Subject and Order made thereon.

Report from Mr. J. J. Farrell dated 24.8.27
 forwarded three samples of new milk and six
 of Ice Cream for analysis.

I received the result of nine samples of new milk
 three of which and one each of Salted Cream
 and Juice Curd and Cinnamon Curd.
 Two of the milk samples were captured of their jobs
 the others were pure.

Under Act, three usual inspectors, James to cause
 to Complaint

Cable Street, - Inspected the fresh milk fish etc
 and found no cause for Complaint

Markets, - Visited the Market at Gort and Egg

Market and found the different articles
 of food sound and fit for human use
 I received information that a man imprisoned
 me at the Market by examining eggs and
 demanding money under threat of prosecution

The man was Thomas Cuddy, Wolfe Lane St
 I reported the matter to the City Guards

Salop Ice Cream, - According to a letter received
 by Mr. Cooper on 6 Aug 1926 from Public

Health Dept Dublin and letter from Mr. Dundon
 Law agent dated 21 July 1926 it appears that

the Corporation have powers under Sec 132 of the
 Public Health Act 1878 and Sec 28 of the Public

Health Act 1890 to control the manufacture of
 Ice Cream and the suitability of premises

in addition under the Street Trading Act 1926
 Ice Cream vendors have a Street Trading

Certificate and one of their bye laws provides
 that Street Cleaners in the part of the street

be observed as regards urinals and the protection
 of the Ice Cream from dirt. No Street Trading Act

Subject and Order made thereon

has not as yet been in force by the Corporation
Order That the Council report any
unlawful premises in which Ice Cream
is manufactured.

Application dated 10 Aug 1927 from
Mr. John Gough in removal of nuisance
for the Coliseum as a Cinema Station
has to have all the requirements of the
Committee carried out except the ventilation
of lavatory and as this would entail
breaking out and adjoining property
permission for which would not be given
he was unable to carry out the work
order License to be granted

Report from Mr. J. J. O'Connell 23 Aug 1927.
Visited the Coliseum, the Abbey
and the News Centre Cinema as
on night of 18th inst and found them
overcrowded. Prosecution has been issued
in each case. I also wish to report
that the Abbey and the Athenaeum
are still carrying on without a license
A prosecution has been issued in each
case

I am pleased to report that there is further cause for complaint in the respect but I would urge the Corporation to impress on the L.S.D. the necessity of making bye laws that would enable the local authorities to institute proceedings against farmers & vendors exposing dairy milk for sale. At present the regulations governing the promoters under the Dairies Canteens & Innsshops Order are more or less antiquated and the sooner they are amended the better it will be from a public health point of view for the Citizen Public Health.

I inspected the Fresh meat Jock etc and found no cause for complaint

Report from Mr Forest dated 7 March 1928
forwarded forty nine samples of new milk
for analysis

Received the result of forty three samples
of new milk. Four were found to be adulterated
with water as follows 9.4, 10.6, 6.47, and 6.47
The three were approved of these facts 10.7%, 6.79%, 6.79%,
18.30% and 76.79%. The general result of the
analysis is as follows, -

4	were found to be not
17	" " " under average
9	" " " adulterated
9	" " " poor
2	" " " Average
43	" " " above average

The above result proves that in the quarter

The following business also came before the meeting, from the Minutes of the ~~Committee~~ ^{Committee} ~~and after the~~ ^{meeting} ~~meeting~~.

Subject and Order made thereon.

Referring to foregoing letter and inquiring the present position regarding the question of the adoption by the Corporation of a suitable scheme for promoting the Welfare of the Blind. Reply - The formulation of Scheme deferred owing to the Council being unable to provide money for it in the current year's estimate.

School Meals Scheme

Referring to the entry in Minutes of the Limerick Corporation on the 16. Inst., on the subject of the School Meals Scheme, - stating that the payment of a lump sum to the Authorities of the Schools in the manner proposed by the Corporation is open to objection, adding that the usual and more preferable practice is to have claims for the provision of the materials for the School Meals to the amount of the Contribution proposed to be made by the Corporation for payment by the School Meals Committee after endorsement by the School Authorities as to correctness, - repeating that the Committee suggested in the Minister's letter of 3rd Instant may be constituted and pointing out that arrangements can be made by the said Committee for obtaining tenders for the supply of the various articles of food required for the school meals and that this method of procuring the food will result in substantial economies, and in this connection it should be noted that cereals in this country on a standard specification could be obtained from the official Contractors under the Central Purchasing system at a price of £2 per half cut, delivered at nearest Railway Station. Order - Referred to School Meals Committee.

P.H. 1998/28 H.
7/4/1928
Referring to previous correspondence relative to the School Meals Grant and requesting to be furnished in Form D.2. with particulars of the Anticipated Expenditure on the School Meals Scheme during the half year ending 30 Sep 1928, and stating that if not already in existence a Committee should be constituted for the purpose of administering the School Meals Scheme composed of representatives of the Council and of the Managers of the Schools concerned, with the addition of other persons interested in the work. Attention is drawn to the desirability of contracts being entered into for the supplies needed in connection with the Scheme. The adoption of that system will enable the limited funds available to be utilised to the best advantage and the standard of meals provided to be improved.

Order - Referred to School Meals Committee.

Continued from opposite page. Report from Mr. Forest 18/4/1928 —
13/4/28. — Prosecuted P. Beery and P. Stinson trading as the "Limerick Milk Co." for selling me three samples of new milk on various dates which on analysis were found to be deprived of 5.7% - 7.3% and 7.7% of their fats. The defence

The Report as to the Inspection of Common Lodging Houses was read, as follows:—
the following orders were made thereon:—

of the Company was that in taking samples from bottles some portion of the fats found its way into one particular bottle leaving the other two portions with a lower quantity; in order to take a proper sample the milk which is pasteurized should undergo a heating process. The District Justice ordered the Milk remaining in samples to be sent to the State Laboratory and adjourned the case for three weeks.

The Report of the Inspection of Dairies, Cowsheds and Milkshops was read as follows:—
the following orders were made thereon:—

On 14/4/28 when on duty in O'Connell Avenue, I noticed two cows being driven from Mr. McKeown's; they were very emaciated and I was informed by the driver that they were the property of Mr. M. Ryan, St. Gerard St. I had them examined by Dr. McKeown, M.S.O.M. in presence of Mr. Ryan, who stated that they were old cows which he intended sending to his farm at Colonsmacken, it was not his intention to slaughter them for sale in the city. The doctor cautioned him to be careful about the meat he would expose for consumption in his stalls.

The following business also came before the meeting. of 24/5/1928.

Subject and Order made thereon.

Report from Mr. Forest dated 18/4/1928 forwarded 9 samples of milk for analysis. Received result of analysis of 12 samples of new milk, two of which were deprived of their fats 10% and 7.7%. I ordered a summary in each case.

Presented the following persons for selling adulterated new milk, viz:—

23/3/28. Margaret Smith, Mary St. New Milk deprived of 18.3% of its fats. Fines £7. each 7s.

" Thomas Conway, Carnane. New Milk adulterated 10.6% of water. Fines £4. Costs 20s.

" Michael Hopkin, Ballymoreass. New Milk adulterated 9.4% of water. Fines £3. Costs 20s.

13/4/28 James Strangan, Mungret, New Milk deprived of 10% of its fats. Deceased without costs

" James Murphy, 29 Mellis Street, New Milk adulterated 6.47% of water. Deceased with costs.

" James Conway Muffin Street. New Milk adulterated 6.47% of water. Deceased with costs.

In these three cases the defence was that they sold the milk as they received it. The suppliers were also in Court and made a similar statement, they supplied the milk as it came from the cart. In the James Case the percentage of fats (10%) was too low to warrant a prosecution.

24 36964/1928 (11) In reference to the appointment of a Sanitary Officer to point out that the previous correspondence proceeds on the basis of the employment of a part time Sanitary Officer the remanance of whose time would also be employed in the Public Service. The present occasion affords an opportunity of instituting a School Inoculation Scheme in Limerick which is obligatory on the Corporation. The Sanitary Officer created to the extent of 50% of the approved cost in the same way as the proposed Inoculation Scheme and the cost of the rates will thus be diminished.

The following Sub Committee was selected & given a School Inoculation Scheme and also to draw up Scheme for treatment of Tuberculosis Scheme for School Inoculation for children and for the Welfare of the Blind a meeting & later held at 8 P.M. on Tuesday 31st inst

 5 Oct. 1928

Subject and Order made thereon :-

It is stated that the Director concurs with the proposals of the Corporation for increase and varying appointments for carrying out arrangements for the treatment of tuberculars and for School Medical Services with the following qualifications:-

1. The possession of the D.P.H. should be included among the qualifications of the Medical Officer
2. Nurses should not be called upon to discharge Secretarial duties. Separate provision should be made for clerical services.
3. Each nurse should undertake the combined functions of tuberculars, Nurse and School nurse in an area of the Corporation to be assigned to her so as to avoid overlapping institutions
4. The remuneration of the Nurses should be placed on a graded scale £150 by £5 to £200 per annum. It is suggested that the Medical Officer be appointed and the Medical Officer at once so that these schemes may be started

It is required what progress has been made in regard to the contemplated arrangements for the provision of School Health

The Executive Sanitary Officer states that by order of the Sub Committee he has written to each of the School Managers on 20 Sept 1928 requesting them to state if they would give assistance in carrying the works but got no reply there. Referred to sub Committee

Report from Mr. Forest, dated 31-10-1928.
Forwarded for analysis, 6 Samples of Butter, 3 of Cream and 3 of Cheese.

Received from Mr. Grimes, Esq., M. Sc., Ph.D., Dairy Science Department, University College, Cork, dated 27-10-1928, stating that a microscopical examination is not satisfactory for the detection of mycobacterium tuberculosis in milk and suggesting that a better way of controlling the Milk supply would be to have a veterinary examination of the herds whose milk supply is used in the City. The Limerick Corporation might ask the Minister for Local Government and Public Health to introduce legislation based on the the "Report of the Inter-Departmental Committee to advise as to the cleanliness and wholesomeness of the Milk Supply" and ask for power to pass a bye-law that no milk be allowed to be sold for human consumption in the City unless the Cows have been subjected to veterinary inspection and found to be free from tuberculosis and that they be subject to veterinary inspection twice a year.

Order — That representations on the lines suggested by Professor Grimes be made to the Minister and that the Professor be thanked for his letter.

Letter dated 16/3/29 from Edmund O'Connor Mountain View Barrington Limerick forwarded by Mr Mota for Local Government drawing attention to the unsatisfactory condition of his house. Stating there was no lavatory, the kitchen chimney is only built to the ridge so that smoke goes out door instead of up chimney. Workshop has been made in upper portion of house where three carpenters work there is hammering all day when his wife was sick. Two workmen' hands close by work in their stables and allow the smoke to run past his door.

Mr Frost who inspected the premises stated that he was informed by the owner. Mr Pollock that Jacob's possession was taken of this house before it was finished. A W.C. is to be provided the chimney shaft was to build. The Carpenter are now finished and the nuisance from stables was to abate.

 Forwarded nine samples of raw meat for analysis
 Received the result of analysis of six samples of
 butter forwarded on 4th inst. two of which
 were adulterated with an excessive amount of
 water and two contained Borneo compound used
 as a preservative. I raised four summonses
 against the parties concerned. The sample
 was sold under notice. I therefore could not
 issue proceedings in that case.

I attended court on Friday 18th inst and as presiding
 Samuel Boyle Casey for new meat adulterated with
 adulteration of 5.34% of fat. The case was dismissed
 without prejudice. In the original case against
 Sgt. Carter when the third portion of sample was sent
 to the State Analyst, the case was dismissed and
 four guinea costs allowed against the Corporation.
 I inspected the first meat. Fat etc. analysed
 for salts throughout the City but found no cause
 for complaint.

It was ordered that an explanation be demanded
 from the Analyst Mr. Hogan as to how he analysed
 the meat taken from Sgt. Carter as adulterated
 when on the certificate of the late analyst Mr. Moran
 and as that of the State Analyst it was unadulterated.

Letter dated 8 Oct 1929 from Mr Davidson Esq.
Stating that Mr Stone acted as Public Analyst for
the City & District but the Minister required proof
of his competence. It was ascertained that he did not
have the great facilities required so that the Council could
no longer retain his services. Any person is free
to employ Mr Stone and call him an expert witness
and it is absurd to suggest that as Solicitor for the Council
I should object to his evidence being taken by the District
Judge if for no other reason than that I have frequently
prosecuted and conducted juries in his Court cases.
The case was decided not in Mr Stone's favour
but in that of the State Analyst, of the same sample of
meat.

Stating that the Tuberculosis Officer should be notified of the discovery of tuberculous amongst Dutch cows with a view to an examination of members of households although milk obtained from the suspected animals, also evidence of the occurrence of surgical tuberculosis, believed to be of bovine origin should be communicated to the Veterinary Staff for the purpose of the detection of disease in cows belonging to the family affected or from which there may be a supply of disease.

The name and address of the owner of any cow which is slaughtered

a. under the provisions of the Bovine Tuberculosis Order 1926 or

b. in pursuance of Sec 18 of the Tuberculosis (Prevention) (Ireland) Act 1908

should be supplied to the Tuberculosis Officer.

It is also desirable to secure the co-operation of the District Officers of Health in bringing to the notice of the Tuberculosis Officer all cases of Pulmonary and non-Pulmonary Tuberculosis which come under their observation and measures for that purpose might be organised by the District Officer of Health in consultation with the Sanitary Order. That these suggestions be carried out.

To state that in the recent Food and Drugs presentation the Court adopted the procedure indicated under Sec 22 of the Sale of Food and Drugs Act 1875 as amended by Sec 21 of the Act of 1899. Apart from the qualifications prescribed for a public analyst there is no standard of proficiency affecting technical evidence offered by the defendant in a Food & Drug presentation the question whether the evidence of an expert witness is admissible or not is a matter for decision by the Court.

To state that it is noted from the returns received from Dr. Henry Hospital Dublin that a sum of £47,100 was paid in respect of the cost of maintenance in that Institution of cases of Venereal Disease from Limerick to Brough during the year ended 30 Sept last. To point out that if an approved Scheme for the treatment of that disease were in operation in the Co. Borough 75% of the amount would be repayable from the State Grant. As the services of Dr. Moran may be obtainable for carrying out the duties of District Officer in charge of the Scheme the adoption of suitable arrangements would involve practically no charge in the rates being that 75% of a proportion of Dr. Moran's salary and of any expenditure incurred out of the Scheme such as the amount above mentioned would be repayable from the State Grant.
