Assessment of flood risk

Surface water

The surface water flood risk is LOW for Monday and Tuesday.

Local significant surface water flooding impacts are possible for parts of England and Wales on Monday and Tuesday, see areas A, B and C in Specific Areas of Concern Maps 1 and 2 for locations at risk. This is due to scattered heavy thunderstorms. Strong gusts and hail may exacerbate flooding. Urban areas are most prone and not all locations within the risk areas will experience impacts.

Minor surface water impacts are also possible in Area E (Specific Areas of Concern Map 3) on Wednesday, Thursday and Friday.

Rivers

The river flood risk is LOW for Monday and Tuesday.

Local significant river flooding impacts are possible but not expected for parts of England and Wales on Monday and Tuesday. See Areas A and B in Specific Areas of Concern Map 1 and 2 for locations at risk. This is due to scattered heavy thunderstorms. Fast responding and urbanised catchments are most at risk if they experience locally heavy downpours. Minor river flooding impacts area also possible in Areas C and D on Tuesday (see Specific Areas of Concern Map 2).

Further minor river flooding impacts are also possible on Wednesday, Thursday and Friday (See Area E in Specific Areas of Concern Map 3).

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

Coastal/Tidal

The coastal/tidal flood risk is VERY LOW for the next five days.

Flood risk matrix

LIKELIHOOD	HIGH				
	MEDIUM				
	LOW				
	VERY LOW				
		MINIMAL	MINOR	SIGNIFICANT	SEVERE
IMPACT					
		VERY LOW	LOW	MEDIUM	HIGH
OVERALL FLOOD RISK					

Summary of potential impacts

MINIMAL

Isolated and minor flooding of low-lying land and roads
Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MINOR

Localised flooding of land and roads
Flooding affecting individual properties
Disruption to travel and key sites in flood plans

SIGNIFICANT

Flooding affecting parts of communities
Possible danger to life and damage to buildings/structures
Disruption to travel and key sites in flood plans

SEVERE

Danger to life, severe disruption to travel
Widespread flooding affecting whole communities
Widespread disruption or loss of infrastructure
Large scale evacuation of properties possible
