

# Senior Insurance Professional.

## Level 6 Apprenticeship

### Duration

36 months

### Qualification achieved

Senior Insurance Professional

Level 6 Apprenticeship

CII Advanced Diploma in Insurance

### Entry requirements

Set by individual employers, but it is recommended you will have studied up to degree level.

You must be employed in a role relevant to this programme to be eligible to apply.

### Cost

This programme is funded by your employer, who could utilise their Apprenticeship Levy. You will not have to pay anything personally to study this programme.

### Is this for you?

The world of insurance is a vital part of the infrastructure that keeps businesses and industry running.

Insurance firms and consultants require a broad skill set to deliver the right solutions for their clients, to ensure their internal operations are both compliant and robust.

In a senior role you will use a range of skills across teamwork and collaboration, as well as a broad underpinning knowledge of the law and regulatory landscape of insurance.

Typical job roles for individuals studying this programme include Senior Underwriter, Senior Claims Manager/Director, Account Director, or Senior Insurance Adviser roles.

### What will you learn?

- Insurance principles and practices
- Corporate strategy
- Underwriting and claims management
- The legal and regulatory environment
- Aspects of international business such as Takaful insurance
- Advanced Insurance Broking

### Commitment from you

During this programme, 20% of your contracted working hours will be spent on learning and developing the required Knowledge, Skills and Behaviours. This development time will include learning new relevant tasks in your role, embedding your knowledge in your role, practical workplace training, spending development time with your Line Manager, attending online or face-to-face courses and time spent writing assignments/assessments or directed self-study hours:

- CII Advanced Diploma in Insurance work
- Evidencing the application of your knowledge within your working day
- Independent study and research
- Shadowing colleagues and mentoring
- Technical training

## How we support you

- You will be taught by expert tutors who have practical experience in the fields in which they teach and a passion to share that knowledge to maximise your career potential
- You will have access to a Coach who is on hand to guide you through each stage of your learning journey, providing you with clear aims and objectives. They will keep in regular contact with you and instil the confidence that you can achieve
- You will also attend face-to-face workshops to improve your knowledge and develop other skills in a variety of areas. These also provide a great opportunity to build relationships with your dynamic community of like-minded talent in the form of other learners, tutors, coaches and mentors

- You will have access to a Virtual Learning Environment with all of your qualification content, additional learning resources and all the step-by-step support you need to ensure your success

## Progression upon completion

- Upon completion, you can apply to become an Associate Member of the Chartered Insurance Institute (CII)
- Further career progression through work experience
- Qualifications and further study up to postgraduate level

## How is your programme structured?

The knowledge part of the programme is the learning content mapped to the qualification. The skills and behaviours are developed alongside your qualification and you will need to demonstrate how you are applying these at work.
