The directional signage found around the building shows the same symbols that are printed on washroom doors. This makes it easy for customers to quickly spot a symbol and know where they can find a washroom.

Our toilets on Level -1 are signposted as gender-non-binary welcome. This is to show that customers who do not identify with a binary gender are welcome to use whichever washroom bearing this symbol that they prefer. Those who prefer to use gendered toilets can do so in the washrooms that bear gendered symbols only (on Levels 0 and 1).

We want everyone to feel welcome and comfortable using the toilet facilities at Bristol Old Vic. This is why we have signposted the washrooms as simply and clearly as possible. Our policy is to allow all customers to use whichever facility they wish, whilst asking that everyone respect each other, and behave appropriately around other users.

Staff will only intervene in washrooms use if they are made aware of inappropriate behaviour, which will not be tolerated.
