Audio Visual Systems Designer at AT&C Professional Systems Ltd

Required Start Date – May 2019

Location – London Office, Swiss Cottage, NW6

Reporting to – Technical Director

AT&C Professional Systems Ltd are a leading Audio Visual systems integrator with over 30 years' experience in the industry. With a portfolio of many high profile projects and partnerships AT&C design, supply and install some of the most innovative and sophisticated audio visual, lighting and environmental control solutions for Europe's leading hotel, restaurant and retail operators, and for the UK's most desirable homes.

We are a hard working dedicated team of individuals who work together for one shared goal – to deliver truly outstanding projects. So where do you fit in? We need a dynamic person who is not afraid of hard work in an exciting role. This role is integral to the development of AT&C and will work well with the existing design team to deliver all technical drawings required for the project team to deliver the installation successfully, including and not limited to cable schedules, connection schematics and layout drawings. The role will also assist the sales probes with designs for preparation of quotations. You will be working on new and existing projects across all areas of the market; multi dwelling units, a corporate board room, a high end residential house or a background music system in a restaurant. We truly are diverse in all that we take on and achieve.

As well as working hard we also like to play hard – whether its five aside football at the local leisure centre or breakfast around our kitchen table, the team really is at the forefront of what we do and the key to our success.

#### Key Responsibilities and Duties

- Possess thorough and comprehensive knowledge of AV design and engineering
- Expert in creating scalable AV CAD drawings
- Design & specify Audio Visual systems including schematic production
- Provide M&E, architectural & IT information to the professional team on the AV design
