The Report of the Inspector of Dairies, Cowsheds, and Milkshops was read as follows, and the following Orders were made thereon

Since last meeting I have made a general inspection of all the Milkshops in the City and cannot find anything that would justify me to make any but a favourable report regarding same. The Dairy Yards are well attended to and I found them covered in every case. The Shops in some cases are irregular but they cannot be otherwise from the amount of Commodities which are exposed for sale in them. Everything under my charge is in good order I am please to report

Report from Dr Kennedy S.O. on condition of tenement houses in Hazlett Alley 18th Oct. 1911

No 3 Hazlett Alley. Ground floor is occupied by John Saunders, the kitchen of which is occupied by Joseph Dillon and family. He keeps one pig under the stairs. There is no sty in the yard which is a small one about 12'x9'6" & has concrete surface drain, the gulley trap has no grate.

No 4 a tenement house occupied by four families the kitchens are occupied by Thomas Shannon and family. He keeps six pigs in the yard about 15'x12'. The pig sty runs the full length of the yard and is only about 5'8" from the bedroom window, there is also a portion of yard 8'x7' in which there is also a sty. The yard is flagged and concreted. It has drain and gully trap.

No 5 tenement house occupied by four families the kitchens are occupied by John Cowan and family. Two pigs are kept in yard 17'0"x6'6" by Mrs Benson who resides at 19 Ellen St. The sty is only about 1'3" from bedroom window yard flagged & concreted, has drain and gulley trap.

Proposed by Councillor O'Brien
Seconded by " Cantrell

That the pigs be removed from these houses

An amendment was proposed by
Councillor Griffin & Seconded by
" Slattery

That the pigs be removed from No 3 where the sty is under the stairs but that they be allowed to keep pigs in the yards of Nos 4 & 5 provided the yards are kept clean

The amendment was carried by 11 to 3

Subject and Order made thereon

Letter dated Aug 23rd 1911 from Mrs Dundon Sec referred to Improvement Committee & the Public Health Committee

In reference to Open Spaces the Corporation cannot compel the owners of these open spaces in the Englishtown & elsewhere to build on them but they can be compelled to wall them in if these spaces are a nuisance and in a state dangerous to health. The Corporation can also acquire these open spaces for recreation grounds under the Open Spaces Acts.

Order That proceedings be taken to have these open spaces walled in.

Letter dated 11 Oct 1911 from T. V. Fogerty Esq Inspector of Meats Royal stating that on the night of 21st & 22nd Sept last the pit contained thirty less than the Corporation have allowed him to put in it. Since the Meats was built the public have been accustomed to stand in the passage at the back of the pit instead of testing meats. He would put up a railing across the passage if it would be sanctioned by the Committee as he wished to meet the Committee in every possible manner

Order That erection of railing be not sanctioned

The Surveyor submitted two designs for Urinal in Mt Carl at one of Tenacolla the other brick and local limestone and suggested the adoption of Tenacolla as it would be as cheap and a much nicer job

The following communications from the Local Government Board were read

Letter No. Dated	Subject and Order made thereon
62024 1911 28 Nov. 1911	To forward a communication they received from Mr William Ryan complaining of the insanitary condition of his premises at 23 Upper Gerald Griffin St and requesting to be furnished with the observations of the Council thereon. The letter from Mr Ryan called attention to the state of the house yard and w.c and stated that the Corporation and Sanitary Officers have it in hands for the last two years and though two doctors Dr Grath and Graham inspected and reported time after time & Mr Peacocke be never troubled to come and look after it. The Landlady and Mr Kennedy are old friends so he would go against her. The yard is in a most terrible condition wet and dirty and during the hot weather the smell is awful. The landlady was taken to the Police court over it two years ago and got two months & set it right but it is as near being done now as then. The w.c can't be used by anyone and the back door threatens to fall every time it is touched The Executive Sanitary Officer stated that a notice was served on the owner of this house on 28:9:11 to clean and repair the yard and put w.c into a sanitary condition. This was reported by the S.S. Officer as having been done on 18:10:11. SSO Kennedy stated that the first proceedings in reference to the premises had to be abandoned as the number of the house was wrongly given on the notice, it was a large cobble yarded yard and was kept in a dirty state by the tenant who had recently been in law with the Landlady Was Referred to Mr Peacocke to deal with the matter

The following communications from the Local Government Board were read:

Letter No. Dated	Subject and Order made thereon
62834 - 1911 7 Dec. 1911	Forwarding an extract from the report of their Medical Inspector Sir A. Mac Cullagh relating to the sanitary condition of Limerick and stating that it devolved upon the Sanitary Authority to take prompt action for the abatement of the nuisances referred to in the report. In the extract from the report it was stated that S.S.O Kennelly appears to inspect his District carefully, S.S.O Quinlan does fairly well but he should make more reports. S.S.O Frost did not attend the inspection, it was stated he was ill. His books were sent for, but they were not given. S.S.O Kennelly made 126 reports during the past twelve months. S.S.O Quinlan 58 S.S.O Frost unknown. Pigs are allowed to be kept in unsuitable places in the City. The Executive officers have given up reporting on this subject. In some places the houses are not kept clean, yards are dirty. Their surfaces are bad and in many instances devoid of drainage. Tenement houses are very bad and dirty. A large number of sanitary conveniences have been provided for the dwelling houses but the W.Cs are frequently not attended to. Pigs are kept in unsuitable yards and places. Night Soil is thrown out on the streets as the pails supplied are often not removed when worn out. The Connections to the sewers are in many cases faulty, traps are defective. Bye Laws are in force in reference to Building, Nuisances, Keeping of animals &c. They are not always enforced however by the Sanitary Authority. Order. That special vigilance be exercised and the Suggestions contained in the report be attended to with all possible despatch.

Report dated 10 January 1912 from Veterinary Inspector E. J. O'Riordan

I beg to report to you that I have used the Tuberculin test on one of Police Horse's cows since my last report. I found that the beast did not react to the test as the slightest degree and consequently am of opinion that the beast is healthy and her meat may be exposed for Sale. The other beast I had three times under observation once and each time her temperature being so high I could not apply the test. I have come to the conclusion that the beast was tuberculous. The owner has given her away since and she was destroyed she being of no value as regards the rest of the cows they are all healthy and the cowsheds are kept considerably better than before

Letter dated 9 May 1912 from Mr Duncan Sol. stating in reference to Mr Whittakers letter stating that Sec 25 of the Public Health Act 1878 does not enable us to deal with this case. We cannot enable Mr Whittaker to construct a sewer through the private property of Mr Ambrose Hall. Under Sec 18 of said Act the Sanitary Authority is entitled after giving reasonable notice to the owner to make a sewer through Mr Halls land but Mr Hall will be entitled to some compensation therefor

Read, it was reported that Mr Whittaker had come to terms with Mr Hall

Letter dated 9 May 1912 from Mr Duncan Sol in reference to St Michaels Graveyard stating that as he understood the Soil and freehold of this grave yard is vested in the Corporation, they will be entitled under the Open Spaces Act 1887 to lay out this open space as a place for exercise and recreation and accordingly the Corporation should take the necessary proceedings as in Section 3 of said Act paragraphs A. B and C viz.

(a) A Statement shall be prepared sufficiently describing by the name and date appearing thereon the tombstones and monuments standing or being in the ground and such other particulars as may be necessary

(b) Such Statement shall be deposited with the Clerk of the Board of Works and shall be open to inspection by all persons

(c) An advertisement of the intention to remove or change the position of such tombstones and monuments shall be inserted three times at least in some newspaper circulating in the neighbourhood of the burial ground

Letter No. Dated	Subject and Order made thereon
85. M. 1912 24 June 1912	To state that the Board have approved of the application from the Womens National Health Association for a grant for providing Sanatoria for the use of insured persons and others after the National Insurance Act comes into operation and until the Councils of the Counties and County Boroughs in Ireland have made the necessary permanent provision for the treatment of Tuberculosis which will enable them to receive from the Insurance Committees the per capita contributions in respect of insured persons within their areas. Such temporary measures should not interfere with the County Councils in the completion of their own Schemes as it is of the greatest importance that arrangements for the treatment of Tuberculosis upon a permanent basis should be instituted with the least possible delay. The Board will take care when making the final distribution of the Fund to allocate the grants to local authorities and voluntary associations in such a way that each County area shall receive its due share on the basis of population and other special considerations which may have to be taken into account Ordd To be marked, Read

Letter dated 31 May 1912 from the Secretary Limerick County Council stating that it was proposed at the County Council Meeting that Limerick County Borough and the Counties Clare Kerry Tipperary North Riding and Limerick should amalgamate for the purpose of erecting a Sanatorium for persons suffering from Tuberculosis capable of containing say 150 beds and requesting to be informed if this action would be approved by the County Borough Council.

It was proposed by Alderman O'Donovan
Seconded by Dillon
and passed unanimously
"That this Sub Committee seek an interview "with the Committee of the County Council in order "to confer with them as to the advisability of "establishing a Sanatorium for persons suffering "from Tuberculosis and if the Sanatorium be "approved of to consider the site on which it "was proposed that it be erected"

The Executive Sanitary Officer stated that he had communicated this decision to the Secretary of the County Council on 15 June 1912 but got no reply.

Letter No. Dated	Subject and Order made thereon
9147. 1912 2 July 1912	Transmitting model designs for dispensary buildings plan A. estimated to cost £600 and plan B. £900 This estimate would be well within the limits of the distribution of the Sanatorium Grant which the Board have recommended for adoption and would still leave a substantial margin to be expended for the provision of Sanatoria either in conjunction with other Counals or independently. The Dispensary should be under the control of a Medical Superintendent who should be appointed without delay so that his advice may be available for the guidance of the Council in dealing with the various details which will arise in establishing a dispensary system. The Board trust that the Council will recognise the responsibility which devolves upon them in respect of providing for the treatment of persons suffering from Tuberculosis and that without waiting for the completion of other details of their scheme each Council will make immediate arrangements for the establishment of a Tuberculosis Dispensary System Read

The Report of the Inspector of Dairies, Cowsheds, and Milkshops. was read as follows, and the following Orders were made thereon:

I have made a daily inspection of almost all the milk vessels Conveying milk to the City Creameries, markets and other public institutions for the past fortnight and cannot find anything that would justify me to make but a favourable report. I found in many cases I am compelled to take up milk cloths as they appear unsightly but that is from the constant rubbing of the milk cans. The milk is brought into the City in a much cleaner condition than heretofore. I visited five milk shops they were clean but are selling other commodities besides milk. Read

On 19 Sept 1912 I paid an official visit under the Shop Hours Act and found the premises of Henry Daly 1 Bedford Row open at the hour of 1:30 p.m. an assistant was engaged shaving when I entered The excuse Mr Daly gave was that he would not close until he received an order from the Council to do so. On 26 Sept 1912 I found Henry Daly 1 Bedford Row engaged shaving a customer at 1:35 p.m. Mr Daly asked me if the rest of the Barbers and Hairdressers in the City were complying with the law. I said after cautioning him they all closed their premises. As far as the weekly half holiday is concerned in Limerick there appears to be no cause for complaint, those premises which I had a necessity to caution in the beginning are now complying with the law
I visited several fresh meat stalls during the week and found no cause for complaint Councillor Mc. O'Brien reported to me about the Carcass of a dead cow being brought into the City at a late hour and that the Council made an order that the City night Constables report anything of a suspicious character for the future to me. The following Business also came before the Meeting:

Subject and Order made thereon

Report from Dr Forrest dated 5 March 1913

Forwarded 24 Samples of new milk for analysis
Prosecuted Thomas Quilligan 83 Mary st for selling butter containing 21.83 % of added water. Defendant had a card hanging up in the shop explaining that the butter contained from 16 to 24 % of water. The case was dismissed. Prosecuted Peter Quilligan 33 Broad st for selling butter containing 20.80 % of moisture. Fined 10/- + costs. Prosecuted Mary Kate Sullivan 3 Nicholas st for selling butter milk containing 11 % of added water exclusive of 7.5 % allowed for churning purposes. Fined 2/6 and costs
On 20th and 21st February I paid special visits under the Shop Hours Act and found no Cause for complaint. Visited several City Butchers stalls and found no cause for complaint

Read.

Letter dated 5th March 1913 from Rev Mary Ross Cennycuill stating that she had been summoned to provide Sanitary arrangements for houses in Cennycuill, and an order had been made by the Magistrates to have the work complied with within three months. The time has now expired and she wished to inform the Committee that for the past six years she has been left a widow with a young helpless family of six children. The only means of support being the income derived from three one storied houses which amounts when they are let to 18/- per week. Out of this sum she has to pay £10:10:0 per year ground rent rates + taxes and keep the houses in repair. This leaves 4/- per week to support herself and helpless young family. Therefore she was utterly unable to carry out the order and if it be insisted on she and her helpless young children would be driven into the workhouse

Subject and Order made thereon

The two houses are so situated that water closets are not required as there is no soil or refuse of any description whatever deposited from them in the Street but is deposited in the back or the garden attached. Under these circumstances she prayed the Committee to have the Order against her Cancelled

Order. That the matter be adjourned for twelve months.

Report dated 28 Feb 1913 from Messrs Prendergast & Halpin & Roche St to state that in accordance with instructions received in reference to the defective Sewers in Roche St and Verge St he visited them and found a number of holes in masonry work which were broken in from time to time in the making of pipe connections. These holes are not visible in the areas I also met with a number of rat holes in the areas leading from the direction of Sewer, at Mrs Conways there is a large sewer from the main cutting in the two Street traps, I would recommend that this be built up and pipes laid in its place. I tested pipe sewer leading to Mrs Conways house with smoke test and found a leakage in front area. I would respectfully recommend a couple of ventilating shafts in Roche St one say at 6' 0" areas and the other at the corner of Patterns St, by pulling those here the existing ventilators in Roche St would act as inlets instead of outlets, as they are at present they only act as outlets which causes a smell in the vicinity

Order. Referred to Surveyor, who stated that he had all the side walls of the Sewers made good in brick and cement.

renovated and I intend in the Spring of next year to carry out extensive repairs such as re roofing &c and so make the houses comfortable and suitable for the working classes. I shall therefore feel obliged if you will kindly bring before the Public Health Committee this matter and ask them if they will allow summons to be adjourned as called until say March or April of next year so that all can be done together. I give my personal undertaking that the necessary works will be carried out as I have stated

Order, Referred to Members of the Ward.

Letter dated 7 March 1913 from Aug H Wagner 36 College Green Dublin re Nos 2 to 6 Arthurs Rows Leahy Owners Estate & Inc Corporation With reference to Sanitary Notices served herein I have now obtained estimates for the work required by you in connection with the W.C's and I find the cost will amount to between £45 and £49 The weekly rents of these houses is 9/8 and after paying Rates and Taxes there is very little left If therefore I have these improvements carried out it would result in a loss to the Estate which as Receiver I am bound to point out to the Examiner I am inclined to think that the only course open to me is to oust the tenants out and close the houses if you insist upon this outlay and I shall be glad to know if this meets with your approval

Order. To be adjourned for twelve months but at the expiration of this period W.C.s must be provided.

Subject and Order made thereon

The Surveyor submitted estimate from Messrs Leonard & Co for Ventilating shafts 25 feet high 7" dia weight 12½ cwts which he suggested might be erected in connection with the Rivers St Sewer. He stated that he had caused a tide flap to be put over the outlet of the sewer into the River to prevent the breeze blowing up and forcing sewer gas into the houses Price of shafts £17.6 each

Order. That the consideration of the vent shafts be adjourned until tide flaps is fixed.

stating that they again wished to bring under his notice the Sewerage of O'Connell St in front of their premises. The smell has lately increased with the result that at certain periods of the day their houses are rendered practically uninhabitable. The health of the occupiers of their houses is consequently greatly endangered and their trade is suffering. Your engineer has examined into the matter and admits the nuisance but it still continues. They are unwilling to take legal proceedings against the Corporation but unless something is done at once to abate the dangerous nuisance which they believe is caused by the defective sewer in front of their premises they shall have no option but to take proceedings against the Council. The Medical Officer has also inspected one of the houses and has admitted that it is unsafe to live in the house. The matter is urgent and they shall feel obliged for an undertaking to abate the nuisance without delay
Order. That a sub Committee consisting of the Mayor and the Members of the Shannon Ward inspect the sewer on Monday at 12 noon.

Application from the San. Sub Officers for the usual uniform and boots
Order. Granted and uniform to be also procured for the High Constable Forrest.

It was proposed by Councillor O'Brien that the Bye Law re the Keeping of Swine be enforced, no seconder
Proposed by C. Fitzgibbon and by Ald McNeice that the SS Officers visit Watergate and other places where Swine are kept and report of any nuisance exists, Carried unanimously

The Meeting adjourned to 30 day of April 1913

Report from E J & Riordan Veterinary Inspector 30th April 1913
In reply to the letter from the Executive Sanitary Officer I beg to state that since my appointment as Vet Inspector I have endeavoured by every means in my power, only short of prosecutions to induce the people of Bark

to comply with the regulations. Whilst not up to the Standard required by the Department of Agriculture there has been in that time a decided improvement in the quality and health of the Cattle and in general cleanliness At the present time which is the end of the milking Season these people devote all their energies to spring work on their holdings and to getting the Cattle into a fat condition for immediate sale. At this period usually from the end of March to the April Quarter Sessions they pay less attention to the conditions in which the Cattle are kept than during the full milking season. This must to some extent account for the condition in which your Medical Officer of Health found Bark on his recent visit. No milk will be supplied by these Bark people from May 1st to 30 Sept and I respectfully suggest that a Small Committee of your Council be appointed to visit Bark with me in the meantime and insist that these people carry out the regulations. I believe this method would have the desired effect

Order. That the Veterinary Inspector report on the condition of each Cowshed in Bark and state what improvements are required or what matters need attention so that the owners can be notified to have them carried out.

Letter dated 8th April 1913 from Messrs Creaney and Walpole stating that in reference to the charge for examining and testing the main sewers in Rocke st and O'Connell st Mr Creaney examined these two sewers on two different occasions and went into the manhole in Rocke st and examined as far as the corner of Cecil st and pointed out all the defects he found there. He also examined the areas in O'Connell st and Rocke st and pointed out to the owners any faults he discovered. He also paid a visit to Mrs Conways

Rocke st with Mr Pearson and was instructed to examine and test the drains in Mr Alberts O'Connell st This was also done and a report given. Mr Creaney also visited and inspected the areas and Shed traps in the night He also applied the smoke test to the drain at Mrs Conways and this necessitated two men being engaged, one man down in the sewer to work the smoke machine and the other in Mrs Conways area to watch for signs of leakage This job also required the Personal supervision of the gentlemen considering the dirty nature of the work and the danger attached to it we think that you may see from these particulars that the cost of the charge being high it is very reasonable

Ordd. The Sum £5 to be paid

Ordered. That J. Ryan Veterinary Inspector be directed to send in monthly reports as to the duties carried out by him for the Council.

That Mr Duncan Law agent be instructed to apply for Solicitors Costs in all prosecutions carried out by him for the Committee

Report from Dr Forest 23 July 1913
I procured 20 Samples new milk, 5 Buttermilk for analysis since last Meeting
Received analysis of 6 Samples of butter, 22 new milk 5 of buttermilk all were pure

Said officer visits under Shop Hours Act on 10th and 17th July and found no cause for complaint

On Friday 18th inst when inspecting the meat in the slaughter houses throughout the City I found an emaciated live cow with an evil looking sore on its head close to the jaw bone in the Slaughter house of Mr Michael Healy Augustinian Lane. On informing Mr Healys Assistant that I considered the animal unfit for human food he remarked that Dr J Ryan V.S. Tuberculosis Inspector via Animals generally sent animals suffering from this disease to be Slaughtered there previous to being destroyed. Considering his answer more or less doubtful I brought the matter under the notice of Dr Devane acting for Dr Mc Grath In the meantime I ordered the Assistant not to Slaughter the animal until it was inspected by the Doctor. When we arrived the Assistant had the animal slaughtered and produced a letter from Dr Ryan V.S. stating that the animal was healthy Dr Devane then inspected the Carcase and considered it fit for human food

The following communications from the Local Government Board were read:

Letter No. Dated	Subject and Order made thereon
36922: 1913 30 July 1913	To state that they regret no action was taken in regard to the question of making provision for tuberculous inhabitants of the Co Borough. Participation in the Sanatorium grant is dependent on the Corporation formulating a satisfactory Scheme for the treatment of Tuberculosis The share allocated to the Co Borough from the first instalment of the Grant £ 20000 amounts to £ 1050 odd which sum would be available for Capital Expenditure on such matters as the provision of Sanatorium accommodation and of a Tuberculous Dispensary. There will be an annual income of about £660 towards the expenses of working the Scheme if the Insurance Committee hand over to the Corporation the sum of one and three pence for each insured person in consideration of the provision of treatment for tuberculous cases recommended by the Committee. Thereon the Treasury have undertaken in the case of such agreements to become liable for half the net annual maintenance charges of the Corporation Scheme leaving the other half only to be defrayed from the local rates. The Board therefore trust that the Corporation will take immediate steps to formulate a Suitable Scheme and suggest that the Co Council be approached in regard to the question of making combined arrangements for the treatment of Tuberculosis Order. Referred to Tuberculosis Committee with instruction to draw up and submit a Scheme.
40179: 1913 30th July 1913	To state that if any proceedings is taken under the Order of the Dept. of Agriculture under Diseases of Animals Act the matter would seem to be one for the Veterinary Surgeon appointed under that Act. If on the other hand the Local Authority wish to proceed under the Board's General Powers Order of 1908 the Board would suggest that Order should take action Read

Letter No. Dated	Subject and Order made thereon
63966/1913 17 Oct. 1913	To acknowledge letter from the Town Clerk of the 15th inst relative to the Scheme adopted by the Corporation of Limerick for the treatment of Tuberculosis in the Co Borough and to state that the Board have approved of the Salary of £400 a year for the Medical Superintendent of the Tuberculosis Dispensary which it is proposed to establish and of the Salary of £100 a year for the Nurse attached to the Dispensary. The Board desired to add that the Corporation would do well to address the Co. Borough Insurance Committee with a view to obtaining their approval of the Scheme Read.
25685: 1913 24 Oct. 1913	In reference to the order made by the Committee on the 15th inst approving of a plan of new houses proposed to be erected by Mr Patrick McNamara at Sir Harry Hall which the Surveyor & the Corporation reports is in contravention of the requirements of the bye laws respecting the construction of new buildings in the County Borough, & found that the Corporation have no power to dispense with the requirements of these bye laws. If it has been found that the provisions of the Bye laws are too restrictive and that they can be modified without injury to health, the Board will be prepared to consider any representation which the Corporation may desire to make with a view to such modification Seeing that it may lead the Corporation into serious difficulties if plans are allowed to pass which are at variance with the bye laws. Order. That a recommendation be made to the Board that this is an exceptional case

When inspecting the butchers stalls and slaughter houses on Friday 6th February I noticed a quantity of meat in the Slaughter house of Michael Healy Augustinian Lane which appeared to me to be unsound. I brought it under the notice of Dr McGrath who examined it and found no appearance of any disease. I noted title on future occasions to be accompanied by one of the Sanitary Sub Officers when making such inspections as it seems probable that Mr Healy made preparation for Dr McGrath's visit in my absence by cutting away the diseased portions

The following communications from the Local Government Board were read:

Letter No. Dated	Subject and Order made thereon
49.M.1914 Misc. 11 March 1914	The Local Government Board for Ireland have had under consideration the Final Report of the Vice Regal Commission appointed to inquire into the Milk Supply of Ireland and the Board are pleased to observe the Commissioners references to the improvements which have taken place in regard to the production and distribution of the milk supply since the issue of the Dairies Cowsheds and Milkshops (Ireland) Order of 1908. The Board observe that the most frequent defects arise from the accumulation of manure in close proximity to the cowsheds, badly constructed floors, defective drainage, dirty and ill-kept walls, the want of cleanliness in those employed in milking and want of attention to the grooming of dairy cattle. The effective administration of the Order depends primarily on the Officers appointed to enforce it and the Board have to request that the attention of the Veterinary Inspectors may be drawn to Article 4 of the Sanitary (Veterinary Inspectors) Order 1909 and that they may be instructed to make frequent and detailed inspection of the cowsheds and dairies in their district and furnish full reports where they find that the terms of the Dairies Cowsheds and Milkshops Order are not being complied with. Ordd. That the Veterinary Inspectors be given instructions as suggested.

The Monthly Report of the Medical Superintendent Officer of Health was read, and the following Orders were made thereon:

That the Members of the Castle Ward with the Surveyor inspect and report on Convey's Row

The Report as to the inspection of Common Lodging Houses was read as follows, and the following Orders were made thereon:

The Report of the Inspector of Dairies, Cowsheds, and Milkshops, was read as follows, and the following Orders were made thereon:

4/3/14. Since last Meeting inspected all the Milkshops in the City when I found in good cleanly order. In some cases I found the Milkshops very irregular but owing to the prevailing bad weather and the different Commodities sold they cannot be otherwise. I made a daily inspection of the milk vessels conveying milk from Nos 1 & 2 Districts & I am glad they are well attended to

17/3/14 I visited 32 Milkshops since last Meeting and found the milk vessels thoroughly clean and covered. I make a daily inspection of the milk vessels conveying milk into the City and cannot find anything that would justify me to make any but a favourable report regarding same

Reports from Mr Jones

4/3/14. I forwarded six Samples of butter and six samples of buttermilk for analysis. Received analysis of twenty samples of new milk all were pure. On 19th Feb. I paid an official inspection under the Shop Hours Act and found no cause for complaint. On 26th Feb I paid an official inspection under the Shop Hours Act and found no cause for complaint. I inspected the meat exposed for Sale in several of the City Butchers stalls and visited the Fowl and Egg Market Mungret St and found no cause for complaint I weighed the bread in each of the City Bakeries and found the four lb loaf of fine its weight 4 lbs 6½ oz an increase of one farthing on the previous month.

18/3/14. Forwarded 12 Samples of bread for analysis. Received analysis of 19 Samples of new milk all were pure

On 5th March I paid an official inspection under the Shop Hours Act and found the establishment of Thomas Wallace 12 Rutland St open as one forty five. I also found an Assistant named Gabriel Keating at business in the Shop. I served letter to know whether the Committee would be for ordering a Summons in this case. On Thursday 12th March I paid an official inspection under the Shop Hours Act acting on a complaint received through the Carmen's and Storemens Society regarding the employment of assistants at Messrs J & B Boyd's Store William St on the occasion of the weekly half holiday and who I was informed were working after the closing time appointed by the Act I paid a special visit to the premises on Thursday 12th at seventeen minutes after one and found that all the assistants had left with the exception of a few who were about to leave when I entered. I noticed one Assistant inside the Shop Counter handing out a parcel to a servant of Mr J & B Boyd's William St which I was informed was ordered before one o'clock and which she was entitled to call for. I then

visited a room at the back of the premises where I found five men whom I questioned regarding their employment which I submit

Christopher Walsh — Biscuit packer
Jas Clery — "
Daniel O'Brien — Seed dept
John Swan — "
William Weir — Grocery Dept

On informing them that under the Shop Hours Act they were supposed to leave the premises after half past one o'clock. They pleaded the number of Stretchers on the floor and pleaded that they regarded it as their home. If the Committee so wish I will bring this matter before the Law Adviser for his opinion.

I visited all the fresh meat & fish shops and found no cause for complaint

Order. Law Agents opinion to be taken by Mr Ferrett.

Report dated 4th March 1914 from S.S.O. Kennelly that on Thursday 19th Febr. on visiting the Athenaeum he found the gallery very much overcrowded. The door at back of the pit locked persons standing in the passage. He also found the main entrance closed. He knocked several times and got no answer. He then went to the female entrance and was told by the Caretaker Mr Delahunty that he could not come in and the door was shut on him

Report dated 4th March 1914 from SSO Frost that he visited the Athenaeum on the 27 and 28 February and found several people standing at back of pit and in passage of gallery also some boys

on banister rail also a dangerous practice

Ord. That these reports be brought under the notice of the Proprietor and he be informed that legal proceedings will be taken if the place is again found to be overcrowded

Letter dated 4th March 1914, from Rev. J. A. O'Connor President Limerick Vigilance Committee stating that complaints were received regarding the tone of a Film displayed at a local Picture Hall during last week and it was made pretty plain that it is not the first time that this particular Picture Hall has offended in this respect against good taste and decency. The Committee are of opinion that if the Corporation has any power in the matter they should get a guarantee that pictures morally objectionable are not shown here again. They further think that a bye law might be passed restricting children from frequenting picture theatres if not altogether at least from late performances or unless special performances are arranged with pictures suitable for them under 14 years

Ord. That the Proprietors of the Athenaeum be written to in reference to the matter

Application from the San. Sub Officers for the usual uniform overcoats and boots

Ord. Referred to the Executive San. Officer

Barry's Slaughter House

In reference to the application of Mr Chas. Barry to erect a slaughter house in Lane off Hamilton St the Executive Sanitary Officer stated that he visited the premises and as they are not more than 100 feet from a dwelling house he would not recommend that the application be granted.
It was agreed,- That a licence be granted provided the slaughter house is constructed so as to comply with the Bye Laws, it having been stated that very few slaughter houses in the City are more than 100 ft from a dwelling house and they create no nuisance.

Letter dated 14 July 1914 received 23 July 1914 from Dr Devane stating that he saw the child Kathleen Mulcahy on May 29th and found her suffering from Scarlatina, He advised her immediate removal to hospital He informed Mr Mulcahy Customs Officer that he could not continue on duty unless the house was disinfected, told Mr Mulcahy to call at the Sanitary Office Town Hall and ask the Sanitary Authority to have the house disinfected. The child went to hospital and having heard nothing further from Mr Mulcahy he assumed that the house had been disinfected and that everything was all right. He now finds on looking up his Infectious Disease Notification book that he must inadvertently forgot to notify the case in writing to Dr. Mc Grath

The following communications from the Local Government Board were read:

Letter No. Dated	Subject and Order made thereon
40351: 1914 27 Aug 1914	In reference to the complaint of Mr Patrick Muscahy in connection with the circumstances attending certain fatal cases of Scarlatina that occurred in his family at Eastbourne Gardens to state that having caused inquiry to be made the Board are of opinion that the conduct of Sanitary Sub. officer Inst towards Mr and Mrs Muscahy when engaged in the performance of his disinfection duties was not proper for an officer of the Corporation and the Board will be obliged if the Committee will communicate their opinion to that officer. The Board consider that it is the duty of Sanitary Sub. Officers when engaged in disinfection duty to provide themselves with the necessary materials which they require for that purpose and they will be glad if the Public Health Committee will give directions to ensure that disinfection is promptly carried out in future Order. That their recommendations be carried out.

Report from Dr Forrest dated 14th October 1914
Forwarded eleven samples of grease
Received analysis of six samples of butter all pure
On Thursday the 1st Oct paid an official inspection under the Shop Hours Act and found no cause for complaint
On Thursday 8th Oct I found the Drapery shop of Mr James Kirby 20 O'Connell St open at 1.30 p.m. On informing Mr Kirby that he should have his shop door closed at 1 o'c he got angry and in a most offensive manner shouted at me to clear out. I have instructed Mr Dundon Sol with a view to having Kirby prosecuted. I brought the matter re the prosecution of a number of Coal Merchants for not conforming with the Sh. Hours Act under the advice of Mr Dundon Sol who informed me that the Corporation were bound to consider the letter received from the Coal Merchants regarding the granting of an exemption Order before law proceedings could be entered against them

As the Public Health Committee are aware already through my reports that I have on two or three different occasions seized animals suffering from some form of Tuberculosis and on each occasion I was informed by the Law Agent that I could not prosecute unless the carcase was brought under the notice of a Veterinary Inspector. I have tried to carry out these orders and failed. The Inspector refused to accompany me. I would like to have the opinion of the Committee so that I could carry out the law

I examined all the fresh meat, fish &c and found no cause for complaint

of exemption the Council is bound to take steps to ascertain the wishes of such Merchants and if a majority is found to be in favour of exemption to make the order. Therefore I say that having regard to the Coal Merchants application for exemption the merits would be with them if prosecuted for not closing. I also advise that the making of the order should be avoided if possible owing to the small number of shops and the trouble and possible expenses connected therewith. It is to be observed that even if an order was made their assistants who are shop assistants would still be entitled to a weekly half holiday

Orda That Mr Forrest see that the assistants get a weekly half holiday.

On Thursday the 21st and 28 January I made an official inspection under the Shop Hours Act and found no cause for complaint On Thursday 21st Jan 1915 I appeared before Sir A Mac Cullagh where I was questioned as regards the inspection of meat. I stated that I inspected each of the City Slaughter Houses at different times during the week but particularly on Friday as it was the day previous to Saturdays Market The Inspector remarked that he visited a Slaughter House in Roche St owned by Mr O'Brien and saw some meat hanging up which he considered was doubtful looking and also two live cows which he presumed were about to be Slaughtered for food both of which were in an emaciated condition. I visited the Slaughter house accompanied by S.S.O Kennedy and made a careful inspection of the meat and considered it fit for human food. I called on Dr McGrath to have him examine the live animals but was informed by him that it was the duty of a Veterinary Inspector. I then got Mr Ryan V.S who ordered the animals to be slaughtered, he examined them as well as the other carcasses of meat hanging up and found all were fit for human consumption I warned an Assistant employed by Mr M Healy Roche St in reference to Carrying the Carcass of a Sheep on his Shoulder I ordered a Barrow to be procured. Inspected all fresh meat first ic and found no cause for complaint Weighed the bread in Cart of the Bakeries and found Price of 4 lb. weight to be 7 3/4d Read.

in Compliance with the Bye Laws. The Licence issued under the Bye Laws provides that the Licence shall not continue for a period longer than 12 months. In this new every Slaughter house in the City which was not so used before and so continued ever since the passing of the Limerick Improvement Act 1853 must be licensed. The Council has no power to close any Slaughter house not complying with the Bye Laws. In the event of a prosecution before the Magistrates, they in addition to a penalty have power to suspend any Licence for a period of 2 months.

Letter from Mr. Dundon dated 6 Feb 1915 stating if the Slaughter houses have not been licensed the proper course to adopt is to issue a Summons against the occupiers for using the premises without a licence. The Magistrates can then convict and affict a penalty not exceeding £5 and a like penalty for every day after the conviction for such offence upon which the said offence is continued. If application is then made for a Licence, the application could be refused and proceedings continued to recover the penalties so as to compel the occupier to desist the premises. It is also possible in some cases that an Order could be made to close the premises as being in such a state so as to be a nuisance or dangerous to health under Sec 7 of the Public Health Act 1878.

Mr. James Raffues Solicitor appeared before the Committee on behalf of the residents in the vicinity of the proposed Slaughter house to object to the Licence being granted and stated it would create a nuisance and be most objectionable to those living in the neighbourhood

and especially to the Jesuits Church and college where a number of boys were congregated and to the branch of the City Clothing Factory where 40 girls were employed

Letter from Mrs Snell dated 17 Feb 1915 Manager of Limerick Clothing Factory to state that the Slaughter house leased by Mr Barry and at present in use in the yard immediately to the rear of St Mary's Court Factory is situated in a yard whose wall is not more than three feet from the back of the factory and the windows overlook the yard. At present there are employed in St Mary's Factory between 30 and 40 girls. During the Summer there will be 60 girls and they will be obliged to work until nine o'clock each evening owing to the pressure of Government orders. As the principal ventilation for the factory comes through the windows looking on to this yard where the Slaughter house has been built it can be understood how unpleasant the place is likely to prove. It is also to be feared that numbers of rats are drawn towards such a place and thus would probably aggravate the nuisance. In the interests of these workers he strongly protested that this is an unsuitable place to erect and make use of a Slaughter house and he asked that Mr Barry be requested to discontinue making use of this place as a Slaughter house.

The Sanitary Sub officer on being questioned stated that in his opinion Mr Barry's Slaughter house was the best filled up and best regulated in his district

It was proposed by Councillor Duggan
Seconded by Councillor O'Flynn

That the Licence for this Slaughter house be refused
Proposed by Councillor M. Griffen
Seconded by Councillor Frost
That the Licence be granted
On a vote being taken Griffen voted to refuse the licence and nine to grant it

The Executive Sanitary Officer submitted report from the San. Sub. Officers in reference to all the Slaughter houses in the City and asked for instructions as to whether the Committee wished notice to them being licenced and being compelled to comply with the Bye Laws
Ordered. The reading of the report to be adjourned for a fortnight and the S.S.O.'s to ascertain if there is any objection from people in the neighbourhood of the Slaughter houses in the City

Letter dated 17.2.15 from Mr William Mulcahy a Upper Bonnywell stating that the sum £3:10:0 offered by the Surveyor as compensation for Carmody Sewer through his garden was altogether insufficient, his claim was £16:15:0 and appealing to the Committee for a settlement order. Referred to the Mayor & Surveyor to settle the amount

Application from San. Sub Officers for usual supply of uniforms, boots and overcoats
Order Granted Subject to Mr Beaumont certifying that it is the correct time to supply.

Letter dated 24 Feb. 1915 from Mr Dwan Sol stating that having considered the effect of the resolution of 4th January 1888 he was of opinion that the Minutes of the Public Health Committee need not be confirmed by the Council unless relating to matters excluded by Section 5 of the Public Health Act 1878 or unless it has been the practice to submit all minutes of the Committee to the Council for approval

The Executive Sanitary officer stated it was not the practice to submit all minutes to Council and if this were insisted on it would seriously interfere with the business as he presumed no prosecutions could take place without the Sanction of Council
