

# Celebration of the Henley Executive Hedge Fund Program

A big thanks and congratulations to all the tutors, mentors and industry partners who helped make the first intake of the Henley Executive Hedge Fund program such a big success.

As the first-of-its-kind Hedge Fund certificate program in Asia, the great level of support from the industry is very critical to our success. With this support, Henley plans to launch the program globally including in Singapore, China, Japan and the USA in the near future.

Designed for executives with a blend of weekend workshops, group work and online study over six months, the Henley program gives participants a holistic overview and insights of Hedge Funds from set up to management. It also offers unprecedented networking opportunities with leading industry players in the Hedge Fund space.
