Award winning global design firm seeks talented architect.

**Salary**

Negotiable depending on experience

**Job**

Broadway Malyan is a global architecture, urbanism and design practice dedicated to creating cities, buildings and places that will provide a lasting legacy. Through a shared design ethos, we work together to create places with a strong sense of identity where people and communities want to live, learn, shop, work and relax.

We’re seeking an architect to be an integral part of our studio team. This is a great opportunity to join a global architectural and urbanism practice based in Manchester with ambitious growth plans for the future.

We believe that rigorous placemaking-led design is key to maximising the economic and social value of our projects from a city district, building or park to an individual home or interior space. The places we design are people focused with strong sense of place that stimulates our deep-rooted desire to feel a sense of belonging to and connection with our environment.

---

**Harry Hoodless**

*Regional Board Director*
In the practice’s 60 year history, we have built a strong reputation across numerous sectors including residential, education, workplace, retail, mixed use, hospitality and masterplanning. Every day, our designers apply their creativity, commercial acumen and sector insight to produce designers that meet the aspirations of our clients and create a strong sense of place.

We currently have a vacancy for an architect in our Manchester studio with exceptional design skills. You must be able to lead other architects, designers and technicians through the design process in order to deliver award winning world class projects. The ideal candidate will have exceptional communications skills enabling them to both inspire and engage clients about a creative concept whilst also having the ability to co-ordinate and drive forward technical delivery.

We are seeking a proactive, collaborative individual who is keen to work in a design focused team with the following qualifications and experience:

• Fully Qualified Architect
• At least 2-3 years post part III architectural design experience
• Experience delivering design concepts at a range of scales.
• Preferably seeing project work through to design development and construction drawing stages.
• Ability to delight and excite clients with provocative discourse
• An interest or experience in collaborating with colleagues in other sectors and global locations.
• A member of ARB or RIBA
By adopting a rigorous and robust design process we ensure that a clear vision is embedded in every project. Working together we create defendable design narratives, which streamline and expedite the planning process and produce finished places with a ‘must have’ quality which maximises their value for our clients and local communities.

We believe by optimising both ‘human centric’ design through the art of hand sketching and digital computer design we can deliver the best solutions to our clients from creative concept through to technical delivery.

We are looking for candidates who are able to demonstrate these key skills:

• Excellent hand sketching skills to develop concepts and communicate ideas to clients
• Advance experience in design software including Revit, Auto-Cad and Adobe Creative Suite
• Knowledge of Rhino, Grasshopper and/or Enscape would be desirable
• Intermediate knowledge of Microsoft Office
• Familiarity with building regulations and UK construction standards but with a strong emphasis on RIBA stage 1-4.
• Experienced in producing design reports and presentations
• Ability to brief external agencies on the production of good quality CGIs and 3D assets

#We are insightful innovators
Creating a great place to work

Over the years we have succeeded in creating a flexible and engaging working environment that drives innovation and growth. We firmly believe in investing in our people and nurturing talent, creating opportunity for everyone to achieve personal and professional development, leading to a rewarding career.

To join our team, we are keen to recruit an individual who can demonstrate these core competencies:

• Committed professional outlook
• A desire to succeed and a positive can-do attitude
• Calm under pressure especially when working to project deadlines
• Proactive, self-motivated person who uses their own initiative
• Team player who understand collaborative working
• Keen attention to detail

#We are passionate people
If you are a collaborative, confident individual with strong design and technical skills who is looking for an exciting opportunity to work for a global practice, then please send your CV with a covering letter to: recruit@broadwaymalyan.com quoting the job title in the subject line.

The closing date for applications is January 2nd 2019.
