Integrated Case Study	650	
Strategic Level		
E3 Strategic Management	520	
P3 Risk Management	520	
F3 Financial Strategy	520	
Integrated Case Study	750	

We recommend you follow these steps:

- Choose your Integrated Case Study (ICS) sitting first and check when the ICS programme starts
- Choose the study mode that meets your needs - you can study for all your exams via your preferred study mode or mix and match for different exams
- Select Objective Tests (OT) programmes to start when you're ready, and finish close to the ICS programme starting - an advantage of the OT exam format and the exams being on demand is that you can progress at

the pace that suits you, as you can study for one or more OT exams at a time

- You can study the OT papers within a level in any order, the flexibility of the 2015 syllabus means there is not a recommended route
- Aim to sit your CBA exam within 2 weeks of your OT programme finishing for each paper

Changes to C03

CIMA are updating the Certificate Level syllabus in January 2017 and a key aspect of this is to discontinue C03 as a standalone subject under the 2017 syllabus. CIMA will be redistributing syllabus topic areas currently found in C03 across C01, C02 and C04 in the new 2017 Certificate Syllabus. CIMA are offering all current students a waiver if you believe you have an adequate knowledge of business mathematics – by taking the waiver you will not have to sit and pass C03 and can progress through to the CIMA Professional Qualification when you have completed the other Certificate papers.

This change by CIMA is a positive move as it will allow you to progress to the Operational level quicker and move through your qualification.

What this means for you

If you still need to sit and pass C3 then, as a BPP student, we would recommend you take the C3 waiver. We will support you in this by ensuring that all the business mathematics training that you need is provided to you when you need it (e.g. we assume very little maths knowledge for students starting a C1 or P1 programme and help everyone to start from the bottom up, regardless of previous knowledge).

We recommend you follow these steps:

- Choose your Integrated Case Study (ICS) sitting first and check when the ICS programme starts
- Choose the study mode that meets your needs - you can study for all your exams via your preferred study mode or mix and match for different exams
- Select Objective Tests (OT) programmes to start when you're ready, and finish close to the ICS programme starting - an advantage of the OT exam format and the exams being on demand is that you can progress at

the pace that suits you, as you can study for one or more OT exams at a time

- You can study the OT papers within a level in any order, the flexibility of the 2015 syllabus means there is not a recommended route
- Aim to sit your CBA exam within 2 weeks of your OT programme finishing for each paper
