Rev. Mr. Dickson waited upon the Committee in reference to the boundary wall of the road near Little St. Andrew's which was thrown down by the flood several months ago; and Mr. Dickson stated that this wall with the Road and archway in the locality was wanted by him for Sewer Purposes. He contended for it - although these works cost him over Eighty Pounds, and Mr. Dickson stated that Mr. Dickson claimed that the Wall should be repaired at the expense of the Corporation, as a Public work. The subject was referred to the City Surveyor for his report.

Special Meeting of Committee convened to investigate the circumstances of a Railway committed in Mr. Bradshaw's house

Gloucester St.

Present J. C. Percell Esq. in the chair
The Mayor in the chair.
The Report Book of the Inspector of the Works was referred to, by which it

appeared that Tierney's permanent Watchman was in charge of the beat in which Mr. Bradshaw's house is situated on the night of the last day. (Thursday 16th Dec)

Tierney's house was called in and examined & stated that he had examined the house during the night of the 16th four times, and found it quite secure, and that the entrance of the thieves must have occurred before he went to the beat.

On investigating the case the Committee can find no evidence sufficient to send back the Watchman for night

The Committee would refer to the names of unoccupied houses to be kept more careful account for their safety.

Mr. Evans application respecting Vaucluse piers so. referred to Mr. Corbett City Surveyor for his report & consent.

The City Surveyor's Report for repairs in request in same was considered and recommended for adoption by Council.

The Engineer of the Limerick & New Railway having notified to the City Surveyor that the Company were about to substitute a tunnel for the level crossing at Park, the City Surveyor suggested it would be desirable that the Committee, therefore named for the purpose, should meet the

same in order to report to the Council at the next meeting.

The City Surveyor reported the formation of an Metropolitan in the footway in Newmarket St and that he had called the proprietors and other persons. The Surveyor was directed to issue the formal notice and proceed to abate the nuisance.

The Proprietors of the nuisance called attention to the necessity of repairing No. 3 Watering Cart and of painting the whole, at an expense of probably seven pounds; which was recommended to the Council.

Resolved together with the eligibility of a meeting for contact for horse hire for the Watering Cart for the year.

his Report to Council.

A Complaint of James Walsh the driver of the

man injured, against James Barrington, 28th Dec

Watchman, for striking her brother Thomas

Roche with his pole by which his horse
was killed, broken or severely injured,
was investigated.

Persons of this having been given by
James Roche.

James Roche stated same.

The Watchman Blanchey stated that on

Wednesday 18th at about 10 o'clock he

saw a man running away from a crowd

in pursuit, he went before the crowd to stop

them from injuring the man, this stopped the

crowd; but the man returned and was vio-

lently rushing back to the bridge, and the

Watchman began to stop him. He stood him

on the side of the road, and that then in his

defense he (the Watchman) put up the pole to

defend himself, the man fell, but he positively

declared he did not strike the man.

Mr. Keay stated that the man (Roche)

was brought into the Watch House complaining

of injury, and that it was ascertained the pole

of his horse was broken.

In such a serious case, and where such contra-

dictory statements be made, the Committee drew

it out that the whole circumstances should be

investigated before the Bench of Magistrates at

City Sessions.

The Inspector of Water brought forward a complaint against P. Bailliegan of 21 Waterman's, for being intoxicated and incapable of doing duty on Sunday 3rd Instant in Dublin in the morning. That as the Inspector then suspended him, the complaint having been investigated, the Committee decided on recommending that he be well further suspended until the 3rd day's being one month suspension from the date of the offence.

The City Surveyor is directed to provide the repair of the footway and the construction of same near the South Circular.

The Mayor is requested to bring before the Bench, the inconvenience that arises from the great delay to the enlargement of occasional footways to be done from the West Ward, and that in order to do so, the Inspector be directed to go before the Bench, on Friday next. W. R. H. J. G.

 a sewer in Bow Lane for the sum of £1200
 pounds, and which tender was accepted by
 the Corporation in Council, came before the
 Committee at date, that he was paid, (in
 making his calculation) by an arrangement in
 one of the Limerick Newspapers, which put down
 the length of the sewer at 130 feet, whereas it
 really was 150 feet; and that he therefore
 hoped to be allowed for the extra 20 feet which
 he inadvertently omitted to calculate, being so
 the unpaid. His application is submitted
 to the Council, with the recommendation of the
 Committee to grant it.

The complaint of Mr. Prosser, against Watchman, for interference with the lamps lighted, was investigated, and it was stated by John Carthy lamp-lighter, that on the night of the 5th Inst. having orders to do so, he proceeded to put out the lamps the night being bright moonlight, and having got to the beat of John Sands. Mr. J. Watchman, he was hindered and prevented by Sands; which John's lamp lighters also stated, that Sands prevented him from putting out the lamps on his beat, he stated also that at this time the moon was clouded, but that the clouds passed away before he got to his home. Sands admitted having prevented the lamp-lighter, but stated he did so because the light was not bright, and he feared for his own safety, and the safety of the neighbourhood of the lamps were extinguished.

It was decided that Sands should be severely reprimanded, and fined two shillings, for his opposition to, and destruction of the orders conveyed to him from Mr. Mills.

before the Committee to answer the charge of the Inspector against him for obstructing himself at the pump house from the Water Works, and obstructing the Clocking process, but sending same by his Wife and Messrs Thomas and Edward W. B. Walsh was manifestly to conceal his state.

He was having two confessions, one was severely reprehended, cautioned, and fined four shillings.

Mr. Clancy reported the results of the trial of the Hydrant of the Water Works who was not satisfactory; the pressure being such as to throw the Water to the height of the roof of houses, with an insupportable force and effluence.

The Committee being of opinion that it would be desirable to have this power available in every district of the City (where practicable) recommended the Council to apply to the Water Works to be authorized the right of putting up additional Hydrants to effect this object, and to ascertain also what arrangement the W. W. Co. intend to make in reference to the Fire Pumps.

Mr. Clancy is directed to call upon Mr. Ryan for the stated book orders, and to be kept under charge of the Corporation.

Meeting contd

The Lubbocks (four) no direct answer was given for an advance of wages was read and the Committee report to Council that they were in such a dear season as the present, might be put up to the 1st April.

The state of the land at the race of George II was represented, and when proposed to have it swept every morning.

The subject of Bath's Wash Works referred to the Committee by Council was considered. Dr Thomas Westropp being in attendance to explain his views and the views of the Medical Profession on the matter. Mr John Barry J.C. who has always evinced so much zeal and activity to forward the establishment of Bath's Wash Works, also attended.

The further considerations of the question was postponed to next meeting of this Committee, for further data, and a plan for establishing the scheme upon a Capital subscribed under the limited liability Act.

A complaint of Mr Hunt Inspector against Commissioner Water House keeper for lapsing of duty in the Wash House that night was read, and a vote was given for the attendance of the Committee at next meeting, so that the matter may be fully investigated.

The repairs and improvement of Charles St. referred by Council were submitted to the City Surveyor for his Report to be submitted.

Complaint against David Slattery esq 22
Permanent Watchman, (Beat. Collooney
St.) for having been found sitting on a
door step instead of patrolling (contrary
to Rules & Regulations) Investigated.

Slattery was cautioned to be more
careful in future.

Doctor Westropp accompanied by Doctor
Gore. attended the Committee, and laid before
it a plan and Estimate for the erection of
Public Baths and Wash Houses, the Capital
to be raised and the Establishment conducted
under the Joint Stock Companies Act (limited)

The Committee consider such a project
to be highly important to the public safety of
the City, and they recommend the Council
to promote it by every means legitimately within
their power, the sanction of such a Public
Body being most desirable.
