SPRING & SUMMER 2026

We have three new brand launches for SS26: Hello Kitty, Mr. Men, and Care Bears! Following on from the success of our French Connection launch last season we wanted to bring more licensed products to our customers. We have also added to our French Connection range.

Aroma Accessories had some fantastic new electric and tealight wax melters, plus, our Woodbridge wax and melter gift sets are certain to sell well. New designs in our LED diffusers are destined to be a sell-out.

We hope you love our new offering!

Aroma Accessories' Electric Wax Melters are a quick and flameless way to release fragrances from your favourite wax melts into your home. Designs are either fitted with an on/off switch or a touch base.

The touch base enables the user to control the intensity of the heat and light. Touch melters use a bulb to warm the wax while emitting a comforting glow. Whilst, LED melters have a hot plate to warm the wax. Some designs offer a gently cycling multi-coloured light show. Plug-in melters come in a variety of designs and fit directly into a wall socket.

SHADOW WAX MELTERS

Highland Cow
 White - AR2414WH
 Black - AR2414BK

For Spring Summer '26 we have re-imagined the silhouette melters. Our shadow melters have an outer metal casing and glass surround, in addition, there is a design within the melter that creates a shadow on the glass.

We have an extensive variety of patterns in both black and white. Plus, the smaller plug-in versions in six of the styles.

The large melters will work with both a G50 and G40 bulb.

CAROUSEL

These electric wax melters are affixed to a matte silver base. There is a rotating mechanism in the base which turns the unit to create a pretty light display. There is an on/off switch on the lead and a switch on the base to turn off, or change the direction of the rotation.

Cloudy melters gently cycle through a range of LED colours. This, teamed with the swirling clouds gives the impression of the Aurora Borealis. An effective backdrop for the silhouette designs.
