

Henley Executive Hedge Fund Program celebrates the graduation of the first cohort in Hong Kong

After six months of workshops, networking events, online study and group work, the first cohort of the Henley Executive Hedge Fund Program graduated on 21 Feb 2016. Congratulations to our 25 participants on their excellent final presentations of their Hedge Fund ideas to our expert panel.

Thanks to our tutors, mentors and industry partners, the first intake of the Henley Executive Hedge Fund program has been such a big success. We create a unique Hedge Fund Certificate Program which offers participants cutting-edge real-life expertise of the Hedge Fund Business. More than 30 leading Hedge Fund professionals delivered the program with their invaluable insights and practical expertise. Henley Business School would like to give a special thank you to Thomson Reuters for providing their office space and system.

Following the successful debut in Hong Kong, Henley will launch the Executive Hedge Fund Program in Singapore and Tokyo later this year.
