The Make Space: Frozen Pottery

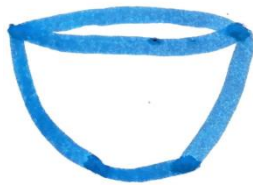

Ruskin's Frozen Summer Bowl

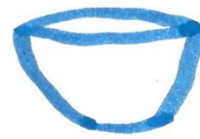

Materials

Flowers & Weeds

Big Bowl

Smaller Bowl

Jug of Water

Sellotape

Freezer

Step 1

Put the flowers and weeds in the big bowl

Step 2

Place the smaller bowl in the big bowl onto on top of the flowers and weeds.

Step 3

Pour the water into the bigger bowl. The smaller bowl will start to float.

Step 4

Tape the smaller bowl in place so the two bowls don't touch

Step 5

Place the bowl in the freezer over night and make sure it is flat.

Step 6

Take the bowl out of the Freezer once all the water has turned to ice.

Step 7

Turn the bowl upside down and run under warm water until the ice slips out of the bowl.

Step 8

Pour water into your bowl and add some flowers to float in it.

Step 9

Take photos of your favourite parts of the bowl before it all melts away!
