

Animex® Wildlife Exclusion Fencing was developed in 2005 from our passion to safeguard wildlife while meeting the environmental needs of our growing industries. Our products are an animal safe, no-climb solution for controlling the movement of wildlife and have been designed by biologists and engineers to combat the drawbacks of other commonly used fencing materials.

We serve customers throughout the United States with our product lines that are made in the USA from 100% post-consumer recycled HDPE-2. Our cost-saving designs and turn-key solutions mean less project delays, fewer maintenance headaches, and guaranteed environmental regulatory compliance.

- ✓ ECO-FRIENDLY
- ✓ ANIMAL FRIENDLY
- ✓ ANTI-CLIMB LIP
- ✓ HIGH DURABILITY
- ✓ WEATHER RESISTANT
- ✓ LONG LASTING
- ✓ AGENCY APPROVED
- ✓ EASILY INSTALLED
- ✓ COST SAVINGS
- ✓ MULTIPLE SPECIES
