

Offering a broad range of entrepreneurship teaching

Teaching entrepreneurship as a practical skill began in 2002, when Godley co-designed an innovative new module called 'Practice of Entrepreneurship'. This was the first University-wide credit-bearing module in entrepreneurship in the UK. This module continues to rank among the most popular modules taught by HCfE.

Today, with a faculty and staff of 14, HCfE delivers over 20 modules across a range of undergraduate and postgraduate programmes with over 1500 student registrations from 25 disciplines across the University.

HCfE welcomes successful alumni entrepreneurs and business professionals to share their wide-ranging experiences and expertise through guest lectures, case studies and speaking sessions to complement the teaching.
