

# Feedback

What do we need to collect from end users?

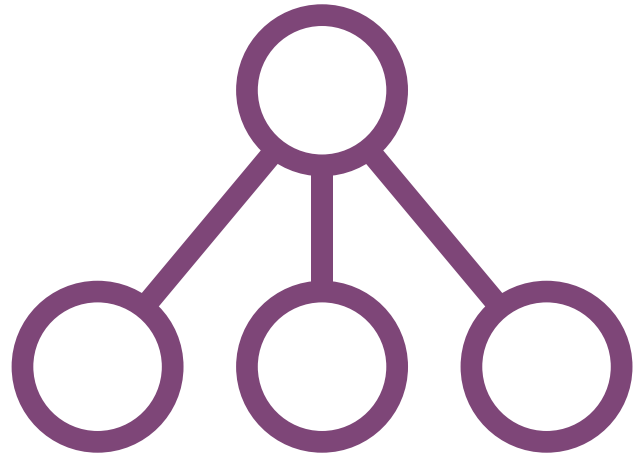

What feedback should be collected?

Who should be able to see the feedback?

How should this feedback be collected?

# Reporting

What information do you need from the system?

Who needs reports from Connect Well?

What do they need in their reports?

How will they access the reports?

# Searching

How would end users and referers find things?

Why would you want to search for activities?

What would you search for?

How should a search function work?

# Quality

How do we assure the quality of the content and organisations on Connect Well?

What does quality look like to you?

What does quality look like to end users?

What processes need to be in place?

# Success

What is success for Connect Well?

What does success look like to you?

What are we measuring?

How do we measure it?
