the area under each officers supervision and the respective populations with all of which the proposed arrangement for Limk will bear favorable comparison by recommending the adoption by the Council of P.C. Hosfords notice of motion and that the salaries to be voted for Mess^rs Mulqueen & Barrett are not in excess for the duties they are bound to perform

On the proposition of P.C. O'Brien seconded unanimously the above has been confirmed And is to be sent to the Council

18th Jany 83

Dear Sir

I received your note late on yesterday asking permission for an Eminent Engineer from London to visit and inspect the Water Works Company's works on Friday and subsequent days. I regret you did not give me more timely notice of your requirement and also state the purpose for which the inspection is intended. Had you done so I would have written to London on the subject & am therefore compelled to refuse the required permission

The Mayor then fully explained to Mr Hill the Corporation's position and said that in seeking his services it was with the view of receiving from him an unbiassed opinion as well on the practicability and cost of Mr Hennessy's proposed scheme as also on the position & value of the Water Company's works.

Mr Connolly explained to the Committee & Mr Hill some of the principal points in the proposed new bill of the Water Company.

When Mr Hill replied that he would go fully into the entire matter and draw up a report which would embrace the subjects mentioned and submit it to the Corporation.

During the sitting of the Committee a letter was handed the Secy from the Water Company agent granting permission for the eminent Engineer to visit & inspect the Company's works on the part of the Corpn

I visited and inspected the following Establishments. on April 30th 1883

Mr. Thos N Bourke —

On Inspection found about 5 lb of Powder in 1/4 Tins, Contained in a box. Kept in a Small House at End of Garden, to rere of Mr Bourkes House - this Small House is used exclusively for Storage of Powder - Nothing else Kept in,

Wm T. D Bourke — William St —

On Inspection I found in back room on upper Storey of house, 2 Boxes - One Containing 10 lbs of Powder, in Canisters of 1/4 & 2 lbs. each, the 2nd. box Containing 25 lb. of powder in Tins of 5 lbs each. — The 2 Boxes are kept in this room -

The Misses Hickie — Robert Street —

In this Establishment I found a Small House, used for the purpose of a Magazine in the Yard at rere of the Concern, and detached from Same, about 9 lbs of Powder in Tin Canisters Containing 1 lb. each - and about 9 lbs of Powder in Tin Canisters Containing 1/2 lb. each - all Enclosed in box in the Small Magazine, & no other Commodity kept therein -

Mr Denis Leonard — William Street —

In this Concern I found in a room in upper Storey of a Store (at rere of the front Concerns) a Tin Box Secured by lock about 9 lb of Powder - Contained in Tin Canisters and flasks of 1/2 lb. and 1 lb. each - This is in Excess of the Quantity allowed to be kept in Store - For this Mr Leonard accounts by Stating - that having got an Order for Powder from parties he was Compelled to take out of Magazine 25 lbs, as he could not get a lesser Quantity - and the parties not having Called for the powder, the Excess in his Quantity has happened - he expects it will be reduced in a few days -

Mr George Morton — Patrick Street —

On Inspection I did not find any Powder in Shop - In back room, or Closet, Connected with house (1st floor) I found two boxes - One of which Contained about 20 lbs of Powder in Closed Tins of 1 lb. & 5 lbs each, The 2nd box Containing 25 lb of powder in 1 lb Tins, - The two boxes

were enclosed in a large tin case made for the purpose of keeping the powder –

Mr Thomas Whitaker — Allen Street. —

I found in shop a small tin magazine (secured by cover screwed thereon) 5 lb of Powder, stored in a locker by itself – and in the top loft, or garret of house, I found 2 Kegs, each containing a bag with about 10 lb of Powder in each bag – the loft is set apart for the keeping of the tinder, and is approached by a Ladder & a trap door, fastened by lock & which (Mr Whitaker says) no one has access but himself.

I hand in herewith the Fees payable by the several parties herein named – for the Registration of their premises –

Mr Gleeson - the Local Inspector attended and handed in the following report -
Explosives Act 1875

To the Explosive Committee
of the Corporation of Limerick

Report
of Thomas Gleeson - Local Inspector -

May 15th 1883 - On this day Lieutenant Colonel Ford R.E. attached to the Home Office London, and Her Majesty's Inspector of Explosives, called on me, for the purpose of visiting the Establishments in this City, of persons registered for keeping Gunpowder, and other Explosives -

not

The Misses Hickie - In these Concerns we found in the small House, or Magazine, built for the purpose of powder in Yard - 13½ lbs of Gunpowder in Tins of 1lb. & ½ lb. each. And in the Office at end of Shop we found 11 Kegs of Blasting Powder, Containing 25 lbs. each, making 275 lbs. - This quantity was 225 lbs. over what Could be kept there - Colonel Ford

Seized it, and wanted that I would remove it, I objected to do so, as I had not a place to put it, that I would not be allowed to remove it to the Town Hall - An understanding was given that the quantity seized would not be removed nor any portion of it sold, until the Matter would be investigated - Colonel Ford directed Summonses to be issued without delay, I told him that I would bring the Case before the Explosive Committee and get their instructions & the Law agent to prosecute

Wm. D. Bourke - Here we found in room in upper flour of House 25 lbs. of Gun Powder in 5 Tins of 5 lbs each - 8 lbs in Tins of 1 lb. each, and in an Open Keg about 15 lbs. This being an open package, was a breaking of bulk which could not be done - Colonel Ford seized this quantity and directed a Summons to be issued - It is now under Seizure, on understanding not to remove or sell it has been given -

Thomas Whitty - In his Shop we found about 3 lbs. of Gun Powder, in a Closed Tin Canister, and in the Garret of House we found two open Kegs - One Containing about 8 lbs. the other about 7 lbs. and a Small Tin Canister Containing about 1 lb. - These being what Colonel Ford Called open packages - and the breaking of bulk, were all seized by him, and are now under Seizure - as I had not a place to remove them to - In this Case also, Colonel Ford directed a Summons to be issued -

to Colonel Ford stated that if proceedings were not taken, he should have to proceed against the Corporation, as the Urban Sanitary Authority. Under these Circumstances the Committee will please instruct the Law Agent to proceed.

Thos Gleeson
Local Inspector.

May 21st 1883

The Committee order that Summonses issue as decided by Colonel Ford. Mr Connolly Law Agent to attend and Prosecute on behalf of the Corporation.

The Mayor to Communicate with the Authorities with a view of getting for the Several Vendors in the City greater facility for storing their Powder and other Explosives with Safety.

Report of Committee who visited the Asylum on the above named date

We enquired into the Cases of those admitted into the Lunatic Asylum Charged to the City of Limerick since our last visit, and were afforded every facility by Doctor Courtenay the Resident Medical Superintendent, to whom we tender our best thanks.

We objected to the Chargeability of Catherine Linsell — 10 days in Limerick & from Cradle Connell. Dr. Courtenay promised to make further enquiries into this Case.

We have again to Complain of the injustice of Charging to the Locality. Wandering Lunatics taken up by the Police — and also to that of Inmates from the Work House — Charged there to the Union or Electoral Division being Charged to the City — as the Work House is in the County.

We also suggest that our Representatives in Parliament be asked to have a Law of Chargeability passed for Lunatic Asylums similar to that of Work Houses — 3 — 4 years Residence — out of — in the District — all others to be Charged

Dear Sir

In reply to your enquiry as to the cost of lighting one of the large lamps, I beg to say that as I have not fixed a Meter on any of those at present in use, I could not give an exact estimate of the quantity of gas consumed. Speaking from information available for the purpose I should say the cost would be from £12 to £20 per year according to the size of the lamp. I consider the eight lamps in George St at present are burning on an average at least £16 worth of gas each. We are fixing a meter on the lamp ordered for the corner of Denmark St, and after a short period I will be able to give the Council the benefit of the information

I am dear Sir
Yours truly

The Council resolved itself into a Committee of the whole house to consider the reports from the Mayor and Law Adviser in reference to the taking over of the Water Company's Works. The reports already had for the Council were gone into. After considerable discussion the following resolutions were adopted as to the loan. Proposed by T.C. Hall seconded by T.C. O'Keeffe "that the paragraph in the Mayor's report in reference to the sum of £25,000 for 40 years at 4% be adopted." It was also proposed by T.C. Hall and seconded by T.C. O'Keeffe and resolved "that we request the Mayor and Law Agent to use their best endeavours to obtain a further loan of £5,000 for the same term of years, and at same rate as the £25,000 viz for 40 yrs at 4% per annum for the purpose of laying down new mains in the same streets where they are now at present, so as to enable the Council to at once give a further supply and increase of income necessary improvement as regards filtering & pressure"

T.C. Hall proposed a resolution that a Secretary be appointed and that the amounts received by the Collector be paid into the Treasurers office.
T.C. Bernal proposed and T.C. Hayles seconded the following amendment "that Mr. Wolfe be recommended by this Committee to be the Secretary and Treasurer of the Water rate giving adequate security." The Mayor put the question as to the amendment and declared it carried as T.C. Hall declined a poll and withdrew his resolution. A ballot was then taken for the election of five members to act as a Water Committee with the result that the following gentlemen were elected T.C. O'Mara T.C. Hall The Mayor (all Cornishmen) Ald Hayles T.C. Bernal. The Mayor and Mr. Corbett were authorised to advertise for 100 tons of steam coals. The reports as amended by T.C. Hall's resolution to borrow £5000 in addition to the £25,000 and T.C. Bernal's resolution appointing Mr. Wolfe were then ordered to be reported to the Council with said resolutions for their consideration.

Meeting of Water Committee
Nov. 29th 1883.

The Mayor presiding also present T.C. Cleary T.C. Riordan T.C. Boyd T.C. O'Mara Ald. Myles T.C. Bernal. Mr Corbett Mr. Connolly and Mr. O'Callaghan.

The Mayor stated he had an interview with Mr. Sankey for information as regards the working of the late Waterworks and his reply was, that he could give no information without getting permission from his Company but suggested that it would be advisable that the Corporation should take his services and the use of his office for carrying on the business on the lines which he adopted with the old Company. This offer was unanimously declined by the Committee.

Mr. Connolly telegraphed to the Secretary Mr. Hart for all necessary information. The Mayor was instructed to write also to Mr. Gregory for authority to get all information from the books of the late Company. Mr. Corbett mentioned that he had examined the lower portion of the Town Hall with a view to build offices and he considered they could be erected for about £60. Subsequently the site was inspected by the Committee and approved of. The day of meeting to be every second Thursday at 12 oc was agreed on.

Mr. O'Mara proposed and Mr. Boyd seconded

that the Council be recommended that this Committee may make any appointments necessary in connection with the working of the undertaking.

The Committee having carefully examined same declared the sum the Sum of £226. and recommended that a rate of one Shilling and Ninepence in £ be made viz 1/8 for ordinary expenditure and one penny for expenditure under the Public Health act on the rateable property of the City which amounting to the sum £6199.10 which will yield a sum of £5424. 5. 1½. Amount of Estimate adopted £5399. 7. 2½

Repayment of Loans

Respecting the item providing for the interest on the Mortgage loan of £500— portion of the sum borrowed for embanking the Slob Lands of Palmerstown and which the Committee struck out of the Estimate. The Treasurer stated that in the first place there was not money sufficient to the credit of the "Sinking Fund" to which this loan applied to pay off the amount— and in the second place that no order had been hitherto in anyway made to liquidate same

— As to the £700 Mortgage— The Interest on this was also provided to be provided for — inasmuch as at last Meeting of this Committee an order had been made for its redemption

It will be seen on reference to Committee report on the occasion referred to that the entire amount required to carry out the Committees order was not at the time in hands— as there was only a Sum of £670 just then available for that purpose

The Mayor read the following report of the Committee that met on 7th inst and walked the Bank which was adopted

Your Committee accompanied by W.C. Joynt Esq Solicitor to the War Department in Ireland and W.C. Corbett Esq City Surveyor walked the Island Bank on Friday last the 7th inst under very great disadvantages from Thomond Bridge to Clontarf to Park Bridge, and they regret to report that the Island Bank is literally speaking not only in a neglected but in a very deplorable Condition at present owing to the state of the ground it is almost impossible to keep on ones feet, and in Certain places we found to our astonishment that the river facing of the Embankment had been broken down and the Embankment itself eaten away so as to threaten (if not at once repaired) an inundation on the Island of the Shannon water. The Whole of the pavement of the Bank is in the worst possible Condition

Mr Joynt suggests that the Mint Office is prepared to see to the proper repairing of the river facing of the Embankment, and Your Committee submitted to him that it would be well owing to the anomalous position for a long time past of the Island to the War Department who claimed the usage of the Walk and the heritage of the Bank City that the War Department would undertake in the interests of the Citizens and the Corporation the outlay of such a sum of money as would place the Walk in proper Order

Your Committee advise that a resolution to this effect should be adopted and a representation made through Mr Joynt to the War Department. Your Committee have also to report that the obstructions at the Thomond Bridge side and the Park Bridge side of the Embankment have been levelled by the City Surveyor acting under the directions of the Council & recommend that suitable passages (with Iron Rails &c) be made at both Ends of the Embankment & Walk &c

Your Committee have pleasure in reporting that there is no doubt or question whatsoever but that same is wholly vested in the Corporation for the Recreation of the Citizens and with proper repairs &c it could be made one of the most Salubrious beautiful and healthful walks in the World. Your Committee would further report

that the nuisance [illegible] near the Park Bridge side of the Embankment should be abated and that the Island itself appears to be in extreme want of drainage

Town do at once proceed to London with a view of having the question of the Extra Police Tax brought before Parliament and that they be authorised to take such other steps as they may deem advisable to relieve the Citizens from the unjust exaction

It was then proposed by P.C. Power seconded by P.C. Kelly ~~the proposal~~ and adopted as follows

That the desirability of having the Munster Fairs held in the Markets to be brought before the County Grand Jury and that the Statement adopted to-day be printed and placed before them and that Alderman Counihan Mr. Kelly & P.C. Boyd do attend as a deputation to wait on the Grand Jury of the County

TO THE COUNTY LIMERICK GRAND JURY.

SUMMER ASSIZES, 1884.

TOWN HALL, LIMERICK, *7th July*, 1884.

The Corporation in placing before the County Grand Jury, the proposition in favor of holding the Great Munster Fairs within the compass of the Markets, do so, first, on the grounds, that it would be advantageous to the Markets in the existence and success of which the residents of the County, as well as the City, are concerned; secondly, because it would be of great benefit to the Fairs; and thirdly, on account of the general convenience it would be to all classes to have them held in so convenient a place.

The Corporation regret to state, that for some years the revenue of the Markets has been declining through causes over which they have no control, such as changes in tillage, the competition of other places, &c. The Markets are liable, in large amounts to Bondholders and the Corporation, and we believe that holding the Fairs within their boundaries will so increase their revenue, as to largely assist them in meeting these obligations, whilst at the same time it will place the Fairs' Commissioners also, in a better financial position.

On the question of accommodation, the Corporation believe there is ample space for the Fairs in the Markets—the grounds comprehending 13 acres, whilst the Green altogether contains only 20 acres, more than half of which is scarcely ever used. Besides, the Markets contain facilities for the entrances and exits of stock, for their classification, shelter from the weather, and other advantages which could not be had at the Green, unless at great expense. There are loose boxes for horses, long ranges of sheding for cattle, &c., which can be had without one penny outlay to the management of the Fairs. There are also the important facilities which the railway gives, by which cattle and horses from a distance can be taken into the Markets without leaving the waggons. There is no reason, we submit, why the public should be asked to go a distance of over a mile from each railway station, and from the City, to attend the Fair, often under drenching rain; and to a situation where they have sometimes to stand in or tramp through seas of mud, when they have the ample accommodation, to which we refer, within a stone's throw of their hotels and clubs, without any of these disagreeable accompaniments, and with advantages of the description we have named.

The Grand Jury are aware, too, that the Fairs have not been a financial success, and we believe a great deal owing to their being held as they are, and to the absence of that active interest in their management which a permanent board would take.

The Commissioners owe a debt of about £7,000 to various Bondholders, on which they pay 5 per cent., and for which the County is liable, the Fairs failing to supply the funds. For many years the Fairs have not met their liabilities, and for the past six years the Grand Jury have had to pay an average of £177 10s. 0d. to make up for the yearly deficit. Additional Fairs have recently been established to ascertain if any improvements could be made, but we understand the experiment has not been a success. If the Fairs are held in the Markets, the land they now occupy can be let or sold, and from its situation and quality it should realize a very large portion of the £7,000 due. The deficit, whatever it may be, can be secured by mortgage, or otherwise, on the revenue of the Fairs; but at the same time we desire to say, that under improved management, our opinion is, there will not only be no deficit, but a large balance.

The Fairs being managed by a public board, meeting at regular intervals, would be constantly coming before the public in one way or another—they would be properly advertised, and the attention given them they never received, and could not get, the constitution of their present control being what it is. Steps would be taken to have the traffic fully carried on within the precincts of the Fair, instead of throughout the City, as it very generally is now; jumping trials for hunters, rings for the judging of other horses, stands for the display of agricultural implements could all be easily provided, and the fairs, in immediate contiguity of the Borough, as they would be, made of such general interest and service, that they should attract larger attendances than they do now.

With reference to the Board of Management for the Fairs, we believe there could not be a more suitable one than the Markets' Trustees. It embraces all interests—County and City, and they are entirely familiar with what is required. A separate Committee could be formed to manage the Fair, their reports to be submitted to the general board for approval.

How this arrangement could be carried out it is for some legal authority to direct, should it be adopted.

We urge for the sake of all the interests involved, that you should favorably consider the proposition, and give us your co-operation in having it adopted.

Signed on behalf of the Corporation,

M. LENIHAN, MAYOR.

A. C. WALLACE, TOWN CLERK.

To Sanitary Inspector

Sir

We beg to call your
attention to the State of the
Slaughter House at the Lane
at the rear of our premises.

It appears to us a most un-
reasonable thing that in the
midst of a populous and
respectable neighbourhood
a thing so detrimental to
public health should be
allowed to remain - We have
many times during the past 15 yrs
kept it under the notice of
No 2 Committee in Common
with the other residents but we
could never get any redress

Perhaps you would not
as Sanitary Inspector kindly take
the matter in hands and in the case of
a possible visitation of cholera
the Council may be induced to see
the danger caused by what is a
real nuisance to all those living
in the Neighbourhood

All are equally interested for
purposes of health and cleanly
and foul and bad smells are not
any assistance to either

Yours respectfully

Athenaeum Committee
Meeting held September 3rd 1884

Present

The Mayor in the Chair
T.C. Bryan Donnell T.C. & M. Sweeny

The Chairman (the Mayor) read the following report which was adopted on the proposition of Town Councillor O'Donnell seconded by M. Sweeny

Report of Committee of Athenaeum Committee read and adopted at Meeting held Sept 3rd 1884 —

The Limerick Athenaeum was at one period the property of the St Michaels Parish Commissioners who built it for purposes connected with their trust Wherein they had board rooms and suitable offices for the transaction of business of boards and also to house for the custody of such offenders as were taken up by the night watch the watch being then under the control of the Commissioners. The Commissioners of St Michaels Parish held a lease of the ground on which they erected the buildings now occupied by the Athenaeum at a ground rent of £20 (Irish Money) —

This was the state of affairs up to the year 1853 or until the act to transfer St Michaels Parish to the Corporation was passed which changed so far the constitution of the Municipal Government of the City. The Corporation took up the property of the Commissioners including the Athenaeum which was established as such at a Public Meeting on the 4th of 1853 for the purpose of affording "all classes of the population of the City of Limerick facilities for moral, scientific artistic and intellectual improvement" It was not however until 1856 that rules were adopted for the regulation of the Limerick Athenaeum — Subscriptions were collected contributed by the citizens for the purpose of making the building suitable in all respects for carrying out the objects in view, and by the 4th Rule which with the other rules were passed at a special Meeting held on the 3rd of January 1856 it was resolved "that the association shall consist of Members and associates to be admitted by the Council of the Athenaeum on being proposed and seconded and approved by a majority of the Council present when such Members or Associates are proposed and seconded — That the Members shall have been contributors to the Building Fund or shall be donors of £1- By the Eighth" "rule it was resolved "That the property of the associa" "shall be long exclusively to the Members & they shall have the sole right of voting at all Meetings and the Association according to the following scale viz

Donors of £20.0.0 Three votes
" " £10.0.0 Two vote
" " £1.0.0 One vote

The Seventh rule Constituted Samuel Alexander George Nethsop and William Fitzgerald as long as they shall be re-elected (annually) to that office at the general meeting of the Members and any general meeting may substitute trustees for any one or more of those then existing and may appoint successors in case of death or resignation of any trustee — By the 8th rule Standing general meeting of the association shall be held on the second day in the Month of January in each year as may be appointed by the Council to receive the Report of the Council with the Statement of the accounts to appoint two auditors to examine the accounts of the year to elect a Council and to transact the ordinary business of the association — By the 9th rule it was provided "that a special general meeting should "be called whenever they deem it desirable or by the Secretary on receiving a requisition signed by 10 Members stating the day for Meeting & the subjects to be considered

Rule the X^th^ Men to be marked attention it is to this effect it is as follows "That the association shall be governed by a Council consisting of 7 persons elected by Ballot at the general meeting of the association in January the Mayor and 3 Members of the Council appointed by the Town Council and two Members appointed by each of the affiliated societies

The XI rule gives the power to appoint from their own members all offices to frame bye laws which shall be submitted to a general meeting for approval and to carry on the ordinary business of the association By Rule XII rule it is laid down that the Council so constituted shall have the power to affiliate with the association the Lyme Agricultural Club or any Society which is now or shall be hereafter established with kindred objects subject to the terms of the Bye laws of the Lyme School of Art the Lyme and the Lyme Hayrnonic Literary & Scientific Society have been already affiliated — The XIII rule gives the Council shall have power to elect Lecturers Readers &c for any objects not inconsistent with the objects and principles of the association on such terms as they may fix from time to time "The 16th rule" "enacts that the Society shall make no" "Dividend Gift, or Bonus work or between any" "of its Members" Your Committee provide that these rules and regulations were signed by Stephen Hastings Esq^re^ Mr Rivers W L Jellett V.P. Mayor and Charles Dawson Secretary & Richd Miller and no doubt have acted upon but how long or with what results your Committee

are unable to declare. It is true that for a series of years there have been Lectures Concerts Theatricals &c held in the Athenaeum. It is equally true that the President or Master of the School of Art has received for a considerable time past the sum of £20 per annum for the use of part of the building fronting Cecil Street which may be considered to the School of Art with ability and success.

During the Mayoralty of [illegible] (Mr Wm [illegible]) mistakenly suggested the gift of Books by Mr Beyers of Paris for a "Free Library for Lemuel" was placed in one of the rooms of the Athenaeum in suitable cases, but there never having been a free Library connected with the Athenaeum the books remain in the Cases unused.

A very admirable Organ has been put up in the great Hall by the same gentleman but your Committee are unaware that the Cost of this magnificent instrument has been defrayed in part or altogether by the proceeds of your Lectures Concerts &c.

Your Committee now advise that steps be taken to enquire into the present position and probable future of the Athenaeum. They believe that from what they can ascertain that there is no active observance of the rules by which the Athenaeum should be governed. Your Committee report that the original trustees one of whom was Mayor of Lemuel are dead and not having before them the Memorandum Books of the Association they are unaware of who if any were appointed in succession. Your Committee believe that the Corporation has not expressed its rights regarding the property of the Citizens in the Athenaeum or their identification with it proceedings in accordance with rule 1. Your Committee consider that the time has come to look carefully after these matters and to take possession of the Building and use it with due regard to existing if any interests in such manner as they deem most fitting pending the erection of the premises of the Town Hall & that as the rent of the Athenaeum is more ornamental business of the City can be transacted there on the erection of the Town Hall, a building that can be made suitable in all respects as well by the extensive space it occupies of 100 feet in length & 40 feet in breadth as of its fitness by reason of its Central position.

The minutes of last meeting were read signed and the following answer to the Lord Lieutenants letter of the 3rd inst - was adopted by the Committee -

Town Clerks office,
Limerick September 15th 1884

To Sir R.J.C. Hamilton
Under Secretary
The Castle, Dublin.

Sir, I am directed by the Town Council of Limerick to acknowledge the receipt of your letter of the 3rd inst. in reference to the "Extra Police Tax". The Town Council beg to enclose for His Excellency's perusal the Statement of the views entertained by them on the question and also a Copy of an Affidavit made by me and referred to in the Statement

A recent debate in Parliament shewed the payment by this country of £30,000 for Extra Police Expenditure which should have been defrayed by the "Imperial Exchequer and the Mayo Tyo" Government has no intention to remedy this grievance. Why not remedy the gross injustice attempted to be perpetrated on the City of Limerick in a like manner

and by so doing the complaint of unfairness to the "Imperial Exchequer" as mentioned in your letter will be at once obviated.

If the country has been paying £30,000 annually for many years in its own wrong the "Imperial Exchequer" ought in all fairness be made recoup the over payment.

I accept His Excellency's suggestion and a deputation to discuss the matter would in the opinion of the Town Council be a waste of time as well as a tacit admission that the Extra Police were in some shape necessary for the peace of the City - and to this latter proposition the law-abiding citizens of Limerick will never assent as the well known facts of the case completely refute such an assumption. The Council therefore necessarily feel to the conclusion that a personal interview with His Excellency may only tend to further embitter the controversy.

Under these circumstances the Council whilst anxiously desiring the removal of this long continued cause of irritation and excitement - yet in the discharge of the duty they owe their Constituents and the general interests of Municipalities in Ireland cannot alter the determined position they have taken; they would however respectfully appeal to His Excellency's sense of fair-play to deal with the case on its merits - and withdraw a claim founded upon oppression, illegality and injustice

I have the honor to be

To Sir R.G.C. Hamilton, Under Secretary
The Castle Dublin

Sir, I am directed by the Town Council to acknowledge the receipt of your letter of the 22nd September and

and to request you will convey to His Excellency that although the Town Council are most desirous to settle the matter of the Extra Police Tax they cannot - having regard to the interest of the Citizens and of the justice of their case accept the terms proposed.

The Council desire to point out that as a considerable portion of this tax is not admittedly unsustainable, if the whole matter is properly and fully investigated at a local inquiry, it would be established by the most reliable evidence that the whole amount is equally unsustainable.

The Town Council therefore respectfully request that His Excellency would appoint a Commission to hold a public inquiry in Limerick and give the Corporation and Citizens an opportunity of proving conclusively the statements heretofore laid before His Excellency

I remain Sir
Your obedient Servt
Edwd. C. Wallace
Town Clerk

The following resolution was Proposed by Ald Considine but not having been seconded fell through.

Resolved That this Council while strongly protesting against the injustice done to Limerick in the imposition of this Extra

Extra Police Tax, and against the injury inflicted on the citizens by the course generally adopted in this matter recommend the Council to accede to the demand in the Lord Lieutenant's last letter, and that a Committee be appointed to confer with His Excellency on the latter subject. Present) The Mayor presiding
Ald Wrights Ald Walker Ald Connolly
L.C. Lynam H. Riordan T. Nolan L.C.
J. O'Flanagan L.C. R. McDonnell
D.C. Power

This Special Committee was appointed by resolution of the Council dated 2nd Oct on the proposition of L.C. Town seconded by L.C. McDonnell to consider the present position of the Markets so far as they affect the Corporation

The Committee adopted the following report —

Your Committee find that the Trustees are indebted to the Council in the large sum of £5365-18-7 and that the debt is annually increasing by the non-payment in full of the sum of £1400 per annum as fixed by the Limerick Markets act 1872. They find that this default is seriously embarrassing the Borough Fund to which should derive its chief revenue from the Markets, that just and legitimate claims cannot be discharged and the City's honor and credit are pledged by this state of affairs. Your Committee regret to find that the Markets are not managed with that economy and wise administration which their present critical position requires their revenues are falling off from causes which are likely to continue such as the serious decrease in tillage in this district and from the present unnecessary and to particularize

Your Committee respectfully suggest that the Council urge the Board of Markets Trustees to carry out the following reforms to enable them to obtain an engagement to this Corporation

1 — To discontinue the superfluous Office of Treasurer at the present salary of £100 per annum to appoint an honorary officer at a nominal Salary or to nominate the Inspector

2 — To discontinue paying rent for the present Boardroom and make use of the Committee room at Town Hall

3 — To dispose of part of the Cornmarket frontage to Michael Casey & Mulgrew Street and remove the Pig Market into the space at present occupied

4– To dispose of the Potatoe Market and remove the sale of roots to the Genral Market–

5– To Collect rent from the Tenements occupied by the employees and to reduce any Salaries that in the depressed Condition of the Markets may be deemed to be too large

6– To Call a Meeting of Mortgagees so as to Lay the present State of Affairs before them with a View to their accepting a decreased rate of interest so as to help to tide over the present difficulties & prevent the Markets being flooded in Chancery which would be pretty to the disadvantage of the Mortgagees

Should this report be adopted by the Council Your Committee would recommend that two representatives on the Board of Market Trustees be selected to propose and second in the Shape of Resolutions the Reforms we have pointed out and that the other Representatives be called upon to be present and vote for the Resolutions and that a Copy of this Resolution be forwarded to the Secretary of the Market Trustees to be laid before the Board at its next Meeting
