

COUNTY INFIRMARY,
LIMERICK.

Report of Sub. Committee appointed
to examine the financial position
of the Hospital

after carefully considering the
various items of expenditure.
Your Committee regrets to report,
that, in their opinion, there is no
means of preventing the Hospital
from getting deeper into debt,
except by reducing the "Free beds"
to such a number as the or-
dinary income will permit,
which would also allow of a
corresponding reduction
of the nursing staff. and

THIS IT RECOMMENDS-

Further your Committee believe
that cases of a chronic nature
costing the Infirmary a great
deal, have been wrongly admitted
in the past, and that in future
phthisical patients should not
be treated as in-lane.
