

Higher Education visits

We offer free bespoke assisted visits for Higher Education Institutes. These can range from specialist tours, talks, or practical sessions out in the Garden. This strand of our learning programme is currently being expanded and we welcome enquiries from across all subject areas. Examples of some specialist topics that can be covered include: plant evolution, current plant science research, plant conservation, the role of botanic gardens, plant ecology, biogeography, plant taxonomy, plant ID, herbarium specimens, habitat surveys etc. Please contact education@botanic.cam.ac.uk to discuss your requirements.

Pre-booked self-led visits are also welcomed and free. Tutors who would like to familiarise themselves with the Garden before their booked visit free of charge, can arrange this by contacting education@botanic.cam.ac.uk.

Once arrangements have been agreed, please **complete ALL sections below** and email to education@botanic.cam.ac.uk.
