

Minor surface water flooding impacts are possible across parts of England and Wales on Saturday. The overall flood risk is VERY LOW for the next five days.

## Specific Area of Concern Map 1: Saturday 25 July 2020

# Flood Guidance Statement

10:30hrs Friday 24 July 2020

### Assessment of flood risk

Surface water

The surface water flood risk is VERY LOW for the next five days.

Minor surface water flooding impacts are possible on Saturday through parts of England and Wales due to the potential for heavy showers during the afternoon and evening.

The river flood risk is VERY LOW for the next five days.

Minor river flooding impacts are possible but not expected across parts of England and Wales on Saturday in small, fast responding and urban catchments. This is due to a risk of heavy showers.

# Coastal/Tidal

The coastal/tidal flood risk is VERY LOW for the next five days.

# Groundwater

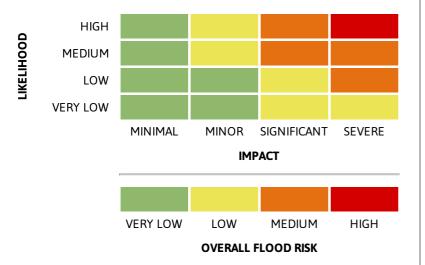

The groundwater flood risk is VERY LOW for the next five days.

# Flood Guidance Statement

10:30hrs Friday 24 July 2020

### Flood risk matrix

### **Summary of potential impacts**

#### **MINIMAL**

Isolated and minor flooding of low-lying land and roads Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

### **MINOR**

Localised flooding of land and roads Flooding affecting individual properties Disruption to travel and key sites in flood plans

### **SIGNIFICANT**

Flooding affecting parts of communities Possible danger to life and damage to buildings/structures Disruption to travel and key sites in flood plans

### **SEVERE**

Danger to life, severe disruption to travel Widespread flooding affecting whole communities Widespread disruption or loss of infrastructure Large scale evacuation of properties possible

Next statement due 10:30hrs Saturday 25 July 2020 (all times are local)
