I have had the pleasure of knowing DR. RICKARDE E. LLOYD for some time, during which he has held the important post of Resident Medical Officer to the Cork-street Hospital.

Testimonials

He is a highly qualified Physician, and has had large experience in the treatment of disease, especially of fever. While resident in Cork-street Hospital he has efficiently discharged OF all his duties to the entire satisfaction of the physicians—these duties were sometimes of a most arduous

character, especially during the late measles epidemic. Dr. Lloyd has been

RICKARDE E. LLOYD, A.B., M.B.

fully understood the value of a large medical staff.

I can confidently recommend Dr. Lloyd for any public or private medical work, and shall have great pleasure in referring to his professional character.

16th April, 1872.

I have much pleasure in stating that Dr. RICKARD LLOYD was a student in the School of Physic, Trinity College, Dublin. During his undergraduate medical career, and whilst attending my courses of lectures, on the "Practice of Medicine," I had repeated opportunities of observing his zeal and attention, whilst he was most gentlemanlike in his conduct.

Dr Lloyd is a graduate in Arts and Medicine, Trinity College, Dublin, where he obtained the *first* Gold Medal in "Natural Science," having obtained first honours in "Mathematics" and "Experimental Physics," during his undergraduate courses in arts. He also obtained Medical Scholarship, and was Resident Student for nine months, in Sir Patrick Dun's Hospital. With such credentials, it is needless for me to add, that he is eminently fitted to undertake any medical duties which may devolve on him.

WILLIAM MOORE, M.D., T.C.D., Fellow of the King and Queen's College of Physicians, King's Professor of the Practice of Medicine, Dublin University, Professor of Clinical Medicine, and Physician to Sir P. Dun's Hospital, Physician to the Institution for Diseases of Children, &c., &c.

I have much pleasure in bearing testimony to the professional attain-

ments of Mr. RICKARD E. LLOYD, M.B., Gold Medalist, and late Medical

Scholar of Trinity College, Dublin, Resident Medical Officer of Cork-street
Fever Hospital.

Mr. Lloyd has been connected with this hospital for about Two Years,
and during that time I have had ample opportunity of forming an opinion of
his ability and practical acquaintance with his profession, at a time, when the
epidemic of small-pox severely tested both.

CHARLES FREDERICK MOORE, M.D., F.R.C.S.I.,

Physician to Cork-street Fever Hospital, Medical
Inspector of Seamen, &c.

MR. RICKARD E. LLOYD, graduate in letters and medical ex-scholar
of the University of Dublin, entered Trinity College under my tuition in
November, 1871. He pursued his studies in Arts and Medicine with remark-
able diligence and decided success, under my direction for five academic
years. He completed frequently and successfully, for honours and prizes, all of the
first rank, in Mathematical, Physical, Experimental, and Natural Science,
during the several years of his undergraduate course in Arts, obtained the
first place with the Medical Scholarship of the year, at the General Medical
Examination of his class, in July 1873, and took out his B.A. degree with high
honours in December, 1873, coming out on that occasion, the first Senior
Medalist in Experimental and Natural Science, and winning the Large Gold
Medal for absolute merit and high attainments in those departments. Of his
high natural abilities, successful prosecution of his studies, and superior
knowledge of his profession, there can consequently be no doubt, and his
character, conduct, and steadiness have never been questioned or impugned.

DUBLIN, 14th May, 1873.

May, 1873.

MR. RICKARD LLOYD was a very distinguished student of Trinity College, and prosecuted his medical studies with great assiduity and success. He obtained Medical Scholarship in 1868, on very distinguished answering, and subsequently obtained the degree of M.B.

Mr. Lloyd possesses great natural capabilities, and brings high mental endowments to the practice of his profession. He is very highly qualified for any Public Medical Appointment.

B. McDOWEL, M.D., M. Ch., T.C.D., Professor of Anatomy, Dublin University, Physician to the House of Industry Hospitals, Surgeon to Sir P. Dun's Hospital, &c

28, UPPER MERRION-STREET, DUBLIN,

20th May, 1873.

It gives me great pleasure to bear testimony in favour of Dr. LLOYD. I became acquainted with him in my capacity as Surgeon to the Cork-street Fever Hospital, in this city, where he resided. It is scarcely necessary to mention, that in such an important position, his experience and knowledge of disease must be of a very extended and practical character.

In addition to the advantages he has thus possessed, he has had the benefit of a University Education at the Dublin College, where he also graduated in medicine.

Dr. Lloyd's acquirements extend beyond the ranges of a barely medical course ; his mind is well cultivated and well stored ; and, in any situation in which he may be placed, he will be found kind and obliging in his manner as well as active and industrious in the discharge of duty.

J. H. WHARTON, Ex-President of the Royal College of Surgeons, Ireland, &c.
