

# Company

Bodum's mission is simple. We bring high-quality coffee and tea solutions as well as a wide variety of household appliances and accessories to everyone, in line with our values. We innovate to create great designs at affordable prices based on our guiding principle that form follows functionality while keeping an eye on sustainability, environmental responsibility, and respect for the wellbeing of our staff, our communities, and our planet.

## Job Summary

We are looking for an enthusiastic and self-motivated professional to work as an Axapta Application Specialist in a fast-paced global team.

To be successful you will provide business process support and facilitate and conduct education to our users in cooperation with Group IT and our external Axapta partners.

The position is based in Tondela, Portugal.

**The requirements are not mandatory**, as we are willing to teach you what is needed. It is of course an obvious advantage the more you know of.

If you feel up for the challenge and believe you can learn what is needed to be the go-to person when your colleagues needs help with the general use and best practices, send us an application!

## General Requirements

- Relevant education and/or strong practical background.
- Strong verbal and written communication skills in English.
- Proficiency in SQL server and ability to write SQL queries.
- Ability to bridge the gap between IT and users.
- Quickly adapt to and understand business processes and the systems that supports them.
- Experience with facilitating and conducting user education.

## Axapta Requirements

- Experienced in Axapta ver. 2012 and possibly ver. 4, 9 or 3.
- Knowledge of Axapta best practice.
- Builds documentation for users.
- Axapta 2012 examples
  - Functional understanding of production, purchase and finance controlling.
  - User setup.
  - RapidValue.
- Experience with SQL databases and script development.

# Responsibilities

- Support and develop Bodum's AX platform and the processes behind it.
- Keep your knowledge updated on both the technical setup and best practices on the actual implementation and use.
- Train and maintain Super Users.
- Maintain and improve the documentation for the AX Platform and integrated systems.
- Assist in developing client services standards to improve service.
- Support Bodum's users locally and globally on AX related requests and issues.
- Supporting the roll-out of new functionalities.

# Competencies

- Strong work ethic and motivation.
- Thrives in a fast paced, fast changing and dynamic environment.
- True team player and possess strong analytical abilities together with innate interpersonal, and communication skills.
- Enjoy taking initiative and responsibility while building strong relationships across business units and continents.
- Meet deadlines while maintaining a healthy supply situation at all times.
- Excellent written and verbal communication skills in English.

# We offer

- A position in a dynamic and motivated team in a global company constantly under expansion.
- Participation in various local and global projects.
- Opportunity to collaborate with a dynamic team that favors innovation.
- Salary according to experience.
