people intelligence

Armstrong Craven provides scale-up businesses with a smarter approach to Talent Acquisition than traditional executive search.

Do you have an immediate and very urgent need for one senior hire or multiple hires?

Or, perhaps, you want to plan ahead and build a pipeline of the talent you will need in the short to medium term.

We will help you identify and recruit candidates with hard-to-find or scarce skill sets.

We will also help you build your employer brand so that talent wants to work for you.

By working with the AC team, you will gain an advantage over your competitors in the race for talent – and do so in a far more cost effective way.
